On-Going Engineering Services - Addendum 01

Addendum Date: 4/27/2026

Addendum by: Ausonio Incorporated/Brailsford & Dunlavey

You are hereby notified of the following Additions/Deletions/Revisions to the Request for Qualifications (RFQ) for On-Going Engineering services, identified as Addendum 01.

Addendum 01 documents shall take precedence over the RFQ as previously issued.

General

- 1) No revisions are being made to the master agreement.

Questions

- 1) There is a requirement about the DIR number in the RFQ. Is (DIR) really required for professional engineering services by law?

Response: A DIR number is not needed for professional services and may be removed from this RFQ.

- 2) If we are submitting for multiple engineering services, how would the District like us to delineate between the various disciplines within our submission? Or do we only need to make one mention somewhere listing the services we can offer?

Response: In addition to the cover page, please include submitted discipline(s) information under sections B, C, D, F, I, and J (i.e. license numbers, resume titles, rate information, etc.)

- 3) On that same note, is the District establishing separate “lists” of providers for each of those services?

Response: Correct – there will be a separate prequalified list for each engineering discipline.

- 4) Section H. Insurance: Would a copy of our Insurance Certificate suffice, rather than a letter from our provider?

Response: This is acceptable so long as the Insurance Certificate outlines all requested insurance types and limits.

- 5) Will team member resumes be counted toward the 30-page page limit, or should they be included as an appendix?

Response: These can be added as an appendix and won't be counted towards the 30-page limit.

[END OF ADDENDUM 01]
