\*LCAP goal #1: Establishing a High-Performing School Culture with Quality Learning :

- Kendra Tyler from GCOE came to our 2nd PLC day. We began the great work using our Math Essential Standards. We all PLC'd in one room together. It was fantastic.
- Our Transitional Kindergarten and Kindergarten teams are working exceptionally hard this year. Many of our youngest students were born during COVID and are still learning how to handle routines, structure, and hearing the word "no." This has created a unique set of challenges that require constant reteaching, modeling, and guidance. Our teachers in Kindergarten are being stretched and pulled in many directions to meet student needs (without an aide). Still, they continue to show patience, consistency, and commitment to helping students build the skills they need for long-term success. Additionally, our behavior teams are working well together and supporting one another to ensure that students and staff feel supported throughout the day.
- We continue to grow! Huge influx from Elk Creek & Grindstone.
- All of our support staff and classroom aides received a BIG behavior PD by Ashley Niehues.

\*LCAP goal #2: All students have access to grade-level Learning. At-risk students will be identified by certificated staff & provided with academic support at each site.

- We are working on the completion of Common Assessments Essential Standards to improve & strengthen of our Tier 1 instruction for this year because we are **"Protecting the core for reading & math."**

\*LCAP goal #3: The schools will develop and maintain a systematic method for partnering with students, parents, county resources, and community members to improve student engagement.

- NVIH has been meeting with **all** of our identified students
- I am working with them to create an NVIH-sponsored Native American School-based Club.
- We are partnering with Maria Briones to combine our Ballet Follorico dance clubs.

.....As always, "It's a Great Day to be A Mallard!" Please let me know if you have questions .
