

Corning Union Elementary School

Wellness Plan

December 2025

Corning Union Elementary School District

Local School Wellness Plan

December 2025

Introduction

Corning Union Elementary School District (CUESD) recognizes that student health, well-being, and learning are closely connected. A positive school environment that supports nutrition, physical activity, mental wellness, and overall healthy habits contributes to improved academic performance and lifelong well-being. This Wellness Plan describes how CUESD encourages healthy choices, supports evidence-based practices, and aligns with the district's Board Policy 5030 on Student Wellness ().

The plan is intended to guide daily practices in classrooms, cafeterias, playgrounds, and school programs while allowing flexibility and professional judgment for staff.

Wellness Committee

CUESD maintains a Wellness Committee that includes representatives from:

- Parents/guardians
- School administrators
- Teachers, including physical education teachers
- Nutrition Services staff
- School health professionals (as applicable)
- Community partners
- Students (as appropriate)

The Wellness Committee:

- Meets as needed and formally every three years in alignment with the triennial assessment cycle.
- Reviews district wellness-related practices and emerging needs.

- Encourages community engagement and promotes communication about wellness initiatives.
- Recommends minor adjustments and supports implementation of BP 5030.

Wellness Policy Coordinator: *Nutrition Services Supervisor*, responsible for overseeing implementation, supporting assessments, and maintaining required documentation.

A list of committee members is published on the district website and updated annually.

Board Policy 5030: Student Wellness (Embedded)

See attached.

I. Purpose and Goals (Federal Requirement Area: Purpose & Goals)

CUESD encourages a school environment that promotes healthy eating, regular physical activity, emotional well-being, and positive relationships. This Wellness Plan supports BP 5030 by outlining how staff, families, and community partners work together to foster healthy behaviors. Practices are designed to be flexible, developmentally appropriate, and aligned with California education frameworks.

The district encourages:

- Equitable access to healthy meals and safe physical activity
 - Opportunities to learn about lifelong wellness
 - Staff modeling of healthy behaviors
 - Participation by families and community partners
-

II. Nutrition Environment & Services

CUESD participates in the National School Lunch Program and School Breakfast Program, ensuring that meals meet USDA nutrition standards. The district encourages:

- Appealing, nutritious meal choices
- A pleasant mealtime environment
- Easy access to drinking water at all campuses, including water bottle filling stations

- Consistent compliance with Smart Snacks nutrition standards for foods sold during the school day
- Minimizing marketing of foods or beverages that do not meet district and federal standards

Birthday and classroom celebrations may include treats; families and staff are **encouraged** to provide healthier options whenever possible.

Teachers and staff are **encouraged** to avoid using food as rewards, while understanding that occasional food-based celebrations (e.g., pizza parties) may occur.

III. Nutrition Education

Consistent with BP 5030 (), the district supports nutrition education that:

- Is incorporated into health and science curricula
- Encourages understanding of healthy eating habits, balanced nutrition, and long-term wellness
- Integrates nutrition concepts into other subject areas when appropriate
- Promotes student engagement through hands-on learning

The district values community partnerships and will continue its collaboration with **Chico State University's "Harvest of the Month" program**, which introduces students to new fruits and vegetables throughout the school year.

IV. Physical Education (PE)

The district complies with California physical education requirements:

- **TK–6:** 200 minutes every 10 school days
- **Grades 7–8:** 400 minutes every 10 school days

Teachers track PE minutes, and administrators monitor compliance.

PE instruction emphasizes:

- Skill development
- Enjoyment of physical activity

- Lifelong fitness habits
 - Safe and inclusive participation
-

V. Physical Activity (Beyond PE)

CUESD encourages regular physical activity throughout the school day. Opportunities include:

- **Daily recess at all elementary sites**
- **Lunch recess at all schools**, including middle school
- After-school sports programs
- Girls on the Run and similar activity-based youth programs
- Active games and movement in after-school programs

Teachers are **encouraged** to incorporate brief activity breaks during classroom instruction when feasible.

The district also supports community partnerships that promote active lifestyles and may explore Safe Routes to School efforts when appropriate.

VI. Other Wellness Activities (Healthy School Environment)

CUESD encourages a positive school climate by:

- Promoting environments that support the physical, emotional, and social well-being of students
 - Prohibiting bullying, including bullying based on health or body characteristics
 - Encouraging staff to model healthy behaviors
 - Maintaining clean, safe facilities that support healthy choices
-

VII. Employee Wellness

CUESD values staff health and encourages participation in activities that promote connection, movement, and well-being.

Examples include:

- Staff bowling tournaments
- Softball events
- Wellness-related social or fitness activities

The district supports distributing wellness information and encouraging positive staff modeling for students.

VIII. Stakeholder Involvement

CUESD encourages parents, staff, students, and community members to participate in:

- Development and implementation of the Wellness Plan
- Review and feedback during triennial assessments
- Wellness-related activities occurring at school sites

Communication is shared through newsletters, school websites, meetings, and district updates.

IX. Implementation, Monitoring & Triennial Assessment

The **Nutrition Services Supervisor** serves as the Wellness Policy Coordinator and supports:

- Implementation of wellness practices at all school sites
- Coordination of the triennial assessment
- Maintenance of required federal and state documentation

Triennial Assessment Includes:

- Comparison of the district plan to model wellness policies (e.g., WellSAT)
- Review of compliance at each school site
- Assessment of progress toward goals outlined in BP 5030 ()
- Public posting of results
- Presentation of findings to the Governing Board

The Wellness Committee reviews the assessment and may recommend minor updates based on evidence and district needs.

X. Public Notification

Each year, CUESD will:

- Post the Wellness Plan on the district website
 - Provide Wellness Committee contact information
 - Make triennial assessment results available to the public
 - Communicate wellness-related updates through newsletters, meetings, and district media
-

Conclusion

CUESD is committed to supporting the health and well-being of all students and staff through flexible, reasonable, and developmentally appropriate wellness practices. By encouraging healthy eating, physical activity, positive school environments, and community collaboration, the district aims to build lifelong habits that contribute to academic success and personal well-being.

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the State or local Agency that administers the program or contact USDA through the Telecommunications Relay Service at 711 (voice and TTY). Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at [How to File a Program Discrimination Complaint](#) and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Mail Stop 9410, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.

Policy 5030: Student Wellness

Status: ADOPTED

Original Adopted Date: 05/10/2017 | **Last Revised Date:** 06/22/2022 | **Last Reviewed Date:** 06/22/2022

The Governing Board recognizes the link between student health and learning and desires to provide a comprehensive program promoting healthy eating and physical activity for district students. The Superintendent or designee shall coordinate and align district efforts to support student wellness through health education, physical education and activity, health services, nutrition services, psychological and counseling services, and a safe and healthy school environment. In addition, the Superintendent or designee shall develop strategies for promoting staff wellness and for involving parents/guardians and the community in reinforcing students' understanding and appreciation of the importance of a healthy lifestyle.

School Wellness Council

The Superintendent or designee shall encourage parents/guardians, students, food service employees, physical education teachers, school health professionals, Board members, school administrators, and members of the public to participate in the development, implementation, and periodic review and update of the district's student wellness policy. (42 USC 1758b; 7 CFR 210.30)

To fulfill this requirement, the Superintendent or designee may appoint a school wellness council or other district committee and a wellness council coordinator. The council may include representatives of the groups listed above, as well as health educators, curriculum directors, counselors, before- and after-school program staff, health practitioners, and/or others interested in school health issues.

The Superintendent or designee may make available to the public and school community a list of the names, position titles, and contact information of the wellness council members.

The wellness council shall advise the district on health-related issues, activities, policies, and programs. At the discretion of the Superintendent or designee, the duties of the council may also include the planning, implementation, and evaluation of activities to promote health within the school or community.

Goals for Nutrition, Physical Activity, and Other Wellness Activities

The Board shall adopt specific goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness. In developing such goals, the Board shall review and consider evidence-based strategies and techniques. (42 USC 1758b; 7 CFR 210.30)

The district's nutrition education and physical education programs shall be based on research, shall be consistent with the expectations established in the state's curriculum frameworks and content standards, and shall be designed to build the skills and knowledge that all students need to maintain a healthy lifestyle.

The nutrition education program shall include, but is not limited to, information about the benefits of healthy eating for learning, disease prevention, weight management, and oral health. Nutrition education shall be provided as part of the health education program and, as appropriate, shall be integrated into other academic subjects in the regular educational program, before- and after-school programs, summer learning programs, and school garden programs.

All students shall be provided opportunities to be physically active on a regular basis. Opportunities for moderate to vigorous physical activity shall be provided through physical education and recess and may also be provided through school athletic programs, extracurricular programs, before- and after-school programs, summer learning programs, programs encouraging students to walk or bicycle to and from school, in-class physical activity breaks, and other structured and unstructured activities.

The Board may enter into a joint use agreement or memorandum of understanding to make district facilities or grounds available for recreational or sports activities outside the school day and/or to use community facilities to expand students' access to opportunity for physical activity.

Professional development may be regularly offered to the nutrition program director, managers, and staff, as well as health education teachers, physical education teachers, coaches, activity supervisors, and other staff as appropriate to enhance their knowledge and skills related to student health and wellness.

In order to ensure that students have access to comprehensive health services, the district may provide access to health services at or near district schools and/or may provide referrals to community resources.

The Board recognizes that a safe, positive school environment is also conducive to students' physical and mental health and thus prohibits bullying and harassment of all students, including bullying on the basis of weight or health condition.

The Superintendent or designee shall encourage staff to serve as positive role models for healthy eating and physical fitness. He/she shall promote work-site wellness programs and may provide opportunities for regular physical activity among employees.

Nutrition Guidelines for All Foods Available at School

For all foods and beverages available on each campus during the school day, the district shall adopt nutrition guidelines which are consistent with 42 USC 1758, 1766, 1773, and 1779 and federal regulations and which support the objectives of promoting student health and reducing childhood obesity. (42 USC 1758b)

In order to maximize the district's ability to provide nutritious meals and snacks, all district schools shall participate in available federal school nutrition programs, including the National School Lunch and School Breakfast Programs and after-school snack programs, to the extent possible. When approved by the California Department of Education, the district may sponsor a summer meal program.

The Superintendent or designee shall provide access to free, potable water in the food service area during meal times in accordance with Education Code 38086 and 42 USC 1758, and shall encourage students' consumption of water by educating them about the health benefits of water and by serving water in an appealing manner.

The Board believes that all foods and beverages sold to students at district schools, including those available outside the district's reimbursable food services program, should support the health curriculum and promote optimal health. Nutrition standards adopted by the district for foods and beverages provided through student stores, vending machines, or other venues shall meet or exceed state and federal nutrition standards.

The Superintendent or designee shall encourage school organizations to use healthy food items or non-food items for fundraising purposes.

He/she also shall encourage school staff to avoid the use of non-nutritious foods as a reward for students' academic performance, accomplishments, or classroom behavior.

School staff shall encourage parents/guardians or other volunteers to support the district's nutrition education program by considering nutritional quality when selecting any snacks which they may donate for occasional class parties. Class parties or celebrations shall be held after the lunch period when possible.

To reinforce the district's nutrition education program, the Board prohibits the marketing and advertising of foods and beverages that do not meet nutrition standards for the sale of foods and beverages on campus during the school day. (7 CFR 210.30)

Program Implementation and Evaluation

The Superintendent designates the individual(s) identified below as the individual(s) responsible for ensuring that each school site complies with the district's wellness policy. (42 USC 1758b; 7 CFR 210.30)

Food Services Director
(530) 824-7700

The Superintendent or designee shall assess the implementation and effectiveness of this policy at least once every three years. (42 USC 1758b; 7 CFR 210.30)

The assessment shall include the extent to which district schools are in compliance with this policy, the extent to which this policy compares to model wellness policies available from the U.S. Department of Agriculture, and a description of the progress made in attaining the goals of the wellness policy. (42 USC 1758b)

The Superintendent or designee shall invite feedback on district and school wellness activities from food service personnel, school administrators, the wellness council, parents/guardians, students, teachers, before- and after-school program staff, and/or other appropriate persons.

The Board and the Superintendent or designee shall establish indicators that will be used to measure the implementation and effectiveness of the district activities related to student wellness. Such indicators may include,

but are not limited to:

1. Descriptions of the district's nutrition education, physical education, and health education curricula and the extent to which they align with state academic content standards and legal requirements
2. An analysis of the nutritional content of school meals and snacks served in all district programs, based on a sample of menus and production records
3. Student participation rates in all school meal and/or snack programs, including the number of students enrolled in the free and reduced-price meals program compared to the number of students eligible for that program
4. Extent to which foods and beverages sold on campus outside the food services program, such as through vending machines, student stores, or fundraisers, comply with nutrition standards
5. Extent to which other foods and beverages that are available on campus during the school day, such as foods and beverages for classroom parties, school celebrations, and rewards/incentives, comply with nutrition standards
6. Results of the state's physical fitness test at applicable grade levels
7. Number of minutes of physical education offered at each grade span, and the estimated percentage of class time spent in moderate to vigorous physical activity (PE minute requirement is 200 minutes in a 10 day period TK-6 and 400 minutes in a 10 day period for 7th-8th.)
8. A description of district efforts to provide additional opportunities for physical activity outside of the physical education program
9. A description of other district wide or school-based wellness activities offered, including the number of sites and/or students participating, as appropriate

As feasible, the assessment report may include a comparison of results across multiple years, a comparison of district data with county, statewide, or national data, and/or a comparison of wellness data with other student outcomes such as academic indicators or student discipline rates.

In addition, the Superintendent or designee shall prepare and maintain the proper documentation and records needed for the administrative review of the district's wellness policy conducted by the California Department of Education (CDE) every three years.

The assessment results of both the district and state evaluations shall be submitted to the Board for the purposes of evaluating policy and practice, recognizing accomplishments, and making policy adjustments as needed to focus district resources and efforts on actions that are most likely to make a positive impact on student health and achievement.

Notifications

The Superintendent or designee shall inform the public about the content and implementation of the district's wellness policy and shall make the policy, and any updates to the policy, available the public on an annual basis. He/she shall also inform the public of the district's progress towards meeting the goals of the wellness policy, including the availability of the triennial district assessment. (Education Code 49432; 42 USC 1758b; 7 CFR 210.30)

The Superintendent or designee shall distribute this information through the most effective methods of communication, including district or school newsletters, handouts, parent/guardian meetings, district and school web sites, and other communications. Outreach to parents/guardians shall emphasize the relationship between student health and wellness and academic performance.

Each school may post a summary of nutrition and physical activity laws and regulations prepared by the CDE.

Records

The Superintendent or designee shall retain records that document compliance with 7 CFR 210.30, including, but not limited to, the written student wellness policy, documentation of the triennial assessment of the wellness policy for each school site, and documentation demonstrating compliance with the community involvement requirements,

including requirements to make the policy and assessment results available to the public. (7 CFR 210.30)

Policy Reference Disclaimer: These references are not intended to be part of the policy itself, nor do they indicate the basis or authority for the Governing Board to enact this policy. Instead, they are provided as additional resources for those interested in the subject matter of the policy.
