

Ella Elementary School

HOME OF THE GATORS

Vision & Mission

Our mission at Ella Elementary is to build character, inspire minds, and empower lifelong success. Ella school is a special place where staff strive to do what is best for students each day. We want our Ella Gators to build resiliency and make decisions with integrity. Ella staff works as a team to collaborate around best practices and strategies to support student growth in academics, social-emotional needs, and positive behavior interventions and supports. It is our priority to target support for our English language learners, special education students, and students needing intervention or acceleration.
