

Birthday Treats to the Elementary Classroom Provided by School Nutrition Services

School Nutrition Service offers a variety of celebration packages a parent may order from the cafeteria manager to be delivered to the classroom. **This activity must first be an approved activity at the elementary campus and coordinated with the child's teacher.** Check with your school principal and teacher if birthday celebrations are allowed at your campus. Per North East ISD Wellness Regulation FFA, a birthday must be celebrated during the last period of the day. The celebration package ordered will be delivered to the classroom by 2 pm on the celebration day.

Steps to planning a celebration package for your child:

1. The plan must be confirmed at least 3 days prior to the desired celebration date.
2. Contact your child's teacher to schedule the celebration day.
3. Confirm with the classroom teacher the number of students in the classroom.
4. Contact the school cafeteria manager via email or telephone to place an order.
5. All celebration treats are on a pre-payment system through your child's meal account.
6. The cafeteria manager will contact the school nurse to review the classroom roster to identify any students with food allergies. A substitute item will be provided at no additional cost.
