Part I: Senate Bill 187: Comprehensive School Safety Plan Purpose and Vision

The California Education Code (sections 32280-32289.5 and 49390-49395) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process that includes strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999, and this legislation was perpetuated under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 187 and AB 1747 and shall contain the following elements:

- Assessment of the current status of school crime committed on school campuses and at school-related functions
- Bullying prevention policies
- Key safety personnel
- Firearm safety notification procedures
- Threat reporting procedures
- Identification of the appropriate strategies and procedures to maintain a high level of school safety and the school's procedures for complying with existing laws related to school safety, which shall include the following:
 - A) Child abuse reporting procedures
 - B) Disaster and emergency procedures, including adaptations for pupils with disabilities
 - C) Earthquake emergency procedures
 - D) Use of facilities during emergencies
 - E) Suspension and expulsion policies
 - F) Notification of dangerous pupils
 - G) Discrimination, harassment, hate crime reporting
 - H) Dress code policies
 - I) Safe ingress and egress
 - J) School discipline procedures
 - K) Tactical response to criminal incidents
 - L) Prohibition of high-intensity drills
 - M) Reporting dangerous or unlawful activity
 - N) Sudden cardiac arrest response
 - O) Opioid overdose protocol
 - P) Instructional continuity plan
 - Q) Bullying prevention policy

The Comprehensive School Safety Plan requires that the School Site Council or school safety committee consult with a fire department and other first responder entities. Updates to the Plan must be shared with the law enforcement agency, the fire department, and the other first responder entities. The School Safety Plan will be reviewed and updated annually. An updated file of all safety-related plans and materials shall be readily available for public inspection.

Comprehensive School Safety Plan Vision

The Twin Rivers Unified School District has developed this Comprehensive School Safety Plan (CSSP) to ensure a safe learning environment and site-based emergency preparedness for all students and staff. The CSSP is intended to ensure compliance with State and Federal school safety program regulations. This Plan is part of a comprehensive plan that includes a District Master Emergency Operations Plan prepared in compliance with State disaster planning requirements, City and County Emergency Management Plans, the Standardized Emergency Management System

(SEMS), and the National Incident Management System (NIMS). NIMS is a nationwide standardized approach to incident management and response. Developed by the U.S. Department of Homeland Security and released in March 2004, it establishes a uniform set of processes and procedures that emergency responders at all levels of government will use to conduct response operations.

Standardized Emergency Management System Plan provides staff, parent volunteers, and students with site-specific emergency instructions during an emergency crisis or disaster. Staff designated to carry out specific emergency responsibilities are expected to understand the policies, procedures, and system. Training and exercises are ongoing components of the Plan.

This Plan incorporates the Incident Command System (ICS). The District has established a plan for maintaining a liaison with any multi-agency EOC and the County Emergency Operations Center to help facilitate effective coordination of aid requests, resources, and the general flow of information among all agencies and jurisdictions within the region.

All emergency actions will be taken according to the following priorities:

1. Protection of life
2. Incident stabilization
3. Protection of property
4. Restoration of services

Comprehensive School Safety Plans are reviewed and updated at least once a year by the School Site Council or a school safety planning committee. The Plan must be presented at a public meeting prior to adoption. The School Site Council or school safety committee shall notify, in writing, the following persons and entities, if available, of the public meeting.

- A) A representative of the local school employee organization
- B) A representative of each parent organization at the school site, including the parent-teacher association and parent-teacher clubs
- C) A representative of each teacher organization at the school site
- D) A representative of the student body government

During the annual review, local data is reviewed, such as the current status of school crime committed on school campuses, California Healthy Kids Survey results, suspension and expulsion data, chronic absenteeism rate, and discipline data, including bullying and harassment incidences. Established goals related to school safety are reviewed and revised annually. Appropriate action steps are outlined, resources and lead person(s) are identified, and an evaluation date is established.

At Foothill Ranch Middle, we develop and maintain strategies and programs that provide and maintain a high level of school safety and comply with existing laws related to school safety.

Our school assesses the safety of students, staff, and families annually as part of our process to approve our Comprehensive School Safety Plan. We review and update our Single Plan for Student Achievement for the academic and social/emotional success of our students. We review Suspension/Expulsion data, Attendance rates/SARB data, Office Referrals, and the results from the California Healthy Kids Survey. We maintain a relationship with our local law enforcement agencies, including Twin Rivers Police, and know the procedures to report property damage or other criminal activity. In addition, all our staff comply with District and State requirements for Mandated Reporter Training and follow protocols for Child Abuse Reporting.

Creating a safe school requires putting in place many preventive measures for a student’s mental and emotional well-being. Our school works to reduce the risk of violence by teaching students appropriate strategies for dealing with emotions, expressing anger in appropriate ways, and resolving conflicts. Our school uses a comprehensive approach to school violence prevention. Student needs are identified using measures such as teacher and staff observations, parent and community information, patterns of behavior, and counseling requirements and experiences.

Our school has a system of rules and procedures to ensure a safe and orderly environment that is conducive to learning. These rules outline our students' behavioral expectations throughout the school day and all around campus.

Our school has a program to ensure pupils and certificated and classified staff are aware of and trained in plans, procedures, and routines for disasters and emergencies. We rehearse these regularly. We include adaptations for pupils with disabilities. (See Part VII for specific emergency response protocols). Our District regularly consults with law enforcement agencies, Twin Rivers Police, and local fire departments to ensure proper planning and procedures are in place and utilized.

Our District has procedures to allow public agencies, including the Red Cross, to use school buildings, grounds, and equipment for mass care and welfare shelters during an emergency.

Our school follows all our District’s Board Policies related to safety (see Part VIII: Strategies and Procedures for School Safety).

INCIDENT COMMAND SYSTEM

POSITION DESCRIPTIONS

COMMAND STAFF

The Command Staff are incident management personnel that the Incident Commander or Unified Command assigns to directly support the command function. Command Staff positions are established by the Incident Commander or Unified Command as needed to support the management of an incident. Command staff report directly to the Incident Commander or Unified Command and are assigned assistants as necessary to perform their duties.

The ICS Command Staff includes:

Incident Commander (IC) (at the site Incident Command Post): The Incident Commander (at the site) has overall incident management responsibility and is responsible for all incident management decisions. When an incident occurs within a single jurisdiction, and there is no overlapping responsibility, the appropriate authority designates a single Incident Commander. When incident management crosses jurisdictional and/or functional agency boundaries, the various jurisdictions and organizations may still agree to designate a single Incident Commander, or they may enter into a Unified Command (See below).

When there is a single Incident Commander, that individual is solely responsible for the following:

- Establishing the incident objectives and priorities that guide incident action planning and operations
- Approving all response plans and strategies based on expert advice
- Approving all external messages
- Determining the operational cycle
- Assessing the situation
- Establishing an Incident Command Post (ICP)
- Establishing or modifying an appropriate organization
- Ensuring planning meetings are scheduled as required
- Coordinating activity for all Command and General Staff
- Coordinating with key people and District officials
- Approving requests for additional resources or for the release of resources
- Keeping District administration informed of incident status
- Approving the use of trainees, volunteers, and auxiliary personnel
- Order the demobilization of the incident when appropriate.

UNIFIED COMMAND

When multiple disciplines are involved in response efforts, they may enter into a Unified Command (UC). Unified Command is used to improve the unity of effort in multijurisdictional or multiagency incident management.

Unified Command enables different jurisdictions and organizations to jointly manage and direct incident activities through a common set of incident objectives, strategies, and a single incident action plan.

Each partner in the Unified Command maintains authority, responsibility, and accountability for its own personnel and other resources.

Part V: Firearm Safety Notification Procedures (California Education Code 49392)

In compliance with California Education Code Section 48986, the District provides annual written notification to parents and guardians of pupils in kindergarten through grade 12 regarding California laws relating to the safe storage of firearms. This notification is included in the District's Student and Family Handbook and serves to increase awareness and promote school and community safety.

Part VI: Threat Reporting Procedures (California Education Code 49393)

1. Purpose

These procedures are established to ensure the safety of all students, staff, and visitors by providing a clear, coordinated process for reporting, assessing, and responding to threats or incidents of violence, unlawful activity, or potential harm occurring:

- On school grounds
- During school-sponsored events
- On school transportation

These procedures fulfill the requirements of **Education Code sections 49390–49395**, as established by **Senate Bill 906**, effective January 1, 2023, and incorporate the use of **Catapult EMS** to support timely communication and incident management.

2. Definitions

- **Threat or perceived threat:** Any writing or action by a pupil that creates a reasonable suspicion the pupil is preparing to commit a homicidal act related to the school or a school activity. This includes depictions of firearms, ammunition, shootings, or related violent imagery in association with physical harm or death (e.g., on social media, journals, or class notes).
- **Dangerous or unlawful activity:** Any act or threat that could cause injury or violate local, state, or federal laws (e.g., possession of weapons, physical assault, drug activity, threats of harm).
- **LEA employee:** All certificated and classified staff, contractors, and governing board members who interact with students.

3. Immediate Response and Reporting Protocol

A. Staff Observations and Mandatory Reporting

- Any staff member who observes or becomes aware of a threat or perceived threat of a **homicidal act related to school or a school activity** must immediately:
 - **Report to site administration and**
 - **Notify local law enforcement, Twin Rivers Police** (or school resource officer)

- **Submit an Action Alert (Code Red) through Catapult EMS**, which will simultaneously notify key response personnel, including administration and district-level safety officials
- Include all **available evidence** related to the threat (e.g., screenshots, notes, eyewitness statements).
- If multiple employees are aware of the same incident, a report by one satisfies the obligation for all; however, employees are encouraged to document/report individually when in doubt.

B. Reporting Other Dangerous or Unlawful Activities

- Staff should report all observed or suspected incidents involving violence, weapons, or unlawful acts to site administration **and through Catapult EMS**.
 - Site administrators will use Catapult EMS to:
 - Track incident response in real-time
 - Coordinate with district and law enforcement partners
 - Document steps taken throughout the incident
-

Part VII: Emergency Response Protocols

These Emergency Response Protocols are an excerpt from the larger Master Emergency Operating Plan (EOP) that is developed under the U.S. Department of Education's Emergency Response and Crisis Management Discretionary Program.

These Emergency Response Protocols are consistent with both the Standardized Emergency Management System (SEMS) developed by the State of California and the National Incident Management System (NIMS) developed by the U.S. Department of Homeland Security. The EOP presents specific standardized procedures to be used in preparing for and responding to school emergencies.

It is important to treat this plan as an evolving and living document that will be reviewed in detail annually and updated as required, especially after every incident that requires its use.

The main objectives of these Emergency Response Protocols are to establish policies, procedures, and an organizational structure for response to emergencies for:

- Protecting the life and safety of students and staff
- Protecting Twin Rivers Unified School District property and the environment
- Providing rapid resumption of normal school activities in a timely manner

These emergency protocols are organized into two sections:

1. **Part V.1: Common Response Actions:** Addresses immediate common response actions that may be applied to multiple incident types.
2. **Part V.2: Incident-Specific Response Actions:** Provides pre-incident prevention/mitigation, emergency response, and recovery guidelines for specific incident types.

Each Section of the Incident-Specific Response Actions is divided into 3 subsections:

- A. Pre –Incident Prevention / Mitigation: Those actions, such as plans, training, equipment acquisitions etc., that will prepare schools to deal with emergencies.
- B. Emergency Response Guidelines: Those actions to be taken at the onset, during and at the immediate conclusion of an incident.
- C. Recovery: Those actions that promote continuity of operations and a return to normal operations and post-incident analysis.

The District's Emergency Response Protocols from the Master Emergency Operation Plan (EOP) are accessible online at this [link](#).
