

School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.
An IPM plan is required if a school district uses pesticides¹

IPM statement

It is the goal of Twin Rivers Unified School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Focus on long term prevention and reduce risk application through extensive and preferential use of alternating pesticides

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Enrique Placencia	Director, Maintenance and Operations
Justin Daikai	Maintenance Buyer
Devin Davidson	Service Manager
Jesus Barajas	Service Technician
Phillip Falkenhagen	Service Technician

Pest management contracting

Pest management services are contracted to a licensed pest control business.

Pest Control Business name(s): Official Pest Prevention

Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: Official Pest Prevention

(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by Official Pest Prevention and results are communicated to the IPM Coordinator.

(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Regular inspection of kitchen and food preparation/storage sites. Positive identification of target pest before application of reduced risk pesticide. Engagement in efforts to provide non-chemical measures, such as exclusion, increased sanitation and landscape modifications.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Ants	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
Roaches	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Rodents	<input checked="" type="checkbox"/>							
Fleas	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Wasps	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
Spiders	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

Please see attached information on pesticides used on TRUSD school campuses

Healthy Schools Act

This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

Pesticide specific safety training (Title 3 California Code of Regulations 6724)
 School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt¹ from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

This IPM plan can be found online at the following web address: www.trusd.net
 This IPM plan is sent out to all parents, guardians and staff annually.

Review

This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

1/31/27

Date of next review:

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature:

Date:

1/28/26

¹ These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)

PESTICIDE NOTICE

Pesticides are the products Official Pest Prevention uses to control the target pests listed in your agreement. Pesticides make a better life for all by helping control disease carriers, thus protecting our health and property. When properly used, pesticides pose no problems to man or the environment. Your Official Pest Prevention technician is a state certified applicator whose knowledge is constantly being upgraded through regularly scheduled training sessions. Official Pest Prevention is licensed by the structural Pest Control Board of California under License. # OPR14300. If you have any questions, please call (916) 686-7960 or 1-877-711-BUGS. To control target pests listed, we propose to use Advance 360A (Abamectin B1), Advance 375A(Abamectin B1), Advion Ant Gel Bait(Indoxacarb), Advion Cockroach Gel Bait(Indoxacarb), Alpine Cockroach Gel Bait Rotation1 and 2 (Dinotefuran), Alpine Dust(Dinotefuran), Alpine WSG(Dinotefuran), Arilon(Indoxacarb), Atrimmec Plant Growth Regulator(Dikegulac-sodium), Avert roach gel(Abamectin B1), Avert Dry Flowable(Abamectin), BacAzap(1,2-Benzisothiazolin-3-one), Best 19-4-12 with Dimension(Dithiopyr), Best 19-3-10 with Dimension(Dithiopyr), Bifen(Bifenthrin), Bifen I/T(Bifenthrin), Bifen L/P(Bifenthrin), Bifen XTS(Bifenthrin), Bora-Care(Disodium Octaborate Tetrahydrate), BorActin(Orthoboric Acid), CB-80(Pyrethrins, Piperonyl Butoxide), Chase Granular Mole & Gopher Repellent(Caster Oil USP, Soduin Lauryl Sulfate), Crossfire(Clothianidin, Metofluthrin, Piperonyl Butoxide), Cy-Kick CS(Cyfluthrin), Cyper WSP(Cypermethrin), D-Fense Deltamethrin Dust(Deltamethrin), D-Fense SC(Deltamethrin), DeltaDust(Deltamethrin), Demand(Lambda-cyhalothrin), Dominion 2L(Imidacloprid), Doxem NXT(Indoxacarb, Novaluron, Imidacloprid, Pyriproxyfen), Doxem Precise(Indoxicarb), Drione(Pyrethrins, Piperonyl Butoxide, Amorphous Silica Gel), DSV(Dimethyl Benzyl Ammonium Chloride, Octyl Decyl Dimethyl Ammonium Chloride, Didecyl Dimethyl Ammonium Chloride, Diethyl Dimethyl Ammonium Chloride), EcoVia EC(Thyme Oil, 2-Phenethyl Propionate, Rosemary Oil), Essentria G/Essentria, Ic3†(Eugenol, Thyme Oil), Essentria IC Pro(Sodium Lauryl Sulfate, Geraniol, Clove Oil, Commint Oil), Fendona(alpha-Cypermethrin), Formitrol Ant Gel Bait(Dinotefuran, S-Methoprene), Gentrol(Hydroprene), Gentrol Complete(Lambda-Cyhalothrin, Hydroprene), IGI Carbon Dioxide(Carbon Dioxide), In2Care/In2Mix(Pyriproxyfen, Beauveria bassiana strain GHA), Invade Hot Spot(2-Butoxyethanol, Sodium Dodecyl Sulfate, Lauryl Alcohol), Masterline Bifenthrin 7.9(Bifenthrin), Maxforce FC Ant Bait Stations(Fipronil), Maxforce FC(Fipronil), Maxforce Fleet(Fipronil), Maxforce Quantum(Imidacloprid), Maxxthor SC(Bifenthrin), Maxxthor SG(Bifenthrin), Merit 0.5G(Imidacloprid), Merit 2F Insecticide(Imidacloprid/imidazolidinimine), Microcare 3% CS(Pyrethrins, Piperonyl Butoxide), Natular DT(Spinosad), Niban(Orthoboric Acid), NiBor-D(Disodium Octaborate Tetrahydrate), NyGuard (pyridine), Onslaught FastCap Spider & Scorpion Insecticide(Esfenvalerate, Prallethrin, Piperonyl butoxide), Optiguard Ant(Thiamethoxam), Optigard Cockroach(Emamectin benzoate), Phantom(Chlorfenapyr), Precor(Methoprene), ProFoam(Sodium Decyl Sulfate, Sodium Lauroampho Acetate, Sodium, Lauryl Sulfate), Prograss(Ethofumesate), ProScape 32-0-6(Nitrogen (N), Nitrogen, Water Insoluble Nitrogen, Urea Nitrogen, Water Soluble Nitrogen, Soluble Potash, Sulfur), Prothor SC 2(Imidacloprid), PT 221L(Lambda-Cyhalothrin), PT 565(Pyrethrins, Piperonyl Butoxide, n-Octyl Bicycloheptene Dicarboximide), PT Alpine Flea and Bedbug(Dinotefuran, Pyriproxyfen, Parallelthrin), PT Alpine(Dinotefuran), PT Microcare CS(Pyrethrins, Piperonyl Butoxide), PT Wasp-Freeze(Prallethrin), Ranger Pro(Glyphosate), Riptide(pyrethrins, Pyperonyl Butoxide), Rodeo(Glyphosate, n-(phosphonomethyl) glycine, isopropylamine salt), Roundup Pro Max (Glyphosate, n-phosphonomethyl glycine), Scion(Gamma-cyhalothrin), Selontra (cholcalciferol), Shockwave(Pyrethrins, Piperonyl butoxide, N-Octyl bicycloheptene dicarboximide, Esfenvalerate, pyridine), Sluggo(Iron Phosphate), Snake-Out(Cinnamon Oil, Clove Oil, Cerdawood Oil), SpeedZone Southern Herbicide(Carfentrazone-ethyl, 2,3-D, 2-ethylhexyl ester, Dichlorprop-p, 2 esthylexyl ester, Dicamba), Stryker 100(Pyrethrins, Piperonyl butoxide), Subdue Maxx(Mefenoxam), Sumari Ang Gel Bait(Clothianidin), Sumari(Clothianidin, Pyriproxyfen), SureKill Ant Gel(Imidacloprid), SureKill Roach Gel(Imidacloprid), Suspend Polyzone(Deltamethrin), Suspend SC(Deltamethrin), Talpirid(Bromethalin), Talstar One(Bifenthrin), Talstar CA Granular(Bifenthrin), Talstar Pro(Bifenthrin), Talstar Termiteicide/Insecticide(Bifenthrin), TAP Pest Control Insulation(Orthoboric Acid), Taurus(Fipronil), Tekko Pro(Novaluron, Pyriproxyfen), Tempo SC Ultra(Cyfluthrin), Tempo Ultra WP(B-Cyfluthrin), Temprid FX(Imidacloprid, B-Cyfluthrin), Temprid

Ready-to-Spray(Imidacloprid, B-Cyfluthrin), Tengard/Dragnet/Permethrin SFR(Permethrin), Terad 3(Cholecalciferol), Termidor Foam(Fipronil), Termidor HE(Fipronil), Termidor SC(Fipronil), Terro Ant Killer II (Sodium Tetraborate Decahydrate(borax)) Tim-Bor(Disodium Octaborate Tetrahydrate), Transport Mikron(Acetamiprid, Bifenthrin), Trelona ATBS Annual Bait Station(Novaluron), Trelona Compressed Termite Bait(Novaluron), Turfthor(Imidacloprid), Turfthor WSP(Imidacloprid), ULD BP-100(Pyrethrins, Piperonyl Butoxide), ULD BP- 300 (Pyrethrins, Piperonyl Butoxide), Vendetta Nitro Cockroach Gel Bait(Clothianidin, Pyriproxyfen), Vendetta Plus(Abamectin B1,Pyriproxyfen), Victor Snake a Way(Sulfer, Naphthalene), Wisdom TC(Bifenthrin), Web Out Cobweb Eliminator(Sodium lauryl sulfate, Thyme oil, Lemongrass oil, Citronella), Zenith 75 WP(Imidacloprid), Zenporx (Etofenprox Piperonyl Butoxide).

Other: CAUTION, Pesticides ARE TOXIC CHEMICALS. Structural Pest Control Operators are licensed and regulated by the Structural Pest Control Board, and apply pesticides which are registered and approved for use by the California Department of Pesticide Regulation and the United States Environmental Protection Agency. Registration is granted when the state finds that based on existing scientific evidence there are no appreciable risks if proper use conditions are followed or that the risks are outweighed by the benefits. The degree of risk depends upon the degree of exposure, so exposure should be minimized. If within 24 hours following application you experience symptoms similar to common seasonal illness compared to the flu, dizziness, headache, nausea, etc., contact your physician or poison control center (below) and your pest control operator immediately. For further information, contact your pest control operator. Official Pest Prevention (916) 686-7960. For health questions, the County Health Department (see list below), for application information, the County Agriculture Commissioner (see list below); and for regulatory information, the Structural Pest Control Board (800) 737-8188, 2005 Evergreen Street, Suite 1500, Sacramento, California 95815. Poison control : 1-800-222-1222
