

MATH and PHYSICS

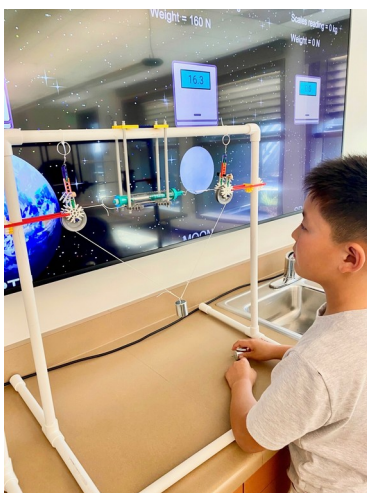

for local kids
by local parents
propermath.com

Physics Playground

(ages 5-8)

We invite inquisitive young minds to learn through play! This playground is like no others! In our program kids will create and test structures and mechanisms, experiment with forces, mass, and motion, get a first hand experience with the basic physics concepts and build a proper scientific vocabulary!

Lafayette Community Center, 3:30 pm – 5:30 pm on Tuesdays

Physics Lab

(ages 8-12)

Join us for some Serious Scientific Fun! At our lab we tackle some seriously cool topics, flex our math brain muscles and have so much fun! Learn physics applications from ancient inventions to modern engineering marvels with cool experiments and fun hands-on activities!

Lafayette Community Center,
3:30 pm – 5:30 pm on Thursdays

Math Club

(ages 11-14, middle school)

We want every kid to enjoy math and feel confident they can be good at it!

We invite middle schoolers to join fun group discussions, solve tricky puzzles, play games and fill any gaps in their knowledge that could hold them back on their math journey.

Come join us on Saturday mornings at Lafayette Community Center!

Math Club

(ages 9-11, elementary school)

Fourth and fifth graders are welcome to their own Math Club!

Learn more and register at: <https://www.propermath.com/after-school>

Wednesdays 4 – 5:30 pm @ Downtown Lafayette
