

Proposition 28: Arts and Music in Schools

2025/26 Annual Plan

Franklin Elementary School will be using these funds to provide music and art curriculum to its students. Music will include theatre productions, music instruction, instrument lessons, and musical performances by grade level. The district has hired a full-time classified staff member for the 24/25 school year to lead the music program and will continue to lead the music program for the 25/26 school year.

The district is also committed to providing art instruction through contracted services. This instruction will include grade level appropriate art projects and play through art.

Certificated teachers will oversee the instruction for both music and art.
