

Goal #1 | Establish a high-performing District culture with Quality Teaching and Learning

Staff Development |

- ☐ High Tech High Project Based Learning (PBL) Leadership Academy
 - ☐ A team of two teachers from WHS, two from WIS and the WIS administrator participated in the virtual kickoff meeting on September 29th. The team will meet virtually each month and attend a fall and spring in-person convening. As part of this experience, the teachers will learn what PBL is, develop their own PBL lessons, and receive coaching through the process.
- ☐ Solution Tree PLC Coaching
 - ☐ Each site had a site visit from their PLC coach. Grade level and subject level teams continue to make progress in creating scope and sequences, building common formative assessments, and using data protocols to examine assessment results.
- ☐ Hatching Results
 - ☐ Our Wellness Coaches, School Counselors, and Site Administrators met as a student services team to look at student data, identify equity gaps, and discuss how they could support student achievement with a Wellness Coach/School Counselor lens.

Curriculum |

- ☐ WIS 6th-8th grade math has finished up the first six-week pilot (Big Ideas) and have started their second six-week pilot (Amplify).
 - ☐ The official California School Dashboard results should be released on October 15, 2026.

Goal #2 | All students have access to grade level classes and high school students are enrolled in college or academic/CTE aligned course sequences. At-risk students will be identified by certificated staff using various assessments to provide academic support at each site.

- ☐ OnDataSuite–School Counselors, Wellness Coaches and others from the District Office were trained on OnDataSuite, our data warehouse. We learned how to make focus groups of students on the platform and then how to set up a dashboard with widgets that tracks the progress of that group of students in certain areas (e.g. attendance, discipline, graduation progress etc.). We are using it to address some equity gaps we have identified and at-risk students.
 - ☐ We have a training set up for teachers on October 14.
- ☐ CA School Dashboard will be released on October 15th.

- ☐ The Governor passed AB 2555 which changes how English Learners (EL) are reclassified. The only thing required now is that EL students pass the ELPAC with a score of 4. We will be updating our EL Master Plan once more there is more guidance from the state, and we'll bring that to you for your approval.

Goal #3 | The schools and District will develop and maintain a systematic method for partnering with students, parents, county resources and community members to improve student engagement

- ☐ Conducted School Site Council (SSC) training for our sites on September 1st and some of our sites have had their first SSC meeting.
- ☐ Held our first LCAP meeting on Sept. 23 where administrators, parents, and a student examined state testing CAASPP Math and ELA scores, CAST Science scores, ELPAC scores, and NWEA MAP Growth math, science and reading scores to identify equity gaps and identify root causes.
- ☐ October 14th at 5:30 pm in the Willows Intermediate School library we'll have our Family Voices/DELAC meeting. We will focus on the new reclassification changes and gather family feedback for our schoolwide needs assessment.
