Local Wellness Policy Triennial Assessment

Per [7 CFR 210.31\(e\)\(2\)](#) each Local Educational Agency must, at least once every three years, assess schools' compliance with the local school wellness policy and make the assessment results available to the public.

The School Nutrition Director, Pam Suyematsu, will be responsible for ensuring that the triennial assessment is complete.

The triennial assessment must measure the implementation of the policy and include:

1. The extent to which schools under the jurisdiction of the LEA are in compliance with the wellness policy;
2. The extent to which the LEA's wellness policy compares to model local wellness policies; and
3. A description of the progress made in attaining the goals of the wellness policy.

The [WellSAT 3.0](#), developed by the UCONN Rudd Center for Food Policy and Health, is a wellness policy scoring tool to help you compare your written local school wellness policy to a model policy. It provides a quantitative score that identifies areas of excellence and opportunities to strengthen your written policy.
