Notes from the Health Office:

Dear Families: We know that many parents like to celebrate birthdays and other occasions with special treats. We encourage parents to celebrate with non-food items such as stickers, pencils, themed erasers, or other trinkets, rather than food. **If food is sent in to share with students, pre-packaged items with an ingredient label is preferred. If food is homemade, we ask that**

<u>the ingredients list is provided to the teacher.</u>
This allows the teacher to notify families of celebrations involving food so that alternative items may be provided as needed for students with food allergies and/or health concerns. Common food allergies to be aware of include: milk, egg, peanut, tree nut, soy, sesame, fish and shellfish.

Please notify your child's teacher at least one week in advance regarding any food items being brought in to share for special occasions. After approval from staff, please give the items directly to your child's teacher for distribution. Please instruct your child not to share food with other classmates.
If you come into the classroom as a parent volunteer, we ask for your cooperation in ensuring that tables are wiped after activities and students are assisted in hand washing. We also ask that you check with the teacher before offering any food to students.
Thank you in advance for making the class environment a safe and healthy place for the students. By working together, we can make a difference for our children.
Thank you so much for your cooperation!
