## ELEMENTARY SCHOOL

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

### Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

### Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

## 2025-26 School Description and Mission Statement

Las Lomitas School is located in the town of Atherton in San Mateo County, California. It is one of two schools in the Las Lomitas Elementary School District and includes transitional kindergarten through grade three. Students who are promoted to grade four typically attend La Entrada Middle School in Menlo Park, California.

The Las Lomitas Elementary School District includes the western-most part of Atherton, an unincorporated section of San Mateo County between Atherton and Menlo Park, the western section of Menlo Park (Sharon Heights), a portion of Woodside, and the community of Ladera. Las Lomitas participates in the Tinsley Voluntary Transfer Program and receives approximately five percent of its population from East Palo Alto and East Menlo Park. In 2024-2025 there were 522 students in grades

## 2025-26 School Description and Mission Statement

transitional kindergarten through grade three. Las Lomitas parents attach an extremely high value to rigorous academic programs and positive social and emotional growth. The parent community is well established and provides strong support to the school by contributing time and other resources to help achieve our educational goals. This creates little transiency in the student population as families who move into our district tend to stay. The mission of Las Lomitas School is to be a diverse and collaborative community that nurtures and inspires a sense of belonging and love of learning, where each child is known and valued for who they are and what they bring. More school information can be found at the Las Lomitas website at <https://www.ll.llesd.org/>.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

## School Facility Conditions and Planned Improvements

The campus has updated classrooms, multi-purpose room, a library/media center, and a two-story seven-classroom building. Seven additional portable classrooms were provided since 2008 to accommodate growing enrollment. Several playground enhancements were completed in 2011-2012, including additional handball walls, new kindergarten sandbox and resurfacing and striping the blacktop area. The District expanded the campus footprint with the acquisition of additional land in 2013. Master Plans were revised in Spring 2015 to provide permanent classrooms to replace all portable buildings. Construction of a new Kindergarten area was completed in August of 2018, including a new playground. Construction of additional classrooms and a new school office began in 2017 and was completed by January 2020. The district maintains a planned program ensuring ongoing maintenance functions are performed on a scheduled basis. The district also maintains a five-year plan for major repairs and capital improvements. Modernization of older classrooms began on 3/1/21, and was completed in the Spring of 2024. Parking lot renovation and fencing/security improvements were completed Summer 2021. Three remaining portables were removed in Summer of 2024, and a portion of the blacktop was re-constructed and repaved. The two remaining portables on campus are expected to be removed Summer of 2026, with a reconstruction/repaving of all remaining blacktop at that time.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.

2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.

3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP						
This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.						
To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.						
ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2024-25 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

2025-26 School Safety Plan

The School Safety Committee, which meets monthly throughout the year, includes faculty members with agendas facilitated by site administration. The School Safety Plan is on record in the school office and in each classroom inside a red emergency bag. It is updated and reviewed each spring at a School Site Council Meeting. The school follows the San Mateo County Office of Education Big Five protocols and drills are practiced monthly. Officers from the Atherton Police Department visit the school regularly. Communication around these efforts go out to staff and families of Las Lomitas frequently. The monthly drills mentioned above are held for evacuation, drop/cover/hold on, and disaster preparedness. A large storage container is provided by the district to store emergency supplies to support our emergency preparedness program. These supplies are inspected and updated annually or otherwise as needed.

## Fiscal Year 2024-25 Types of Services Funded

With our funding resources, schools are provided with essential instructional resources to support teachers and staff to meet various student needs. We have support teachers for English Language Development, Reading, and Math. We have Physical Education, Music Teachers, and Reading Teacher/District Librarian to enhance our instructional programs, and we have robust student support services including speech and language specialists, resource specialists, psychologists, school counselors, and nursing. Funds raised by the Las Lomitas Foundation and through parent donation supplement student field trips, enrichment, lower class sizes, and supplies.

## Professional Development

The teachers, assistant principal, principal, and other staff members participate in staff development activities to update and enhance their professional skills. Wednesday afternoons are set aside for regularly scheduled grade level and subject matter meetings, professional development, faculty and staff meetings, district-wide curriculum planning meetings, School Site Council, and other committee meetings. Support for teachers at LL include veteran teachers mentoring new teachers, staff development opportunities as a group and release time to work together with the new material and strategies to initiate implementation. Teachers are also encouraged to observe colleagues and teachers at Las Lomitas and in other schools. In addition, the District offers training workshops and technology classes throughout the year and during the summer.

All tenured teachers must identify professional development goals at the start of the year. Staff development opportunities are provided to all staff throughout the year. In addition, there are many opportunities to attend conferences, workshops, and training on teacher release time. Individual teachers also develop summer coursework plans that apply to their professional development plans. PD in 2024-25 continued to focus on DEIAB, including Equity Walks, in addition to Universal Design for Learning, and phonics. For 2025-2026, the PD focus is centered on Achievement Teams by organizing the Wednesday meetings into First-Best Instruction and Student Outcomes. We have also engaged with CORE Learning to support our transition to structured literacy. The district also created several Design Teams, including Literacy, Math, and Wellness to build district wide vision in these areas.
