Elementary Menus August 2025

We're proud to help keep America strong

Most folks don't know that the National School Lunch Program began in the years after World War II because so many recruits had been deferred from war-time service due to malnutrition. So serving meals at school began as a national defense strategy! School meals were good for kids, good for families – and good for our nation. And we're still here for you, day in and day out, all year long. Welcome back!!

FRUIT

Yellow Peppers

OF THE MONTH

Sweet yellow peppers are
great for variety and color
in a snack bag or veggie
tray. And just a quarter of
a large yellow pepper
provides all the vitamin C
our bodies needs for
a whole day!

MEAT, MEET YOUR MATCH

Crocodiles prefer meat. Any kind of meat and lots of it. They'll eat whatever they can snatch -- depending on where they live, that includes snakes, cows, deer, fish, wildebeest, gazelles, dingos, water buffaloes, boars, kangaroos, hippos, other crocodiles, small elephants -- even sharks. No wonder big crocs can tip the scales at more than 2,000 pounds!
