

FACT SHEET

2024-2025

Sierra Junior High School (SJHS) is part of the Sierra High School campus, which was founded in 1921. Due to the junior high cohort size, the school can offer smaller class sizes, allowing staff to know all the students and work with them as individuals. It is an environment that provides the best of small-school familiarity with larger school offerings, including a full range of educational, athletic, and extracurricular opportunities for students. It gives accelerated students early access to advanced high school-level classes such as Spanish 1 and Math 1. All Junior High electives are taught by high school level or CTE certified teachers.

SCHOOL HIGHLIGHTS

Foothill Junior High is a vibrant and inclusive learning community that values academic excellence, character development, and student well-being. Key highlights include:

- Safe, inclusive, and supportive learning environment
- Well-equipped classrooms and modern technology resources
- Strong emphasis on social-emotional learning and student support
- Annual events such as Science Fairs, Arts Showcases, and Sports Competitions
- Strong connections with high school programs to ensure a smooth transition
