

COURSES OF STUDY

The Board of Trustees recognizes that a well-aligned sequence of courses fosters academic growth and provides for the best possible use of instructional time. The district's course of study shall provide students with opportunities to attain the skills, knowledge, and abilities they need to be successful academically, professionally, and personally.

The Superintendent or designee shall establish processes for ensuring the articulation of courses across grade levels within the district. As necessary, the Superintendent or designee shall work with representatives of appropriate area districts and postsecondary institutions to ensure articulation of courses with other institutions to which district students may matriculate. The sequence of courses shall be designed to ensure that each course provides adequate preparation for the next course in the sequence, only utilizes prerequisites that are essential to success in a given program or course, avoids significant duplication of content, and allows for reinforcement and progression in the subject matter.

The district shall not provide any course separately or require or refuse participation by any student on the basis of the student's actual or perceived sex, sexual orientation, gender, gender expression, gender identity, ethnic group identification, immigration status, race, ancestry, national origin, religion, color, mental or physical disability, age, medical condition, genetic information, marital status, or any other characteristic listed in Education Code 200 and 220, Government Code 11135, or Penal Code 422.55, or the student's association with a person or group with one or more of such actual or perceived characteristics. (Education Code 200, 220; Government Code 11135; Penal Code 422.55; 5 CCR 4940)

Elementary Grades

The Board shall adopt a course of study for elementary grades that sufficiently prepares students for the secondary course of study.

Secondary Grades

The district shall offer all otherwise qualified students in grades 7-12 a course of study that prepares them, upon graduation from high school, to meet the requirements and prerequisites for admission to California public colleges and universities and to attain entry-level employment skills in business or industry. The district's course of study may provide for a rigorous academic curriculum that integrates academic and career skills, includes applied learning across all disciplines, and prepares all students for high school graduation and career entry. (Education Code 51228)

COURSES OF STUDY (continued)

In addition, the course of study for students in grades 9-12 shall include instruction in skills and knowledge for adult life, career technical training, and a timely opportunity for all otherwise qualified students to enroll, within four years, in each course necessary to fulfill the requirements and prerequisites for admission to California public colleges and universities prior to graduation. (Education Code 51224, 51228)

The Superintendent or designee shall develop a process by which courses that meet California college admission criteria (referred to as "A-G" course requirements) are submitted to the University of California for review and certification. The Superintendent or designee shall maintain an accurate list of all current high school courses that have been so certified, shall ensure that the list is provided annually to all students in grades 9-12 and their parents/guardians, and shall make updated lists readily available. CONTROVERSIAL ISSUES

The Board of Trustees recognizes that the district's educational program may sometimes include instruction related to controversial issues that may arouse strong reactions based on personal values and beliefs, political philosophy, culture, religion, or other influences. Instruction concerning such topics shall be relevant to the adopted course of study and curricular goals and should be designed to develop students' critical thinking skills, ability to discriminate between fact and opinion, respect for others, and understanding and tolerance of diverse points of view.

(cf. 6141.2 - Recognition of Religious Beliefs and Customs)
(cf. 6142.1 - Sexual Health and HIV/AIDS Prevention Instruction)
(cf. 6142.3 - Civic Education)
(cf. 6142.8 - Comprehensive Health Education)
(cf. 6142.94 - History-Social Science Instruction)
(cf. 6143 - Courses of Study)

The Board expects administrators and teachers to exercise professional judgment when deciding whether or not a particular issue is suitable for study or discussion. They shall consult with the Superintendent or designee as necessary to determine the appropriateness of the subject matter, guest speakers, and/or related instructional materials or resources.

(cf. 6141 - Curriculum Development and Evaluation)
(cf. 6161.1 - Selection and Evaluation of Instructional Materials)
(cf. 6161.11 - Supplementary Instructional Materials)

When providing instruction related to a controversial issue, the following guidelines shall apply:

1. The topic shall be suitable to the age and maturity of the students.
2. Instruction shall be presented in a balanced manner, addressing all sides of the issue without bias or prejudice and without promoting any particular point of view.
3. In the classroom, teachers act on behalf of the district and are expected to follow the adopted curriculum. In leading or guiding class discussions about issues that may be controversial, a teacher may not advocate his/her personal opinion or viewpoint. When necessary, the Superintendent or designee may instruct teachers to refrain from sharing personal views in the classroom on controversial topics.
4. Students shall be assured of their right to form and express an opinion without jeopardizing their grades or being subject to discrimination, retaliation, or discipline, provided the viewpoint does not constitute harassment, threats, intimidation, or bullying or is otherwise unlawful.

CONTROVERSIAL ISSUES (continued)

(cf. 5022 - Student and Family Privacy Rights)
(cf. 5121 - Grades/Evaluation of Student Achievement)
(cf. 5145.2 - Freedom of Speech/Expression)

(cf. 5131 - Conduct)
(cf. 5131.2 - Bullying)
(cf. 5137 - Positive School Climate)

6. Adequate factual information shall be provided to help students objectively analyze and evaluate the issue and draw their own conclusions.

(cf. 0410 - Nondiscrimination in District Programs and Activities)
(cf. 5145.3 - Nondiscrimination/Harassment)
(cf. 5145.9 - Hate-Motivated Behavior)

8. The subject matter of the instruction shall not otherwise be prohibited by state or federal law.

When a guest speaker is invited to make a presentation related to a controversial issue, the Superintendent or designee shall notify him/her of this policy and the expectations and goals regarding the instruction. If the guest speaker is presenting only one point of view on an issue, the teacher shall be responsible for ensuring that students also receive information on opposing viewpoints.

(cf. 6145.8 - Assemblies and Special Events)

When required by law, such as in regards to comprehensive sexual health and HIV prevention education, parents/guardians shall be notified prior to instruction that they may request in writing that their child be excused from the instruction. Students whose parents/guardians decline such instruction may be offered an alternative activity of similar educational value.

STUDENT ORGANIZATIONS AND EQUAL ACCESS

In order to maintain a closed forum at district schools, each principal or designee shall ensure that all school-sponsored student organizations are curriculum-related. In order to qualify as "curriculum-related," a student group shall meet one or more of the following criteria:

1. The subject matter of the group is currently taught or will be taught in a regularly scheduled course.
2. The subject matter of the group concerns the body of courses as a whole (e.g., student government).
3. Participation in the group is required for a particular course.
4. Participation in the group results in academic credit.

Such meetings shall not interfere with regular school activities. The Superintendent or designee shall identify the noninstructional time period(s) set aside for meetings of student groups either before or after actual classroom instruction times.

Meetings may also be held during the lunch period.

Meetings held within the limited open forum shall entail no expenditure of public funds beyond the incidental cost of providing the meeting space. (20 USC 4071)

Students shall leave the meeting place in a clean, orderly, and secure condition after their meetings. The Superintendent or designee may deny the use of facilities to any group that he/she believes will materially disrupt the school program or threaten the health and safety of students and staff. (20 USC 4071)

Authorization for Student Groups

Any student wishing to create either a curriculum- or noncurriculum-related student group shall first request authorization from the principal or designee. The group shall provide the principal or designee with the following information:

1. Name of the organization and names of student contacts
2. A statement of the organization's purposes, objectives, and activities
3. A copy of the proposed bylaws of the student group, including a description of how officers will be selected, as well as the bylaws of any off-campus organization with which the group may be affiliated

6. Any special equipment to be used
7. A description of the qualifications for membership, if any
8. If a curriculum-related group, a statement of the relation of the club to the curriculum and/or instructional program

The principal or designee may establish school rules governing the meetings of curriculum-related groups, such as attendance or grade requirements. Such rules may vary depending on the group, such as whether or not academic credit is given for participation in the group.

Role of Staff Adviser

For any curriculum-related student group, the staff adviser shall provide guidance and teaching to students to ensure that the group's activities are aligned to the district's goals and objectives and shall provide supervision and leadership of the group. The principal shall have final authority in determining the assignment and role of the staff adviser.

For noncurriculum-related student groups, a staff adviser may be assigned voluntarily to observe meetings for purposes of maintaining order and protecting student safety. Staff advisers and other school employees shall not promote, lead, or participate in the meetings. (20 USC 4071, 4072)

A school employee may refuse to attend a meeting of a student group if the content of the speech at the meeting is contrary to the employee's beliefs. (20 USC 4071)

Hazing

Any student who engages in hazing may be subject to discipline including, but not limited to, suspension or expulsion. *Hazing* means a method of initiation or pre-initiation into a student organization or body, whether or not the organization or body is officially recognized by the district, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. (Education Code 48900)

(cf. 5131 - Conduct)

(cf. 5144.1 - Suspension and Expulsion/Due Process)

ASSEMBLIES AND SPECIAL EVENTS

The Board of Trustees believes that assemblies and special events should promote a positive school climate and be related to the district's educational program. The principal shall ensure that speakers and community resources featured in school assemblies and special events are carefully selected and represent a balanced viewpoint. Prospective speakers shall agree to present material of educational relevance that is appropriate to the maturity of the audience, with no statements that are obscene, vulgar, or that incite violence.

(cf. 5145.2 - Freedom of Speech/Expression)
(cf. 6141.2 - Recognition of Religious Beliefs and Customs)
(cf. 6142.1 - Sexual Health and HIV/AIDS Prevention Instruction)

HIGH SCHOOL GRADUATION REQUIREMENTS

The Board of Trustees desires to prepare all students to successfully complete the high school course of study and obtain a diploma that represents their educational achievement and increases their opportunities for postsecondary education and employment.

District students shall complete graduation course requirements as specified in Education Code 51225.3. Unless exempted as provided in "Exemptions from District-Adopted Graduation Requirements," district students shall also complete other course requirements adopted by the Board. Students who are exempted from district-adopted graduation requirements shall be eligible to participate in any graduation ceremony and school activity related to graduation in which other students are eligible to participate.

Course Requirements

To obtain a high school diploma, students shall complete the following courses in grades 9-12, with each course being one year unless otherwise specified:

1. Four courses in English (Education Code 51225.3)
2. Three courses in mathematics (Education Code 51225.3)

Students shall complete at least one mathematics course that meets the state academic content standards for Algebra I or Mathematics I. Students may complete such coursework prior to grade 9 provided that they also complete two mathematics courses in grades 9-12. (Education Code 51224.5)

Successful completion of an approved computer science course that is classified as a "category C" course based on the University of California (UC) and California State University (CSU) "A-G" admission requirements shall be counted toward the satisfaction of additional graduation requirements in mathematics. (Education Code 51225.3, 51225.35)

3. Two courses in science, including biological and physical sciences (Education Code 51225.3)
4. Three courses in social studies, including United States (U.S.) history and geography; world history; culture, and geography; a one-semester course in American government and civics; and a one-semester course in economics (Education Code 51225.3)
5. One course in visual or performing arts, world language, or career technical education (CTE). For purposes of this requirement, a course in American Sign Language shall be deemed a course in world language. (Education Code 51225.3)

HIGH SCHOOL GRADUATION REQUIREMENTS (continued)

To be counted towards meeting graduation requirements, a CTE course shall be aligned to the CTE model curriculum standards and framework adopted by the State Board of Education. (Education Code 51225.3)

6. Two courses in physical education, unless the student has been otherwise exempted pursuant to other sections of the Education Code (Education Code 51225.3)
7. Beginning with the 2029-30 school year, a one-semester course in ethnic studies (Education Code 51225.3)
8. One semester in Health Education. One semester Computer Skills. Completion of Senior Project.

Because the prescribed course of study may not accommodate the needs of some students, the Board shall provide alternative means for the completion of prescribed courses in accordance with law.

Exemptions from District-Adopted Graduation Requirements

A foster youth, student experiencing homelessness, former juvenile court school student, child of a military family, migrant student who transfers into the district or between district schools any time after completing the second year of high school, or newcomer student who is in the third or fourth year of high school shall be exempted from any graduation requirements adopted by the Board that are in addition to statewide course requirements. This exemption shall not apply if the Superintendent or designee makes a finding that the student is reasonably able to complete the additional requirements in time to graduate by the end of the fourth year of high school.

Within 30 days of the transfer into a school by the foster youth, student experiencing homelessness, former juvenile court school student, child of a military family, migrant student, or newcomer student, as applicable, the Superintendent or designee shall notify any eligible student, and others as required by law, of the availability of the exemption from local graduation requirements and whether the student qualifies for it. (Education Code 51225.1)

The Superintendent or designee shall not require or request the foster youth, student experiencing homelessness, former juvenile court school student, child of a military family, migrant student, or newcomer student who is exempted from district-established graduation requirements and who completes the statewide coursework requirements before the end of the fourth year of high school, and would otherwise be entitled to remain in school, to graduate before the end of the student's fourth year of high school. (Education Code 51225.1)

If the foster youth, student experiencing homelessness, former juvenile court school student, child of a military family, migrant student, or newcomer student was not properly notified of an exemption, declined the exemption, or was not previously exempted, the student or the student's educational rights holder may request the exemption and the Superintendent or designee shall exempt the student within 30 days of the request. Any such student who at one time qualified for the exemption may request the exemption even if the student is no longer eligible. (Education Code 51225.1)

HIGH SCHOOL GRADUATION REQUIREMENTS (continued)

Additionally, a student with disabilities shall be eligible for an exemption from all coursework and other requirements adopted by the Board in addition to the statewide course requirements for high school graduation, if the student's individualized education program (IEP) provides for both of the following requirements: (Education Code 51225.31)

1. That the student is eligible to take the alternate assessment as described in Education Code 60640
2. That the student complete state standards aligned coursework to meet the statewide coursework specified in Education Code 51225.3

The district's responsibility to provide a free appropriate public education shall not terminate when a student with a disability who is exempted from district-adopted graduation requirements participates in graduation activities unless the IEP team, which includes the parent/guardian and student, has determined that the student has completed the high school experience. (Education Code 51225.31)

Annually, the Superintendent or designee shall report to the California Department of Education, in accordance with Education Code 51225.1, the number of student's graduating from the fourth or fifth year of high school who, for the prior school year, graduated with an exemption from district-established graduation requirements that are in addition to statewide coursework requirements.

Retroactive Diplomas

Any student who completed grade 12 in the 2003-04 through 2014-15 school year and met all applicable graduation requirements other than the passage of the high school exit examination shall be granted a high school diploma. (Education Code 51413)

In addition, the district may retroactively grant high school diplomas to former students who: (Education Code 48204.4, 51430, 51440)

1. Departed California against their will while in grade 12 and did not receive a diploma because the departure interrupted their education, provided that they were in good academic standing at the time of the departure

Persons may be considered to have departed California against their will if they were in custody of a government agency and were transferred to another state, were subject to a lawful order from a court or government agency that authorized their removal from California, were subject to a lawful order and were permitted to depart California before being removed from California pursuant to the lawful order, were removed or were permitted to depart voluntarily pursuant to the federal Immigration and Nationality Act, or departed due to other circumstances determined by the district that are consistent with the purposes of Education Code 48204.4.

In determining whether to award a diploma under these circumstances, the Superintendent or designee shall consider any coursework that may have been completed outside of the U.S. or through online or virtual courses.

2. Were interned by order of the federal government during World War II or are honorably discharged veterans of World War II, the Korean War, or the Vietnam War, provided that they were enrolled in a district high school immediately preceding the internment or military service and did not receive a diploma because their education was interrupted due to the internment or military service in those wars

HIGH SCHOOL GRADUATION REQUIREMENTS (continued)

Deceased former students who satisfy these conditions may be granted a retroactive diploma to be received by their next of kin.

3. Are veterans who entered the military service of the U.S. while in grade 12 and who had satisfactorily completed the first half of the work required for grade 12 in a district school
4. Are former members of the military, a resident of California, and received an honorable discharge, or, are current members of the military, a resident of California, and a resident of California when entering the military

In determining whether to award a diploma under these circumstances, the Superintendent or designee shall evaluate classes completed in any high school, community college, or state college, grant credit toward graduation for military service and training received while in the military, and if satisfied that the person has completed the equivalent of the requirements for graduation from high school, grant the person a diploma of graduation.

5. Were in their senior year of high school during the 2019-20 school year, were in good academic standing and on track to graduate at the end of the 2019-20 school year as of March 1, 2020, and were unable to complete the statewide graduation requirements as a result of the COVID-19 crisis

Honorary Diplomas

The Board may grant an honorary high school diploma to: (Education Code 51225.5)

1. An international exchange student who has not completed the course of study ordinarily required for graduation and who is returning to the student's home country following the completion of one academic school year in the district
2. A student who is terminally ill

The honorary diploma shall be clearly distinguishable from the regular diploma of graduation awarded by the district. (Education Code 51225.5)

(5 CCR [11523](#))

(cf. [5145.6](#) - Parental Notifications)

The principal also shall advise students that the certificate of proficiency awarded upon passing the CHSPE, while equivalent to a high school diploma, is not the equivalent of completing all coursework required for high school graduation and therefore students should contact the admissions office of the college or university they are interested in attending to determine if the certificate satisfies college admission requirements.

A student may take the CHSPE if the student meets one of the following conditions: (Education Code [48412](#))

1. Is age 16 or older

(cf. [5125](#) - Student Records)

Any student who has received the certificate of proficiency may be exempted from compulsory school attendance upon the student's request, with verified parent/guardian consent as appropriate. For this purpose, the Superintendent or designee shall provide a consent form which contains at least the following information: (Education Code [48410](#); 5 CCR [11522](#))

CERTIFICATE OF PROFICIENCY/HIGH SCHOOL EQUIVALENCY

NOTICE AND CONSENT TO DISCONTINUE SCHOOL ATTENDANCE FOR STUDENTS WITH A CERTIFICATE OF PROFICIENCY

Notice of Student Rights: Students who pass the California High School Proficiency Examination (CHSPE) and receive a Certificate of Proficiency issued by the State Board of Education may continue to attend school, but upon request will be exempted from compulsory school attendance pursuant to Education Code [48410](#). If the student is under 18 years of age, the student's parent/guardian must also provide approval in order for the student to discontinue school attendance.

If the student leaves school after receiving a Certificate of Proficiency and is under 18 years of age, the student may later decide to re-enroll in the district with no adverse consequences. In this case, the student may be required to meet new or additional requirements established since the student was previously enrolled. If the student re-enrolls and then leaves school again, the student may be denied re-admittance until the beginning of the following semester.

For further information about leaving school after obtaining the Certificate of Proficiency, contact the principal or school guidance counselor.

DIFFERENTIAL GRADUATION AND COMPETENCY STANDARDS FOR STUDENTS WITH DISABILITIES

The Governing Board recognizes that students with disabilities are entitled to a course of study that provides them with a free appropriate public education (FAPE) and that modifications to the district's regular course may be needed on an individualized basis to provide FAPE. In accordance with law, each student's individualized education program (IEP) team shall determine the appropriate goals, as well as any appropriate individual accommodations necessary for measuring the academic achievement and functional performance of the student on state and districtwide assessments.

Exemption from District-Established Graduation Requirements

District students shall complete all course requirements for high school graduation as specified in Board Policy 6146.1 – High School Graduation Requirements. However, a student with a disability that entered the ninth grade in the 2022-23 school year and later may be exempted from all coursework and other requirements adopted by the Board that are in addition to the statewide course requirements for high school graduation if the student's IEP provides for both of the following requirements: (Education Code 51225.31).

1. That the student is eligible to take the alternate assessment as described in Education Code 60640
2. That the student complete state standards aligned coursework to meet the statewide coursework specified in Education Code 51225.3

Any such exempted student shall receive a diploma and be eligible to participate in any graduation ceremony and school activity related to graduation in which a student of similar age without a disability would be eligible to participate. (Education Code 51225.31)

The district's responsibility to provide FAPE shall not terminate when a student with a disability who is exempted from district-adopted graduation requirements participates in graduation activities unless the student's IEP team, which includes the parent/guardian and student, has determined that the student has completed the high school experience. (Education code 51225.31)

Certificate of Educational Achievement or Completion

Instead of a high school diploma, a student with a disability may be awarded a certificate or document of educational achievement or completion if the student has met one of the following requirements: (Education Code 56390)

1. Satisfactorily completed a prescribed alternative course of study approved by the board of the district in which the student attended school or the district with jurisdiction over the student as identified in the student's IEP
2. Satisfactorily met the student's IEP goals and objectives during high school as determined by the IEP team
3. Satisfactorily attended high school, participated in the instruction as prescribed in the student's IEP, and met the objectives of the statement of transition services

**DIFFERENTIAL GRADUATION AND COMPETENCY STANDARDS FOR
STUDENTS WITH DISABILITIES**

A student with a disability who meets any of the criteria specified above shall be eligible to participate in any graduation ceremony and any school activity related to graduation in which a graduating student of similar age without disabilities would be eligible to participate. (Education Code 56391)

ELEMENTARY SCHOOL PROMOTION/STANDARDS OF PROFICIENCY

Eighth grade students who pass the 8th grade Constitution test and maintain a 1.0 grade point average in the 8th grade shall be eligible for a diploma of promotion.

(cf. 5123 - Promotion/Acceleration/Retention)

The Board of Trustee shall adopt district standards of proficiency in reading comprehension, writing and computational skills and in other areas the Board deems appropriate. Students shall be assessed for these basic skills and receive remedial instruction when needed.

The Superintendent or designee shall ensure that the district's standards of proficiency are developed with the active involvement of teachers, administrators, counselors and parents/guardians and that they are articulated with standards adopted by the local high school district. (Education Code 51215)

(cf. 5127 - Graduation Ceremonies and Activities)
