

Toileting Mastery Bootcamp: Confidence & Independence for TK and K Readiness

Our Toileting Mastery Bootcamp is a supportive, engaging, and developmentally appropriate program designed specifically for young children entering Transitional Kindergarten (TK) or Kindergarten who have not yet achieved full toilet mastery. This short-term, intensive bootcamp helps children build the skills, confidence, and routines needed for toileting success in a school setting.

Led by early childhood specialists, the bootcamp focuses on:

- Building a positive relationship with toileting through play-based routines
- Practicing bathroom independence, hygiene habits, and communication skills
- Supporting emotional regulation and body awareness
- Coaching families on consistent strategies and reinforcement at home

Through a warm, encouraging environment, children will gain not only practical toileting skills but also the confidence they need to feel ready for school. Ideal for families looking for a gentle, structured jump-start before the school year begins!

July 28- August 1, 2025
