- III. Public Comment/Correspondence/Communication:**
  - a. Board members introduced themselves
  - b. Tim Warner: As an employee of 18 years he thanked the board for continuing the tradition of covering full benefits for 18 years.
  - c. Stefani Gambrel on behalf of Erica Alston-As a teacher expressing gratitude for covering premiums and supporting health and wellbeing. She feels option 1 would be the best option. Expressed concerns about funds for the new building. Expressing concern over being fiscally responsible for the school.
  - d. Nichole Dollarhide on behalf of their department: Expressed interest in having Option 3 being considered.
  - e. Stefani Gambrel on behalf of JD: Employees already chose deferred pay without opportunity to factor in any out of pocket contribution before choosing the deferred pay option.
  - f. Crystal Collins: Expressed gratitude over health insurance being covered, recognizes fiscal challenges ahead of us. Expressing having to pay more each paycheck is a lot to consider and it is a challenging decision for the board.
  - g. Stefani Gambrel: If there are ways to find money in the budget to cover Oak that would be great and if not, then she supports option 2.
  - h. Nichole Dollarhide on behalf of herself: we have been able to recruit the best because of the benefits we cover. It is part of our lure. The out of pocket difference costs more money no matter what if we don't fully fund Oak if there are people that access insurance.
  - i. Rachael Riggs expressed that salaries have not seen an increase in 3 years across the board and with rising expenses, this may be more impactful to employees.
  - j. Adyn: Benefits being covered was a massive factor to why they chose AGCS as their decision. Advocates, if able to fully cover Oak, to do that.
  - k. Mary Meyer: retired from traditional public school in 2016 and was invited to help at AGCS. She was amazed at her experience at this school. She is expressing support for her colleagues. She loves it at AGCS and is having a lot of fun. It is unique to feel so supported.
  - l. Alexi Wagner: It would be great to continue at the level of coverage we currently have but if not to fully fund Spruce.

### **f. Director of Special Services Report:**

### **g. Superintendent's Report:**

1. Public Health states Measles outbreak is likely in the future so a plan has been worked out with Nichole, Tim, and Public Health to have a plan if there is a measles outbreak. Services will be moved online in the case of an outbreak. We have 176 unvaccinated students.
2. Facilities Purchase: Rough construction quotes coming in. Half a building is about 7.3-7.5 million. Wanting to scale it back to 3 million if possible. We will see what that looks like and if it is not significantly more usable space than we have now then we will have that conversation.
3. Supreme Court Decision was a tie. There are other cases in the mix so it may come back up but for now, charter schools remain public.
4. AB84
  - a) Passes Floor and now onto Senate.

- b) Convolved formula for funding can completely defund NCB charters.
  - c) Would eliminate all community partners who do not have a teaching credential.
  - d) Still a very challenging bill
5. SB414 passed the Senate floor and goes to Assembly next. This is a much better option than AB84.
