

Triennial Assessment Report: RSD13 2025 (3/2025)

District: REGIONAL 13

Introduction

Regional School District 13's policies and practices are compatible with the federal requirements and best practices. This year's results are in line with past year's assessments, where minor adjustments were made to the district wellness policy. The triennial assessment was completed with feedback from the wellness committee and the food services manager.

Strong Policies and Aligned Practices

Regional School District 13 experienced great success in scoring of the district's meeting of wellness goals, as demonstrated by the district assessment. RSD13's wellness policy incorporates federal requirements. A minor policy change from past years is clarifying what meal is provided to a student who does not have funds to pay for the meal. It was updated to include a regular meal as opposed to a cheese sandwich, which has actually been the practice of providing the meal for many years now.

Create Practice Implementation Plan

RSD13 implements all the plan requirements to ensure full compliance. RSD13 Wellness committee meets two times a year to monitor the implementation plan and make any adjustments to the plan or the actual practice as needed.

The Wellness committee creates the practice implementation plan.

I do not have a date for the plan to be created and put in to place at this time, as it is a function of the full committee.
