

The Right Call for Workplace Injuries®

COMPANY NURSE INTRODUCTION

In an effort to more effectively manage our workers' compensation claims, Yolo County Office of Education has implemented an injury management program called Company Nurse®. When you encounter a workplace injury, the injured employee will call the Company Nurse® injury Hotline as soon as possible after the injury/incident occurs. After the Injury Care Coordinator records the injury and incident information, the attending nurse will provide first aid advice and direct the injured employee to an appropriate workers comp treatment site if needed. COMPANY NURSE® will handle all initial reporting of workplace injuries.

Here's how it works:

The process is simple. Just call! If an injury is not a medical emergency, the EMPLOYEE will telephone COMPANY NURSE® at **1-877-518-6702** before seeking treatment. The employee will speak with a Registered Nurse who will assist the employee with his or her medical needs and expedite the claims processing. The nurse will talk to the employee to determine what kind of treatment, if any, is necessary for the employee based upon their conversation.

Important Hotline facts:

The COMPANY NURSE® INJURY HOTLINE is available **24 hours per day, seven days per week.**

- Company Nurse® will complete the First Report of Injury form and email or fax it to our claims processing administrator.
- **The Employee only needs to report the injury once to Company Nurse®.**
- Company Nurse® will handle all initial reporting of employee incidents.

The advantage of a medical professional assisting in directing the employee's medical treatment should result in cost savings and fewer claims if first aid can be applied. Furthermore, employees will receive instant telephonic first aid advice from a Registered Nurse, and be referred for further treatment if needed.

Your cooperation and participation is appreciated. Please do not hesitate to contact **Human Resources at (530) 668-3780 or (530) 668-3704** if you have any questions regarding this process.
