**New Business: Reviewed Healthy Kids School Survey excerpts from Jan. 2026.** The number of parents responding went from 24 to 70. (Chromebooks open at DI Cafe, ELAC/DELAC and Family Movie Night helped.) More 5th Graders (54 to 95) and Staff (10 to 32) responded to the survey. (Incentives and reminders with staff worked.) More parents felt welcome at school (60% to 84%) and think school is a safe place (79% to 86%) An area of concern is academic groups. Parents want to be informed about interventions. With students, percentages went down in "Treated fairly" (64% to 52%) and "Feeling safe at school." (70% to 64%) (Do students understand the wording of the survey?) Among teachers, 75% felt the school promotes trust and collegiality among staff, but 91% said the school emphasizes helping students academically when they need it and 80% thought decisions were data-driven. (With safe discussion, a suggestion was made to have a self-defense class for Staff)
