The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tool as a resource when reporting results to its local governing board as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted. The approved self-reflection tool for Priority 1 is provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the "good repair" standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA's Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and

PRIORITIES

Self-Reflection Tool (Priority 3) – Parent and Family Engagement

This is the submission form for the local educational agency coordinator (school district, charter school, and county office) to complete on the local performance indicator for parent engagement (Priority 3).

Standard: The local educational agency (LEA) annually reports progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the California School Dashboard (Dashboard).

Criteria: The LEA will assess its performance on a (Met, Not Met, or Not Met for Two or More Years) scale.

Evidence: The LEA measures its progress using the self-reflection tool included in the Dashboard, and reports these results to its local governing board at a regularly scheduled meeting and through the local data selection option in the Dashboard

Introduction: This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress, successes, and areas of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research Phase

   2 – Beginning Development

   3 – Initial Implementation

4 – Full Implementation

5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Building Relationships Dashboard Narrative Boxes

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families. *

The Center Joint Unified School District is deeply committed to building meaningful partnerships that enhance student outcomes. A variety of initiatives reflect this dedication, including family-focused events, active PTAs at each school site, and regular engagement with English Learner Advisory Committees (ELAC). Signature events like the Back to School Bash, along with the establishment of Site Councils and student/parent advisories, ensure that all voices are heard in shaping the educational experience. The district also prioritizes clear, inclusive communication through social media, interpreting services, and targeted support for homeless and foster families. Central to these efforts is the Student and Family Support Services team, which plays a vital role in cultivating healthy relationships and fostering a welcoming, inclusive community for all families.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families. *

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families. *

In an effort to improve engagement of underrepresented families, the district is doing the following: Focused Outreach: A Communications Director dedicated to inclusive communication will design targeted outreach strategies that address the unique needs and preferences of underrepresented families. This ensures messaging is accessible, culturally relevant, and delivered through channels those families trust and use. Building Trust Through Transparency: By ensuring transparent and consistent communication, the district can build trust with families who may have felt disconnected or overlooked in the past. When families see that their voices matter and are heard, they are more likely to engage actively. Amplifying Equity Initiatives: Using the knowledge acquired during the district's collaboration with West Ed on inclusion and equity, the Communications Director can spotlight these efforts clearly to the community, demonstrating the district's commitment and progress. This visibility reassures families that equity is a priority. Creating Inclusive Messaging: A dedicated leader ensures that all communication materials—whether newsletters, social media, or events—reflect the diversity of the community, using multiple languages and culturally sensitive content that resonates with all families. Overall, this strategic move signals a real commitment to listening, understanding, and partnering with underrepresented families, which is crucial for improving student outcomes and building a truly inclusive school community.

Seeking Input for Decision-Making Dashboard Narrative Boxes

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making. *

Students, parents, and staff have multiple opportunities to actively engage and share their perspectives through various platforms, including Panorama Surveys, District Advisory Committees, English Language Advisory Committees (site-based and district-level), PTA, Booster Clubs, LCAP surveys, Superintendent's Advisory Committee, and Community Comments during Board meetings. These avenues promote inclusivity and empower all stakeholders to meaningfully participate in the district's decision-making processes.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making. *

Goal: To increase family participation in key school activities such as Panorama surveys, School Site Council, PTA, ELAC, DELAC, and Booster Club meetings. These opportunities allow families to share their input and actively contribute to decisions that affect students' education and overall well-being.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making. *

The district will strengthen engagement with underrepresented families in decision-making by prioritizing effective communication. This will be achieved through the leadership of the Communication Director, who will implement strategic outreach efforts to ensure families are well-informed about the various opportunities available to participate in the district's decision-making processes.

PRIORITIES

Local Control Funding Formula (LCFF) Priority 6 Self-Reflection Tool

A local educational agency (LEA) uses the self-reflection tools included within the California School Dashboard (Dashboard) to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted. The approved self-reflection tool for Priority 6 is provided below.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Instructions

LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and
- At a minimum, report disaggregated data by student groups identified in California *Education Code* 52052, when such data is available as part of the local school climate survey.

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

The CJUSD used Panorama surveys to collect data. The results are summarized below. Elementary Students (Grades 3–5) Results show steady improvement across all categories. The strongest area is Teacher-student relationships (68%). School safety is the next strongest area (57%). Engagement is the lowest-scoring area at 43%, though it did show improvement from the previous cycle. Secondary Students (Grades 6–12) Results show meaningful gains, with school safety increasing by five percentage points to become the highest scoring area (52%). Belonging, school climate, and teacher-student relationships also improved. Student engagement remains an area of concern at 25%, despite a slight increase from the previous survey. The overall trend suggests students increasingly feel safer and more connected at school. Parents Survey results remained very positive and showed continued improvement. School safety (71%) and school climate (70%) both increased by five percentage points. These scores indicate families feel confident and are noticing positive improvements in the overall learning environment.

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

Grades 3-5 Survey Results For student results in grades 3 through 5, we continue to see steady improvement across all categories. Teacher-student relationships remain the strongest area at 68%, followed by school safety at 57%. The district also saw increases in belonging, school climate, and engagement. While engagement remains the lowest-scoring area at 43%, it still showed improvement from the previous survey cycle.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

The CJUSD will continue to implement restorative practices across all school sites and hire a new Communications Director to continue the work of effectively communicating with district students, staff, and families.

Criteria:

Optional: Provide any additional information that the local educational agency believes is relevant to understanding its progress on school climate.

PRIORITIES

Self-Reflection Tool (Priority 7) – Access to a Broad Course of Study

Standard: Local educational agencies (LEAs) annually measure their progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California *Education Code* for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs, and report the results to their local governing board as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted and to educational partners and the public through the Dashboard.

Evidence: The LEA responds to the self-reflection tools as specified and reports the results to its local governing board as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted and through the local data selection option in the Dashboard.

Approach for Self-Reflection Tool to Use as Evidence

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served.

The Center Joint Unified School District has a Department of Curriculum and Instruction, which ensures that all students at all grade levels have access to and are enrolled in a broad course of study.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study. LEAs may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study.

All students in the district participate in a comprehensive course of study. The curriculum used in core courses districtwide is outlined in the Multi-Tiered Systems of Support (MTSS) document. This document details the approved curricula for Tiers I, II, and III. Tier I curriculum is provided to all students as the foundation of instruction, while Tier II and Tier III curricula are designed as intervention supports for students who require additional academic assistance.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students.

There are no barriers to ensuring that all students have access to a broad course of study in the Center Joint Unified School District.

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students?

The Department of Curriculum and Instruction will continue to collaborate with each school site to ensure that all students have access to and are enrolled in a comprehensive course of study.

Additional information about enrollment in courses and the number of courses offered in different subjects at schools is available on the California Department of Education DataQuest web page.

Re: Legal Services Agreement and Rates

Dear Superintendent Loehr:

Our cost of providing legal services has increased during the past year. Although our team of experienced education law attorneys makes every effort to perform work as expertly and efficiently as possible, we must increase our hourly rates effective July 1, 2026. Based upon market surveys, our rates continue to be below our competitors.

Our current Agreement for Special Services, Section III.A., authorizes rate increases by providing at least thirty (30) days' written notice. Please accept this as our notice that our rates effective July 1, 2026, will be as indicated below.

Please also review our updated language to reflect AI and client confidentiality.

Consent To Law Firm Use Of Generative AI And Client Confidentiality

To enhance efficiency and cost-effectiveness, the Law Firm may use generative artificial intelligence ("AI") tools to assist with tasks like document review, summaries, and research. Any such use will comply with the California Rules of Professional Conduct and the State Bar Act, along with all other applicable ethical and professional responsibilities and the Law Firm's internal policies, including maintaining professional judgment; reviewing, verifying, and validating AI-assisted work; and safeguarding client confidentiality. You may be billed for actual time spent using generative AI—such as creating and refining inputs and prompts and reviewing and editing outputs—but not for time saved by its use. By proceeding with this representation, you consent to the Law Firm's use of generative AI, unless you notify us otherwise in writing. Please note that Law Firm communications and work product are protected by privilege and must remain confidential. If you disclose any privileged communications, work product, or confidential

documents to any AI platform, you risk waiving the attorney-client privilege, work-product protection, and/or confidentiality.

In no event shall the DISTRICT be responsible or liable, regardless of the basis or bases for responsibility or liability, if the SRPD is unable to procure or timely procure any necessary PPE. However, in any such event, if the health and safety of DISTRICT students could, therefore, be endangered, the SRPD shall provide notice to the DISTRICT and, at the SRPD's cost and to the extent PPE reasonably can be made available without impairing any DISTRICT operations, the DISTRICT will attempt to provide sufficient PPE from any stock that it has on hand.

3. Immediately upon becoming aware or reasonably suspecting that the SRPD, any DISTRICT student, or any other person was infected with the Coronavirus at any time the person was present in or at any ELOP Location, the SRPD shall: (i) give written notice to the DISTRICT; and (ii) take all steps required and/or recommended by the Public Health Orders, including, without limitation and if applicable, seeking to identify, through contact tracing, those who may have been exposed to the Coronavirus and otherwise taking steps necessary to limit the number of additional people who may become exposed to the Coronavirus. The SRPD shall indemnify and hold-harmless the District and the District Representatives (collectively, the "District Indemnitees"), and each of them, with respect to any and all losses, damages, judgments, costs and expenses (including, but not limited to, attorney's fees and other legal costs), and other liabilities of whatever nature (each a "Liability" and, if referring to more than one, the "Liabilities") that arise from the activities in connection with this Agreement by the SRPD, any Lower Tier SRPD, or any person or entity within the control of either. With respect to each claim, demand, action, and other proceeding within the scope of the foregoing indemnification obligation, the SRPD shall defend the District Indemnitees, using qualified and experienced legal counsel acceptable to the District, but retained by the SRPD at its sole cost and expense. If the SRPD refuses tender of any defense within the scope of the SRPD's obligations

pursuant to this Section: (i) the SRPD shall nonetheless continue to be bound by its obligations pursuant to this Section; and (ii) the SRPD shall be deemed and construed to have waived any and all rights to claim or otherwise assert that the District provided an inadequate defense of the matter tendered to the SRPD. Notwithstanding the foregoing, to the extent any Liability is attributable to the negligence or willful misconduct of both Parties (directly or through their respective officers, employees, contractors, subcontractors, or other representatives), then, in connection with that Liability, the Parties shall be responsible and liable on a comparative basis.

VII. INDEPENDENT CONTRACTOR STATUS

The Parties agree the relationship created by this Agreement is that of an independent contractor. In performing all of the Services, SRPD shall be, and at all times is, acting and performing as an independent contractor with DISTRICT, and not as a partner, coventurer, agent, or employee of DISTRICT, and nothing contained herein shall be construed to be inconsistent with this relationship or status and is not granted any right or authority to assume or to create any obligation or responsibility, express or implied, on behalf of or in the name of DISTRICT or to bind the DISTRICT in any manner. Except for any materials, procedures, or subject matter agreed upon between SRPD and DISTRICT, SRPD shall have complete control over the manner and method of performing the Services. SRPD will be responsible for payment of all SRPD employee wages, payroll taxes, employee benefits, and any amounts due for federal and state income taxes and Social Security taxes. These taxes will not be withheld from payments under this Agreement.

VIII. FINGERPRINTING

In accordance with Education Code Section 45125.1, SRPD shall have conducted the required criminal background check of its employees and of all persons who will be providing services to DISTRICT on behalf of SRPD, and upon receipt of those checks, certify to DISTRICT that no employee or person providing services has been reported by the Department of Justice as having been convicted of a violent or serious felony as defined by statute, including but not limited to Penal Code sections 667.5(c) and/or 1192.7(c). SRPD shall not permit any employee to have any such contact with students of DISTRICT until such certification has been received by DISTRICT. SRPD shall supply DISTRICT with a list of names of those employees who are cleared to work with students and parents of the district.

IX. INSURANCE

SRPD shall procure and maintain for the duration of the Agreement insurance against claims for injuries to persons or damage to property, which may arise from or in connection with performance under this Agreement by SRPD, its agents, representatives, or employees.

A. Insurance coverage shall be at least as broad as:

1. Insurance Services Office Commercial General Liability coverage (occurrence from CG 0001).

2. Insurance Service Office form number CA0001 (Ed. 1/87) covering Automobile Liability, code 1 (any auto).

3. Worker's Compensation insurance as required by the State of California and Employer's Liability Insurance.

B. SRPD shall maintain limits of insurance no less than:

1. General Liability: $1,000,000.00 per occurrence for bodily injury, personal injury, and property damage. If Commercial General Liability Insurance or other form with a general aggregate limit is used, the general aggregate limit shall be thrice the required occurrence limit ($3,000,000.00).

2. Automobile Liability: $1,000,000.00 per accident for bodily injury and property damage.

3. Employer's Liability: $1,000,000.00 per accident for bodily injury or disease.

C. SRPD shall provide supplemental medical injury insurance for program students injured during after school program activities. The maximum medical pay per student injury is $10,000. SRPD's insurance shall take effect after student's health insurance and District's supplemental insurance have been expended.

D. A policy of professional errors and omissions liability insurance ("PL Policy") with policy limits of not less than One Million Dollars ($1,000,000.00), combined single limits, per occurrence or claim, and Three Million Dollars ($3,000,000.00) aggregate. If the policy is written as a "claims made" policy, the retroactivity date shall be prior to the Effective Date, including, without limitation, any and each renewal or replacement policy. SRPD shall always keep the PL Policy in full force and effect during the Agreement Term and until the date that is four (4) years after termination of this Agreement. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a retroactive date prior to the effective date of this Agreement, SRPD shall purchase "extended reporting" coverage for a minimum of four (4) years after termination of this Agreement.

E. A policy of abuse-molestation insurance ("AM Policy") that: (1) is separate from the general liability, E&O liability, and other insurance policies that the SRPD may have in effect; (2) is written on an "occurrence" basis; (3) has coverage limits of not less than $3,000,000 per occurrence and $6,000,000 aggregate; (4) provides coverage for direct and vicarious liability associated with sexual misconduct and other physical abuse, and for verbal, emotional, mental, and other non-physical abuse; (5) covers acts and omissions by, among others, personnel directly providing the ELOP Services to District students or otherwise having contact with District students (whether directly employed by the SRPD or otherwise); (6) provides coverage for the District prior to any determination that an accused abuser is guilty; and (7) provides for payment of defense costs outside of the AM Policy's coverage limits. The SRPD shall comply with any and all risk management controls reasonably required by the insurer that issues the AM Policy.

F. For all insurance coverage procured by SRPD, the following terms apply:

1. Any deductibles or self-insured retentions must be declared to and approved by District. At its option, District may require SRPD, at SRPD's sole cost, to: (a) cause its insurer to reduce to levels specified by District or eliminate such deductibles or self-insured retentions as pertain to the District or any of its officers or employees, or (b) procure a bond or other financial instrument guaranteeing payment of the deductible or retention, and all losses and related investigations, claim administration, and defense expenses.

G. The general liability and automobile liability policies, workers' compensation policy, and the AM Policy shall provide, or be endorsed to provide, as follows:

1. The District and each of the District Representatives shall be named as Additional insureds with respect to all liability arising out of activities by or on behalf of SRPD in connection with this Agreement and/or the ELOP Services. The coverage shall contain no special limitations on the scope of protection afforded to District or any of the District Representatives.

2. For any claims related to the services, SRPD's insurance coverage shall be primary insurance with respect to District and its officers and employees. Any insurance or self-insurance maintained by District or any of its officers or employees shall be excess of SRPD's insurance and shall not contribute with it.

3. Any failure to comply with reporting or other provisions of the policies, including, without limitation, a breach of any of the SRPD's warranties, shall not affect coverage provided to District or any of its officers or employees.

4. SRPD's insurance shall apply separately to each insured against whom a claim is made, or suit is brought, except with respect to the limits of the insurer's liability.

5. Each insurance policy required by this clause shall be endorsed to provide that coverage shall not be terminated, suspended, voided, or canceled, or coverage limits reduced, except after thirty (30) days prior written notice by certified mail, return receipt requested, has been given to District.

H. Insurance is to be placed with insurers admitted by the State of California and with an A minus (A-), VII, or better rating from A.M. Best.

I. SRPD shall furnish District with original endorsements effecting coverage required by this clause. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. The endorsements are to be on forms provided by or approved by the District. All endorsements are to be received and approved by District before the ELOP Services commence. Upon request by the District, the SRPD shall cause its insurer(s) to provide complete, certified copies of the insurance policies requested by the District, including the endorsements required by this Agreement. All Certificates of Insurance shall reference the district's contract number for this Agreement on the face of the certificate. The foregoing obligation to provide certified copies of insurance policies shall survive the expiration of the Agreement Term or any earlier termination of this Agreement.

J. PROPERTY INSURANCE

DISTRICT shall maintain, for the duration of this Agreement, all-risk real and personal property coverage adequate to cover the replacement cost of all DISTRICT-owned buildings and personal property on the Property to which SRPD may have access under this Agreement. SRPD shall be solely responsible for obtaining adequate property insurance for SRPD's personal property, building improvements, and any real property/buildings owned by the DISTRICT while located on the Property or elsewhere.

X. COMPLIANCE WITH LAWS, RULES, AND REGULATIONS

Parties agree to comply with all Federal, State and local laws in performance of this Agreement. SRPD represents and agrees that it does not and shall not discriminate on the basis of race, religion, color, sex, age, sexual orientation, disability or national origin.

XI. MAINTENANCE OF RECORDS/CONFIDENTIALITY.

A. In connection with this Agreement and the ELOP Services, the SRPD shall prepare and maintain all records ("SRPD Records") as: (i) consistent with generally accepted accounting principles and good business practices; and (ii) required by State of California and federal laws and regulations. The SRPD shall maintain all SRPD Records for a period of at least seven (7) years after final payment to the SRPD pursuant to this Agreement. For purposes of this Agreement, "SRPD Records" shall include, but are not limited to: student records as defined by California Education Code section 49061 (b); registers and roll books of teachers and/or daily service SRPD's daily service logs and notes and other documents used to record the provision of the ELOP Services; staff lists specifying credentials held and documents evidencing other staff qualifications, social security numbers, dates of hire, and dates of termination; staff time sheets; non-paid staff and volunteer sign-in sheets; liability and worker's compensation insurance policies; after school agency certifications; statements of income and expenses; general journals; cash receipts and disbursement books; general ledgers and supporting documents; federal/state payroll quarterly reports (e.g., IRS Form 941, California Form DE3D, DE 938, DE 9, et cetera); bank statements and canceled checks; and complaints, demands, claims, court filings, witness statements, and similar documents.

B. SRPD shall make the SRPD Records available for inspection and copying, by the DISTRICT, the California State Auditor, and other governmental entities with competent jurisdiction, at all reasonable times within the record retention period specified in Subsection 19.A. herein. Notwithstanding the foregoing, if the DISTRICT or other governmental entity commences during such record retention period, but does not complete within such record retention period, an audit or other review for which the SRPD Records are required, the SRPD shall make the SRPD Records available in accordance with this Subsection until such time as the audit or other review has been completed and closed.

C. With respect to and as applicable to the SRPD and all authorized Lower Tier Providers (as defined in Section XV below), all of the following shall be deemed and construed to be confidential: (i) this Agreement; all communications and information obtained by SRPD from

DISTRICT relating to this Agreement; and all information developed by SRPD in connection with this Agreement and/or the ELOP Services (including, without limitation, all student records and the identity of DISTRICT students being served by SRPD). Except as provided in Subsections XI.D and XI.G., neither the SRPD nor any Lower Tier Provider, without prior written consent of an authorized DISTRICT representative, shall divulge to, or discuss with, any third party either the work or services provided hereunder, or any communication or information in connection with such services or work, except as required by law. Prior to any disclosure that the SRPD believes may be required by law, the SRPD shall give notice to the DISTRICT and a reasonable period of days, but in no event fewer than ten (10) business days, for the DISTRICT to seek a protective order or otherwise prevent disclosure. Except for disclosures required by law, the SRPD shall not use or disseminate any communications or information obtained from DISTRICT or developed by the SRPD or any Lower Tier Provider in connection with this Agreement and/or the ELOP Services, for any purpose other than the performance of this Agreement, without DISTRICT's prior written consent.

D. At the conclusion of the performance of this Agreement, SRPD shall return to DISTRICT all written materials constituting or incorporating any communications or information obtained from DISTRICT or developed by the SRPD or any Lower Tier Provider in connection with this Agreement. Upon DISTRICT's specific approval, SRPD may retain copies of such materials, provided that such materials shall always remain subject to the requirements of Subsection XI.C herein.

E. SRPD may disclose to any authorized Lower Tier Provider or other DISTRICT approved third party, any information otherwise subject to Subsection XI.CC that reasonably is required for the performance of the Lower Tier Provider's responsibilities in connection with this Agreement and/or the ELOP Services. The SRPD shall require in each of its written subcontracts that the Lower Tier Provider comply in all respects with the requirements of this Section XI and shall provide a copy of each such subcontract to DISTRICT prior to the Lower Tier Provider commencing performance pursuant to the subcontract.

F. SRPD represents and warrants that it shall not publish, cause to be disseminated, or otherwise disclose through any press release, public statement, or marketing or selling effort, any information that is confidential in accordance with this Section without the express written approval of DISTRICT given in advance of disclosure, which approval the DISTRICT in its sole discretion may grant, deny, or condition.

G. SRPD's obligations pursuant to this Section XI relating to information deemed confidential shall survive cancellation, termination, or expiration of the Agreement Term.

H. SRPD shall maintain confidential information, including, among others, DISTRICT student records, in a secure location and, as applicable, on secure servers or other equipment, as reasonably sufficient to ensure confidentiality and prevent unauthorized access. SRPD shall maintain a current list of the names and positions of each and all employees of the SRPD and any and all authorized Lower Tier Providers who have access to confidential records. SRPD shall maintain an access log for each DISTRICT students record which lists: (i) each and all persons, agencies, and other organizations that request or receive information from the record; and (ii) the

legitimate interests for such request or receipt of information from the record. Such log shall be maintained as required by California Education Code section 49064 and, notwithstanding anything to the contrary, shall include the name, title and agency/organization affiliation, and date/time of access for each individual requesting and/or receiving information from any DISTRICT student's record.

I. The SRPD shall not record in the foregoing log any information regarding access to the DISTRICT student's records by: (i) the DISTRICT student's parent; (ii) an individual to whom written consent has been executed by the DISTRICT student's parent: or (iii) employees of DISTRICT or SRPD having a legitimate educational interest in requesting or receiving information from the record. For purposes of this paragraph, "employees of the DISTRICT or SRPD" does not include employees of Lower Tier Providers. SRPD shall grant parents access to student records and comply with parents' requests for copies of student records, as required by State of California and federal laws and regulations.

J. Without limiting anything else in this Agreement, and in connection with the ELOP Services, the SRPD: (i) shall be responsible for ensuring compliance in all respects, by its personnel and the personnel of all Lower Tier Providers, with the privacy-related requirements described in Attachment "C" to this Agreement ("Privacy Requirements"); and (ii) acknowledges that portions of the provisions set forth in the foregoing subsections of this Section XI are intended to implement such Privacy Requirements.

In such event, the DISTRICT shall have no liability to pay any funds to the SRPD or furnish any other consideration under this Agreement, and the SRPD shall not be obligated to perform any provisions of this Agreement.

2. If, in any fiscal year during the Agreement Term, the DISTRICT Board reduces or terminates funding for purposes of this Agreement, the DISTRICT shall have the option to either cancel this Agreement, without liability to or recourse by the SRPD, or offer to enter into an amendment to this Agreement that reflects the reduced funding amount.

C. GRANT FUNDING

SRPD hereby acknowledges that DISTRICT's payments to SRPD are specifically conditioned upon the DISTRICT's receipt of grant funding from the State of California specifically for the ELOP Program. If DISTRICT's receipt of such grant funding is for any reason delayed or suspended, the DISTRICT reserves the right to suspend payments to SRPD until such time as grant funding resumes and the DISTRICT shall have no obligation to pay the SRPD for services provided pursuant to this Agreement except to the extent of such grant funding received by the DISTRICT. In such event, however, the SRPD may suspend performance of the ELOP services until such time as the grant funding resumes. If such grant funding terminates, the DISTRICT shall have no obligation to continue payments to the SRPD, other than for services satisfactorily completed prior to termination of the grant funding, and this Agreement shall be deemed and construed to automatically terminate immediately upon termination of the grant funding. A. Assignment. SRPD shall not assign, sublet, or transfer this Agreement or any rights under or interest in this Agreement without the prior written consent of the DISTRICT, which may be withheld by the DISTRICT in its sole and absolute discretion for any reason. Any attempted assignment, sublet, or transfer in violation of this Agreement shall be grounds for the DISTRICT, in its sole discretion, to terminate the Agreement.

B. SUBCONTRACTING

1. The SRPD may contract with a third party (each a "Lower Tier Provider") for performance by the Lower Tier Provider of a portion of the ELOP Services, or any special education or other ancillary or related services required for the SRPD to perform the ELOP Services, only upon, in each case, written consent of the DISTRICT given in advance of the SRPD entering into the subcontract. The DISTRICT, in its reasonable discretion, may grant, deny, delay, or condition any such consent. If the SRPD is authorized to subcontract in accordance with this Section XV, the SRPD shall incorporate all provisions of this Agreement into each such subcontract, provided that a Lower Tier Provider shall only be required to perform such portion of the ELOP Services as described in the subcontract. Without limiting the foregoing, the SRPD shall in each case cause the Lower Tier Provider to procure and maintain insurance during the term of the corresponding subcontract, or for such longer period as required by this Agreement. The coverage shall contain no special limitations on the scope of protection afforded to any of the DISTRICT Representatives.

2. For any and all claims related to the services performed under this Agreement, a Lower Tier Provider's insurance coverage shall be primary insurance as it pertains to DISTRICT, and its officers and employees, shall be excess of Lower Tier Provider's insurance and shall not contribute with it.

3. Any failure to comply with reporting or other provisions of the policies including breaches of warranties shall not affect coverage provided to DISTRICT or any of its officers or employees.

4. A Lower Tier Provider's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.

5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be suspended, voided, canceled by either party, reduced in coverage or in limits except after thirty (30) days prior written notice by certified mail, return receipt requested, to DISTRICT.

The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. The endorsements are to be on forms provided by DISTRICT. All endorsements are to be received and approved by DISTRICT before work commences. As an alternative to DISTRICT's forms, a Lower Tier Provider's insurer may provide complete, certified copies of all required insurance policies, including endorsements affecting the coverage required by this Agreement. All Certificates of Insurance shall reference DISTRICT's contract number. Notwithstanding the last sentence of Subsection XV.B.1 herein, if the SRPD enters into subcontracts for the provision of transportation services, SRPD shall ensure in each case that the subcontract requires the Lower Tier Provider to procure and maintain general liability and vehicle insurance with per-occurrence limits of at least $2,000,000.

This Agreement may be renewed by both Parties annually by written mutual agreement.

IV. TERMINATION OR AMENDMENT

A. Mutual Agreement. This Agreement may be terminated or amended in writing at any time by mutual written consent of all of the parties to this Agreement and may be terminated by either party for any reason by giving the other party sixty (60) days advance written notice. In the event of cancellation prior to completion of the specified services, all finished or unfinished projects, documents, data, studies, and reports prepared by SRPD under this agreement shall, at the option of the DISTRICT, become DISTRICT property. SRPD shall be entitled to receive just and equitable compensation for any satisfactory work completed on such items prior to termination of the Agreement.

B. Termination for Default. DISTRICT may, by written notice to SRPD, terminate this Agreement in whole or in part at any time because of the failure of SRPD to fulfill its contractual obligations and following a reasonable opportunity to cure. Upon receipt of such notice, SRPD shall:

1. Immediately discontinue all services affected (unless the notice directs otherwise);

2. Deliver to DISTRICT all information and material as may have been involved in the provision of services whether provided by DISTRICT or generated by SRPD in the performance of this Agreement, whether completed or in process. Termination of this Agreement shall be as of the date of receipt by SRPD of such notice.

C. If the termination is due to the failure of SRPD to fulfill its contractual obligations, DISTRICT may take over the **S**ervices and complete the **S**ervices by contract or otherwise. In such case, SRPD shall be liable to DISTRICT for any reasonable costs or damages occasioned to DISTRICT thereby. The reasonable expense of completing the **S**ervices, and any other costs or damages otherwise resulting from the failure of SRPD to fulfill its obligations, shall be charged to SRPD and shall be deducted by DISTRICT out of such payments as may be due to SRPD.

D. If, after the notice of termination for failure to fulfill contract obligations, it is determined that SRPD has not so failed, the termination shall be deemed to have been affected for the convenience of DISTRICT pursuant to Section IV A.

E. SRPD shall not be entitled to anticipatory or consequential damages because of any termination under this section. Payment to SRPD in accordance with this section shall constitute SRPD's exclusive remedy for any termination hereunder. The rights and remedies of DISTRICT provided in this section are in addition to any other rights and remedies provided by law or under this Agreement.

V. HEALTH AND SAFETY MANDATES

A. HEALTH AND SAFETY. SRPD shall comply with all applicable federal, state, local, and DISTRICT laws, regulations, ordinances, policies, and procedures regarding student health and safety.

B. INCIDENT/ACCIDENT REPORTING. SRPD shall submit accident or incident reports pursuant to the procedures specified by the DISTRICT.

C. CHILD ABUSE REPORTING. SRPD hereby agrees that all staff members, including volunteers, are familiar with and agree to its child and dependent adult abuse reporting obligations and procedures as specified in California Penal Code section 11166. A written statement acknowledging the legal requirements of such reporting and verification of staff adhere to such reporting shall be submitted to the DISTRICT at DISTRICT's request. SRPD must develop and/or maintain a written child abuse reporting procedure.

D. REPORTING OF MISSING CHILDREN. SRPD assures DISTRICT that all staff members, including volunteers, are familiar with and agree to adhere to requirements for reporting missing children as specified in California Education Code section 49370. A written statement acknowledging the legal requirements of such reporting and verification of staff adherence to such reporting shall be submitted to the DISTRICT at DISTRICT's request.

E. TUBERCULOSIS ASSESSMENT AND EXAMINATION. Prior to commencing the ELOP Services and at its sole cost and expense, the SRPD shall: (i) comply with the assessment and examination procedures required pursuant to Section 49406; and (ii) certify to the DISTRICT, using the form attached as Exhibit "C" to this Agreement, that he/she is free of tuberculosis risk factors or, if risk factors are present, is free of infectious tuberculosis.

F. BLOOD-BORNE PATHOGENS AND OTHER INFECTIOUS MATERIALS. If this Agreement contemplates that the SRPD will furnish any medical assistance to DISTRICT students or otherwise potentially be subjected to any occupational exposure as defined in 29 CFR 1901.1030(b), then, notwithstanding that the SRPD is an independent contractor and not an employee of the DISTRICT, the SRPD shall comply with all applicable U.S. Department of Labor, Occupational Health and Safety Administration ("OSHA") safety and health standards and other requirements set forth in 29 CFR 1901.1030. For avoidance of doubt, 29 CFR 1901.1030(b) defines occupational exposure, as of the Effective Date, to mean "reasonably anticipated skin, eye, mucous membrane, or parenteral contact with blood or other potentially infectious materials that may result from the performance of an employee's duties."

G. COVID-19 Related Requirements

1. In connection with and for all purposes of this Agreement and the ELOP Services, the SRPD shall be responsible, at its cost, for compliance with any and all orders and guidance issued by public health and/or other governmental officials ("Public Health Orders") that are intended to slow the spread of the coronavirus that causes COVID-19 ("Coronavirus"), regardless of whether those are in effect as of the Effective Date or take effect thereafter. In addition, the SRPD shall indemnify, hold-harmless, and defend the DISTRICT, in accordance with this Agreement, with respect to any and all liabilities that may arise from: (i) the failure by the SRPD to fully and satisfactorily comply with any Public Health Order; and/or (ii) the COVID-19-related infection, injury, or death of any person or persons in connection with any such failure by the SRPD.

2. The SRPD, at its cost, shall procure all personal protective equipment ("PPE") that reasonably is required for the SRPD's use in connection with the ELOP Services. For purposes of the foregoing, such PPE may include, without limitation and as applicable, all gloves, face shields, goggles, "surgical" face coverings, and similar equipment designed to protect the wearer from injury or help prevent wearer exposure to infection by the Coronavirus. In no event shall the DISTRICT be responsible or liable, regardless of the basis or bases for responsibility or liability, if the SRPD is unable to procure or timely procure any necessary PPE. However, in any such event, if the health and safety of DISTRICT students could, therefore, be endangered, the SRPD shall provide notice to the DISTRICT and, at the SRPD's cost and to the extent PPE reasonably can be made available without impairing any DISTRICT operations, the DISTRICT will attempt to provide sufficient PPE from any stock that it has on hand.

3. Immediately upon becoming aware or reasonably suspecting that the SRPD, any DISTRICT student, or any other person was infected with the Coronavirus at any time the person was present in or at any ELOP Location, the SRPD shall: (i) give written notice to the DISTRICT; and (ii) take all steps required and/or recommended by the Public Health Orders, including, without limitation and if applicable, seeking to identify, through contact tracing, those who may have been exposed to the Coronavirus and otherwise taking steps necessary to limit the number of additional people who may become exposed to the Coronavirus. Any and each failure by the SRPD to give such notice when required by this Section shall constitute a material default by the SRPD of its obligations pursuant to this Agreement.

VI. INDEMNIFICATION

The SRPD shall indemnify and hold-harmless the District and the District Representatives (collectively, the "District Indemnitees"), and each of them, with respect to any and all losses, damages, judgments, costs and expenses (including, but not limited to, attorney's fees and other legal costs), and other liabilities of whatever nature (each a "Liability" and, if referring to more than one, the "Liabilities") that arise from the activities in connection with this Agreement by the SRPD, any Lower Tier SRPD, or any person or entity within the control of either. With respect to each claim, demand, action, and other proceeding

within the scope of the foregoing indemnification obligation, the SRPD shall defend the District Indemnitees, using qualified and experienced legal counsel acceptable to the District, but retained by the SRPD at its sole cost and expense. If the SRPD refuses tender of any defense within the scope of the SRPD's obligations pursuant to this Section: (i) the SRPD shall nonetheless continue to be bound by its obligations pursuant to this Section; and (ii) the SRPD shall be deemed and construed to have waived any and all rights to claim or otherwise assert that the District provided an inadequate defense of the matter tendered to the SRPD. Notwithstanding the foregoing, to the extent any Liability is attributable to the negligence or willful misconduct of both Parties (directly or through their respective officers, employees, contractors, subcontractors, or other representatives), then, in connection with that Liability, the Parties shall be responsible and liable on a comparative basis.

I. INDEPENDENT CONTRACTOR STATUS

The Parties agree the relationship created by this Agreement is that of an independent contractor. In performing all of the Services, SRPD shall be, and at all times is, acting and performing as an independent contractor with DISTRICT, and not as a partner, coventurer, agent, or employee of DISTRICT, and nothing contained herein shall be construed to be inconsistent with this relationship or status and is not granted any right or authority to assume or to create any obligation or responsibility, express or implied, on behalf of or in the name of DISTRICT or to bind the DISTRICT in any manner. Except for any materials, procedures, or subject matter agreed upon between SRPD and DISTRICT, SRPD shall have complete control over the manner and method of performing the Services. SRPD will be responsible for payment of all SRPD employee wages, payroll taxes, employee benefits, and any amounts due for federal and state income taxes and Social Security taxes. These taxes will not be withheld from payments under this Agreement.

II. FINGERPRINTING

In accordance with Education Code Section 45125.1, SRPD shall have conducted the required criminal background check of its employees and of all persons who will be providing services to DISTRICT on behalf of SRPD, and upon receipt of those checks, certify to DISTRICT that no employee or person providing services has been reported by the Department of Justice as having been convicted of a violent or serious felony as defined by statute, including but not limited to Penal Code sections 667.5(c) and/or 1192.7(c). SRPD shall not permit any employee to have any such contact with students of DISTRICT until such certification has been received by DISTRICT. SRPD shall supply DISTRICT with a list of names of those employees who are cleared to work with students and parents of the district.

2. Insurance Service Office form number CA0001 (Ed. 1/87) covering Automobile Liability, code 1 (any auto).

3. Worker's Compensation insurance as required by the State of California and Employer's Liability Insurance.

1. General Liability: $1,000,000.00 per occurrence for bodily injury, personal injury, and property damage. If Commercial General Liability Insurance or other form with a general aggregate limit is used, the general aggregate limit shall be thrice the required occurrence limit ($3,000,000.00).

2. Automobile Liability: $1,000,000.00 per accident for bodily injury and property damage.

3. Employer's Liability: $1,000,000.00 per accident for bodily injury or disease.

If the policy is written as a "claims made" policy, the retroactivity date shall be prior to the Effective Date, including, without limitation, any and each renewal or replacement policy. SRPD shall always keep the PL Policy in full force and effect during the Agreement Term and until the date that is four (4) years after termination of this Agreement. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a retroactive date prior to the effective date of this Agreement, SRPD shall purchase "extended reporting" coverage for a minimum of four (4) years after termination of this Agreement.

A policy of abuse-molestation insurance ("AM Policy") that: (1) is separate from the general liability, E&O liability, and other insurance policies that the SRPD may have in effect; (2) is written on an "occurrence" basis; (3) has coverage limits of not less than $3,000,000 per occurrence and $6,000,000 aggregate; (4) provides coverage for direct and vicarious liability associated with sexual misconduct and other physical abuse, and for verbal, emotional, mental, and other non-physical abuse; (5) covers acts and omissions by, among others, personnel directly providing the ELOP Services to District students or otherwise having contact with District students (whether directly employed by the SRPD or otherwise); (6) provides coverage for the District prior to any determination that an accused abuser is guilty; and (7) provides for payment of defense

costs outside of the AM Policy's coverage limits. The SRPD shall comply with any and all risk management controls reasonably required by the insurer that issues the AM Policy.

F. For all insurance coverage procured by SRPD, the following terms apply:

1. Any deductibles or self-insured retentions must be declared to and approved by District. At its option, District may require SRPD, at SRPD's sole cost, to: (a) cause its insurer to reduce to levels specified by District or eliminate such deductibles or self-insured retentions as pertain to the District or any of its officers or employees, or (b) procure a bond or other financial instrument guaranteeing payment of the deductible or retention, and all losses and related investigations, claim administration, and defense expenses.

G. The general liability and automobile liability policies, workers' compensation policy, and the AM Policy shall provide, or be endorsed to provide, as follows:

1. The District and each of the District Representatives shall be named as Additional insureds with respect to all liability arising out of activities by or on behalf of SRPD in connection with this Agreement and/or the ELOP Services. The coverage shall contain no special limitations on the scope of protection afforded to District or any of the District Representatives.

2. For any claims related to the services, SRPD's insurance coverage shall be primary insurance with respect to District and its officers and employees. Any insurance or self-insurance maintained by District or any of its officers or employees shall be excess of SRPD's insurance and shall not contribute with it.

3. Any failure to comply with reporting or other provisions of the policies, including, without limitation, a breach of any of the SRPD's warranties, shall not affect coverage provided to District or any of its officers or employees.

5. Each insurance policy required by this clause shall be endorsed to provide that coverage shall not be terminated, suspended, voided, or canceled, or coverage limits reduced, except after thirty (30) days prior written notice by certified mail, return receipt requested, has been given to District.

I. SRPD shall furnish District with original endorsements effecting coverage required by this clause. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. The endorsements are to be on forms provided by or approved by the District. All endorsements are to be received and approved by District before the ELOP Services commence. Upon request by the District, the SRPD shall cause its insurer(s) to provide complete, certified copies of the insurance policies

requested by the District, including the endorsements required by this Agreement. All Certificates of Insurance shall reference the district's contract number for this Agreement on the face of the certificate. The foregoing obligation to provide certified copies of insurance policies shall survive the expiration of the Agreement Term or any earlier termination of this Agreement.

J. PROPERTY INSURANCE

DISTRICT shall maintain, for the duration of this Agreement, all-risk real and personal property coverage adequate to cover the replacement cost of all DISTRICT-owned buildings and personal property on the Property to which SRPD may have access under this Agreement. Except for disclosures required by law, the SRPD shall not use or disseminate any communications or information obtained from DISTRICT or developed by the SRPD or any Lower Tier Provider in connection with this Agreement and/or the ELOP Services, for any purpose other than the performance of this Agreement, without DISTRICT's prior written consent.

Upon DISTRICT's specific approval, SRPD may retain copies of such materials, provided that such materials shall always remain subject to the requirements of Subsection XI.C herein.

E. SRPD may disclose to any authorized Lower Tier Provider or other DISTRICT approved third party, any information otherwise subject to Subsection XI.CC that reasonably is required for the performance of the Lower Tier Provider's responsibilities in connection with this Agreement and/or the ELOP Services. The SRPD shall require in each of its written subcontracts that the Lower Tier Provider comply in all respects with the requirements of this Section XI and shall provide a copy of each such subcontract to DISTRICT prior to the Lower Tier Provider commencing performance pursuant to the subcontract.

F. SRPD represents and warrants that it shall not publish, cause to be disseminated, or otherwise disclose through any press release, public statement, or marketing or selling effort, any information that is confidential in accordance with this Section without the express written approval of DISTRICT given in advance of disclosure, which approval the DISTRICT in its sole discretion may grant, deny, or condition.

G. SRPD's obligations pursuant to this Section XI relating to information deemed confidential shall survive cancellation, termination, or expiration of the Agreement

In such event, the DISTRICT shall have no liability to pay any funds to the SRPD or furnish any other consideration under this Agreement, and the SRPD shall not be obligated to perform any provisions of this Agreement.

2. If, in any fiscal year during the Agreement Term, the DISTRICT Board reduces or terminates funding for purposes of this Agreement, the DISTRICT shall have the option to either cancel this Agreement, without liability to or recourse by the SRPD, or offer to enter into an amendment to this Agreement that reflects the reduced funding amount.

C. GRANT FUNDING

SRPD hereby acknowledges that DISTRICT's payments to SRPD are specifically conditioned upon the DISTRICT's receipt of grant funding from the State of California specifically for the ELOP Program. If DISTRICT's receipt of such grant funding is for any reason delayed or suspended, the DISTRICT reserves the right to suspend payments to SRPD until such time as grant funding resumes and the DISTRICT shall have no obligation to pay the SRPD for services provided pursuant to this Agreement except to the extent of such grant funding received by the DISTRICT. In such event, however, the SRPD may suspend performance of the ELOP services until such time as the grant funding resumes. If such grant funding terminates, the DISTRICT shall have no obligation to continue payments to the SRPD, other than for services satisfactorily completed prior to termination of the grant funding, and this Agreement shall be deemed and construed to automatically terminate immediately upon termination of the grant funding. In the event this Agreement so terminates, the SRPD shall terminate its performance pursuant to this Agreement, provided that the provisions of this Agreement that expressly or implicitly survive termination shall remain in effect.

I. ASSIGNMENT AND SUBCONTRACTORS

A. Assignment. SRPD shall not assign, sublet, or transfer this Agreement or any rights under or interest in this Agreement without the prior written consent of the DISTRICT, which may be withheld by the DISTRICT in its sole and absolute discretion for any reason. Any attempted assignment, sublet, or transfer in violation of this Agreement shall be grounds for the DISTRICT, in its sole discretion, to terminate the Agreement.

B. SUBCONTRACTING

1. The SRPD may contract with a third party (each a "Lower Tier Provider") for performance by the Lower Tier Provider of a portion of the ELOP Services, or any special education or other ancillary or related services required for the SRPD to perform the ELOP Services, only upon, in each case, written consent of the DISTRICT given in advance of the SRPD entering into the subcontract. The DISTRICT, in its reasonable discretion, may grant, deny, delay, or condition any such consent. If the SRPD is authorized to subcontract in accordance with this Section XV, the SRPD shall incorporate all provisions of this Agreement into each such subcontract, provided that a Lower Tier Provider shall only be required to perform such portion of the ELOP Services as described in the subcontract. Without limiting the foregoing, the SRPD shall in each case cause the Lower Tier Provider to procure and maintain insurance during the term of the corresponding subcontract, or for such longer period as required by this Agreement. A Lower Tier Provider's insurance shall provide coverage at least as broad as the coverage described in Section IX herein and shall have coverage limits not less than the limits set forth in Section IX herein.

2. Each Lower Tier Provider's insurance coverage shall comply with all of the following:

a. Any and all deductibles and self-insured retentions must be declared to and approved by the DISTRICT. At its option, DISTRICT may require that a Lower Tier Provider, at no cost to the DISTRICT: (i) cause its insurer to reduce, to levels specified by the DISTRICT, or eliminate such deductibles or self-insured retentions as pertain to DISTRICT, and its officers and employees; or (ii)

procure and provide to the DISTRICT a bond or other financial instrument guaranteeing payment of the deductible or self-insured retention, together with any losses and related investigations, claim administration, and defense expenses.

b. The general liability and automobile liability policies are to provide, or be endorsed to provide, as follows:

1. The DISTRICT, the Governing Board of the Center Joint Unified School DISTRICT ("DISTRICT Board") and each individual member thereof, and the DISTRICT's other officers, employees, contractors, subcontractors, volunteers, agents, and other representatives (each, not including the DISTRICT, a "DISTRICT Representative") are to be named as additional insureds with respect to all liability arising out of activities by or on behalf of the Lower Tier Provider in connection with the ELOP Services. The coverage shall contain no special limitations on the scope of protection afforded to any of the DISTRICT Representatives.

2. For any and all claims related to the services performed under this Agreement, a Lower Tier Provider's insurance coverage shall be primary insurance as it pertains to DISTRICT, and its officers and employees, shall be excess of Lower Tier Provider's insurance and shall not contribute with it.

3. Any failure to comply with reporting or other provisions of the policies including breaches of warranties shall not affect coverage provided to DISTRICT or any of its officers or employees.

4. A Lower Tier Provider's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.

5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be suspended, voided, canceled by either party, reduced in coverage or in limits except after thirty (30) days prior written notice by certified mail, return receipt requested, to DISTRICT.

c. Insurance is to be placed with insurers admitted by the State of California and with a current A.M. Best's rating of no less that A:VII, unless otherwise acceptable to DISTRICT.

d. Each Lower Teir Provider shall furnish DISTRICT with original endorsements effecting coverage required by this clause and a declarations page for each policy. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. The endorsements are to be on forms provided by DISTRICT. All endorsements are to be received and approved by DISTRICT before work commences. As an alternative to DISTRICT's forms, a Lower Tier Provider's insurer may provide complete, certified copies of all required insurance policies, including endorsements affecting the coverage required by

this Agreement. All Certificates of Insurance shall reference DISTRICT's contract number. Notwithstanding the last sentence of Subsection XV.B.1 herein, if the SRPD enters into subcontracts for the provision of transportation services, SRPD shall ensure in each case that the subcontract requires the Lower Tier Provider to procure and maintain general liability and vehicle insurance with per-occurrence limits of at least $2,000,000.

2026–27 LCAP Federal Addendum Certification

CDE Program Contact:
Local Agency Systems Support Office, LCAPAddendum@cde.ca.gov, 916-323-5233

Initial Application

To receive initial funding under the Every Student Succeeds Act (ESSA), a local educational agency (LEA) must have a plan approved by the State Educational Agency on file with the State. Within California, LEAs that apply for ESSA funds for the first time are required to complete the Local Control and Accountability Plan (LCAP), the LCAP Federal Addendum Template (Addendum), and the Consolidated Application (ConApp). The LCAP, in conjunction with the Addendum and the ConApp, serve to meet the requirements of the ESSA LEA Plan.

In order to initially apply for funds, the LEA must certify that the current LCAP has been approved by the local governing board or governing body of the LEA. As part of this certification, the LEA agrees to submit the LCAP Federal Addendum, that has been approved by the local governing board or governing body of the LEA, to the California Department of Education (CDE) and acknowledges that the LEA agrees to work with the CDE to ensure that the Addendum addresses all required provisions of the ESSA programs for which they are applying for federal education funds.

Returning Application

If the LEA certified a prior year LCAP Federal Addendum Certification data collection form in the Consolidated Application and Reporting System, then the LEA may use in this form the same original approval or adoption date used in the prior year form.

If CONSULTANT's work involves the in-plant inspection of relocatable buildings that are being manufactured for placement on the PROJECT site, CONSULTANT shall obtain the Project Inspection Cards from the DSA or the Architect/Engineer, as applicable, that are needed for the in-plant inspection of such relocatable building(s). The CONSULTANT shall complete the Project Inspection Cards during the in-plant completion of the relocatable building(s) as required by Title 24, the DSA 152 Manual, PR 13-01 and this AGREEMENT. The Consultant must provide the original Project Inspection Cards that are used for the in-plant inspection of the PROJECT's relocatable buildings to the Project Inspector at the time such relocatable buildings are delivered to the PROJECT site.

The CONSULTANT shall keep the Project Inspector, the Architect/Engineer, the Structural Engineer and the DISTRICT informed of all special inspections, testing and/or PROJECT related activities being performed by the CONSULTANT in order to ensure that all testing and special inspections required for the completion of the PROJECT are performed timely and satisfactorily. The CONSULTANT shall keep the Project Inspector, Architect/Engineer, Structural Engineer and the DISTRICT thoroughly informed as to the progress of the work by submitting detailed daily reports, in writing, to the Project Inspector which outline the work inspected and/or tested. The CONSULTANT shall submit the detailed daily reports to the Project Inspector on the same day the inspections or by the following day by latest, testing and/or PROJECT related activities are performed and shall provide the Architect/Engineer, Structural Engineer and the DISTRICT with a copy of such reports. The CONSULTANT shall also submit daily special inspection reports in a timely manner to the Project Inspector so as not to delay the PROJECT. However, in no event shall the CONSULTANT submit a special inspection report to the Project Inspector later than fourteen (14) days from the date the special inspections are performed. The CONSULTANT shall provide a copy of each daily special

Failure to comply with these requirements shall be deemed a material breach of this AGREEMENT and grounds for termination for cause. If applicable, the CONSULTANT and all subcontractors shall furnish certified payroll records as required pursuant Labor Code section 1776 directly to the Labor Commissioner in accordance with Labor Code section 1771.4 on at least on a monthly basis (or more frequently if required by the DISTRICT or the Labor Commissioner) and in a format prescribed by the Labor Commissioner. Monitoring and enforcement of the prevailing wage laws and related requirements will be performed by the Labor Commissioner/ Department of Labor Standards Enforcement (DLSE).

ARTICLE III
TERMINATION

1. This AGREEMENT may be terminated by either PARTY upon fourteen (14) days written notice to the other PARTY in the event of a substantial failure of performance by such other PARTY, including insolvency of CONSULTANT; or if the DISTRICT should decide to abandon or indefinitely postpone the PROJECT.

2. In the event of a termination based upon abandonment or postponement by DISTRICT, the DISTRICT shall pay to the CONSULTANT for all services performed and all expenses incurred under this AGREEMENT supported by documentary evidence, including payroll records, and expense reports up until the date of the abandonment or postponement plus any sums due the CONSULTANT for Board approved extra services. In ascertaining the services actually rendered hereunder up to the date of termination of this AGREEMENT, consideration shall be given to both completed work and work in process of completion and to complete and incomplete drawings, reports and/or other documents whether delivered to the DISTRICT or in the possession of the CONSULTANT.

3. In the event a termination for cause is determined to have been made wrongfully or without cause, then the termination shall be treated as a termination for convenience in accordance with Article III, Section 4 below, and CONSULTANT shall have no greater rights than it would have had if a termination for convenience had been effected in the first instance. No other loss, cost, damage, expense or liability may be claimed, requested or recovered by CONSULTANT.

4. This AGREEMENT may only be terminated without cause by the DISTRICT upon fourteen (14) days written notice to the CONSULTANT. In the event of a termination without cause, the DISTRICT shall pay to the CONSULTANT for all services performed and all expenses incurred under this AGREEMENT supported by documentary evidence, including payroll records, and expense reports up until the date of notice of termination plus any sums due the CONSULTANT for Board approved extra services.

5. In the event the CONSULTANT is terminated, with or without cause, the CONSULTANT shall personally provide all the original Project Inspection Cards prepared or obtained by the CONSULTANT in connection with the PROJECT to the assuming DSA inspector or the DSA as directed by the DISTRICT. All original Project Inspection Cards must be provided to the DSA assuming inspector or the DSA, as applicable, within 48 hours of the effective date of the CONSULTANT's termination. Under no circumstances shall the CONSULTANT withhold any original Project Inspection Cards related to the PROJECT upon the CONSULTANT's termination. The CONSULTANT shall be responsible for any delays on the PROJECT that arise out of the CONSULTANT's failure to provide the original Project Inspection Cards to the assuming DSA inspector or the DSA as directed by the DISTRICT in accordance with this section. Upon the effective date of the CONSULTANT's termination, the CONSULTANT shall provide copies of all current Project Inspection Cards in the CONSULTANT's Project File to the DISTRICT along with any other DISTRICT PROPERTY as further described in Article IV below.

6. In the event of a dispute between the PARTIES as to performance of the work or the interpretation of this AGREEMENT, or payment or nonpayment for work performed or not performed, the PARTIES shall attempt to resolve the dispute. Pending resolution of this dispute, CONSULTANT agrees to continue the work diligently to completion; provided that DISTRICT continues to pay all undisputed amounts as set forth herein. If the dispute is not resolved, CONSULTANT agrees it will neither rescind the AGREEMENT nor stop the progress of the work, but CONSULTANT's sole remedy shall be to submit such controversy to determination by a court having competent jurisdiction of the dispute. The PARTIES may agree in writing to submit any dispute between the PARTIES to arbitration.

7. THE PARTIES UNDERSTAND AND AGREE THAT ARTICLE III OF THIS AGREEMENT SHALL GOVERN ALL TERMINATION RIGHTS AND PROCEDURES BETWEEN THE PARTIES. ANY TERMINATION PROVISION THAT IS ATTACHED TO THIS AGREEMENT AS AN EXHIBIT SHALL BE VOID AND UNENFORCEABLE BETWEEN THE PARTIES.

ARTICLE IV
REPORTS AND/OR OTHER DOCUMENTS

1. The Project Inspection Cards, reports and/or other documents that are prepared, reproduced, maintained and/or managed by the CONSULTANT or CONSULTANT's consultants in accordance with this AGREEMENT, shall be and remain the property of the DISTRICT (hereinafter the "PROPERTY") upon receipt of final payment. The DISTRICT may provide the CONSULTANT with a written request for the return of its PROPERTY at any time. Upon CONSULTANT's receipt of the DISTRICT's written request, CONSULTANT shall return the requested PROPERTY to the DISTRICT within seven (7) calendar days; provided, however, that CONSULTANT may retain one copy of its work product for its internal record-keeping purposes. CONSULTANT is not liable for any unauthorized reuse or modification of its work product.

ARTICLE V
ACCOUNTING RECORDS OF THE CONSULTANT

1. Records of the CONSULTANT's direct personnel and reimbursable expenses pertaining to any extra services provided by the CONSULTANT, which are in addition to those services already required by this AGREEMENT, and any records of accounts between the DISTRICT and CONSULTANT shall be kept on a generally recognized accounting basis and shall be available to the DISTRICT or DISTRICT's authorized representative at mutually convenient times.

ARTICLE VI
COMPENSATION TO THE CONSULTANT

1. The DISTRICT shall compensate the CONSULTANT as follows:

   a. The DISTRICT agrees to pay the CONSULTANT on a Time and Materials basis in accordance with the CONSULTANT's estimate dated April 29, 2026 and the Schedule of Fees and Services including the Basis of Charges attached therein as EXHIBIT "A", for performing the basic services required by this AGREEMENT subject to the limitations set forth herein this Article VI, Section 1(a). In no event shall the CONSULTANT's compensation exceed **TWENTY-FOUR THOUSAND NINE HUNDRED FIFTEEN DOLLARS AND NO CENTS ($24,915.00)** for performing all the basic services detailed in Article II and EXHIBIT "A" without the prior written approval of the DISTRICT. CONSULTANT shall invoice costs monthly for the services provided pursuant to this AGREEMENT from the time the CONSULTANT begins work on the PROJECT. All costs must be supported by an invoice, receipt, or other acceptable documentation. The DISTRICT will pay CONSULTANT no later than thirty days from receipt of CONSULTANT's invoice.

b. Invoices requesting payment for Additional Services performed in accordance with Article VII below must reflect the compensation approved by the DISTRICT and include a copy of the DISTRICT's written authorization. The DISTRICT's prior written authorization is an express condition precedent to any payment by the DISTRICT for Additional Services and no claim by the CONSULTANT for additional compensation related to Additional Services shall be valid absent such prior written approval by the DISTRICT to proceed with such Additional Services as required by Article VII.

ARTICLE VII
ADDITIONAL CONSULTANT SERVICES

1. CONSULTANT shall notify the DISTRICT in writing of the need for additional services required due to circumstances beyond the CONSULTANT's reasonable control. CONSULTANT shall obtain written authorization from the DISTRICT before rendering any additional services. The DISTRICT may also require CONSULTANT to perform additional services which are, in the DISTRICT's discretion, necessary. Compensation for all additional services shall be negotiated and approved in writing by the DISTRICT before CONSULTANT performs such additional services. CONSULTANT shall not be entitled to any compensation for performing additional services that are not previously approved by the DISTRICT in writing.

ARTICLE VIII
MISCELLANEOUS

1. To the fullest extent permitted by law, CONSULTANT agrees to indemnify, and hold DISTRICT entirely harmless from all liability to the extent arising out of:

a. Workers Compensation and Employers Liability: Any and all claims under Workers' Compensation acts and other employee benefit acts with respect to CONSULTANT's employees or CONSULTANT's subcontractor's employees arising out of CONSULTANT's work under this AGREEMENT; and

b. General Liability: Liability for damages caused by CONSULTANT'S negligence for (1) death or bodily injury to person; (2) injury to, loss or theft of property; (3) any failure or alleged failure to comply with any provision of law or (4) any other loss, damage or expense arising under either (1), (2), or (3) above, sustained by the CONSULTANT or the DISTRICT, or any person, firm or corporation employed by the CONSULTANT upon or in connection with the PROJECT, except for liability resulting from the negligence, or willful misconduct of the DISTRICT, its officers or employees;

c. Professional Liability: Any loss, injury to or death of persons or damage to property caused by the negligence of the CONSULTANT, or any person, firm or corporation employed by the CONSULTANT, either directly or by independent

contract, including all damages due to loss or theft, sustained by any person, firm or corporation including the DISTRICT, arising out of any negligent performance of the CONSULTANT related to this AGREEMENT, including injury or damage either on or off DISTRICT property; but not for any loss, injury, death or damages caused by the negligence, or willful misconduct of the DISTRICT, its officers, or employees.

d. The CONSULTANT, at its own expense, cost, and risk, shall defend any and all claims, actions, suits, or other proceedings, arising out of Article VIII, Sections 1(a) and (b) above, that may be brought or instituted against the DISTRICT, its officers, or employees, on any such claim or liability, and shall pay or satisfy any judgment that may be rendered against the DISTRICT, its officers, or employees in any action, suit or other proceedings as a result thereof. With regard to the CONSULTANT's obligation to indemnify for acts of professional negligence as set forth in Article VIII, Section 1(c) above, such obligation does not include the obligation to provide defense counsel or to pay for the defense of actions or proceedings brought against the DISTRICT, but rather to reimburse the DISTRICT for reasonable attorney's fees and costs incurred by the DISTRICT in defending such actions or proceedings.

e. THE PARTIES UNDERSTAND AND AGREE THAT ARTICLE VIII, SECTION 1 OF THIS AGREEMENT SHALL BE THE SOLE INDEMNITY, AS DEFINED BY CALIFORNIA CIVIL CODE § 2772, GOVERNING THIS AGREEMENT. ANY OTHER INDEMNITY THAT MAY BE ATTACHED TO THIS AGREEMENT AS AN EXHIBIT SHALL BE VOID AND UNENFORCEABLE BETWEEN THE PARTIES.

f. ANY ATTEMPT TO LIMIT THE CONSULTANT'S LIABILITY TO THE DISTRICT IN AN ATTACHED EXHIBIT SHALL BE VOID AND UNENFORCEABLE BETWEEN THE DISTRICT AND THE CONSULTANT.

In the event that CONSULTANT subcontracts any portion of CONSULTANT's duties, CONSULTANT shall require any such subcontractor to purchase and maintain insurance coverage as provided in this subparagraph. Failure to maintain professional liability insurance is a material breach of this AGREEMENT and grounds for immediate termination.

d. Each policy of insurance required in Article VIII, Section 2(b) above shall name DISTRICT and its officers, agents and employees as additional insureds; shall state that, with respect to the operations of CONSULTANT hereunder, such policy is primary and any insurance carried by DISTRICT is excess and non-contributory with such primary insurance; shall state that not less than thirty (30) days' written notice shall be given to DISTRICT prior to cancellation; and, shall waive all rights of subrogation. CONSULTANT shall notify DISTRICT in the event of material change in, or failure to renew, each policy. Prior to commencing work, CONSULTANT shall deliver to DISTRICT certificates of insurance as evidence of compliance with the requirements herein. In the event CONSULTANT fails to secure or maintain any policy of insurance required hereby, DISTRICT may, at its sole discretion, secure such policy of insurance in the name of and for the account of CONSULTANT, and in such event, CONSULTANT shall reimburse DISTRICT upon demand for the cost thereof.

3. CONSULTANT, in the performance of this AGREEMENT, shall be and act as an independent contractor. 5. The DISTRICT and CONSULTANT, respectively, bind themselves, their partners, officers, successors, assigns and legal representatives to the other PARTY to this AGREEMENT with respect to the terms of this AGREEMENT. CONSULTANT shall not assign this AGREEMENT.

6. This AGREEMENT shall be governed by the laws of the State of California.

7. THE ATTACHMENT OF ANY SUCH DOCUMENT TO THIS AGREEMENT AS EXHIBIT "A" SHALL NOT BE INTERPRETED OR CONSTRUED TO INCORPORATE SUCH TERMS INTO THIS AGREEMENT UNLESS THE DISTRICT APPROVES OF SUCH INCORPORATION IN A SEPARATE WRITING SIGNED BY THE DISTRICT. ANY REFERENCE TO SUCH BOILERPLATE TERMS AND CONDITIONS IN THE PROPOSAL OR QUOTE SUBMITTED BY THE CONSULTANT SHALL BE NULL AND VOID AND HAVE NO EFFECT UPON THIS AGREEMENT. PROPOSALS, QUOTES, STATEMENT OF QUALIFICATIONS AND OTHER SIMILAR DOCUMENTS PREPARED BY THE CONSULTANT MAY BE INCORPORATED INTO THIS AGREEMENT AS EXHIBIT "A" BUT SUCH INCORPORATION SHALL BE STRICTLY LIMITED TO THOSE PARTS DESCRIBING THE CONSULTANT'S SCOPE OF WORK, RATE AND PRICE SCHEDULE AND QUALIFICATIONS.

This AGREEMENT represents the entire AGREEMENT between the DISTRICT and CONSULTANT and supersedes all prior negotiations, representations or agreements, either written or oral. This AGREEMENT may be amended or modified only by an agreement in writing signed by both the DISTRICT and the CONSULTANT.

9. Time is of the essence with respect to all provisions of this AGREEMENT.

10. If either PARTY becomes involved in litigation arising out of this AGREEMENT or the performance thereof, each PARTY shall bear its own litigation costs and expenses, including reasonable attorney's fees.

11. All exhibits referenced herein and attached hereto shall be deemed incorporated into and made a part of this AGREEMENT by each reference as though fully set forth in each instance in the text hereof with the exception of those documents or provisions that are subject to the exclusions specifically set forth in this AGREEMENT.

12. In accordance with California Education Code Section 17604, this AGREEMENT is not a valid or enforceable obligation against the DISTRICT until approved or ratified by motion of the Governing Board of the DISTRICT duly passed and adopted.

13. This AGREEMENT shall be liberally construed to effectuate the intention of the PARTIES with respect to the transaction described herein. In determining the meaning of, or resolving any ambiguity with respect to any word, phrase or provision of this AGREEMENT, neither this AGREEMENT nor any uncertainty or ambiguity herein will be construed or resolved against either PARTY (including the PARTY primarily responsible for drafting and preparation of this AGREEMENT), under any rule of construction or otherwise, it being expressly understood and agreed that the PARTIES have participated equally or have had equal opportunity to participate in the drafting hereof.

14. This AGREEMENT may be executed in any number of counterparts, each of which shall be deemed an original, and the counterparts shall constitute one and the same instrument, all of which shall be sufficient evidence of this AGREEMENT.

15. CONSULTANT will perform its services using that degree of skill and care ordinarily exercised under similar conditions by members of CONSULTANT's profession practicing in the same or similar locality at the time of performance.

16. CONSULTANT shall not be responsible for: (i) construction means and methods, techniques, sequences, procedures, or safety precautions, and programs in connection with the Project; (ii) the failure of any third party not under contract to CONSULTANT, to fulfill their respective contractual responsibilities to the DISTRICT or to comply with federal, state, or local laws, regulations and codes; or (iii) procuring permits, certificates, and license required for any construction. CONSULTANT shall not have the authority to direct, control or stop construction of contractors' work.

17. Consequential Damages. Neither party shall be liable to the other for loss of profits or revenue, loss of use or opportunity; loss of good will; cost of substitute facilities, goods, or services; cost of capital; or for any special, consequential, indirect, punitive, or exemplary damages.

The PARTIES, through their authorized representatives, have executed this AGREEMENT as of the day and year first written above.

EXHIBIT C
Compensation

The fee for our services, including all field work, engineering review and report preparation will be based upon the unit costs prepared for the project as shown below. Based on these rates, information provided, and noted assumptions, we recommend a total allowance of **$24,915** for the proposed services on this project.

The time required for construction materials testing on the project will be directly related to the schedule and performance of the various contractors on the site and amount of trips are made to the site. As a result, total fees for our services will be based upon the applicable unit rates. The below rates will be invoiced with the total estimated costs above:

Special Inspector (Soils, Concrete, Rebar, Post Installed Anchors) - $140/hr.
Structural Steel Inspectors (Welding, High Strength Bolting) - $160/hr.
DSA Masonry Inspector - $160/hr.
PM/PE Review/Admin Support - $100/each
Trip Charge - $30/each
Compression Test on Concrete - $40/each
ASTM D1557 Proctor (4" & 6") - $350/each
Compression Testing of Masonry Units (8"x8"x16") - $215/each

Project Manager - $185/hr.
DSA Interim/Final Verified Reports - $400/each

The above estimate for services is based upon our understanding of the project and our experience with similar projects. The total fee could vary depending on the actual construction schedule and number of trips made to the project site. Once a construction schedule is available for our review, we would be happy to revisit the above cost estimate.

Work performed in addition to the anticipated items will be billed in accordance with Terracon's standard fee schedule. Requirements relative to invoicing must be provided prior to the start of work so that payments to Terracon can be made in the appropriate time frames discussed below.

AGREEMENT FOR SERVICES

Reference Number: PNB261121
Date of Agreement: 04/29/2026

Time will be charged in 4 & 8-hour increments with a 4-hour minimum for field inspections and observation and shall be billed from portal to portal. Structural Steel & Masonry Inspections, weekends and holidays will be charged in 4 & 8-hour increments. Overtime and double time, if any, will be applied per California Labor law.

Terracon can only provide the services discussed herein when properly scheduled. Our services will be provided only at the specific starting times scheduled by the contractor. Failure on the contractor's part to notify Terracon of the construction activities which require our involvement could jeopardize our ability to provide the necessary materials testing certification upon completion of the improvements.

The following assumptions were used in preparing this proposal:

- Our fees for trips to the site will be charged portal to portal;
- In accordance with California Prevailing Wage Law and Federal Davis Bacon Law, a surcharge of $35.00 may be applied per hour for publicly funded projects. A wage differential of $45.00 per hour may be charged for hours worked before 4 am and after 2 pm. These rates may vary depending on where and what type of work will be performed. The above field rates do account for prevailing wage;
- We have assumed that contractors on the site will work a single shift 5-day per week schedule;
- This projects are located approximately 15 miles from our nearest office and laboratory. Average drive time is 30 minutes each way;
- The durations estimated in this proposal are based on our review of the drawings provided and should be verified by the construction team;
- An out-of-scope charge of $140/hour will be applied for all stand-by time and/or time spent on activities which were not cancelled with prior timely notice (within 8 working hours of requested field inspection);
- Staff time, laboratory testing and extra trips required for re-testing and/or re-inspection will be marked on the monthly invoices and be considered out-of-scope items;
- Time will be charged in 4- and 8-hour increments. Time worked more than 8 hours per day and Saturdays will be charged at 1.5 times the hourly rate. Time worked on Holidays, Sundays and for Saturdays after 8 hours, or weekdays after 12 hours will be charged at 2 times the hourly rate. Night shifts will be charged at 1.5 times the hourly rate, 6 pm to 4 am. Overtime and double time rates will be applied per California Labor law;
- **Inspection may be scheduled by calling our dispatch line at (209) 263-0593 or sending an email to noa-scheduling@terracon.com (please cc ryan.king@terracon.com as well). This goes to our scheduler who will confirm the inspection. Our scheduler will need the project info/location, type of inspection to be performed, start time, duration, and other job-specific information such as special PPE requirements. Inspection requests should be emailed/called in at least 24 hours prior to the inspection or by 12:00pm the day before the inspection is needed, whichever is earlier;**
- Terracon's services specifically exclude job site safety responsibility;
- If Terracon engages a sub-contractor for services, services will be provided at cost plus 20%.
- Our services do not relieve any contractor/subcontractor from complying with project plans and specifications; and;
- Invoices for the project will be submitted on a monthly basis.
- This proposal does not include in-plant inspection for fabrication of the Modular Building.

We appreciate the opportunity to provide this proposal and look forward to working with you. Please give us a call if you have any questions or comments regarding this proposal.

Sincerely,

AGREEMENT FORM

THIS AGREEMENT, entered into this 17 day of June, 2026 in the County of Sacramento of the State of California, by and between the **Center Joint Unified School District,** hereinafter called the "District" or the "CJUSD", and PRIDEX Construction Group Inc., hereinafter called the "Contractor".

WITNESSETH that the District and the Contractor for the consideration stated herein agree as follows:

ARTICLE I - SCOPE OF WORK: The Contractor shall furnish all labor, materials, equipment, tools, and utility and transportation services, and perform and complete all work required in connection with the Project No. 26-03: **Oak Hill Elementary School New Trash Enclosure** in strict accordance with the Contract Documents enumerated in Article 7 below. The Contractor shall be liable to the CJUSD for any damages arising as a result of a failure to comply with that obligation, and the Contractor shall not be excused with respect to any failure to so comply by an act or omission of the Architect, Engineer, Inspector, Division of the State Architect (DSA), or representative of any of them, unless such act or omission actually prevents the Contractor from fully complying with the Contract Documents and the Contractor protests, in accordance with the Contract Documents, that the act or omission is preventing the Contractor from fully complying with the Contract Documents. Such protest shall not be effective unless reduced to writing and filed with the CJUSD Facilities office within seven (7) days of the date of occurrence of such act or omission preventing the Contractor from fully complying with the Contract Documents.

ARTICLE 2 - TIME OF COMPLETION: The District may give notice to proceed within ninety (90) days of the award of the bid by the District. Once the Contractor has received a notice to proceed, the Contractor shall reach Substantial Completion (See Article 1.1.46) of the Work within Forty (40) calendar days from receipt of the Notice to Proceed. This shall be called Contract Time. (See Article 8.1.1). It is expressly understood that time is of the essence.

Contractor has thoroughly studied the Project and has satisfied itself that the time period for this Project is adequate for the timely and proper completion of the Project within each milestone and within the Contract time. Further, Contractor has included in the analysis of the time required for this Project, items set forth in General Conditions Article 8.3.2.1, Submittal Schedules, Rain Day Float, and Governmental Delay Float.

In the event that the District desires to postpone giving the notice to proceed beyond this ninety (90) day period, it is expressly understood that with reasonable notice to the Contractor, giving the notice to proceed may be postponed by the District. It is further expressly understood by the Contractor, that the Contractor shall not be entitled to any claim of additional compensation as a result of the District's postponement of giving the notice to proceed.

If the Contractor believes that a postponement will cause hardship to it, the Contractor may terminate the Contract with written notice to the District within ten (10) days after receipt by the Contractor of the District's notice of postponement. It is further understood by the Contractor that in the event that the Contractor terminates the Contract as a result of postponement by the District, the District shall only be obligated to pay the Contractor for the work performed by the Contractor at the time of notification of postponement. Should the Contractor terminate the Contract as a result of a notice of postponement, the CJUSD shall have the authority to award the Contract to the next lowest responsible bidder.

ARTICLE 3 - LIQUIDATED DAMAGES: It being impracticable and infeasible to determine the amount of actual damage, it is agreed that the Contractor will pay the District the sum of **Five Hundred Dollars ($500) per calendar day** for each and every day of delay beyond the Contract Time set forth in Article 2 of this Agreement as liquidated damages and not as a penalty or forfeiture. In the event Liquidated Damages are not paid, the Contractor further agrees that the District may deduct such amount thereof from any money due or that may become due the Contractor under the Contract (See Article 9.6 and 2.2 of the General Conditions).

ARTICLE 4 - CONTRACT PRICE: The District shall pay to the Contractor as full consideration for the faithful performance of the Contract, subject to any additions or deductions as provided in the Contract Documents, the sum of ONE HUNDRED SEVENTY-FIVE THOUSAND DOLLARS ($ 175.000.00), said sum being the total amount stipulated in the Bid Contractor submitted. Payment shall be made as set forth in the General Conditions.

Should any Change Order result in an increase in the Contract Price, the cost of such Change Order shall be agreed to in advance by the Contractor and the District, subject to the monetary limitations set forth in Public Contract Code Section 20118.4. In the event that the Contractor proceeds with a Change in work without an agreement between the District and Contractor regarding the cost of a Change Order, the Contractor waives any Claim of additional compensation for such additional work.

~ EPA funds cannot be used for the salaries or benefits of administrators or any other administrative costs.
~ Each year, the local agency must publish on its website an accounting of how much money was received from the EPA and how the funds were expended.

MEETING DATE: 06/17/2026

TO: Center Joint Unified School District Board of Trustees

FROM: Scott A. Loehr, Superintendent — Initials: SL

SUBJECT: Resolution No. 27/2025-26: Resolution of the Board of Trustees of Center Joint Unified School District Ordering an Election to Authorize the Issuance of Not to Exceed $197,000,000 General Obligation Bonds, Establishing Specifications of the Election Order, and Requesting Consolidation with Other Elections Occurring On November 3, 2026

☒ **Action Item** ☐ **Information Item** **Attached Pages** 15

Background/Services to be Rendered:

The resolution before the Board calls an election under the provisions of Proposition 39 within the District for the purpose of approving school bonds in an aggregate amount not to exceed $197 million, requests the County of Sacramento Registrar of Voters and the County of Placer Registrar of Voters (the "Registrars") to conduct the election on behalf of the District, submits a ballot measure, project list and form of Tax Rate Statement, and authorizes the preparation of ballot arguments, all to be included in the ballot pamphlet.

Under State law, the Board has the authority to call elections for the approval of the District's general obligation bonds. The Registrars will conduct the election on behalf of the District and will publish all required notices, as well as the ballot pamphlet. This resolution meets the requirements of law as to the determinations of the Board, the 75-word ballot measure and the list of specific projects intended to be undertaken or completed with the proceeds of the bonds. The Resolution includes by reference Exhibit A (including the full bond measure and the related project list), and Exhibit B (the 75-word ballot measure) and Exhibit C (the Tax Rate Statement). The Tax Rate Statement is required under the Elections Code and describes the estimated tax rate that would result from the issuance of the bonds. The Resolution authorizes, but does not require, any member of the Board to draft and/or execute an argument in favor of the ballot measure.

The election will be called under the provisions of Proposition 39 found at Article XIII A of the California Constitution and Section 15264 *et seq.* of the California Education Code. Proposition 39 permits the approval of the ballot measure with a vote of at least 55% of the voting electors and requires the appointment of a citizens' oversight committee and annual financial and performance audits. Under Proposition 39, at least four (4) members of the Board must vote in favor of calling the election. In the event the Resolution is adopted, original executed copies of the Resolution and the Tax Rate Statement must be delivered to the Placer County Registrar and the Placer County Board of Supervisors no later 27/2025-26than July 1, 2026, and the Sacramento County Registrar and the Sacramento County Board of Supervisors no later than August 7, 2026.

All of the Reimbursable Expenditures covered by this Section were paid not earlier than 60 days prior to the date of this Resolution or constitute preliminary expenditures within the meaning of Section 1.150-2 of the Treasury Regulations. The Board intends to allocate within 30 days after the date of issue of the Obligations, the proceeds therefrom to reimburse the District for the Reimbursable Expenditures. FULL TEXT BALLOT PROPOSITION
OF THE CENTER JOINT UNIFIED SCHOOL DISTRICT
BOND MEASURE ELECTION FOR NOVEMBER 3, 2026

"To upgrade local schools; improve school and student safety; replace leaky roofs and decaying pipes; replace failing heating and cooling systems; and update hands-on science and early job training classrooms and accommodate growing enrollment, shall Center Joint Unified School District's measure authorizing $197 million in bonds, at legal rates, levying approximately $60 per $100,000 assessed value, (averaging $12,300,000 annually) while bonds are outstanding, with citizen oversight and audits, all funds staying local and none for administrator salaries, be adopted?"

PROJECT LIST

The Board of Trustees of the Center Joint Unified School District (the "District") certifies that it has evaluated the District's urgent and critical school needs, including school and student safety issues, enrollment trends, class size reduction, overcrowding, energy efficiency and computer technology, seismic safety requirements, and aging, outdated or deteriorating school buildings in developing the scope of projects to be funded. The Board of Trustees will prioritize the key health and safety and sustainability needs so that the most critical school site needs are addressed. The District conducted an evaluation at all school sites and received public input in developing the scope of school projects to be funded. The exact size, configuration and location of each project will be determined by the Board of Trustees based on the needs of the District.

The Board of Trustees has made the following key findings:

- The District is committed to providing quality education to its students, from TK/Kindergarten through 12th grade at its eight school sites.

- Dedicated teachers and staff strive to deliver rigorous academic programs, personalized instruction, and a variety of extracurricular activities to serve the diverse communities and talents of the students.

- District schools are aging and need repairs, such as replacing aging plumbing and electrical systems, repairing leaky roofs, updating HVAC systems and helping meet current school safety and academic standards.

- The District also serves a community in one of California's fastest growing regions and is experiencing significant growth in student enrollment, and needs to construct new schools, classrooms, and district facilities to serve these students.

- A local funding source, such as a school improvement bond measure, could enable the District to provide new and upgraded school facilities for its present and future students.

- A bond measure would provide funds for essential improvements and repairs, such as improving school and student safety and security, replacing portable classrooms that have exceeded their usable lifespans, updating hands-on science and early job training classrooms, and helping prepare the District for the growing student population.

- The District conducted and adopted a comprehensive Facilities Master Plan that identifies the updates needed at each school site, meets the District's goals for supporting current academic standards, and addresses specific priorities at individual school sites.

- Funding from the State of California is not sufficient to serve the District's current and growing population, and the limited State dollars available for facility upgrades typically take years and require local matching funds that could be provided by a local bond measure.

- This school bond improvement measure could qualify our schools for millions in State matching funds that would otherwise go to other school districts.

- This bond measure includes strict accountability, including the appointment of an independent citizens' oversight committee and annual audits to ensure all funds are spent locally as promised.

In approving this Project List, the Board of Trustees determines that the District should:

(i) Upgrade classrooms and other support facilities to support the District's academic programs, including math, science, reading and writing.

(ii) Qualify for State matching grant funds,

(iv) Purchase school facilities as needed, or those currently being leased,

(iii) Adhere to specific **FISCAL ACCOUNTABILITY** safeguards such as:

(a) All expenditures will be subject to annual independent financial and performance audits.

(b) All funds will be subject to <u>local control</u> and provide improvements at District facilities and schools.

(c) No funds will be used for administrators' salaries and pensions.

(d) An independent citizens' oversight committee will be appointed to ensure that all funds are spent only as authorized.

The Project List includes the following types of projects:

- Make repairs to protect the community's long-term investment in District facilities, including fixing leaky roofs, decaying water and sewer pipelines, failing heating,

ventilation and air conditioning systems, repairing damaged pavement, and replacing substandard security gates;

- Modernize or reconstruct existing permanent classrooms at our oldest schools or construct new classrooms, schools, and other district facilities, including labs, school support facilities, cafeterias, multipurpose rooms, and libraries;

- Replace portable classrooms and older schools with new permanent facilities;

- Construct, equip and furnish school facilities as permitted, including new school facilities;

- Reconfigure, renovate and modernize classroom to accommodate modern classroom technology, including upgraded furnishings, fixtures, and equipment designed to transform the functionality of learning spaces;

- Update hands-on science and early job training classrooms, including career technical education facilities;

- Construct, renovate, remodel, equip and furnish student support facilities, including but not limited to libraries and student resource centers;

- Provide infrastructure and technology to better serve students in the digital age and increase their academic achievement;

- Construct, renovate, remodel, equip and furnish improvements to play areas and restrooms, including to ensure access for students and staff with disabilities; and

- Address unforeseen conditions revealed during construction/modernization activities (e.g., plumbing or gas line breaks, dry rot, seismic or structural concerns, removal of asbestos, etc.) and perform necessary sitework in connection with new construction or renovation, and fund deferred maintenance as permitted by law.

In addition to the listed projects stated above, bond proceeds may also be spent on the acquisition of a variety of instructional, maintenance and operational equipment, the construction of new schools, new classrooms and other new school facilities and District facilities, reconstruction, rehabilitation and repair of existing classrooms, school facilities and District facilities, all of which may include, but not be limited to, some or all of the following: construction, repair and/or renovation of student and staff restrooms; installation, repair and replacement of heating, air conditioning and ventilation systems; construction, installation, repair, modernization and upgrade of facilities for energy efficiency and to reduce costs and fire risks; installation, construction, repair and replacement of worn-out and leaky roofs, ceilings, windows, walls, doors and drinking fountains, including for energy efficiency or compliance with code or State or federal law; installing and modernizing interior and exterior floor covering; painting interior and exterior of facilities; installation, repair and upgrade of interior and exterior lighting systems; installing or rehabilitating covered walkways; installation of signage, bells and clocks; installation and upgrades of wiring and electrical systems to safely accommodate computers, technology and other electrical devices and needs, including replacement

Any project herein may include construction or reconstruction of any facilities to comply with accessibility requirements under the Americans with Disabilities Act; the removal or abatement of asbestos, lead paint, mold or other hazardous materials; or improvements to meet State seismic and other structural integrity standards.

The District may construct facilities to serve students and reduce class sizes, as well as upgrading schools to provide competitive and modern learning environments and to prepare students for high school, college and careers and improve student access to instruction in science, technology, engineering, the arts and math. The upgrading of technology infrastructure and modernization of facilities includes all District facilities, including and not limited to, classrooms, labs, libraries, office and support spaces, and includes the installation, construction, upgrade and refurbishment or all necessary infrastructure, hardware and software and modern technology devices and instructional aides and devices, including but not limited to wiring and electrical systems, monitors, computers, tablets, modern projectors, portable interface devices, racks, servers, switches, routers, modules, wireless systems, sound projection, access control systems, printers, digital white boards, document projectors and cameras, videoconferencing equipment, upgraded voice-over IP, communications

systems and call managers, collaborative systems, network management software, enterprise-wide software system replacements or upgrades, cabling, wiring, fiberoptics, wi-fi capabilities, access points, and network security/firewall, media control stations, centralized storage and backup systems, uninterruptible power supplies, and other miscellaneous equipment and software, and other modern equipment conducive to a modern learning environment or to increase bandwidth and internet access.

Listed building construction, repair and rehabilitation projects and upgrades may be completed as needed. Each project is assumed to include its share of furniture, equipment, architectural, engineering, and similar planning costs, program/project management, staff training expenses and a customary contingency for unforeseen design and construction costs. It also includes the acquisition of land, payment of the costs of preparation of all facility planning, facility assessment reviews, facility master plan updates, environmental studies (including environmental investigation, remediation and monitoring) and construction documentation, acquiring and leasing of real property for school facilities or new construction, and acquiring and leasing of property for temporary housing of dislocated District activities caused by bond projects. Proceeds of the bonds may be used to fund design, engineering and program management costs, as well as to make lease payments for leases, or to purchase authorized leased facilities, and may also be used to fund the cost of issuing the bonds, certain allowable election costs, and the cost of obtaining and disseminating information, as authorized under State law. The District may acquire real property for school facilities (including the acquisition of leases of real property or leasing of such property), including the purchase of leased facilities and the refinancing of outstanding lease obligations of the District, which may include the prepayment, refunding, or exercise of purchase options for certificates of participation, lease revenue bonds, or other lease obligations or debt instruments, any of which may be currently existing or which may exist in the future.

When specific projects are included in the above list, they are presented to provide examples and are not intended to limit the generality of the broader description of authorized projects. The order in which particular projects are listed is not intended to indicate priority for funding or completion. Projects at each site will be accomplished to address the individual site deficiencies and priorities as enumerated in the District's facilities master plan and as determined by the Board of Trustees. The building construction, repair and rehabilitation projects and upgrades listed herein will be completed as needed.

The allocation of bond proceeds may be affected by the District's receipt of State matching funds and the final costs of each project. Approval of Measure ___ does not guarantee that the proposed Project or Projects within the District that are the subject of bonds under Measure __ will be funded beyond the local revenues generated by Measure __. The District's proposal for the project or projects may assume the receipt of matching state funds, which could be subject to appropriation by the Legislature or approval of a statewide bond measure. In the absence of State matching funds, which the District will aggressively pursue to reduce the District's share of the costs of the projects, the District may undertake fewer than all of the projects listed above.

Any of the projects listed herein may be completed as a joint use project in conjunction with other public education, city, county, or college institutions, including libraries, childcare centers, multipurpose rooms, gymnasiums, athletics or physical education facilities, classrooms, and facilities for business development and career technology centers, all as determined by the Board of Trustees.

The District may also pursue public-private partnerships or partnerships with nonprofit organizations or entities to complete any of the projects listed herein and reduce costs to the District, in compliance with applicable law and at the direction of the Board of Trustees.

The final cost of each project will be determined as plans are finalized, construction contracts are awarded and projects are completed. Based on the final costs of each project, certain projects described above may be delayed or may not be completed. Demolition of existing facilities and reconstruction of facilities scheduled for new construction, repair and upgrade may occur, if the Board of Trustees determines that such an approach would be more cost-effective in creating more enhanced and operationally efficient campuses. Necessary site preparation/restoration may occur in connection with new construction, renovation or remodeling, or installation or removal of relocatable classrooms, including ingress and egress, removing, replacing or installing irrigation, storm drain, and utility lines, trees and landscaping, relocating fire access roads, and acquiring any necessary easements, licenses, or rights of way to the property. Proceeds of the bonds may be used to pay or reimburse the District for the costs of District staff when performing work on or necessary and incidental to bond projects. Bond proceeds shall only be expended for the specific purposes identified herein Projects financed with bond proceeds will be subject to oversight of a professional construction/program management firm. In addition, authorized projects include reimbursements for paid project costs and paying and/or prepaying interim or previously obtained financing for the types of projects included on the project list, such as bond anticipation notes or lease financings including certificates of participation relating to facilities projects and/or equipment previously financed.

As required by the California Constitution, the proceeds from the sale of the bonds will be used only for the provision of school facilities by construction, reconstruction, rehabilitation, refinancing or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease or real property for school facilities, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

The District will conduct an annual, independent performance audit to ensure that the funds have been expended only on projects included in the Project List set forth above.

The District will conduct an annual, independent financial audit of the proceeds from the sale of the bonds until all of those proceeds have been expended on projects included in the Project List set forth above.

Pursuant to Section 15772 of the Education Code, the Board will appoint a citizens' oversight committee and conduct annual independent audits to assure that bond proceeds are spent only on projects included in the Project List set forth above and for no other purposes.

NO ADMINISTRATOR SALARIES. PROCEEDS FROM THE SALE OF THE BONDS AUTHORIZED BY THIS PROPOSITION SHALL BE USED ONLY FOR THE ACQUISITION, CONSTRUCTION, RECONSTRUCTION, REHABILITATION, OR REPLACEMENT OF DISTRICT FACILITIES, INCLUDING THE FURNISHING AND EQUIPPING OF FACILITIES, AND NOT FOR ANY OTHER PURPOSE, INCLUDING PENSIONS, TEACHER AND SCHOOL ADMINISTRATOR SALARIES AND OTHER OPERATING EXPENSES.

BY LAW, PERFORMANCE AND FINANCIAL AUDITS WILL BE PERFORMED ANNUALLY, AND ALL BOND EXPENDITURES WILL BE MONITORED BY AN INDEPENDENT CITIZENS' OVERSIGHT COMMITTEE (EDUCATION CODE SECTION 15278 ET SEQ.) TO ENSURE THAT FUNDS ARE SPENT AS PROMISED AND SPECIFIED. THE CITIZENS' OVERSIGHT COMMITTEE MUST INCLUDE, AMONG OTHERS, REPRESENTATIVES OF A BONA FIDE TAXPAYERS ASSOCIATION, A BUSINESS ORGANIZATION AND A SENIOR CITIZENS ORGANIZATION. TAX RATE STATEMENT CONCERNING MEASURE __

An election will be held in Center Joint Unified School District (the "District") on November 3, 2026, for the purpose of submitting to the electors of the District the question of issuing bonds of the District in the principal amount of $197,000,000. If such bonds are authorized and sold, the principal thereof and interest thereon will be payable from the proceeds of taxes levied on the taxable property in the District. The following information regarding tax rates is given in compliance with Section 9401 of the California Elections Code. This information is based upon the best estimates and projections presently available from official sources, upon experience within the District and other demonstrable factors.

Based upon the foregoing and projections of the assessed valuations of taxable property in the District, and assuming the entire debt service on the bonds will be paid through property taxation:

1. The best estimate from official sources of the average annual tax rate that would be required to be levied to fund the bond issue over the entire duration of the bond debt service, based on estimated assessed valuations available at the time of the filing of this statement, or on a projection based on experience within the District or other demonstrable factors, is $54.94 per $100,000 of assessed valuation of all property to be taxed. The final year in which the tax is anticipated to be collected is 2068-69.

2. The best estimate from official sources of the highest tax rate that would be required to be levied to fund the bond issue, and an estimate of the year in which that rate will apply, based on estimated assessed valuations available at the time of the filing of this statement, or on a projection based on experience within the District or other demonstrable factors, is 60.00 per $100,000 of assessed valuation of all property to be taxed and the fiscal year is 2031-32.

3. The best estimate from official sources of the total debt service, including principal of and interest on the bonds, that would be required to be repaid if all of the bonds are issued and sold under the authorization, is $516,728,015.

Attention of voters is directed to the fact that the foregoing information is based upon projections and estimates. The actual timing of sales of the bonds and the amount to be sold at any time will be governed by the needs of the District and other factors. The actual interest rates at which the bonds will be sold, which will not exceed the maximum permitted by law, will depend upon the bond market at the time of sale. The actual assessed valuations in future years will depend upon the value of property within the District as determined in the assessment and the equalization process. Assessed valuation is not the same as market price of real property. Therefore, the actual tax rates and the years in which those tax rates will be applicable may vary from those presently estimated and stated above.

2026-2027 Budget
& Multiyear Fiscal Projections

Presented to the Board of Trustees
June 10, 2026 & June 17, 2026

THE CENTER COMMITMENT

Making a Positive Difference in All That We Do

Budget Overview

Center Joint Unified School District (CJUSD) is required to adopt a budget prior to July 1 of each year to authorize the expenditure of funds. Since preparation occurs before the Legislature's final action on the state budget, and before actual expenditures are known, estimates are based on the most reasonable assumptions and recent information available.

> **IMPORTANT NOTE**
> The Governor's May Revision budget proposal is not fully reflected in this document, as the state budget is not finalized until signed by the Governor, no later than June 30. A 45-day budget update will be prepared and submitted following the Governor's signature if there are material differences to present.

CA Governor's 2026–2027 May Revision

On May 14, 2026, Governor Newsom released his final May Revision to the proposed 2026-2027 State Budget. Revenues are $16.5 billion higher than projected in January, driven largely by stronger-than-expected personal income tax collections tied to elevated capital gains realizations, particularly from growth in artificial intelligence-related sectors. The May Revision proposes a balanced budget for both 2026-27 and 2027-28, maintains substantial reserves, and reduces projected structural deficits by more than half compared to the January proposal.

Due to higher revenues, the Proposition 98 minimum guarantee increases $6.4 billion over the January proposal across the three-year budget window, reaching $127.1 billion in 2026-27. While the overall funding picture for TK-12 education is considerably improved over both the January proposal and the 2025 Budget Act, the May Revision retains the Governor’s proposal to withhold $3.9 billion in Proposition 98 funding in 2025-26 (reduced from $5.6 billion in January). The Legislature has opposed this withholding proposal, and advocacy from unions and education agencies continue. The Proposition 98 rainy day fund (Public School System Stabilization Account, or PSSSA) is projected to end 2026-27 with a balance of $10.3 billion. This balance will trigger the local 10% reserve cap for school districts in 2026-27. Center Joint Unified School District, with ADA above 2,500, is subject to this cap.

Major TK-12 Funding Provisions

LCFF Cost-of-Living Adjustment: 4.31%

The statutory COLA is 2.87 percent. The May Revision adds a discretionary 'super COLA' of 1.44 percent for a combined total of 4.31 percent and approximately $2.2 billion in additional LCFF funding statewide. The super COLA is intended to help LEAs manage rising costs, offset declining enrollment impacts, and cover the cost of a new paid pregnancy disability leave mandate.

CJUSD IMPACT
CJUSD is projected to receive an additional $875,929 which has been included in this 2026-2027 Budget.

Special Education Base Rate: Historic 43% Increase

The May Revision provides a historic increase to special education base rate funding of $2.4 billion ongoing — a 43 percent increase over the 2025 Budget Act. This brings the per-pupil base rate from $917 to $1,340 for 2026-27.

CJUSD IMPACT
CJUSD is projected to receive an additional $1,911,372 in special education funding based on 4,518.61 ADA. The Sacramento County Office of Education recommended using a base rate of $999, which was the original rate provided in the Governor's January Budget proposal. Using this lower rate results in an estimated increase of $370,526, which is the amount included in this Budget.

Student Support & Professional Development Block Grant (SSPD): $5 Billion

A $5 billion one-time SSPD Discretionary Block Grant is increased from $2.8 billion in the January proposal. Funds are allocated on a per-ADA basis, estimated at approximately $937 per ADA statewide. Use of funds is fully discretionary and may be applied to a range of operational needs.

CJUSD IMPACT
CJUSD is projected to receive $4,233,847 in this one-time funding. This funding is not included in this Budget.

Learning Recovery Emergency Block Grant (LREBG)

The May Revision retains the restoration of the LREBG, providing $378.65 million statewide for 2026-27. This funding represents a repayment of amounts previously owed to LEAs following reductions made in the 2023-24 Budget Act, which cut the original grant by approximately 14.3 percent. LREBG funds must be used for learning recovery initiatives through the 2027-28 school year, supporting academic recovery and staff and pupil social-emotional well-being, and must be included in the district's LCAP.

CJUSD IMPACT
CJUSD is projected to receive $571,006 in this one-time funding for 2026–2027. This funding is not included in this Budget.

Paid Pregnancy Disability Leave Mandate

All TK-12 LEAs are required to provide up to 14 weeks of paid pregnancy disability leave beginning in 2026-27, for both certificated and classified employees. Part-time employees receive a prorated benefit.

> **CJUSD IMPACT**
> There are not enough details available at this time to determine the fiscal impact to CJUSD.

Literacy & Mathematics Investment

A one-time $428.8 million increase continues the Literacy Coaches and Reading Specialists Grant Program through June 30, 2031. An additional $11.2 million supports new literacy coaches. Also included is $60 million one-time for the Mathematics Professional Learning Partnership and $5 million ongoing for the Multitudes literacy screening tool at no cost to LEAs.

> **CJUSD IMPACT**
> There is no direct fiscal impact for CJUSD from these grant programs at this time.

Community Schools & Universal Meals

Maintains $1 billion in ongoing Proposition 98 funding for Community Schools and redirects $485 million for planning, implementation grants, and middle/high school redesign. Also includes $50 million one-time for MTSS and $30 million one-time for students experiencing homelessness.

Provides $2.8 million ongoing to fully fund the Universal School Meals program and $100 million one-time for kitchen infrastructure and training grants.

> **CJUSD IMPACT**
> These investments support CJUSD's continued participation in the universal meals program.

Despite the improved funding picture, fiscal caution remains warranted. The continued withholding of Proposition 98 funds creates uncertainty around the minimum guarantee. State Budget structural deficits are projected to re-emerge after 2027-28 as spending growth outpaces revenue growth. The ongoing impact of federal policy on state revenues and LEA budgets, including potential reductions to federal education and Medicaid funding, adds further risk. Many districts continue to face declining enrollment, cost pressures from salary and benefit obligations, and dwindling one-time fund balances. The District will continue to monitor state budget developments through the final budget adoption process, which must be completed by July 1, 2026.

RESERVE STATUS
STANDARD MET — Projected available reserves meet the 3% standard for the budget year and both subsequent fiscal years (2027-28 and 2028-29).

Minimum Classroom Compensation

The minimum percentage required for classroom compensation in unified school districts is 55.0%. Center's 2025-2026 Actuals and 2026-2027 Budget project the district meeting the 55% requirement. In prior years, the district did not meet the requirement due in part to the

inclusion of certain categorical expenditures in the calculation. Based on guidance provided by the Fiscal Crisis and Management Assistance Team (FCMAT), the district reviewed eligible exclusions under Education Code Section 41372 and determined that categorical resources that do not fund certificated salary expenditures may be excluded from the classroom compensation calculation. Applying these allowable exclusions reduced the denominator used in the calculation and resulted in the district meeting the required minimum percentage.

Multiyear Fiscal Projections

The District uses estimates provided by the Sacramento County Office of Education BASC, School Services of California (SSC), Fiscal Crisis and Management Assistance Team (FCMAT), and the Legislative Analyst's Office (LAO). CJUSD Fiscal Services staff provides enrollment estimates based on cohort movement and historical trends. Salary costs are projected using step-and-column data.

Cash Flow

The SACS Cash Flow report currently reflects a negative ending monthly balance for most months, with a projected year-end cash balance of ($2,003,284.38). This is primarily due to the timing of the budget report run date, as payroll had been processed and paid for the month; however, the District's principal apportionment of $2,844,395 had not yet been received. As a result, the ending cash balance shown does not reflect the District's actual financial position.

A cash flow document inclusive of May and June 2025 has therefore been included in the Budget packet. This document reflects a June 30, 2027 ending balance of $398,785.49.

As a result of the 2025-2026 tentative agreement settlement, a large one-time payment to staff will be required in August. This payment is what causes the negative cash balance in that period and in most months following. Therefore, if the tentative agreement is ratified, a resolution will need to be passed to approve a temporary interfund loan, effective July 1, from an alternate fund to cover the monthly negative cash balances.

As discussed in the Governor's May Revision section, CJUSD is projected to receive $4,233,847 in one-time funding, which will allow the District to repay any temporary loans upon receipt of those funds. Additionally, future enrollment growth will generate increased revenue, improving cash balances in out years.

It should be noted that the Board-committed additional 3% reserve for economic uncertainty is held in Fund 17 and is therefore not reflected in this cash flow analysis for Fund 01.

SACS Forms ASSET and DEBT

The SACS Forms ASSET and DEBT will be completed during year-end closing and presented with the Unaudited Actuals in September and the annual audit in December.

Fund Highlights

Fund 12 — Child Development

Childcare services are provided by Catalyst Family Inc. State and federal revenue flows through to Catalyst, so revenues and the Catalyst contract net $0. Unspent funds are transferred to and held in a reserve account.

Fund 13 — Nutrition Services

Budgeted as a self-sustaining operation. The program has planned deficit spending to reduce the ending fund balance as required by the state.

Fund 17 — Special Reserve (Non-Capital)

Operates alongside Fund 01 to secure Board-committed funds when Fund 01's balance is insufficient. The balance grows through accrued interest. This fund does not receive contributions nor incur expenditures.

Fund 20 — Post-Employment Benefits (OPEB)

Projected ending fund balance of $522,460. An additional approximately $1.87 million is invested in the CalPERS Trust as of March 31, 2026. No transfers are currently scheduled for 2026-27.

Fund 21 — Building (Bond)

Prior bonds (issued July 2020, December 2021, and December 2022) for Rex Fortune ES, Center HS CTE buildings, and school modernizations will be fully expended by June 30, 2026. Bonds sold in April 2026 will primarily fund construction of a new TK-6 elementary school in the Sierra Vista development. This project will be funded jointly with developer fees from Fund 25. Design and early project costs are anticipated to begin in 2026-2027. The total project cost and expenditure schedule has not yet been determined so is not yet included in the 2026-2027 Budget.

Fund 25 — Capital Facilities (Developer Fees)

An estimated $5.4 million in developer fee revenue is projected to be received during 2026-2027. These funds will contribute to the construction of the new TK-6 elementary school in the Sierra Vista development alongside bond funds from Fund 21. The total project cost and Fund 25 share have not yet been determined.

Fund 35 — County Schools Facilities

State SFP funding secured for modernization of North Country ES, Oak Hill ES, and Center HS. The Center HS project has $1,718,485 in remaining expenditures to be processed in 2026-27. Notice of Completion and Final Change Order #06 with Landmark Constructors approved by the Board in April 2026.

Fund 40 — Special Reserve for Capital Outlay

State reimbursement of $23,876,050 anticipated in May 2026 for a portion of the Rex Fortune ES project. Once received, transfers will reimburse developer fee expenditures for Center HS Modernization ($2,347,408), Annex Phase 1 ($239,673), Oak Hill ES Trash Enclosure ($350,972), and CFW consulting fees ($477,521). Remaining balance of $20,460,476 supports future capital construction needs.

Status of Labor Negotiations

Labor negotiations for 2025-2026 have not been settled. A 2% off-schedule payment for 2025-2026 and a 1% ongoing salary increase for 26-27 has been included in the budget. Negotiations are occurring concurrently with the preparation of this budget, so updates will be provided during the Board meeting presentation.

Conclusion

The current projection supports that the District will be able to meet its financial obligations for the current and subsequent years. Therefore, the Center Joint Unified School District certifies that its financial condition is positive.

SECTION IV - Detail of Adjustments to Base Expenditures (used in Section III, Line A.1)

Description of Adjustments	Total Expenditures	Expenditures Per ADA

Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

A. Salaries and Benefits - Other General Administration and Centralized Data Processing

1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)

2. Contracted general administrative positions not paid through payroll
   a. Enter the costs, if any, of general administrative positions performing services ON SITE but paid through a contract, rather than through payroll, in functions 7200-7700, goals 0000 and 9000, Object 5800.
   b. If an amount is entered on Line A2a, provide the title, duties, and approximate FTE of each general administrative position paid through a contract. Retain supporting documentation in case of audit.

B. Salaries and Benefits - All Other Activities

1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)
   (Functions 1000-6999, 7100-7180, & 8100-8400; Functions 7200-7700, all goals except 0000 & 9000) — 60,268,989.83

C. Percentage of Plant Services Costs Attributable to General Administration

(Line A1 plus Line A2a, divided by Line B1; zero if negative) (See Part III, Lines A5 and A6) — 3.98%

Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. Retain supporting documentation.

B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero. — 0.00

A. Indirect Costs

Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

A. Indirect costs incurred in the current year (Part III, Line A8)	5,115,029.86
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	(587,284.62)
2. Carry-forward adjustment amount deferred from prior year(s), if any	0.00
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect cost rate (6.32%) times Part III, Line B19); zero if negative	0.00
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of (approved indirect cost rate (6.32%) times Part III, Line B19) or (the highest rate used to recover costs from any program (6.32%) times Part III, Line B19); zero if positive	(856,752.68)
D. Preliminary carry-forward adjustment (Line C1 or C2)	(856,752.68)
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation:	5.00%
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment ($-428376.34) is applied to the current year calculation and the remainder ($-428376.34) is deferred to one or more future years:	5.50%
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment ($-285584.23) is applied to the current year calculation and the remainder ($-571168.45) is deferred to one or more future years:	5.67%
LEA request for Option 1, Option 2, or Option 3	1
F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if Option 2 or Option 3 is selected)	(856,752.68)

Approved indirect cost rate: 6.32%

Highest rate used in any program: 6.32%

8C. Comparison of District Deficit Spending to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD NOT MET - Unrestricted deficit spending has exceeded the standard percentage levels for two or more of the previous three fiscal years. Provide reasons for the deficit spending, a description of the methods and assumptions used in balancing the unrestricted budgets, and what change, if any, will be made to ensure that the subsequent budgets are balanced within the standard.

Explanation:
(required if NOT met)

In 24/25, one-time expenses using the ending fund balance were utilized to spend down. In 25/26, enrollment was lower than projected, so the ending fund balance was used to cover the shortfall in expenditures over revenue. 26/27 will also use ending fund balance to cover deficit spending, with the projection showing a return to a surplus in 27/28.

9. CRITERION: Fund and Cash Balances

A. Fund Balance STANDARD: Budgeted beginning unrestricted general fund balance has not been overestimated for two out of three prior fiscal years by more than the following percentage levels:

1.0%	1,001 to 30,000
0.7%	30,001 to 250,000
0.3%	250,001 and over

[1] Percentage levels equate to a rate of deficit spending which would eliminate recommended reserves for economic uncertainties over a three year period.

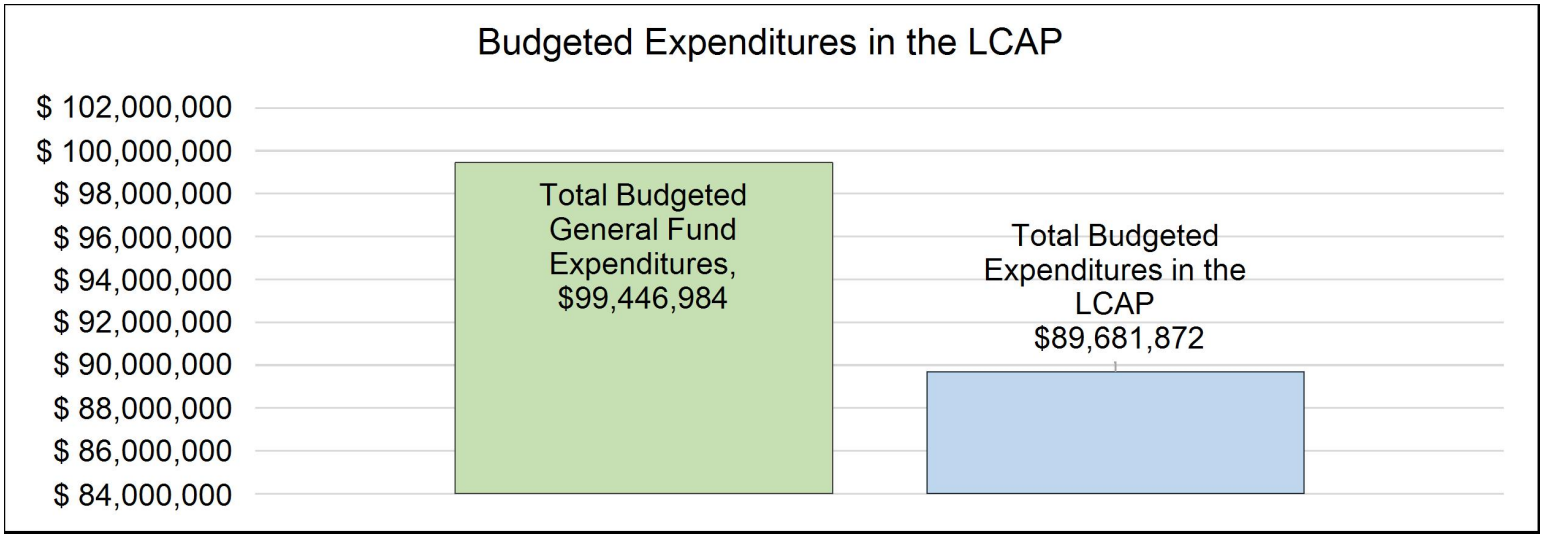
The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.



This chart provides a quick summary of how much Center Joint Unified School District plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Center Joint Unified School District plans to spend $99,446,984 for the 2026-27 school year. Of that amount, $89,681,872 is tied to actions/services in the LCAP and $9,765,112 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

General operating costs, encompassing areas like the Business Department and Maintenance & Operations, are generally not itemized in the LCAP's General Fund budget expenditures. Similarly, general supply costs and most personnel costs for substitutes, managers, and non-academic support staff fall outside the scope of this plan.

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Center Joint Unified School District is projecting it will receive $9,653,301 based on the enrollment of foster youth, English learner, and low-income students. Center Joint Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Center Joint Unified School District plans to spend $73,472,091 towards meeting this requirement, as described in the LCAP.

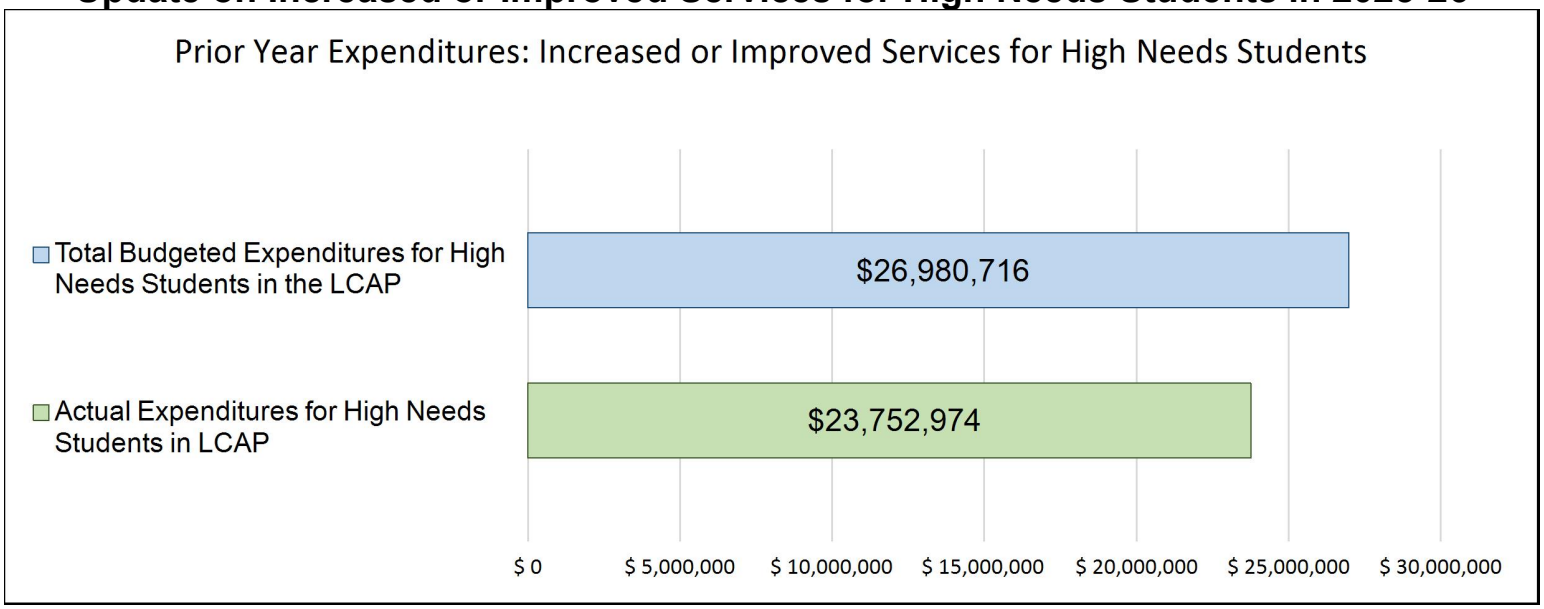
Update on Increased or Improved Services for High Needs Students in 2025-26



This chart compares what Center Joint Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Center Joint Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Center Joint Unified School District's LCAP budgeted $26,980,716 for planned actions to increase or improve services for high needs students. Center Joint Unified School District actually spent $23,752,974 for actions to increase or improve services for high needs students in 2025-26.

The difference between the budgeted and actual expenditures of $3,227,742 had the following impact on Center Joint Unified School District's ability to increase or improve services for high needs students:

The Learning Recovery Emergency Block Grant and the expiring Art, Music, and Instructional Materials Discretionary Block Grant were used to fund positions and programs that the LCFF Supplemental/Concentration funds have covered in the past and will cover again in the future. No actions or services for high needs students were impacted.

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Center Joint Unified School District serves a growing and diverse community across Antelope, Elverta, and Roseville. The district spans both Sacramento and Placer Counties, with undeveloped land in Placer County offering significant potential for future expansion.

CJUSD operates eight schools, serving 4749 students from transitional kindergarten (TK) through 12th grade. Five elementary schools serve grades TK-6; Cyril Spinelli (enrollment: 368), Arthur S. Dudley (enrollment: 520), North Country (enrollment: 561), Oak Hill (enrollment: 668), and Rex Fortune (enrollment: 565). These schools feed into Wilson C. Riles Middle School, which serves 702 students in grades 7-8. The district's two high schools include Center High School (grades 9-12, enrollment: 1,257) and McClellan Continuation High School (grades 10-12, enrollment: 78).

CJUSD's student population reflects a rich diversity: 32% White, 28% Hispanic, 14% Asian, 11% African American, 7% identifying as two or more races, 4% Filipino, 0.84% Pacific Islander, and 0.53% American Indian. Key student subgroups include 17% English Learners, 60% socioeconomically disadvantaged, 15% students with disabilities, 8% experiencing homelessness, and 0.2% in foster care.

CJUSD's educational approach is guided by the Center Commitment, a districtwide initiative grounded in four core values: Belong, Impact, Value, and Thrive. These values shape every aspect of the district's work and serve as the foundation for goals outlined in the Local Control and Accountability Plan (LCAP). Each goal is aligned with one of these core values to ensure a coherent and purpose-driven approach to student success.

Academic achievement and social-emotional development are supported through a Multi-Tiered System of Supports (MTSS). This comprehensive, research-based framework provides students with targeted instruction and interventions based on individual needs. Through this three-tiered model, CJUSD works to ensure that every student has access to the tools, resources, and support needed to succeed.

CJUSD is committed to cultivating an inclusive and supportive educational environment where students, staff, and families feel a strong sense of belonging, make an impact, are valued, and have the opportunity to thrive.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

SCHOOL CULTURE, CLIMATE and FAMILY ENGAGEMENT
The district continued efforts to improve school climate and student connectedness through PBIS, restorative practices, social-emotional learning supports, mentoring, and family outreach. All schools reviewed Panorama survey data and used the information to guide improvements in their School Plans for Student Achievement.
Student and Family Support Services (SFSS) expanded communication, mentoring, transportation support, housing resources, and family engagement activities. The district hosted community events such as the Back-to-School Bash, food distribution events, and parent workshops to strengthen relationships with families and increase access to support services.

Panorama survey data reflected both progress and ongoing areas of concern. At the elementary level, schools demonstrated strong student participation in the survey process, with Dudley and Spinelli Elementary achieving 100% participation. Students reported improved perceptions of school safety and teacher-student relationships, showing that PBIS, restorative practices, and relationship-building efforts are having a positive impact. However, student engagement, school belonging, and school climate remain below pre-pandemic levels, indicating a continued need to strengthen student connectedness.
At the secondary level, McClellan High School and Wilson C. Riles Middle School demonstrated positive growth in student belonging and engagement. Districtwide, secondary students showed modest improvement in school belonging, safety, and relationships, suggesting that advisory, PBIS, restorative practices, and student voice opportunities are beginning to improve connectedness. However, engagement levels remained relatively flat, and Center High School continues to show ongoing concerns related to school climate and student connectedness.
Overall, district actions were moderately effective in improving school culture, relationships, and family engagement. Continued focus on student voice, inclusive school activities, restorative practices, and family partnerships will remain important to improving school connectedness across all grade levels.
Academic Achievement

The district prioritized improving instruction through literacy initiatives, classroom walkthroughs, intervention systems, professional development, and data-driven collaboration. Implementation included structured elementary ELA blocks, literacy and phonics training, Tier I, II, and III interventions, monthly walkthroughs, and Professional Learning Community collaboration using the district's PDSA model.
Local iReady assessment data showed positive academic growth:

- Reading at or above grade level increased by 7 percentage points.

- Math at or above grade level increased by 8 percentage points.
- English Learners and Socioeconomically Disadvantaged students demonstrated strong gains in both reading and math.
- Students with Disabilities demonstrated slower progress, particularly in reading.

Despite local growth, California Dashboard results indicate that academic achievement remains an area of concern.

ENGLISH LANGUAGE ARTS
Districtwide ELA performance remained in the ORANGE band, with students scoring 35.7 points below standard. English Learners, Students with Disabilities, and students experiencing homelessness remained in the RED band. African American students, Asian students, Long-Term English Learners, and Socioeconomically Disadvantaged students remained areas of high concern.
Hispanic and White students demonstrated improvement and moved into the YELLOW band. Filipino students remained the only subgroup performing above standard despite declining from BLUE to GREEN.
Schools with student groups in the RED band for ELA include:

- Wilson C. Riles Middle School
- Arthur S. Dudley Elementary School
- Oak Hill Elementary School
- Cyril Spinelli Elementary School

MATHEMATICS
Mathematics performance improved slightly, moving from ORANGE to YELLOW overall, but students continue to perform significantly below standard.
Long-Term English Learners, African American students, Students with Disabilities, and students experiencing homelessness were identified in the RED band. Hispanic and White students improved into the YELLOW band, while Filipino students remained the only subgroup at or above standard.
Schools with RED student groups in mathematics include:

- Center High School
- Wilson C. Riles Middle School
- Arthur S. Dudley Elementary School
- Oak Hill Elementary School

SCIENCE
Science achievement improved and earned a GREEN Dashboard rating, with no student groups identified in the RED band.
English Learner Progress
English Learner progress also improved significantly, moving from ORANGE to GREEN on the Dashboard, with 55.1% of English Learners making progress toward English proficiency.

TEACHER ASSIGNMENTS
The district reported that 79.5% of teachers are appropriately assigned, which remains below average and continues to be an area of need.
Overall, the district demonstrated strong implementation of instructional systems and local academic growth, but state assessment data shows continued achievement gaps for several student groups.

ATTENDANCE, ENGAGEMENT and STUDENT SUPPORTS
The district strengthened attendance and engagement systems through attendance campaigns, counseling services, mentoring, Expanded Learning Opportunities Programs, and social-emotional supports.
Positive outcomes included:

- Daily attendance increased from 90.63% to 91.35%.
- Chronic absenteeism decreased from 29.2% to 21.4%.
- Dropout rates decreased from 4% to 2%.
- Suspension rates decreased from 7.1% to 5.2%.

Despite improvement, chronic absenteeism remains an area of concern and the district moved from YELLOW to ORANGE on the Dashboard.
Schools with RED student groups for chronic absenteeism include:

- Wilson C. Riles Middle School
- Arthur S. Dudley Elementary School
- North Country Elementary School
- Oak Hill Elementary School
- Cyril Spinelli Elementary School

The district maintained a YELLOW suspension rating, though African American students and Pacific Islander students remain in the RED band.
Overall, attendance and engagement actions were effective in improving attendance, reducing chronic absenteeism, and lowering suspension and dropout rates. However, disparities remain for several student groups, including Students with Disabilities, foster youth, and African American students.

COLLEGE and CAREER READINESS
The district expanded college and career readiness supports through counseling, tutoring, mentoring, college tours, CTE pathways, and career exploration opportunities.
Positive outcomes included:

- Graduation rate increased to 91.9%, maintaining a GREEN Dashboard rating.
- McClellan High School demonstrated significant graduation growth.
- AP exam performance improved.
- Seal of Biliteracy attainment increased.
- College and Career Indicator results improved.

Challenges remain in:

- A-G completion rates for Students with Disabilities, African American students, and English Learners
- Limited AP participation growth
- Declining CTE pathway completion rates

Overall, the district demonstrated progress in graduation rates and college and career readiness, but subgroup disparities indicate the need

for additional support and expanded access to rigorous coursework and career pathways.

SUMMARY
Center Joint Unified School District demonstrated strong implementation of LCAP actions and made progress in several important areas, including:

- Graduation rates
- English Learner progress
- Science achievement
- Attendance and chronic absenteeism
- Reading and math growth on local assessments
- Family engagement and student supports

At the same time, significant challenges remain in academic achievement, chronic absenteeism, and disproportionality among student groups, particularly for English Learners, Students with Disabilities, African American students, homeless students, foster youth, and Socioeconomically Disadvantaged students.
Moving forward, the district will continue focusing on strengthening instruction, expanding interventions, improving student connectedness, and increasing equitable access to academic and social-emotional supports to improve outcomes for all students.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

The CJUSD Leadership Team continues to prioritize literacy instruction and the effective delivery of tiered instruction across all classrooms. To support this critical need, as well as other district-wide initiatives, the LCAP and SPSAs have been strategically aligned. This alignment ensures that resources and efforts work together to improve outcomes for all students.

Student, staff, and family survey responses are disaggregated by school, including Equity Multiplier sites.

<Representatives from the Superintendent's Parent Advisory Council analyzed data on safety, school culture, and academic achievement, identifying strengths and areas of growth, with key concerns being communication. Goal 1 focuses on improving school culture as outlined in site plans and strengthening messaging through consistent website updates, social media, regular newsletters and informative short videos to better inform families about district initiatives. Goal 2 addresses concerns about access to academic support by focusing on literacy initiatives, tiered instruction, professional learning for educators, leadership development, and classroom walkthroughs to monitor progress. Goal 3 responds to concerns about engagement and behavior through the implementation of actions to increase student engagement and decrease disruptive behaviors.>

<The District English Learner Advisory Committee (DELAC) focused its discussions on metrics related to the progress of English Learners during Year 1 of the current LCAP. Their initial input emphasized the need to monitor and improve academic achievement and student engagement. As a result, successes were noted in LCAP Goals 2, 3, and 4, including increased reading and math achievement as measured by iReady, a rise in the number of graduates earning the Seal of Biliteracy, and greater student participation in clubs and athletics at the secondary level. These improvements directly reflect feedback from DELAC meetings held the previous year, where parents advocated for expanding extracurricular options to better engage students. In response, a new metric was added to Goal 2 to monitor student involvement in clubs and sports. More recently, DELAC parents raised concerns about the growing number of Long-Term English Learners and asked how schools communicate this status to families, prompting a review of communication practices and parental outreach strategies.>

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

SCHOOL CULTURE
Every school site prioritized School Climate and Culture by including a goal in their 2025-26 School Plan for Student Achievement (SPSA).The goal was grounded in data and included strategies to improve school climate and culture through intentional implementation, ongoing monitoring, and reflective practices based on updated data and observations. Throughout April 2026, district and site administrators, along with school staff, engaged in a comprehensive review of Spring 2026 Panorama Survey data. Data from students, staff, and families were analyzed using the district's standardized data protocol to identify areas of strength or improvement, as well as areas of ongoing challenge or decline. Through each school site's SPSA annual review process, schools evaluated the implementation and effectiveness of the strategies supporting their climate and culture goals. Survey data from students, staff, and families was shared with both school staff and the School Site Council to guide reflection and discussion. Insights and strategies identified during this review have been incorporated into each site's 2026-26 SPSA, with a continued focus on improving school climate and culture.

OUTREACH and PARTNERSHIPS
The Communications Coordinator strengthened consistent communication between the district and families through targeted outreach on social media and regular district newsletters. Ongoing efforts to maintain current district and school websites ensure families have access to timely and accurate information
The Bell, the district's outreach bus, has been utilized throughout the 2025-26 school year, further expanding our ability to connect with the community.

PARENT and FAMILY SUPPORTS
The Student and Family Support Services (SFSS) team implemented several key strategies to enhance communication, support, and engagement for families across the district. Communication materials were translated into multiple languages to ensure accessibility The

SFSS Coordinator partnered with the district Communications Coordinator to ensure messages were consistently shared through districtwide communications. To improve direct communication, bilingual SFSS staff identified and supported 84 Spanish-speaking families experiencing homelessness, and district-issued cell phones were used to bridge communication gaps between school and home. A full-time Office Assistant was added to improve overall efficiency, streamline emergency communication, and allow SFSS staff to focus more on direct services, such as student mentoring, family outreach, home visits, and program development.

SFSS responded to 55 school requests for student and family assistance. SFSS provided support in the form of enrollment help for 57 families, 95 transportation services, 22 housing resources, 9 employment supports, 19 health, vision, and dental referrals, and activity fee assistance for 68 students.

To increase community connections, SFSS hosted the 4th Annual Back to School Bash with over 1,500 attendees. Nearly 900 students received backpacks filled with essential school supplies to ensure a strong start to the year. All school sites and departments, including 19 community partners, participated. Organizations like the Sacramento Food Bank, Antelope Lions Club, and Grocery Outlet provided over 400 grocery bags and boxes to families.

Ongoing basic needs support included the distribution of 193 backpacks, 196 school supplies, 180 clothing items, 110 hygiene kits, and 9 diapers. Food access was provided through 10 events, with two more to go, in partnership with Sacramento Food Bank events, serving 1,974 households and more than 10,344 individuals. Additionally, 64 Center High School students volunteered at food distribution events, helping to build stronger school-community connections.

During the holiday season, 47 families and 82 students received support through Thanksgiving and Christmas programs. In partnership with North Highlands Food Ministry, SFSS also distributed 65 food boxes.

To address family needs around parenting and student success, SFSS launched Together We Thrive: Tools for Raising Resilient Learners. The event featured workshops on academic support, emotional regulation, and trauma-informed parenting.

The Expanded Learning Program hosted 13 family events across 4 sites, with participation from approximately 200 parents. These events aimed to strengthen the home-school partnership and engage families in their children's learning.

SFSS continues to identify and support students experiencing homelessness under the McKinney-Vento Program. This year, 434 students have been identified, nearly 8% of the district’s total enrollment, highlighting the depth of community need and the importance of ongoing outreach and support.

Mentoring services were provided to 30 students through 479 sessions. Mentors support students academically and personally by monitoring grades, attendance, and helping them set and pursue goals. They connect students with critical resources, including tutoring, FAFSA completion, graduation support, transportation, and college planning. Mentors also assist with re-engagement for expelled students through monthly check-ins.

ANALYSIS OF GRADE 3-5 SURVEY RESULTS
Across the five Panorama measures for grades 3–5 (School Engagement, School Belonging, School Climate, School Safety, and Student-Teacher Relationships), results from 2021 to 2026 reflect both important successes and areas for continued growth in school climate and culture. One of the strongest indicators of progress was the increase in student participation and engagement in the survey process. Dudley Elementary and Spinelli Elementary both achieved 100% student participation, demonstrating strong student voice and engagement. North Country Elementary increased participation from 87.7% at baseline to 90.2% in Year 2, while Oak Hill Elementary maintained participation above 92%. These participation rates reflect intentional efforts by school sites to engage students and ensure their voices are heard.

Elementary students also continued to report positive perceptions in areas related to safety and relationships. Districtwide, School Safety increased from 54% to 57%, reflecting steady improvement after previous declines and indicating that students generally feel physically and emotionally safe at school. Student-Teacher Relationships, while declining over time from 80% to 65%, showed modest recovery to 68% and remain a relative strength compared to other measures. These results reflect the positive impact of relationship-building efforts, PBIS implementation, restorative practices, advisory activities, and social-emotional supports across elementary campuses. Together, these areas highlight the strong foundation schools are building to create supportive and caring learning environments.

At the same time, the data identified continued needs in student belonging, school climate, and engagement. School Engagement declined overall from 59% in 2021 to 42% in 2025, with only a slight increase to 43% in 2026, suggesting that current strategies have not yet been effective in significantly increasing student engagement in learning. School Belonging followed a similar pattern, decreasing from 71% to 50% before rebounding slightly to 52%, indicating that students' sense of connection to school has weakened over time, though recent efforts may be beginning to positively impact student connectedness. School Climate also declined significantly from 74% to 48% before increasing slightly to 50%, suggesting that earlier strategies were insufficient to sustain positive perceptions, but recent adjustments may be beginning to improve student experiences.

Overall, the elementary data suggests that district and site actions have had limited effectiveness in preventing declines across several measures over time; however, recent upward trends in Safety, Climate, Belonging, and Student-Teacher Relationships indicate that refined and more targeted supports are beginning to positively impact the student experience. Continued focus on PBIS, restorative practices, student leadership opportunities, SEL supports, inclusive school activities, and family engagement efforts outlined in site SPSAs and the LCAP will remain essential to strengthening school culture and improving student connectedness across elementary schools.

ANALYSIS OF GRADE 6–12 SURVEY RESULTS
Across the five Panorama measures for grades 6–12, results from 2021 to 2026 show mixed but more encouraging evidence of effectiveness, particularly in the area of student belonging and connectedness.

Several secondary schools demonstrated strong growth in student connectedness and engagement. MHS showed particularly strong progress, increasing student survey participation from 79.7% to 86.1% while also demonstrating significant gains in students' sense of belonging. WCR also showed positive momentum through increased engagement and participation in school climate efforts, reflecting the impact of relationship-focused supports and alternative education programming. These site successes contributed to districtwide gains in student belonging, engagement, and safety at the secondary level.

Districtwide, School Engagement remained relatively stable over time, fluctuating between 23% and 27%. While this indicates that district

actions have helped maintain baseline engagement levels, the data also suggests that strategies have not yet produced substantial growth in student engagement. School Belonging demonstrated the strongest area of improvement, increasing from the low 30% range in prior years to 37% in the most recent year. This upward trend suggests that efforts such as advisory, restorative practices, student voice opportunities, PBIS, relationship-building strategies, and SEL supports are beginning to positively impact students' sense of connection to school.

School Climate and School Safety both showed long-term declines followed by modest recovery. School Climate declined from 54% in 2021 to 32% before rebounding to 37%, while School Safety decreased from 70% to 47% before improving to 52%. Although these measures remain below earlier levels, the recent increases suggest that adjusted strategies and increased focus on school culture and connectedness are beginning to improve student perceptions. Student-Teacher Relationships declined from 51% to the low 40% range before stabilizing and slightly increasing to 43%, indicating that efforts to strengthen student-adult relationships are helping maintain important school connections.

Although student participation at CHS increased from 72.4% to 78.5%, school climate indicators did not improve at the same rate as other secondary sites. The data suggest a continued need to strengthen student belonging, engagement, and overall school connectedness at CHS.

Overall, the secondary data suggests that district and site actions have been moderately effective in stabilizing engagement and relationships and are beginning to show a stronger impact on student belonging and connectedness. The positive gains at MHS and WCR demonstrate that focused relationship-building efforts and targeted supports can improve school culture outcomes, while continued areas of concern at CHS and across climate and safety measures indicate that sustained implementation and additional targeted supports will be necessary to achieve long-term improvement across all secondary schools.

PANORAMA STAFF SURVEY
Analysis of the 2025–2026 Panorama Staff Survey data shows mixed results across the district, with overall district declines alongside several notable site-based successes. Across all three measures, School Climate, School Leadership, and Professional Growth, staff feedback highlights both areas of strength and opportunities for continued improvement.

School Climate remains a relative area of strength districtwide at 70%, despite a slight 2-point decline from the previous year. Several sites demonstrated positive momentum and strong staff perceptions of school culture and connectedness. MHS (64%),
WCR (87%), Dudley Elementary (82%), and North Country Elementary (74%) all showed growth, suggesting that relationship-building efforts, improved collaboration, and site-level culture initiatives are positively impacting staff experiences. WCR and Dudley, in particular, stand out for maintaining especially high climate ratings. However, declines at CHS (53%), Oak Hill (60%), Fortune (68%), and Spinelli (86%) indicate that staff perceptions of school culture and working conditions remain inconsistent across sites and may require more targeted support, communication, and collaboration opportunities.

School Leadership emerged as a greater area of concern, declining 5 percentage points districtwide to 62%. Despite the district decline, several sites demonstrated strong improvement. MHS showed exceptional growth with a 91% favorable rating, while WCR (88%) and Dudley (78%) also reflected strong confidence in site leadership. These results suggest that staff at these sites feel increasingly supported, included in decision-making, and aligned with leadership vision and communication. In contrast, continued declines at North Country (63%), Oak Hill (47%), Fortune (54%) along with CHS remaining low at 41% with no improvement, indicate ongoing concerns related to communication, transparency, staff voice, and leadership effectiveness at some sites.

Professional Growth showed the greatest districtwide decline, dropping 6 percentage points to 52%, signaling a need to strengthen staff support for professional learning, collaboration, and instructional development. Even within this trend, some schools demonstrated encouraging growth. MHS (57%), WCR (61%), Dudley (62%), and Spinelli (73%) improved in staff perceptions of professional learning opportunities, suggesting that targeted site-level supports and collaboration structures may be positively impacting staff growth experiences. However, declines at CHS (36%), North Country (54%), Oak Hill (45%), and Fortune (43%) indicate that many staff continue to desire more meaningful, relevant, and consistent professional development opportunities, along with increased time for collaboration and instructional planning.

Overall, the data reflects that while districtwide staff perceptions declined in several areas, there are important examples of site-based success that can help inform future actions. The strong growth seen at MHS, WCR, and Dudley demonstrates that focused leadership, relationship-building, collaboration, and intentional culture efforts can positively impact staff experience. Moving forward, the district will continue using staff feedback to strengthen communication, leadership practices, collaboration opportunities, and professional learning systems in order to improve staff morale, retention, and overall school culture across all sites.

OUTREACH and PARTNERSHIPS
The district's outreach, partnership, and family support efforts demonstrated strong implementation and meaningful impact on family engagement, access to resources, and school-community connection. The addition of a Communications Coordinator significantly improved the consistency and visibility of district communication through regular social media outreach, biweekly newsletters, and updated district and school websites. These efforts increased access to information for families, staff, and students and created more opportunities to celebrate student learning and school achievements across the district.

PARENT and FAMILY SUPPORTS
Student and Family Support Services (SFSS) expanded direct outreach and support to families through multilingual communication, targeted family engagement, and individualized support services. Bilingual SFSS staff identified and supported 84 Spanish-speaking families experiencing homelessness, while district-issued cell phones improved communication between schools and families. The addition of a full-time Office Assistant increased efficiency and allowed SFSS staff to focus more directly on mentoring, outreach, home visits, and family support services.

The effectiveness of these actions is reflected in the level of support provided districtwide. SFSS responded to 55 school requests for assistance and provided enrollment support to 57 families, 95 transportation services, 22 housing resources, 9 employment supports, 19 health-related referrals, and activity fee assistance for 68 students. These supports helped reduce barriers to attendance, participation, and academic engagement for students and families experiencing hardship.

Family and community engagement efforts also showed strong participation and impact. The 4th Annual Back to School Bash welcomed more than 1,500 attendees and provided nearly 900 backpacks filled with school supplies. Nineteen community partners participated, helping distribute over 400 grocery bags and boxes to families. Additional basic needs supports included the distribution of backpacks, school supplies, clothing, hygiene kits, and diapers to families throughout the year. Food distribution events served 1,974 households and more than

10,344 individuals, while 64 Center High School students volunteered at these events, strengthening school-community partnerships and student leadership opportunities.

The Bell outreach bus expanded family engagement efforts by conducting nine visits across school sites during family-centered events, providing direct access to resources, programs, and survey participation opportunities. Holiday assistance programs supported 47 families and 82 students, while partnerships with organizations like North Highlands Food Ministry helped provide 65 food boxes to families in need.

Expanded Learning Programs and parent workshops also strengthened home-school connections. The Together We Thrive parent workshops addressed academic support, emotional regulation, and trauma-informed parenting, while the Expanded Learning Program hosted 13 family events across four school sites with approximately 200 parents participating. These efforts increased opportunities for families to engage in their children's education and build stronger relationships with schools.

The continued identification and support of 434 students experiencing homelessness, representing nearly 8% of district enrollment, demonstrates both the growing needs within the community and the district's increased outreach and awareness efforts. Mentoring services provided to 30 students through 479 mentoring sessions offered individualized academic, attendance, and post-secondary support, helping students remain connected to school and future goals. Overall, the data reflects that district outreach and partnership efforts are increasing access to services, strengthening relationships with families, and creating a more connected and supportive school community.

		with community partners to extend the reach of support services and access to additional resources. Although a districtwide action, the SFSS will strive to prioritize outreach to families of foster youth, low-income students, students experiencing homelessness, and English learner students. Prioritize unduplicated student enrollment in all elementary schools' Expanded Learning Opportunities Program. The SFSS Department will partner with school parent groups and community partners to host annual CJUSD Back to School events. This event aims to facilitate a smooth transition for students and families returning to school after the summer break, connecting them with various resources from school sites, the district, and the broader community. Students will also receive a backpack and school supplies at the event. Continue providing community access to the SFSS clothes closet, school supplies, diaper distribution, washer and dryer, and other basic necessities. Address food insecurity by maintaining the district’s food pantry, which is accessible to all students and families. Continue seeking donations from local organizations to meet the needs of students and families, especially during school breaks and holidays. Through collaboration, the SFSS will identify students and families for local Thanksgiving Feasts and Christmas Gift Giving Programs. Continued partnership with the Sacramento Food Bank and Family Services that allows the SFSS to hold monthly grocery box and produce distributions accessible to all CJUSD students and families. 		expected to result in increased participation in parent education workshops during the second and third years. These workshops will offer valuable insights and information to enhance parenting skills and promote greater engagement in their child's education. The SFSS Department will remain dedicated to offering various supportive services for specific subgroups such as foster youth, students experiencing homelessness, low income, and their families, creating a supportive and inclusive educational environment for all students and their families. The required support shall include the identification and documentation of eligibility, enrollment and attendance support, referrals for eligible services including free meals, transportation assistance, access to other district, state, and federal programs, referrals to social-emotional and health services, intervention and outreach, and referrals to community services. For targeted intervention support, the Homeless and Foster Youth Liaison and Student and Family Support Assistants will collaborate with school site counselors and administration to utilize a data-driven approach and referral process to identify appropriate tiered support services for our foster youth, students experiencing homelessness and other at-risk students. Through this tiered approach, immediate needs such as food, clothing, and transportation will be identified and provided through the SFSS. At the same time, high needs will be met through SFSS' customized mentoring program where Student and Family Support Assistants can utilize a case management approach, including regular check-ins with students, connection to academic supports and interests, including tutoring and before/after school programs, CTE/post-secondary programs, monitoring of attendance/engagement, referral to social-emotional and other health services, and empowerment of life skills and student voice. Through the mentoring program, we aim to provide students with access to new opportunities and experiences, expanding their potential for growth, connection, and success.

Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Dashboard and local data indicate that the district has fallen short of the expected targets for student achievement. This highlights the necessity for a stronger focus on improving literacy and instructional practices through the utilization of Multi-Tiered System of Supports (MTSS) and Universal Design for Learning (UDL) while enhancing professional learning opportunities, conducting walkthroughs, and introducing supplementary support systems and accountability measures.

iREADY
The past three spring iReady Diagnostic 3 administrations reveal a concerning lack of progress in student achievement. Neither ELA nor math data shows any change in the percentage of students scoring one grade level below expectations. There's been a slight decrease in the percentage of students scoring above grade level, which is mirrored by a slight increase in the number of students scoring two or more grade levels below.

PANORAMA STAFF SURVEY
Through the Panorama Staff Survey, perceptions of favorability were measured in the following areas: Educating all Students, Professional Learning, School Climate and School Leadership. Educating all Students and School Leadership are the two areas reporting the highest levels of favorability. School Climate and Professional Learning measure the lowest levels of favorability.

- Educating All Students measures staff perceptions of their readiness to fully support all learners. Districtwide, 73% responded favorably to Educating All Students. Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The district prioritized improving student learning, particularly in reading and math, by strengthening instruction, offering targeted support for teachers and school leaders, and using data to guide decision-making. A key driver of this progress was the establishment of strong systems. By focusing on classroom walkthroughs, data analysis, professional development, and collaboration, the district has built a solid foundation for continued growth.

LITERACY
The district implemented a comprehensive literacy plan with a strong focus on early literacy and reading proficiency across all grade levels. A structured English Language Arts (ELA) block continues to be implemented at all elementary school sites.

Elementary administrators serve as Literacy Leaders, actively promoting the effective implementation of the 6-step phonics model. Their efforts in this role were supported by the use of a standardized walkthrough form. Site administrators utilized this district-developed form to

monitor the fidelity and quality of phonics lesson implementation across classrooms. Each site conducted monthly Tier 1 instructional walkthroughs, focusing on the quality of ELA instruction. All district teachers in grades 3-6 were trained in the 6-step syllabication and morphology lesson plan.

The district along with each elementary site partnered with Luminous Minds to host Parent Literacy Nights, focusing on supporting early readers. This multi-tiered, collaborative approach reflects the district’s commitment to improving literacy outcomes through professional development, targeted instructional practices, and community partnerships.

TIER I INSTRUCTION
The district continues to implement the system for monitoring and supporting Tier I instruction through monthly site and district walkthroughs using the district's walkthrough tool. These walkthroughs ensure that teachers are consistently using district-adopted materials and instructional practices.

Training sessions were held for teachers on the district-adopted curriculum, ensuring that all educators are equipped with the necessary tools to deliver high-quality instruction. Data Culture meetings provided a platform for analyzing student performance data, such as iReady and SBAC scores, in alignment with the district's data protocols. These meetings also focused on using data to plan and implement site-level PDSA (Plan-Do-Study-Act) cycles with Professional Learning Community (PLC) teams to continually refine and improve instructional practices.

The K-6 ELA block further supports Tier I instruction by providing dedicated time for teachers to plan and deliver literacy lessons using the district's adopted materials, ensuring consistency and alignment across grade levels. This structured, data-driven approach to Tier I instruction fosters an environment of continuous improvement, ensuring that all students receive high-quality, research-based instruction tailored to their needs.

TIER II INSTRUCTION
The implementation of Tier II instruction focuses on providing targeted interventions to meet the needs of students requiring additional support. At the elementary level, interventions are based on data from various sources, including iReady, Oral Reading Fluency, STAR Phonics, Multitudes, and phonics survey data. Teachers collaborate in Professional Learning Communities (PLCs), where they review student data and use it to create targeted groups for intervention. This data-driven approach ensures that interventions are personalized and responsive to the specific needs of each student.

The ELA block structure supports Tier II instruction by providing time for both Tier I and Tier II interventions. During the ELA block, students receive Tier I instruction in the classroom, followed by a second block of time dedicated to Tier II interventions. These interventions are more focused, with support provided by grade-level teachers and other instructional staff. The additional time allows for small group instruction, ensuring that students receive targeted support to address their learning gaps.

To monitor the effectiveness of Tier II interventions, PDSA (Plan-Do-Study-Act) cycles are utilized. These cycles help track the progress of targeted groups, allowing teachers to assess the impact of their interventions and make adjustments as needed. This structured,

collaborative approach to Tier II instruction allows for continuous improvement and ensures that students receive the support they need to succeed.

TIER III INSTRUCTION
The implementation of Tier III instruction focuses on providing intensive, individualized support for students with significant academic needs. Specialized programs, such as SDC (Special Day Classes) and ILS (Intensive Learning Support) classes, utilize evidence-based curricula like UNIQUE Learning Systems, SONDAY, and Corrective Reading to address the diverse learning needs of students. These curricula are designed to support students with more complex learning challenges by providing highly structured and tailored lessons that meet individual educational goals.

To further support these students, Study Skills classes are offered, focusing on working towards individual IEP (Individualized Education Program) goals. Additionally, Extended School Year (ESY) services are provided to all qualifying students, ensuring that learning continues over the summer and helping to prevent regression during the break.

Ongoing professional development is a key component of Tier III instruction. Monthly training sessions are provided by Program Specialists to ensure that all staff, including Special Education (SpEd) teachers, are equipped with the latest strategies and resources to support students effectively. These professional development opportunities allow SpEd staff to stay updated on best practices and improve their instructional techniques.

To monitor student progress, a range of data sources are used, including iReady, SpEd assessments, formative assessments, and CAASPP results. This data is essential for tracking individual student progress, identifying areas of need, and adjusting interventions as necessary to ensure students make meaningful academic gains.

Administrators, district office personnel, and department heads regularly conduct walkthroughs to observe the implementation of Tier III instruction. These walkthroughs help ensure that instructional strategies are being applied effectively and that students are receiving the necessary support to achieve their educational goals.

WALKTHROUGHS
Classroom walkthroughs have been implemented as a structured practice to support instructional improvement and alignment with district expectations. At the start of the school year, all site administrators were to complete one walk-through for every teacher on campus once a month.

GROWTH & DEVELOPMENT OF TEACHERS & STAFF:
The district is committed to supporting the growth and development of teachers and staff through a combination of centralized professional development and site-based implementation. District-level professional development was delivered and a new teacher orientation was provided. School site administrators provided targeted training to staff as outlined in their School Plan for Student Achievement.

A key component of teacher development is the support provided through the Sacramento County Office of Education Induction Program. Currently, 38 district teachers are participating in the program, receiving mentorship and guidance from 23 district teachers who serve as coaches. These coaches play a vital role in supporting new educators by providing ongoing feedback, professional guidance, and instructional support, helping them to build confidence and effectiveness in their practice.

In support of professional accountability and development, all administrators participated in a comprehensive review of the certificated evaluation process with the Director of Human Resources and Student Services in the fall of 2024. Ongoing support continues to be provided to ensure administrators are well-equipped to implement the evaluation process with fidelity. In collaboration with the Curriculum and Instruction department, Human Resources is working to revise the evaluation system to reflect the updated 2024 California Standards for the Teaching Profession and the district's commitment to Universal Design for Learning. This updated process is scheduled for implementation in the spring of 2025.

To further support staff retention and organizational improvement, the district has begun administering exit surveys, currently capturing feedback from approximately 50 percent of departing employees. The district aims to expand this effort to ensure that 100 percent of exiting staff have the opportunity to provide insights, helping inform strategies for improving the work environment and professional support systems.

LEADER GROWTH & DEVELOPMENT through mentorship and accountability.
The district has implemented a comprehensive approach to leader growth and development to ensure administrators are equipped to lead effectively and drive school improvement. New assistant principal at Rex Fortune/North Country has been strategically partnered with a district director, providing them with mentorship and guidance to support a smooth transition into their new role.

Five administrators are currently participating in the Sacramento County Office of Education's Clear Administrative Credential Program. Each participant is paired with an in-district coach who offers support, guidance, and feedback throughout their two-year program, fostering leadership growth rooted in real-time school leadership experiences.

One of the key structures for leadership development is the Data Culture meeting, where curriculum leaders and administrators collaborate to review data, engage in PDSA cycles, and analyze findings from classroom walkthroughs using the district's walkthrough tool.

All district administrators receive ongoing support and feedback directly from the superintendent. To align leadership evaluation with state expectations, the superintendent has redesigned the principal evaluation tool to reflect the California Professional Standards for Educational Leaders (CPSEL). Principals are also provided with a monitoring tool to track progress on their School Plan for Student Achievement (SPSA) goals, which include specific targets related to school climate. These goals are regularly reviewed and discussed during monthly one-on-one meetings between each principal and the superintendent. Progress is documented continuously, and Panorama survey data is used as a key indicator to evaluate the impact of leadership on school climate outcomes.

This multi-layered system of mentorship, professional development, data-informed leadership, and reflective evaluation ensures that administrators are not only supported in their growth but also held accountable for fostering effective teaching, strong school climates, and improved outcomes for all students.

PROFESSIONAL LEARNING COMMUNITIES
The implementation of the Plan-Do-Study-Act (PDSA) cycle across the district has expanded significantly, with school sites integrating this continuous improvement model into their regular instructional practices. Schools are using the PDSA cycle, along with the district's established data protocol, during designated collaboration times to review site and student-level data. These structured meetings focus on identifying areas of need, setting specific learning goals for all students and targeted goals for student subgroups, and planning instructional adjustments accordingly.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

2.3) Additional LREBG funds allowed for the continuation of all intervention teachers increasing the expended amount by $519,514. Special Education costs have increased beyond the estimated projection.
2.6) PE teacher positions added to allow for collaboration time were no longer funded. This reduced the estimated expenditures by $412,137.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Comparing Baseline to Year 2 and Year 1 to Year 2 data, the district's actions have been largely effective in improving student achievement, particularly at the elementary level. The strongest and most consistent growth occurred in grades K–6, especially in early literacy. Significant gains in phonics were seen across primary grades, including a 16 point increase in Kindergarten, a 3 point increase in 1st grade, and a 5 point increase in 2nd grade. Districtwide, students reading at or above grade level increased by 7 points. These improvements suggest that the district's literacy initiatives, including the dedicated ELA block, explicit phonics instruction, and teacher training, are positively impacting student outcomes. The data indicates that district systems and supports are most effective at the elementary level, where foundational literacy skills are the primary focus and implementation has been more consistent.

At the middle school level (grades 7–8), growth appears more moderate and less consistent compared to elementary grades. While interventions, Tier II supports, PLC collaboration, and walkthrough systems are in place, student outcomes show more variability. Data suggests that students continue to need support with reading comprehension and foundational literacy gaps. Although the district's systems are supporting student learning, the impact at the middle school level has not yet reached the level of effectiveness seen in K–6.

At the high school level (grades 9–12), growth appears more limited and uneven. Programs such as MHS continuation high school, targeted interventions, and smaller class sizes provide important support for students who are behind academically. Focused courses and individualized supports are helping prevent further learning loss and providing opportunities for credit recovery and intervention. However, accelerating students to grade level remains a challenge, and achievement gains are less evident than at the elementary level.

Overall, the data demonstrates that district actions, particularly in literacy, Tier I instruction, teacher training, walkthroughs, and intervention systems, have been most effective in the early grades where foundational skills are being developed. As students progress into secondary grades, academic gaps become more difficult to close, and while current interventions are providing support, they are not yet producing the same level of accelerated growth observed in K–6.

2.1	LITERACY	The collaborative efforts of our teaching staff, students, and families are aimed at enhancing literacy across grades K-12. Operating within the framework of MTSS, we strive to address the individual needs of every student, ensuring that instruction is tailored to accommodate diverse learning styles and abilities, particularly focusing on supporting English learners and students with disabilities. Goal

Goal #	Description	Type of Goal
3	VALUED Foster an inclusive and supportive educational environment that values individuals, addresses diverse learning needs, and promotes positive behavior through the implementation of a Multiple Tiered System of Supports (MTSS) and Positive Behavior Supports (PBIS).	Broad Goal

State Priorities addressed by this goal.

Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Dashboard and local data show the district has not met the expected targets for student achievement. Attendance, social-emotional well-being, school engagement, and behavior directly influence student success. This goal has been established to identify actions aimed at ensuring staff have the necessary resources and administrative support to address behavioral challenges hindering learning. These actions are designed to enhance student engagement, improve attendance, and mitigate disruptive behaviors.

Dashboard data reveals a districtwide RED ranking for suspension rates among specific student subgroups; African American, American Indian, Hispanic, Homeless, and Students with Disabilities. This indicates a significant concern and underscores the need to identify corrective measures, as there is a link between student groups with higher suspension rates and those with lower academic achievement.

At the site level, the dashboard identifies specific school sites and student subgroups with a RED ranking for suspension rates and chronic absenteeism. This highlights an increased need for additional support to promote higher attendance and engagement in classroom instruction and extracurriculars.

Chronic Absenteeism: % of students K-8, absent 10% or more
- Oak Hill: African-American 27.8%

Suspension Rates: % suspended at least one day
- Center HS: African American 21.7%, Two or More Races 13.7%, Students with Disabilities 13.7%

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

ATTENDANCE & ENGAGEMENT
SFSS continues to emphasize the district's three-tiered Attendance and Engagement intervention and support system for all students, while maintaining close collaboration with schools to conduct targeted outreach for students identified as experiencing homelessness. The SFSS Coordinator works with the District Communications Coordinator to roll out districtwide attendance messaging during key transition periods, such as the start of the school year and holiday breaks, and has enhanced the district website with dedicated attendance resources. Using

the Everyday Pro platform, CJUSD has reached 5,018 students through communications including 5,038 chronic absence letters and over 57,000 text messages. These efforts prompted 604 family responses requesting information on attendance, transportation, and community resources. SFSS also lead student and school engagement campaigns, such as September's 21-Day Attendance Challenge, which recognized 373 students in grades TK, 2nd, 3rd, 4th, and 6th for high attendance, and the 2nd Annual "March Madness Attendance Challenge," which celebrated schools with the most improved attendance. Dudley was this year's winning school. They increased their overall attendance rate by a full percentage point and, out of the 20 school days in March, had more days exceeding February's overall attendance rate.
An attendance-focused Data Culture meeting facilitated by SFSS helped schools set new goals and develop additional supports, with ongoing collaboration now incorporated into District PBIS meetings. Additionally, the Expanded Learning Opportunities Program (ELOP) continues to operate at all five elementary schools, offering enriching, hands-on experiences in art, STEM, literacy, and social-emotional learning, along with consistent family engagement activities. Participation in ELOP continues to grow, with 201 students attending the summer intersession's Literacy Camp, and additional student participation during fall (178 students) and spring (119 students) camps, and ongoing school-year programming (504 students currently enrolled. This is an increase of 119 compared to last year.)

SOCIAL EMOTIONAL SUPPORT
Districtwide counseling meetings continue monthly to assess districtwide needs and coordinate supports. School counselors, psychologists, social workers, and Sacramento County Office of Education therapists provided a range of services, including individual and group counseling. SEL team members utilized CareSolace to connect students and families to external mental health and addiction services. Educationally Related Mental Health Services (ERMHS) were delivered by three therapists and five behavior specialists as part of students' Individualized Education Programs (IEPs).

The Safe School Ambassadors program was fully implemented at Oak Hill and Spinelli Elementary Schools. Forty-four student ambassadors were actively engaged, supported by 9 staff members who served as Family Group Leaders. Family Group meetings have been held across sites. These meetings provide structured opportunities for Ambassadors to reflect on their experiences, practice skills such as peer intervention, negotiation, and reporting, and build trust within the program under the guidance of trained adults.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Comparing baseline data to Year 2 outcomes, the district demonstrated mixed effectiveness in implementing actions related to attendance, engagement, school connectedness, and student behavior. Several metrics showed measurable improvement, while others reflected inconsistent progress across student groups.

Daily attendance improved from 90.63% at baseline to 91.35% in Year 2, an increase of 0.7 percentage points. While this reflects moderate effectiveness of attendance interventions and outreach efforts, attendance remains below the Year 3 target of 95%, indicating continued need for stronger Tier I attendance supports and family engagement systems.

Chronic absenteeism showed one of the strongest areas of improvement. Districtwide chronic absenteeism decreased from 29.2% at baseline to 21.4% in Year 2, a reduction of 7.8 percentage points. This suggests the district's attendance and engagement systems, including targeted outreach and supports through SFSS, were largely effective. English Learners improved significantly from 18.2% to 14.8%, and homelessness rates also declined from 33.9% to 31.4%. However, several student groups continue to experience disproportionately high absenteeism rates, including students with disabilities (28.7%), foster youth (28.6%), African American students (26.4%), and Pacific Islander students (24.4%). These outcomes indicate that while districtwide systems improved attendance overall, targeted interventions for high-needs student groups have not yet been consistently effective.

Club participation reflected moderate effectiveness in increasing student connectedness through extracurricular opportunities. Districtwide participation increased from 23% of TK–12 students at baseline to 25% in Year 2. While the district expanded and maintained club offerings across schools, participation growth remained modest and below the Year 3 target of 29%, suggesting that increased access alone did not consistently translate into increased student engagement.

Athletic participation also demonstrated limited overall growth. Districtwide participation increased slightly from 23% at baseline to 24% in Year 2. These outcomes suggest that while athletic opportunities remained available, expanded offerings did not consistently result in sustained increases in student participation.

The district dropout rate showed substantial improvement overall. After increasing from 4% at baseline to 8% in Year 1, the rate dropped to 2% in Year 2. This represents a 2 percentage point improvement from baseline and indicates that district actions supporting engagement, intervention, and graduation monitoring became more effective over time. The middle school dropout rate remained at zero across all years, demonstrating strong effectiveness in maintaining middle school student retention.

Suspension rates also improved steadily. Districtwide suspension rates decreased from 7.1% at baseline to 5.2% in Year 2. This reflects moderate effectiveness of behavioral supports and intervention systems. Most student groups showed improvement, including African American students, whose suspension rate declined from 15.7% to 11.8%, and students with disabilities, whose rates declined from 11.3% to 8.4%. However, some groups remain disproportionately impacted. American Indian students increased from 6.1% in Year 1 to 11.4% in Year 2, and foster youth continued to experience high suspension rates at 17.4%. These trends indicate inconsistent effectiveness of restorative and behavioral supports for specific student populations.

Expulsion rates showed slight improvement, decreasing from 6 expulsions at baseline to 5 in Year 2 after rising to 7 in Year 1. While the district reduced expulsions overall, outcomes remain above the Year 3 target of no more than 4 expulsions, suggesting continued need for preventive behavioral interventions and alternative supports before disciplinary removal.

Overall, the data demonstrates that district actions were generally effective in improving chronic absenteeism, reducing dropout rates, and lowering suspensions and expulsions. However, effectiveness remained inconsistent across student groups. Persistent disparities among

foster youth, students with disabilities, African American students, American Indian students, homeless students, and Pacific Islander students indicate that additional targeted interventions and monitoring are needed to ensure equitable outcomes districtwide.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	ATTENDANCE & ENGAGEMENT	The SFSS Department will prioritize comprehensive attendance support across all levels, including addressing Chronic Absenteeism. This will involve ongoing support for students and families through the Attendance and Engagement Process, including tiered supports and interventions. Everyday Pro will provide data monitoring and parent outreach through mail nudges, text messages, and check-ins. Oak Hill Elementary will be prioritized. At Tier 1, SFSS will disseminate positive attendance messages in monthly district family communications and raise awareness through an Attendance Awareness Campaign. Specialized communication and resources will be tailored for TK and Kinder families, who experience the highest rates of Chronic Absenteeism. Monthly, the school site with the highest attendance rate will receive the Attendance Champion Award which includes a banner and framed certificate for display. Quarterly, the "Attendance Prize Squad" will recognize schools and grade levels with positive attendance rates. The SFSS Coordinator will hold two meetings with Attendance and Engagement Leads from each school, in addition to the fall and spring Data Culture meetings. These meetings will focus on reviewing data on attendance and chronic absenteeism, developing tiered goals and interventions for sites, and implementing a home visit protocol.	$10,624,167.00	Yes

Action #	Title	Description	Total Funds	Contributing
		At Tiers 2 and 3, Attendance Leads will collaborate with the SFSS to identify, provide outreach, and support chronically absent students through a referral system aimed at removing barriers. Early intervention and intensive measures like student success plans, support networks, community referrals, and transportation assistance will be implemented as part of the three-tiered approach. Through the implementation of Tier 1 and Tier 2 PBIS supports site administrators will provide proactive student support designed to keep students in the classroom. Extended Learning Opportunities Program (ELOP) provides after-school and summer school enrichment programs for transitional kindergarten through sixth grade. Provide varied experiences to engage in school valuing student interest, increase extracurricular opportunities and participation in clubs and athletics, and elementary specialists to provide music, art, and PE. Continue to provide home/school transportation, and co-curricular and extracurricular transportation to address barriers leading to chronic absenteeism and lack of engagement in extracurricular activities. Nutrition Services ensures students have access to breakfast and lunch at no charge to students or families. Nutrition Services also provides snacks to after-school programs such as clubs and tutoring at no cost to students, families, or school site programs. Nurses & Health Assistants conduct hearing/sight checks, diabetes monitoring, and general welfare checks.		
3.2	SOCIAL EMOTIONAL SUPPORT,	POSITIVE BEHAVIORAL INTERVENTION and SUPPORTS District and sites will fully implement PBIS across all schools, fostering a positive and inclusive learning environment that promotes achievement, social-emotional development, and student well-being. 	partially funded through LREBG	participate in ongoing levels of training. Director of Student Services will coordinate PBIS, collaborating with site administrators to ensure school-wide implementation, data-driven decision-making, tiered systems of support, and fidelity of implementation. Dudley and Oak Hill begin year 2 of the 2 year California Integrated Supports Project. The project involves taking a deeper dive into PBIS by integrating SEL, Culturally Sustaining Approach and Trauma Informed practices. North Country and Spinelli will begin the 2 year program. SOCIAL EMOTIONAL SUPPORT To support the full integration of social-emotional learning through all tiers, there is a need to re-establish the District Mental Health Crisis Intervention Team encompassing district coordinators, administrators, school counselors, and other SEL student support staff to ensure that MTSS, PBIS, SEL, and trauma-informed practices are integrated and consistent in their practices, aligned from school to school, and that staff are provided guidance and trained accordingly. The team will convene to review current adopted SEL curricula, investigate others for possible implementation, and investigate a SEL/climate walkthrough tool. We are addressing other barriers to learning by continuing to provide Tier 2 and Tier 3 social-emotional supports through counselors, social workers and mental health clinicians. These positions provide social/emotional support through classroom push-in, small group counseling, individual counseling, and referrals to SFSS and community-based agencies for additional targeted support. School Psychologists, Counselors, and Behavior Specialists on the Educationally-related Mental Health Services (ERMHS) Team provide evidence-based social, emotional, and behavioral interventions to students in individual and group counseling, psychoeducational lessons in classroom settings and consultation to staff and parents in order to enable students to reach IEP goals and access their educational programs. 		SAFE SCHOOL AMBASSADORS The SFSS Coordinator will support Oak Hill and Spinelli Elementary Schools in maintaining the student-centered anti-bullying prevention program, Safe School Ambassadors Program. This will involve coordinating the training of diverse student leaders and holding monthly meetings where they can develop the skills necessary to reduce incidences of bullying and exclusion on campus, ultimately creating a safe and supportive school climate. Students will also gain positive peer and teacher relationships. Additionally, the Coordinator will investigate whether other elementary schools and Riles MS see a need to re-implement the SSA program. Metrics to determine the effectiveness of Action 3.2 Elementary Counselors: Behavior Data: suspensions, expulsions Attendance Research to support Action 3.2 Elementary Counselors: Counselors lead and coordinate academic, behavioral, and social-emotional supports across MTSS tiers, creating inclusive environments that address diverse student needs and improve overall outcomes (ASCA 2019; Goodman-Scott et al. 2017). When counselors help lead PBIS, schools experience reduced behavioral issues, improved student relationships, and a more supportive school climate (Center on PBIS 2020; Bradshaw et al. 2010).

An explanation of why the LEA has developed this goal.

Dashboard and local data indicate the district has not met the expected targets for college and career readiness. This emphasizes the need to implement actions and metrics to ensure every student graduates equipped for post-high school endeavors, whether in college or career pathways.

Dashboard data reveals a districtwide RED ranking for graduation rates among Students with Disabilities and College/Career Readiness for English Learners and Students with Disabilities, signaling a heightened level of concern and an increased need for targeted districtwide assistance.

At the site level, the Dashboard identified the following school sites and student groups with a RED ranking, signifying a high level of concern and an increased need for additional, targeted support:

College and Career Indicator (CCI): 31.4% of students prepared for College and Career
Center High
- English Learners: 8.3% prepared for College and Career
- Students with Disabilities: 4.4% prepared for College and Career

McClellan High
- Socioeconomically Disadvantaged students: 6.4% for College and Career

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

COLLEGE READINESS
The district graduation rate increased from 84.9% in 2023 to 91.1% in 2025. This rate reflects graduates from both Center High School and McClellan High School. During this time, Center High's graduation rate increased by 3.4 percentage points, while McClellan High's graduation rate increased significantly by 24.4 percentage points.

CJUSD conducted an audit of A-G course coding at Center High School to strengthen college readiness efforts. The review found that several courses were inaccurately reported to the state, which lowered the reported A-G completion rate. Course coding was corrected to reestablish an accurate baseline, resulting in an updated A-G completion rate of 31%.

The CHS College and Career Coordinator has played a critical role in promoting college and career readiness for all students, with a focused commitment to supporting students from high-needs backgrounds. The Coordinator provided individualized support with college applications, financial aid, career exploration, and connections to scholarships, internships, and vocational programs. In addition, the Coordinator organized college tours and the College and Career Fair to expand students' exposure to postsecondary opportunities and raise aspirations for higher education.

The IYT (Improve Your Tomorrow) program operates at both Center High and Riles, serving 25 students at each site. The program provided biweekly mentoring, academic study halls, college tours, and personal development workshops, and has had a strong impact on supporting the academic and social-emotional development of young men of color.

Peer Tutoring was offered twice weekly for students in grades 9–12 across all subject areas, with math being the most frequently requested area of support.

CAREER READINESS.
CJUSD offered a variety of CTE pathways, serving 608 students across courses such as 911 Dispatch, Animation 1, Animation 2, AP Computer Science, Construction 1, Construction 2, Entrepreneurship, Graphic Design 1, Graphic Design 2, Intro to Media and Design, Intermediate Media and Design, Advanced Media and Design, PLTW Intro to Engineering, PLTW Principles of Biomedical Science, PLTW Human Body Systems, PLTW Medical Interventions, Theater Arts 1

Additionally, students with disabilities in ILS, AUT, and ATP programs gained pre-employment skills through hands-on work experience and classroom-based lessons. RSP and SDC students received monthly instruction on topics like resume building, workplace safety, and customer service. Students in the Transition Partnership Program received targeted support in job exploration, counseling, self-advocacy, and work-based learning.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Comparing baseline data to Year 1 and Year 2 outcomes indicates that the district’s actions produced mixed results across college and career readiness measures. While several indicators showed improvement over time, progress was uneven across metrics and student groups, and some areas demonstrated continued decline or limited growth.

The district graduation rate increased from 84.9% at baseline to 87.2% in Year 1 and 91.1% in Year 2, representing an overall increase of 6.2 percentage points. Both comprehensive and alternative school sites contributed to this improvement. Center High School experienced a moderate increase in graduation rates, while McClellan High School demonstrated a more significant increase of 24.4 percentage points during this period. Several student groups also improved over the two years, including English Learners, socioeconomically disadvantaged students, students with disabilities, and homeless students. Despite this progress, some student groups continued to graduate at rates below the district average, particularly students with disabilities at 76.8% and African American students at 85.4%, indicating ongoing disparities in outcomes.

A-G completion results showed improvement overall but fluctuated significantly during implementation. The district increased from 19.9% of seniors meeting A-G requirements at baseline to 31% in Year 2. However, Year 1 results declined substantially to 11.4% before rebounding in Year 2 following a district audit and correction of A-G course coding at Center High School. The revised coding established a more accurate baseline and improved state reporting. Some student groups showed gains by Year 2, particularly Hispanic students, Filipino students, and socioeconomically disadvantaged students. However, several subgroups continued to demonstrate very low A-G completion rates, including students with disabilities at 2.2%, African American students at 14.3%, and English Learners at 17.6%. These results suggest that equitable access to and completion of college preparatory coursework remains inconsistent across student groups.

AP enrollment showed limited overall growth. Enrollment increased from 11% at baseline to 13.9% in Year 1 before declining to 12% in Year 2. This reflects only a one percentage point increase over the two-year period and suggests difficulty sustaining expanded participation in advanced coursework. Participation among some student groups, including African American and Filipino students, declined between Year 1 and Year 2.

Although AP participation growth remained limited, AP exam performance improved over time. The percentage of students earning a score of 3 or higher on two AP exams increased from 8% at baseline to 20% in Year 2. Similarly, the percentage of students earning a score of 3 or higher on one AP exam increased from 79.6% to 83%. These results indicate improved performance among students already enrolled in AP coursework, even as overall participation growth remained modest.

Seal of Biliteracy attainment increased steadily over the two years, rising from 5% of graduates at baseline to 15% in Year 2. The district exceeded its Year 3 target in this area, suggesting that supports for multilingual learners and promotion of biliteracy opportunities contributed to increased participation and recognition.

The College and Career Indicator showed moderate improvement overall. The percentage of graduates identified as “Prepared” for college and career increased from 31.4% at baseline to 48.3% in Year 2. At the same time, the percentage of graduates categorized as “Not Prepared” decreased from 38.1% to 21%. While these outcomes reflect improvement, more than half of graduates still remained either “Approaching Prepared” or “Not Prepared” in Year 2, indicating a continued need for expanded college and career readiness supports.

Measures related to CTE pathway completion demonstrated limited progress and some continued decline. The percentage of students completing both A-G requirements and a CTE pathway decreased slightly overall, from 12.7% at baseline to 12% in Year 2. Several student groups, including students with disabilities and English Learners, remained at or near zero participation rates.

CTE course offerings and pathway completion rates also declined over the implementation period. The number of CTE courses decreased from 17 at baseline to 16 in Year 2, while sections decreased from 29 to 26. The percentage of students completing a CTE pathway also declined slightly from 22.5% to 21.7%. These outcomes suggest ongoing challenges in maintaining and expanding CTE programming and ensuring students complete pathway sequences.

Overall, the data reflects gradual improvement in several college and career readiness indicators, particularly graduation rates, AP exam performance, Seal of Biliteracy attainment, and college and career preparedness. However, growth was inconsistent across measures, several indicators showed minimal improvement or decline, and subgroup disparities remained evident across many outcomes. Continued

focus will be needed to improve equitable access to rigorous coursework, expand CTE pathway completion, and strengthen outcomes for historically underperforming student groups.

CAREER TECHNICAL EDUCATION CTE is an educational program comprising a multiyear sequence of courses that blend core academic knowledge with technical and occupational expertise, offering students a pathway to both postsecondary education and careers. CJUSD aims to establish a comprehensive K-12 CTE plan, connecting courses from elementary to high school, to boost completion rates in CTE Pathways. This initiative creates a seamless skill-building continuum, enabling students to explore CTE coursework early on and graduate high school with a completed CTE pathway. The plan development includes a thorough needs assessment to identify areas for improvement or expansion of CTE opportunities at all levels. The district is implementing a multi-year plan to expand opportunities for McClellan HS students, integrating CTE opportunities into their academic experience. Beginning in the fall of 2025, McClellan HS will relocate to a campus adjacent to Center HS. This move will allow MHS to preserve its unique identity as a separate school but add CTE course access. MHS students will attend core classes at MHS while accessing CTE coursework available on Center High's campus. OTHER CAREER READINESS OPPORTUNITIES Workability, in partnership with the Department of Rehabilitation, provides pre-employment skills training, employment placement, and follow-up for high school students in special education, aiding the transition from school to work, independent living, and postsecondary education or training. 911 Dispatch trains students for direct entry into a career as a 911 Dispatcher, call center dispatcher or other customer service call center positions. 5	By 2027, Dudley will bridge gaps in literacy to improve student fluency and comprehension across all disciplines resulting in the following: • All student groups will be green or above on the Dashboard • Increase ELA and math by 5 percentage points per year as measured by CAASPP • Increase students on or above grade level in reading and math by 5 percentage points per year as measured by iReady • Reduce site suspension rate and student group suspension rates to 3%	Equity Multiplier Focus Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)
Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Dudley Elementary has been designated to receive Equity Multiplier Funding due to its high proportion of socioeconomically disadvantaged students and student transiency rates. The funding aims to bridge achievement and opportunity gaps for all students, especially those subgroups identified RED on the Dashboard.

Data shows a disparity in achievement and suspensions indicating a critical need for supports. Dashboard data revealed Dudley is ranked in the RED for overall ELA and math achievement, scoring below the state average in both areas. Student subgroups including African American, English learner, Hispanic, and Students with Disabilities scored in the RED for both ELA and math. Socioeconomically Disadvantaged and White subgroups scored in the RED in math. Suspensions for Hispanic, Homeless, Socioeconomically Disadvantaged and Students with Disabilities subgroups were ranked RED.

This goal has been developed to address literacy, knowing that evidence-based literacy programs will equip students with foundational skills that strengthen reading and provide a foundation for success across disciplines, including math. Additionally, improved literacy leads to improved behavior as students gain the confidence and tools to navigate academic challenges. Consultation with Dudley's educational partners underscored an agreement with actions outlined in Goal 5.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The Literacy Specialist used student assessment data to identify learning needs and guide instruction using research-based teaching practices. This included supporting both core instruction and intervention efforts.

The Specialist worked closely with teachers and staff, leading Professional Learning Communities (PLCs) to help analyze student work, plan lessons, and improve instruction. They also played a key role in developing and supporting Tier 1, Tier 2, and Tier 3 interventions. Progress monitoring data was regularly collected to adjust instruction to better meet student goals.

To support teacher growth, the Literacy Specialist provided instructional coaching. This included modeling effective teaching strategies, co-teaching lessons, and offering constructive feedback to help improve classroom practices and student outcomes.

A dedicated substitute was initially assigned to support the Specialist’s work, but this position was not maintained for the full school year.>

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

5.1) The Literary Specialists' actual cost is $189,607 when $155,000 was estimated. The dedicated substitute position was eliminated when that substitute was placed in a long-term position at the district's expense. This was a savings of approximately $120,000. With the excess funds, Dudley partnered with the Sacramento County Office of Education for ELA training and support.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions of the Literacy Specialist at Dudley Elementary demonstrated moderate effectiveness, particularly in foundational literacy and math growth as measured by iReady data. From baseline to Year 2, students reading on or above grade level increased from 34% to 43%, while students performing two or more grade levels below decreased from 33% to 27%. Math performance also improved, with students on

or above grade level increasing from 22% to 30%. These gains suggest that data-driven instruction, targeted interventions, PLC collaboration, and instructional coaching positively supported student learning outcomes.

CAASPP results showed some evidence of improvement, particularly in third and sixth grade ELA and sixth grade math, indicating that instructional supports and intervention efforts may be beginning to impact student achievement. However, results remained inconsistent across grade levels, and overall Dashboard indicators in ELA and Math continued to decline, suggesting that gains in foundational skills have not yet fully translated into broader academic performance outcomes.

5.1	LITERACY SPECIALIST	Dudley will hire a Literacy Specialist to address student needs, guaranteeing that each student receives the essential support and guidance required to overcome learning gaps and enhance reading skills. This effort increases academic achievement across all subjects, including mathematics. By focusing on targeted skill development, students will experience a boost in confidence and academic success, reducing behaviors often exacerbated by academic frustrations, lack of achievement, and low confidence in their academic abilities. The Literacy Specialist will gather and analyze student data to identify areas of need. Employing evidence-based curriculum and instructional strategies, interventions will be tailored to suit the individual needs of each student. This process will involve close collaboration with administrators, teachers, and other school personnel to accurately identify students requiring Tier II and Tier III intervention. A structured system of short-term intervention cycles will then be established to ensure targeted support and monitor student progress effectively. Ongoing assessment of students' reading development will inform ongoing intervention adjustments.	$165,000.00	No

		The Literacy Specialist will provide valuable professional development opportunities to classroom teachers, equipping them with the latest research findings and innovative instructional techniques to increase literacy and further enhance student learning outcomes. Dudley will employ a dedicated substitute teacher for high need time periods to prevent the Literacy Specialist or other support staff from being pulled from their roles to fill in for the absence of a classroom teacher. This ensures continuity of support for all students, particularly high-need students. Additionally, by employing a teacher who is familiar with Dudley's policies and procedures, this position ensures consistency for all students.		
5.2	MTSS SPECIALIST	MTSS Specialist will support academics, behavior and SEL for students utilizing our MTSS framework to include Tier 1, 2 and 3 supports. They will provide support working directly with students, partner with families and provide coaching and feedback to our site teams.	$165,000.00	

Goals and Actions

Goal

Goal #	Description	Type of Goal
6	By 2027, McClellan will increase graduation rates, improve academic achievement, and decrease behaviors through targeted ELA and math intervention resulting in the following: • Increase overall ELA and math by 50% as reported by the Dashboard • Increase ELA and math scores by 5 percentage points each year as measured by CAASPP • Increase students on or above grade level in reading and math by 5 percentage points each year as measured by iReady • Increase graduation rate to 80% • Reduce site suspension rate to 7% and no student groups in the RED on the Dashboard	Equity Multiplier Focus Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)
Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

McClellan High School has been designated to receive Equity Multiplier Funding due to its high proportion of socioeconomically disadvantaged students and student transiency rates. The purpose of the funding is to bridge achievement and opportunity gaps for all students, especially those subgroups identified as RED on the Dashboard.

Dashboard data revealed MHS is ranked in the RED for overall ELA and math achievement, scoring below the state average in both areas. Graduation rate is RED overall with the Socioeconomically Disadvantaged subgroup also RED. Suspension rates are RED overall with Hispanic, Socioeconomically Disadvantaged, and White subgroups also RED. College and Career indicators ranked MHS VERY LOW overall and the Socioeconomically Disadvantaged subgroup was also ranked VERY LOW.

The data reveals disparities in achievement, graduation rates, and suspension rates, signaling a critical need for support. This goal has been developed to address the need for ELA and math intervention, recognizing that targeted intervention will bridge gaps and provide students with essential skills. These skills not only enhance reading and math abilities but also establish foundational skills for success in college and career pathways post-high school. Additionally, improved academic achievement is anticipated to raise graduation rates and improve

behavior, as students acquire the skills and confidence to navigate academic expectations. Consultation with McClellan's educational partners underscored an agreement with actions outlined in Goal 6.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The site implemented a comprehensive college and career readiness lens, focusing efforts on helping students open doors of opportunity for their futures. The counselor regularly monitored student progress toward graduation goals through benchmarks and frequent check-ins that occurred more often than monthly. College and career exploration was integrated into Advisory through counselor-led lessons and activities. The counselor also arranged tours of CTE programs at CHS and coordinated in-person and virtual tours of colleges, trade schools, and other postsecondary pathways

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

6.1) The original LCAP included the cost of an intervention teacher. That position was reduced and the partial cost of the school counselor's salary was added. The counselor's cost is $34,343.43.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The data comparing baseline to Year 1 and Year 2 shows mixed effectiveness of the actions implemented under Goal 6, with the strongest gains occurring in graduation rates and student behavior, while academic achievement outcomes remain inconsistent and, in some areas, ineffective.

Academic achievement data demonstrates limited overall effectiveness. Dashboard performance improved in both ELA and Math from the 2023 baseline to 2025. ELA improved from 139.2 points below standard to 109.5 points below standard, a 29.7-point increase, while Math improved from 217.8 points below standard to 176.6 points below standard, a 41.2-point increase. Although these gains indicate positive movement, students continue to perform well below standard overall.

CAASPP results indicate that actions have not yet produced measurable improvement in standards mastery. In ELA, students meeting or exceeding standards declined from 13% at baseline to 9% in both Year 1 and Year 2, reflecting a 4-point decline. However, students scoring at the “Nearly Met” level improved from 28% to 39%, suggesting some movement toward proficiency. Math performance remains a significant concern, with 0% of students meeting or exceeding standards across all three years. While students scoring “Nearly Met” increased from 9% at baseline to 9% in Year 2 after dipping in Year 1, overall math achievement continues to show little evidence of substantial effectiveness.

i-Ready Diagnostic data shows some evidence that interventions are beginning to support foundational skill development, particularly in reading. Students reading on or above grade level increased from 6% at baseline to 15% in Year 2, a 9-point increase. Additionally, students performing two or more grade levels below declined from 82% to 65%, indicating gradual improvement in reading intervention effectiveness. Math growth was more limited. Students on or above grade level increased from 0% to 4%, while the percentage of students two or more grade levels below improved from 97% to 83%. Although these trends are positive, the majority of students remain significantly below grade level, demonstrating that academic interventions require continued refinement and intensity.

The most significant evidence of effective actions is reflected in graduation and suspension data. Graduation rates increased substantially from 65.5% at baseline to 89.4% in Year 2, representing a 23.9-point increase and exceeding the Year 3 target of 80%. Additionally, student groups previously identified as RED on the Dashboard were no longer identified in Year 1 or Year 2, indicating meaningful improvement in student completion outcomes.

Suspension data also reflects highly effective implementation of behavioral and school climate supports. Suspension rates declined from 15.4% at baseline to 2.2% in Year 2, a 13.2-point reduction that far exceeded the target of reducing suspensions to 7%. Student groups previously identified as RED, including Hispanic, socioeconomically disadvantaged, and White students, were no longer identified as RED in subsequent years. This suggests that behavioral interventions, restorative practices, and student supports have been successful in improving school climate and reducing exclusionary discipline.

College and Career Indicator (CCI) outcomes demonstrate limited effectiveness. The percentage of students considered prepared for college or career decreased from 5.7% at baseline to 5% in Year 2 after declining to 3.6% in Year 1. Although there was slight recovery in Year 2, performance remains well below the 10% target, indicating that actions designed to strengthen college and career readiness pathways have not yet resulted in substantial measurable improvement.

This is particularly significant for high-needs students who may have limited access to reading materials suitable for their reading levels outside of school. By granting students access to a variety of academically appropriate literature, we create an environment that fosters literacy and ultimately improves academic achievement. For English Learners and Long-Term English Learners, bilingual assistants offer crucial additional support. These assistants help bridge the gap between two languages, facilitating language acquisition and bolstering academic achievement. They also create an inclusive school environment that fosters belonging and supports learning and growth, particularly for high-need students facing additional challenges. By analyzing student data and implementing targeted interventions, administrators strategically allocate resources to maximize student success. Investing in teachers' professional growth enhances their ability to effectively support diverse learners, contributing to overall student achievement.	
3.1	**Action:** ATTENDANCE & ENGAGEMENT **Need:** increase attendance, decrease chronic absenteeism, decrease undesirable behaviors and suspensions, increase engagement in school through extracurricular activities **Scope:** LEA-wide	Providing athletics, health services, transportation, and attendance outreach to parents can significantly enhance attendance and school engagement for all students, particularly those with high needs. Participation in clubs or sports often serves as a strong motivator for regular school attendance, offering diverse avenues for engagement beyond the classroom. Access to medical care, counseling, and other health resources on campus increases the likelihood of regular attendance, addressing crucial health needs, especially for high-need students who may encounter barriers to healthcare access outside of school. Transportation services play a vital role in ensuring that all students, regardless of their family's transportation situation, can attend school regularly, thereby removing a common barrier to attendance, particularly for students from low-income families. By offering transportation options, schools not only increase regular attendance but also facilitate increased participation in extracurricular activities, particularly for high-need	Daily Attendance, Chronic Absenteeism, Club Offerings, Athletic Offerings, Suspension Rates, Panorama Student Survey data

		students facing transportation challenges. Additionally, outreach efforts play a pivotal role in identifying and addressing barriers to attendance, such as transportation issues or health concerns, fostering support and communication that are especially impactful for high-need students coming from families with limited resources or facing various challenges, ultimately promoting attendance and engagement.	
3.2	**Action:** SOCIAL EMOTIONAL SUPPORT, partially funded through LREBG **Need:** Attendance and chronic absenteeism, social, referrals for Tier 1 and Tier 3 SEL supports, inappropriate behaviors resulting in suspension, **Scope:** LEA-wide	PBIS, SEL, Safe School Ambassadors, school counselors, and psychologists play vital roles in fostering an inclusive and supportive educational environment by providing social-emotional support for all students, particularly those with high needs. School counselors and psychologists offer individual and group support to students facing academic, social, or emotional challenges. This targeted assistance aims to address underlying issues that could contribute to poor attendance, behavior problems, or disengagement. In addition to these targeted supports, various campus-wide programs are in place to further assist high-need learners. PBIS (Positive Behavioral Interventions & Supports) initiatives enhance attendance and engagement, while SEL (Social-Emotional Learning) programs equip students with tools to manage emotions, build relationships, and make responsible decisions. Safe School Ambassadors exemplify positive behavior and facilitate conflict resolution. Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Through 2.1, 2.2 and 2.3, we are maintaining an increased number of certified and classified staff at Spinelli Elementary, North Country Elementary, Dudley Elementary, Elementary, Oak Hill Elementary, Riles Middle School, and McClellan HS to focus on supporting the linguistic and academic needs of English learners, including long-term ELs. Strategies include Tiered Literacy Instruction, Integrated Language Development, and Designated Language Development. Efforts are informed by data analysis, allowing us to track student progress and ensure English Learners achieve their grade-level academic goals and reach reclassification.

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32627(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32627(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement
An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32627(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32627(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding**.** LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. **LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources**; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

This template is designed to be used by LEAs who already have completed their LCAP Federal Addendum and received approval from CDE. This template will support LEAs with the review of their LCAP Federal Addendum and revision.

The review and revision of the LCAP Federal Addendum do not need to be submitted to CDE for approval. However, an LEA should have their local Board approve any revisions.

Even if the LEA plans to transfer all of its title funds, it must still address all of the provisions of the title from which it is transferring its funds. The LEA must first meet the application requirements of those funds before it can elect to transfer those funds to another title.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

CJUSD has eight schools serving students in TK through grade 12 residing in areas of Antelope, Elverta and Roseville. District boundaries cross the county line between Sacramento County and Placer County.

CJUSD has five TK-6 elementary schools: Cyril Spinelli, Arthur S. Dudley, North Country, Oak Hill and Rex Fortune Elementary. All five elementary schools feed into Wilson C. Riles Middle School. CJUSD has two high schools. Center High is a 9-12 comprehensive high school and McClellan High is a continuation high school.

At CJUSD we believe all students can learn and achieve at high levels. It is our mission to empower students to realize their dreams by developing communication skills, reasoning, integrity and motivation through academic excellence, a well rounded education and being active citizens of our diverse community. We focus on academic achievement and social-emotional development through a Multi-Tiered System of Supports. We are committed to providing support to meet all of our students' academic, social/emotional and behavioral needs through a three-tiered system of supports. We use a collaborative approach to collect, analyze and review student data to monitor the effectiveness of our system and ensure students have the resources and tools they need to successfully engage in school. All students participate in Tier 1 research-based curriculum and social/emotional programs. In addition to Tier 1, students who are not making adequate progress are provided Tier II targeted supports and interventions based on their identified needs. Tier III programs and services are provided for those few students who require supplemental, individualized and customized intervention.

The Local Control Accountability Plan (LCAP) goals aligned with our district mission and educational focus are as follows:

- Establish a positive school climate that promotes a sense of belonging for all students, staff and families.
- Enhance classroom instruction to effectively impact all students through the integration of Multi-Tiered Systems of Support (MTSS), evidence-based practices, and differentiated instruction.
- Foster an inclusive and supportive educational environment that values individuals, addresses diverse learning needs, and promotes positive behavior through the implementation of a Multiple Tiered System of Supports (MTSS) and Positive Behavior Supports (PBIS).
- Establish environments that cultivate learning experiences and provide paths to college and career readiness, ensuring that all students thrive.

Title I, Title II, Title III, and Title IV categorical funds are used to supplement LCAP funding and increase and enrich student programs. The Business Department and Curriculum & Instruction Department work together to oversee categorical funding, compliance, and program implementation. Administrators from both departments work closely with site administrators to develop, revise and implement each site's School Plan for Student Achievement (SPSA).

Spinelli Elementary, North Country Elementary, Oak Hill Hill Elementary, Dudey Elementary, Riles Middle School and McClellan High School are Title I schoolwide programs. Title I funds supplement core programs, providing student intervention, supplemental materials and supplies, professional learning for educators, and increased parental engagement. Using data and other reports, site Title I programs are evaluated for effectiveness through School Site Council and Title I Parent Meetings.

Professional development through Title I, Title II and Title III focuses on the implementation of ELA/ELD framework, Designated and Integrated ELD instruction to meet the needs of English Learners, Differentiated Instruction, Multi-Tiered System of Supports, Social Emotional Learning, and Trauma Informed Practices.

Through Title III funds, the District English Learner Coordinator provides program support to all school sites through program planning, data analysis, coaching, demonstration lessons, supplemental resources and technology.

Title IV funding provides additional support to increase student achievement by providing well-rounded education through enhanced STEAM programs, improve school conditions for chronically ill students, and increase student achievement by ensuring effective use of technology.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The district ensures alignment between the LCAP and federal funds by requiring all schools to create a Single Plan for Student Achievement (SPSA). School site goals with the SPSAs are aligned to state priorities and directly linked to district LCAP goals. Programs and activities listed below are aligned to local, state and federal funding:

TITLE I
-Increase student achievement through Tier 2 and Tier 3 academic support provided by Title I teachers and paraeducators
-Increase parent-school connections through outreach and education for all families

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP, it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Goal 2 of our Local Control Accountability Plan: Enhance classroom instruction to effectively impact all students through the integration of Multi-Tiered Systems of Support (MTSS), evidence-based practices, and differentiated instruction. As a result much effort is put forth to ensure highly qualified and effective teachers and staff are providing high-quality instruction and are suppo:rted with purposeful professional development. The CJUSD Personnel Department uses detailed spreadsheets to identify disparities that result in low-income or minority students being taught at higher rates than other students by ineffective/misassigned, inexperienced or out-of-field teachers. This data on school sites and districtwide is reported annually through the School Accountability Report Card (SARC).

On November 6, 2019, the SBE approved updated definitions for "ineffective" and "out-of-field" teachers to be included in the amended California ESSA Consolidated State Plan.

Term	Definition

Under this definition, teachers with the following limited emergency permits would be considered ineffective: • **Provisional Internship Permits,** • **Short-Term Staff Permits** • **Variable Term Waivers** **Substitute permits or Teaching Permits for Statutory Leave (TSPL) holders serving as the teacher of record**
Out-of-field teacher	A credentialed out-of-field teacher is: A credentialed teacher who has not yet demonstrated subject matter competence in the subject area(s) or for the student population to which he or she is assigned. Under this definition, the following limited permits will be considered out of the field: • General Education Limited Assignment Permit (GELAP) • Special Education Limited Assignment Permit (SELAP) • **Short-Term Waivers** • **Emergency English Learner or Bilingual Authorization Permits** **Local Assignment Options** (except for those made pursuant to the *California Code of Regulations*, Title 5, Section 80005[b])

Each Title I school will have a Parent/School Compact and hold an annual meeting to inform parents of their school's participation in Title I and the requirements that follow. To build capacity and meaningful parent involvement, parents will be collaborative partners in writing the Parent and Family Engagement Policy. At least 1% of Title I funds will be allocated for parent and family engagement activities.

Ongoing collaboration between the District English Learner Coordinator, school site administrators, and English Learner and classroom teachers, along with the analysis of student and program data, determines professional learning needs. The expertise of the District English Learner Coordinator and site English Learner Specialists is utilized to deliver targeted professional development for administrators, general education teachers, and instructional staff, aimed at effectively meeting the needs of English Learners.

EL Teachers, general education teachers, and instructional staff engage in professional development during collaboration time and ongoing training sessions. This professional development ensures that Designated ELD instruction focuses on state-adopted ELD standards, supporting EL students in developing critical English language skills for academic content learning. Additionally, teachers and instructional staff receive training to provide integrated instruction effectively.

Site administrators conduct informal walkthroughs to ensure both Integrated and Designated ELD instruction are implemented. Teachers also participate in in-person or virtual conferences and workshops designed to build their capacity to meet the needs of English Learners.

iPads are provided for middle and high school students, enabling immigrant students to access their core classes in their primary language. This helps them keep up with the content while learning English. The iPads are also equipped with apps like DuoLingo, which offer an engaging, game-like way to learn English. For elementary students, Chromebooks are available for families to check out and use at home, in addition to the assigned student Chromebook. Teachers provide links to English vocabulary and reading websites for children and their families to use at home. The district's ELA and math curriculum, as well as books, can also be accessed on the Chromebooks. Parents can use the Chromebooks to access Aeries and district/school websites.

Additional resources for English language development, beyond the typical ELA curriculum, are provided. These include picture dictionaries for all grade levels, picture/word/vocabulary flashcards, and word and reading games designed specifically for students new to English.

Professional development is provided for ELD teachers, focusing on newcomer instruction to enhance the education of immigrant students in ELD classes. These trained teachers also apply their new knowledge to support classroom teachers.

Title III Programs and Activities

As outlined in Goal 2 of our Local Control Accountability Plan, we support and challenge our English Learners through a Multi-Tiered System of Supports (MTSS). This framework ensures that English Learners have access to high-quality instruction using district-adopted, standards-aligned curriculum, technology, and evidence-based instructional strategies. Instruction is designed to be universally accessible, meeting the diverse needs of English Learners.

Our three-tiered MTSS approach addresses the academic, social/emotional, and behavioral needs of English Learners. We utilize a collaborative method to collect, analyze, and review student data, which helps us monitor the effectiveness of our system and ensures students have the resources they need to successfully engage in school. CJUSD offers effective programs and activities to help English Learners increase their English language proficiency and meet the challenging State Standards.

Students enrolled in the Structured English Immersion (SEI) program engage in daily, intensive English Language Development (ELD) sessions alongside their core subject studies. Tailored to individual proficiency levels, these sessions encompass listening, speaking, reading, and writing in English, adhering to ELD standards. Teachers seamlessly integrate ELD standards into core subject lessons to foster crucial language competencies. All core content is aligned with state grade-level standards, ensuring comprehension through appropriate instructional strategies. Throughout the school day, integrated ELD is woven into every subject area, drawing from California ELD Standards and the California Common Core State Standards (CCSS) for ELA/Literacy, as well as other content standards. Long-term English Learners (LTEL) benefit from personalized language acquisition services. Additionally, middle and high school students new to the country and with limited English proficiency receive specialized designated ELD courses. At the high school level, academic support extends to ELD tutorials aiding students with coursework and long-term EL support classes tailored for LTEL students.

Bilingual Assistants offer primary language support in small group settings and one-on-one sessions, both on campus and through virtual learning. These supplemental supports are funded by the Local Control Funding Formula (LCFF).

Site administrators conduct regular classroom walkthroughs to ensure that English Learners meet language acquisition and achievement goals and receive effective tiered instruction and Universal Design for Learning (UDL). The District EL Coordinator and/or site EL teachers often accompany administrators on these walkthroughs, providing coaching support as needed. District administrators also conduct monthly learning walks at all school sites, focusing on ELA and ELD instruction.

3. use a portion of Title IV, Part A funds to support one or more effective use of technology activities; and
   a) 15 percent max cap on effective use of technology for purchasing technology infrastructure.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Title IV, Part A funds are used to increase the capacity of the district and school sites to provide all students with access to a well-rounded education, improve school conditions for learning, and enhance the effective use of technology to support academic achievement and digital literacy. All expenditures align with federal guidelines and are designed to supplement existing programs and services.

A minimum of 20% of Title IV funds will be dedicated to activities that support safe and healthy students. These funds will support a healthy, active lifestyle and address chronic disease management through services provided by a Licensed Vocational Nurse (LVN) under the supervision of credentialed school nurses. This includes monitoring and responding to student health needs, supporting individualized care plans, and ensuring timely access to medical support during the school day. By proactively addressing student health needs, the district aims to reduce health-related barriers to learning, improve attendance, and increase student engagement. These supports contribute to improved academic outcomes by ensuring that students with chronic health conditions can consistently access instruction and fully participate in the school environment.

The remaining Title IV funds will be allocated to school sites to address locally identified needs through each site's comprehensive needs assessment. At least 20% of each site's allocation will be used to enhance access to a well-rounded education. These funds may support enrichment opportunities such as expanded course offerings, college and career readiness activities, visual and performing arts, and other programs designed to increase student engagement and exposure to diverse learning experiences.

No more than 15% of site allocations will be used to support the effective use of technology. Funds may be used to purchase supplemental devices, instructional software, and related supplies, as well as to support the integration of technology into instruction. These investments will expand equitable access to digital tools, strengthen instructional practices, and provide students with meaningful opportunities to develop digital literacy and 21st-century skills necessary for postsecondary education and career readiness.

The effectiveness of Title IV-funded activities will be evaluated using multiple measures, including academic achievement data, attendance rates, health and mental health referral data, and stakeholder feedback. Input will be gathered through student, staff, and parent surveys, as well as through advisory groups such as the School Site Council and the Superintendent's Advisory Council. This ongoing evaluation process will inform continuous improvement and ensure that Title IV funds are used strategically to meet student needs and improve outcomes.

Title IV, Part A Needs Assessment

According to the Every Student Succeeds Act (ESSA), all local educational agencies (LEAs) receiving at least $30,000 must conduct a needs assessment specific to Title IV, Part A (ESSA Section 4106[f]). RECOMMENDED BOARD ACTION:
The board will consider whether of not to adjust its monthly stipend to match the current adjusted monthly stipend as established by Education Code 35120.

BACKGROUND

The following provides an overview of the past and current limits on allowable school board member stipends (California Education Code §35120) and the recently enacted increases under Assembly Bill 1390 (AB 1390).

California Education Code 35120 pertains to the compensation of members of a school district's governing board, with the amount determined by the district's prior-year average daily attendance (ADA). The law sets maximum monthly compensation limits based on ADA, and allows boards to increase compensation by a small annual percentage (no more than 5% annually). Compensation is often contingent on attending all meetings, though boards can make exceptions for absences due to illness, jury duty, or approved district services.

Previous Law Prior to October 11, 2025 (Education Code §35120)

District ADA	Previous Maximum Monthly Stipend
> 60,000	$1,500
25,001–60,000	$750
10,001–25,000	$400
1,001–10,000	$240
150–1,000	$120
< 150	$60

California Assembly Bill (AB) 1390, enacted in 2025, modernizes and increases compensation for school board members. Signed into law, the bill is intended to make serving on a school board more accessible, help retain experienced trustees, and attract a broader range of community members by ensuring compensation levels are more equitable. The law increases the maximum monthly compensation for school board members based on a district's student enrollment. AB 1390 was chaptered into law on October 11, 2025, and was approved by the Governor on the same day. Since it was chaptered and approved on October 11, 2025, the law took effect immediately upon that date.

Adjustments Under AB 1390 After October 11, 2025 (Education Code §35120)

District ADA	Current Maximum Monthly Stipend
> 60,000	$7,500
25,001–60,000	$3,750
10,001–25,000	$2,000
1,001–10,000	$1,200
150–1,000	$600
< 150	$300

Implications for CJUSD

CJUSD falls within the 1,001–10,000 ADA range.

- Previous maximum: $240/month
- Current (AB 1390 adjusted) maximum: $1,200/month

Recommendation

The board adjust its monthly stipend to match the current adjusted monthly stipend as established by Education Code §35120.
