5 Steps to Transitioning Your Medications and Pharmacy

**Western Health Advantage
and OptumRx make it easy
to access your prescriptions
at pharmacies across
Northern California.**

**Follow these steps for a
smooth transition:**

For questions, call WHA Member
Services at **916.563.2250** or
888.563.2250. We're here to help!

Find a Pharmacy

Use the Optum Pharmacy Search to locate national chains or local independent pharmacies near you.

Contact Your New Pharmacist for a Transfer Request

Contact your new pharmacy and tell the pharmacist you have a transfer request. Share your current medication list, allergies, and any over-the-counter supplements or vitamins. Your new pharmacist will handle the transfer of your medications from your old pharmacy.

Check Coverage & Costs

Use the Preferred Drug List to confirm coverage tiers, costs, and if prior authorization is needed. For assistance, contact your pharmacist, PCP, or WHA Member Services.

Behavioral Health

From diagnosis to treatment, WHA partners with Optum Behavioral Health to offer a wealth of mental health services to WHA members.

WHA plans to offer a full spectrum of mental health and substance use disorder services:

- Call 24/7 to reach a mental health professional. PCP referral is not required — and when you need it right away, we offer Express Care Access
- Optum's liveandworkwell.com member portal has interactive videos on types of care options, screening tools, prevention programs, self-care apps, and more. **Access Code: WHA**

Stress Management

WHA plans also include an app to help you manage your stress.

AbleTo app and program that lets you access:

- Daily mood tracking
- Mental health tools
- Techniques and Tips
- Personalized Activities and Coaching

And if you need more support longer term, you can gradually add Therapy sessions as well (check your copays).

Built-in Wellness

Preventive Care

Your WHA health plan is not just about care and coverage when you are sick, but to help strengthen your defenses! When you catch health issues early, your treatment is that much more effective.

Preventive care is at no copay/deductible and includes:

Regular checkups (wellness visit/exam)

Preventive screenings

Vaccines and immunizations (shots) including flu vaccine and tetanus shot available at your PCP's office or local pharmacy

Learn more: mywha.org/guidelines

Nutritional Counseling

Support is offered to our members with weight management issues — whether dealing with obesity, eating disorders, or a needed weight gain.

For those who meet specified medical criteria and are ready for nutrition and lifestyle changes, **your PCP may refer you to a nutritionist or dietician for several sessions.**

Pain Management

Access innovative virtual physical therapy from your phone or laptop with Kaia app

- For acute and chronic musculoskeletal (MSK) pain, Kaia Health brings innovative coaching wherever you are!
- AI-driven PT instruction and monitoring to help with knee, hip, back, or neck pain
- Strengthening and relaxation techniques for pain management

Learn more: mywha.org/digitalPT

Hypertension Management

For adult members living with high blood pressure (or hypertension), our plans include a hypertension management program that includes tools from **Teledoc's Livongo for Hypertension.**

- ✓ Connected blood pressure monitor – sent to your home
- ✓ Support from coaches that can help answer questions to help improve your risk for complications
- ✓ Easy-to-use app and dashboard, so you can share it with your doctor or care team

Diabetes Management

If you currently have type 2 diabetes, we offer two programs to support you:

1. **Chronic Care Management** – Support and coaching for managing your condition
2. **Virta Health** – Reverse type 2 diabetes by offering this innovative telehealth program at no added cost. Members can lower their A1c, reduce or eliminate diabetes medications, and lose weight.

Outcomes from over 300 WHA members on the Virta program for over a year:

- 1.23% decrease in A1c levels
- At least an 8.6% weight loss
- Over half of the WHA participants reduced or eliminated their diabetes-specific medications
