Dear Students and Families,

Welcome to the new school year! My name is Scott Robinett, and I am excited to begin this academic journey with you. I am honored to serve as the new Secondary Vice Principal at the Academy for Academic Excellence (AAE). I look forward to seeing what this new school year entails.

Prior to stepping into this role, I had the privilege of teaching at AAE for five years, including three years as a 7th grade English Language Arts teacher, one year teaching 11th grade English, and one year teaching 12th grade English. Prior to joining AAE, I spent five years teaching at several schools throughout the High Desert, working with students across all secondary grade levels, from 6th through 12th grade.

My educational background is diverse. I earned my Associate's Degree in Electronic Engineering Technology, then shifted my focus to management. I earned my Bachelor's Degree in Management and a Master's in Business Administration (MBA) from Indiana Wesleyan University. After a career in management, I focused on becoming a teacher, I went back to school and earned a Master's in Teaching from Brandman University and earned my Single Subject Credential in English. Additionally, I earned a Master's in English and a Doctorate in Education from Liberty University.

As Vice Principal, my goal is for all students to reach their potential. I believe that this is achieved through accountability, objectivity, and responsibility. As parents and guardians, you play a major role in your student's success.

Our school prides itself on a collaborative leadership approach among our teachers and staff. We value working closely with parents and students to create a positive, inclusive school culture. When we work together as a team, with trust, respect, and open communication, students are best positioned to thrive at AAE. We encourage families to partner with our teachers and staff, knowing that everyone shares the same goal: supporting each student's success. I am committed to implementing educational initiatives that enhance student engagement and achievement.

I am eager to embark on this journey as your Vice Principal. I believe great things are going to happen this school year, and I look forward to seeing each student succeed in every endeavor they are involved in!

Warm regards,

Dr. Scott Robinett
Secondary Vice Principal 2026-2027
