Forecast Purpose/Objectives

Ohio Department of Education and Workforce's purposes/objectives for the financial forecast are:

1. To engage the local board of education and the community in the long range planning and discussions of financial issues facing the school district.
2. To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. §5705.412, commonly known as the "412 certificate."
3. To provide a method for the Department of Education and Auditor of State to identify school districts with potential financial problems.

Forecast Methodology

This forecast is prepared based upon historical trends and current factors. This information is then extrapolated into estimates for subsequent years. The forecast variables can change multiple times throughout the fiscal year, and while cash flow monitoring helps to identify unexpected variances, no process is guaranteed. The intent is to provide the district's financial trend over time and a roadmap for decisions aimed at encouraging financial sustainability and stability.

Financial Summary Notes

Expenditure change is projected to outpace revenue change. By the end of 2030, the cash balance is projected to decline by a total of \$7,877,153 compared to 2025. For fiscal year 2030, expenditures are currently projected to exceed revenue, resulting in a revenue shortfall the final year of the forecast period.

For revenue, projected change is expected to be less than the historical average. Over the past five years, revenue increased by 5.16% (\$1,045,555 annually). However, it is projected to increase by 0.45% (-\$492,965 annually) through fiscal year 2030. Notably, State Funding, is expected to be \$1,399,591 less per year compared to history, and is the biggest driver of trend change on the revenue side.

For expenditures, projected change is expected to be at a slower pace than the historical trend. Expenditures increased by 22.46% (\$4,262,136 annually) during the past 5-year period, and are projected to decrease by 6.70% (\$2,576,052 annually) through 2030. The forecast line with the most change on the expense side, Other Uses, is anticipated to be \$6,414,059 less per year in the projected period compared to historical averages.

1.010 - General Property Tax (Real Estate)

Revenue collected from taxes levied by a school district by the assessed valuation of real property using effective tax rates for class I (residential/agricultural) and class II (business).

Real estate property tax revenue accounts for 17.81% of total district general fund revenue.

Key Assumptions & Notes

Values, Tax Rates and Gross Collections							Gross Collection Rate Including Delinquencies
Tax Yr	Valuation	Value Change	Class I Rate	Change	Class 2 Rate	Change	
2024	291,555,620	(831,330)	20.01	-	37.37	-	100.3%

2029	373,177,340	29,745,000	19.67	(0.02)	36.71	(0.33)	100.0%

Class I, or residential/agricultural taxes make up approximately 65.46% of the real estate property tax revenue. The Class I tax rate is 20.10 mills in tax year 2025. The projections reflect an average gross collection rate of 100.0% annually through tax year 2029. The revenue changed at an average annual historical rate of 4.39% and is projected to change at an average annual rate of 0.37% through fiscal year 2030.

1.020 - Public Utility Personal Property

Revenue generated from public utility personal property valuations multiplied by the district's full voted tax rate.

Public Utility Personal Property tax revenue accounts for 7.48% of total district general fund revenue.

Key Assumptions & Notes

Values and Tax Rates					Gross Collection Rate Including Delinquencies
Tax Year	Valuation	Value Change	Full Voted Rate	Change	
2024	58,746,770	6,286,880	43.31	-	97.8%
2025	59,633,810	887,040	43.41	0.10	99.4%
2026	60,383,810	750,000	43.09	(0.32)	99.4%

2029	60,946,310	187,500	43.08	(0.02)	99.4%

The public utility personal property tax revenue is generated from the personal property values, additions, and depreciation reported by the utility companies. The property is taxed at the full voted tax rate which in tax year 2025 is 43.41 mills. The forecast is modeling an average gross collection rate of 99.41%. The revenue changed historically at an average annual dollar amount of \$201,386 and is projected to change at an average annual dollar amount of \$44,620 through fiscal year 2030.

1.030 - School District Income Tax

Revenue collected from income tax earmarked specifically to support schools with a voter approved tax by residents of the school district; separate from federal, state and municipal income taxes.

Key Assumptions & Notes

The district does not have an income tax levy.

1.035 - Unrestricted Grants-in-Aid

Funds received through the State Foundation Program with no restriction.

Unrestricted State Aid revenue accounts for 29.73% of total district general fund revenue.

Key Assumptions & Notes

District Educated Enrollment

Beginning in fiscal year 2022, Ohio adopted the Fair School Funding Plan (FSFP). Funding is driven by a base cost methodology that incorporates the four components identified as necessary to the education process. The Base Cost is currently calculated for two years using a statewide average from historical actual data.

For Buckeye Local School District, the calculated Base Cost total is \$13,381,855 in 2026.

The State's Share of the calculated Base Cost total is \$6,877,545, or \$4,309 per pupil.

The FSFP also started funding students where they attended school. Therefore district educated enrollment is now used for per pupil funding. At the same time, the FSFP eliminated tuition transfer payments from school districts, which impacts the expense side of the forecast.

1.040 & 1.045 - Restricted Grants-in-Aid

Funds received through the State Foundation Program or other allocations that are restricted for specific purposes.

Restricted State Aid revenue accounts for 4.81% of total district general fund revenue.

Key Assumptions & Notes

Restricted aid is the portion of state per pupil funding that must be classified as restricted use. Historically the district's restricted state aid changed annually on average by \$414,013 and is projected to change annually on average by -\$31,320. Restricted funds represent 4.81% of the district's total revenue. Starting in fiscal year 2022, the district's Success & Wellness funding became restricted; the state's share of this funding recorded as restricted is \$320,515. This funding has implications on general fund expenditures in that certain spending now occurring in a fund external to the general fund could shift to the general fund. The expenditures in this forecast are adjusted to reflect this change.

1.050 - State Reimbursement Property Tax Credits

Includes funds received for Tangible Personal Property Tax Reimbursement, Electric Deregulation, Homestead and Rollback.

State Reimbursement of Property Tax Credit revenue accounts for 4.94% of total district general fund revenue.

Key Assumptions & Notes

State Reimbursement of Property Tax Credits primarily consists of reimbursements from the state of Ohio for local taxpayer credits or reductions to their tax bill. The state reduces the local taxpayer's tax bill with a 10% rollback credit, and 2.5% owner-occupied rollback credit, plus a homestead credit for qualifying taxpayers. In fiscal year 2026, approximately 11.7% local residential property taxes will be reimbursed by the state in the form of rollback credits and approximately 3.7% will be reimbursed in the form of qualifying homestead exemption credits.

1.060 - All Other Operating Revenues

Operating revenue sources not included in other lines; examples include tuition, fees, earnings on investments, rentals, and donations.

All Other Revenue accounts for 3.75% of total district general fund revenue.

Key Assumptions & Notes

Other revenue includes tuition received by the district for non-resident students educated by the district. It also includes interest income, payments in lieu of taxes, and miscellaneous revenue. The historical average annual change was -\$337,950. The projected average annual change is -\$69,460 through fiscal year 2030.

2.070 - Total Other Financing Sources

Includes proceeds from sale of notes, state emergency loans and advancements, operating transfers-in, and all other financing sources like sale and loss of assets, and refund of prior year expenditures.

Other Sources of revenue accounts for 31.48% of total district general fund revenue.

Key Assumptions & Notes

All Other Financing Sources	27,470	23,732	23,732	23,732	23,732	23,732

Other sources includes revenue that is generally classified as non-operating. Return advances-in are the most common revenue source. In 2025 the district receipted \$130,359 as advances-in and is projecting advances of \$148 in fiscal year 2026. The district also receives other financing sources such as refund of prior year expenditures in this category. The district is projecting that all other financing sources will be \$23,732 in 2026 and average \$23,732 annually through 2030.

3.010 - Personnel Services

Employee salaries and wages, including extended time, severance pay, supplemental contracts, etc.

Salaries account for 35.22% of the district's total general fund spending.

Key Assumptions & Notes

Salaries represent 35.22% of total expenditures and increased at a historical average annual rate of 3.53% (or \$352,562). This category of expenditure is projected to grow at an annual average rate of 3.20% (or \$387,357) through fiscal year 2030. The projected average annual rate of change is 0.32% less than the five year historical annual average.

3.020 - Employees' Benefits

Retirement for all employees, Workers Compensation, early retirement incentives, Medicare, unemployment, pickup on pickup, and all health-related insurances.

Benefits account for 14.66% of the district's total general fund spending.

Key Assumptions & Notes

Benefits represent 14.66% of total expenditures and increased at a historical average annual rate of 3.85%. This category of expenditure is projected to grow at an annual average rate of 6.22% through fiscal year 2030. The projected average annual rate of change is 2.37% more than the five year historical annual average.

3.030 - Purchased Services

Amounts paid for services rendered by personnel who are not on the payroll of the school district, expenses for tuition paid to other districts, utility costs and other services which the school district may purchase.

Purchased Services account for 13.25% of the district's total general fund spending.

Key Assumptions & Notes

Purchased Services represent 13.25% of total expenditures and increased at a historical average annual rate of 7.44%. This category of expenditure is projected to grow at an annual average rate of 4.18% through fiscal year 2030. Starting in 2022, the Fair School Funding Plan (State Funding) only accounted for district educated enrollment, thereby reducing district tuition costs for open enrollment 'out,' community schools, STEM, and scholarship students. This change resulted in lower district costs, but also less per pupil state revenue since per pupil funding is now paid directly by the state to the district students attend.

3.040 - Supplies & Materials

Expenditures for general supplies, instructional materials including textbooks and media material, bus fuel and tires, and all other maintenance supplies.

Supplies and Materials account for 2.94% of the district's total general fund spending.

Key Assumptions & Notes

Supplies & Materials represent 2.94% of total expenditures and increased at a historical average annual rate of 20.37%. This category of expenditure is projected to decrease at an annual average rate of 2.42% through fiscal year 2030. The projected average annual rate of change is 22.79% less than the five year historical annual average.

3.050 - Capital Outlay

This line includes expenditures for items having at least a five-year life expectancy, such as land, buildings, improvements of grounds, equipment, computers/technology, furnishings, and buses.

Capital Outlay account for 0.68% of the district's total general fund spending.

Key Assumptions & Notes

Capital Outlay represent 0.68% of total expenditures and increased at a historical average annual amount of \$229,690. This category of expenditure is projected to decrease at an annual average rate of \$212,928 through 2030. The projected average annual change is less than the five year historical annual average.

3.060-4.060 - Intergovernmental & Debt

These lines account for pass through payments, as well as monies received by a district on behalf of another governmental entity, plus principal and interest payments for general fund borrowing.

Intergovernmental and Debt account for 0.00% of the district's total general fund spending.

[illegible]

Key Assumptions & Notes

The Intergovernmental/Debt expenditure category details general fund debt issued by the District.

4.300 - Other Objects

Primary components for this expenditure line are membership dues and fees, ESC contract deductions, County Auditor/Treasurer fees, audit expenses, and election expenses.

Other Objects account for 0.98% of the district's total general fund spending.

Key Assumptions & Notes

Other Objects represent 0.98% of total expenditures and increased at a historical average annual rate of 7.88%. This category of expenditure is projected to grow at an annual average rate of 3.46% through fiscal year 2030. The projected average annual rate of change is 4.42% less than the five year historical annual average.

5.040 - Total Other Financing Uses

Operating transfers-out, advances out to other funds, and all other general fund financing uses.

Other Uses account for 32.27% of the district's total general fund spending.

Key Assumptions & Notes

Other uses includes expenditures that are generally classified as non-operating. It is typically in the form of advances-out which are then repaid into the general fund from the other district funds. In 2025 the district had advances-out and has no advances-out forecasted through fiscal year 2030. The district can also move general funds permanently to other funds, and as the schedule above presents, the district has transfers forecasted through fiscal year 2030. The table above presents the district's planned advances and transfers. The district can also have other uses of funds which is reflected in the table above.

Property Tax Reform Disclosure Items

The Ohio Department of Taxation, county auditors, and other partners are actively working through interpretation and implementation of property tax reform. As details are finalized, assumptions may evolve and updated forecasts may be necessary.

Property Tax Reform includes the following pieces of legislation:

H.B. 129 revises the 20-mill floor calculation to include fixed-sum levies. Impact begins in first update/ reappraisal cycle after tax year 2025.

H.B. 186 limits revenue increases associated with the 20-mill and 2-mill floors to inflation measured by three years of Gross Domestic Product Deflator (GDP-D) change. Taxpayers are given a credit based on update/reappraisal changes beginning in Tax Year 2023; credits are recalculated with each update/reappraisal. Districts first experience a fiscal impact in FY 2027 the impact represents full Tax Year 2025 revenue loss and one half of Tax Year 2026 revenue loss. In FY2028 and beyond the impact is only one year of revenue loss. Districts above the floor are not eligible for Inflation Cap Credits. DEW will reimburse districts on the 2023/2024 reappraisal cycles for the credit until the next reappraisal/ update cycle (2026/2027).

H.B. 335 caps inside millage revenue growth due to inflation. Beginning with update/reappraisal in tax year 2026 requires County Budget Commission to adjust inside millage rates to limit real property revenue increases to GDP-D growth over the three preceding years. Reduction applies to real and public utility personal property.

H.B. 96 allows counties to offer a property tax exemption that "piggy-backs" on existing state homestead exemption and owner-occupied credit. Unlike existing credit and exemption the piggy-back amounts are not reimbursed to the district by the state.

The Gross Domestic Product Deflator (GDP-D) is estimated based on available data from the U.S. Bureau of Economic Analysis (BEA) and Federal Reserve Bank's forward inflation expectation rate.
