Meet HI-5:

Contactless Check-In for Students

We are launching the HI-5 Wave Scanner,
a fast, touch-free way for students to
check out for breakfast and lunch using a
quick hand wave. The system uses safe
technology to create a secure, encrypted
code, **no photos, fingerprints or images
are stored** & students can also choose to
use a PIN instead. This optional system
helps reduce wait times in the cafe,
eliminates the need for ID cards, and
creates a safer, more convenient daily
experience for students while
protecting their privacy.
