Scheduling Instructions

Hartland High School Freshman Class of 2030 Scheduling Instructions

The following information is intended to assist you and your parents as you select your classes for 9th grade. Keep in mind that you earn .5 credit per class, per semester. You will take 7 classes at a time and earn a total of 3.5 credits each semester for a total of 7 credits each school year. Over a four-year period, you are able to earn 28 credits. In order to graduate you must earn at least 26 credits and pass all required courses. Please refer to the Curriculum Guide for a listing of all graduation requirements.

English: Students choose from English 9 or Honors English 9.

Social Studies and Science: All students will sign up from Global Studies and Biology.

Math: This class requires your 8th grade teacher's agreement along with parent/student input. Make sure that you sign up for both semesters (for example: Algebra 1A and Algebra 1B).

World Language: Two years of coursework in the same World Language is required for graduation. However, these classes are not required to be taken in 9th grade. Students who elect to begin their World Language study in 9th grade should plan to take the second year of study in 10th grade. If you are taking the first year of Spanish or French this year, it does count toward your two required years; you will get a signature from that teacher for next year's placement.

Physical Education and Health: It is recommended that you take these in your freshman year. However, you may postpone them if your schedule is full due to band, choir, and/or world language selections. The Physical Education requirement can be satisfied by participating in 3 seasons of any Hartland HS affiliated sport (any year, any level) or by participating in band and marching band for 3 years. Do NOT sign up for PE if you plan to pursue one of these other options.

Music: You may select Cadet Band #467810 or Concert Choir #466610. If you audition for and are accepted into a different band or choir, your counselor will adjust your schedule.

Electives: 9th grade elective options are listed on the back of the Course Request Sheet and in the Curriculum Guide.

Other Requirements: You are also required to earn 1 total credit in the Visual, Performing, or Applied Arts (VPAA) during high school and 0.5 credit in Personal Finance. These do not have to be satisfied in 9th grade.

Alternates: Please list six alternate courses that you are willing to take. Any students who do not list alternates are subject to their counselor selecting classes if they have a schedule conflict. Alternate class selections are binding, so pick them with care. Students will not be allowed to change their schedule if they get one of their alternates instead of their first choice.

When you are done, your credits should equal 7. Please make sure you are making careful selections because schedule changes will not occur in August. You are now ready to load your classes into the computer, but Do NOT load your Alternate Classes. **Both the student and parent must sign the Course Request Sheet and then return it to your math teacher by February 13th.**

If you have any questions, your HS Counselor is assigned based on the student's last name.
