

Dual Enrollment through UT OnRamps allows students to earn college credit while in high school. The North East ISD will partner with The University of Texas at Austin to offer OnRamps, an innovative Dual Enrollment program created by UT Austin. Students will have the opportunity to earn college credit from a UT faculty member and high school credit from their high school teacher. OnRamps courses will transfer to any Texas college or university. Dual Enrollment courses will be offered at every campus where teachers meet specific criteria. Please refer to the course selection card for the OnRamps courses offered at each campus.

The major differences between Dual Enrollment and Dual Credit are:

- Students do not have testing requirements for admission to the Dual Enrollment courses; Dual Credit students have testing requirements.
- Registration for Dual Enrollment is through the course while Dual Credit there is an application to be done in advance to qualify.
- The OnRamps Dual Enrollment Program allows high school students to experience college academic rigor by taking actual college exams created by a UT professor.
- Dual Enrollment students receive two grades: one from the high school teacher, and one from the UT professor; Dual Credit students receive the same grade earned in high school on their college transcripts.
- Dual Enrollment students may *choose* to have the college grade transcribed on their UT transcripts; Dual Credit students' grades *will* be recorded on Alamo Colleges transcripts.
