## You Matter Middle/High School Conference—Informational Letter

**(Please read this letter and keep for future reference)**

Dear Parent:

The Lassen County Office of Education, in coordination with the Prevention Collaborative, is sponsoring the “You Matter Middle/High School Conference.” Students from throughout Lassen County have been invited to attend. Your school’s scheduled day is \_\_\_\_\_.

The purpose of the event is to give students the opportunity to attend workshops about topics that are relevant to their lives presented by professionals in the field. These professionals will work to give students greater knowledge and understanding about how to make good choices and understand the effects of the decisions that they make. This year’s topics include Healthy Choices, You and Your Story, Building Relationships, and Finding Your True Self in a Digital World

The location for the event will be at \_\_\_\_\_.

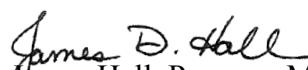

**Your student will need to bring:**

- A coat or jacket

Students will be supervised by their teacher(s).

We are looking forward to this exciting event for the Middle and High School Students in Lassen County.

Sincerely,

  
James Hall, Program Manager  
Prevention and Expanded Student Learning
