

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Bonita Unified

CDS Code: 19643290000000

School Year: 2026-27

LEA contact information:

Matthew Wien

Superintendent

wien@bonita.k12.ca.us

(909) 971-8200

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

This chart shows the total general purpose revenue Bonita Unified expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Bonita Unified is \$146,331,954, of which \$120,151,369 is Local Control Funding Formula (LCFF), \$8,971,978 is other state funds, \$13,272,647 is local funds, and \$3,935,960 is federal funds. Of the \$120,151,369 in LCFF Funds, \$8,413,836 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Bonita Unified plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Bonita Unified plans to spend \$154,825,143 for the 2026-27 school year. Of that amount, \$151,906,258 is tied to actions/services in the LCAP and \$2,918,885 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Expenditures that will be funded through one-time grants and donations are not included.

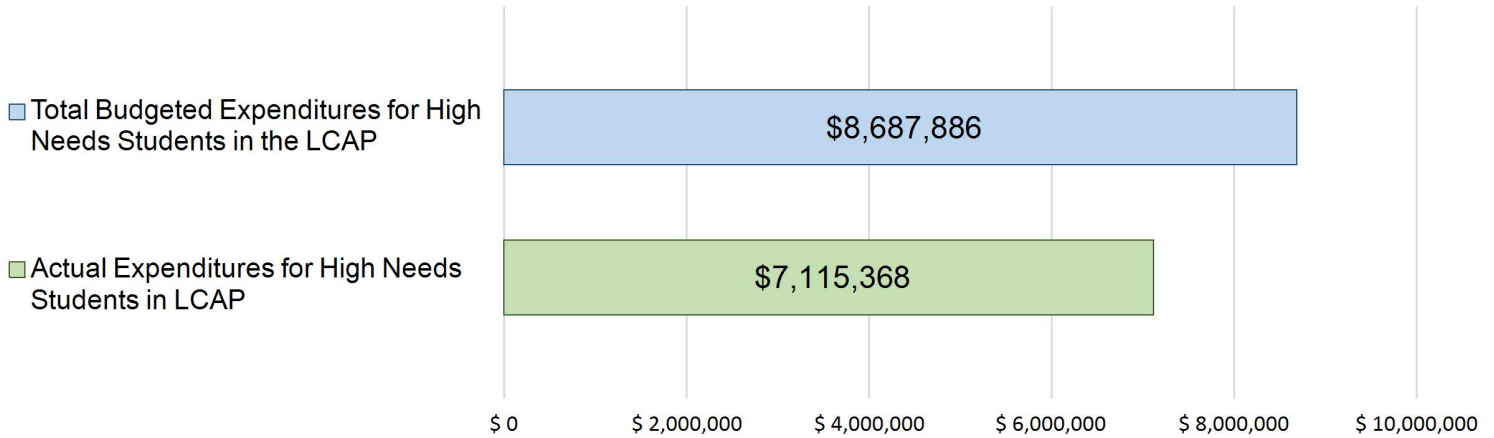

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Bonita Unified is projecting it will receive \$8,413,836 based on the enrollment of foster youth, English learner, and low-income students. Bonita Unified must describe how it intends to increase or improve services for high needs students in the LCAP. Bonita Unified plans to spend \$10,914,939 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26

Prior Year Expenditures: Increased or Improved Services for High Needs Students

This chart compares what Bonita Unified budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Bonita Unified estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Bonita Unified's LCAP budgeted \$8,687,886 for planned actions to increase or improve services for high needs students. Bonita Unified actually spent \$7,115,368 for actions to increase or improve services for high needs students in 2025-26.

The difference between the budgeted and actual expenditures of \$1,572,518 had the following impact on Bonita Unified's ability to increase or improve services for high needs students:

Increased and improved services were also funded through one-time funds and grant funds, including LREBG and Educator Effectiveness funds. Services continued to be provided to high-need students.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Bonita Unified School District in San Dimas, California serves a diverse student body of approximately 10,000 students in the communities of San Dimas and La Verne in grades TK through 12, and an Adult Transition program. Programs are delivered in eight elementary schools, two middle schools, two comprehensive high schools, one continuation high school, and an alternative program serving a variety of needs. Our schools have won numerous awards for excellence including California Distinguished School designations, Model Continuation High School designation, and National Blue Ribbon designations. The district is characterized by its strong academic achievements and a commitment to inclusive education, despite facing challenges. Economically disadvantaged students make up 34.1% of the population, with 5.1% classified as English learners and 0.4% as foster youth. These demographics underscore the district's focus on equitable education access. Performance indicators highlight success and areas of concern.

Academic performance and engagement metrics demonstrate successes:

- English Language Arts: Students scored 56.7 points above standard, improving by 2.2 points.
- Mathematics: Students scored 28.2 points above standard, with an 7.1 point increase.
- College/Career Readiness: 68.6% of students are well-prepared, a .2% increase over the prior year.
- English Learner Progress: 51.4% of English learners made progress toward proficiency.
- Chronic Absenteeism: 10.5% of students are chronically absent, which represents an 1.9% decline over the prior year.
- Graduation Rate: 97.1% of student graduated, which represents a .5% improvement.
- Suspension rates: 2.1%, a decline of .9%

-The district met all local indicators, demonstrating effective implementation of academic standards, broad course access, and strong community engagement.

An area of improvement has been identified in dashboard data:

-During the 2024-2025 school year, Long Term English Learners (LTELs) performed in the lowest range in Mathematics, Chronic Absenteeism, and Suspension. BUSD is receiving support for this area of need through the Differentiated Assistance process.

In summary, Bonita Unified continues to work to support all students, while recognizing the need for focused improvements in specific subgroups.

Vista Opportunity School, a credit recovery program for high school students, will continue to receive Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

We are encouraged by our students' continued progress across multiple metrics. Bonita Unified School District achieved its highest-ever scores in both English language arts (73.5% of students were proficient) and mathematics (63.3% of students were proficient) on the spring 2025 state assessments. Science scores improved as well, with 54.3% of students scoring proficient on this assessment. We continue to strive to close achievement gaps that we have identified for student subgroups to ensure that every student can achieve at high levels. Overall, the district has five red dashboard areas: Mathematics (LTELs), Suspension (LTELs) and Chronic Absenteeism (African American, Homeless, and LTELs).

The district continues to make progress in areas of student engagement. The average number of absence days has continued to decline (to 9.1) and chronic absenteeism continues to decline (to 10.5%). Suspension rates have continued to decline as well, and are currently 2.1% overall.

As a district, we are working to address the low performance identified for the Long Term English Learner (LTEL) subgroup, who demonstrated the lowest performance level in three areas: Mathematics, Chronic Absenteeism, and Suspension. This performance has caused the district to be identified for Differentiated Assistance.

Chaparral has exited CSI designation. Vista school continues to be eligible for Equity Multiplier funding.

2023 Dashboard Data continues to drive this plan:

Challenges: District-Wide Student Groups

Bonita USD has identified three student groups that received the lowest rating on one or more indicators on the 2023 dashboard:

1. Foster youth (FY) demonstrated very low academic performance in both English Language Arts and Mathematics
2. Filipino (FI) students demonstrated very low performance in school engagement due to high chronic absenteeism
3. Homeless (HO) students demonstrated very low performance in school climate due to high rates of suspension.

Challenges: School-Wide Performance

The following schools received the lowest rating for overall school performance on one or more indicators on the 2023 dashboard:

1. Gladstone Elementary- chronic absenteeism
2. Oak Mesa Elementary- chronic absenteeism
3. Chaparral High School- academic performance in English Language Arts and Mathematics; career and college readiness

Challenges: Student Groups Within Schools

The following student groups within schools received the lowest rating on one or more indicators on the 2023 dashboard:

1. Gladstone Elementary- Hispanic (HI) students and students of two or more races (TOM) demonstrated very low performance in school engagement due to high chronic absenteeism
2. La Verne Heights Elementary- Low income (LI) students demonstrated very low performance in school climate due to high rates of suspension
3. Roynon Elementary- English learners (EL), students with disabilities (SWD), low income (LI) students, and white (WH) students demonstrated very low performance in school engagement due to high chronic absenteeism
4. Oak Mesa Elementary School- Hispanic (HI) students and low income (LI) students demonstrated very low performance in school engagement due to high chronic absenteeism
5. Lone Hill Middle School- Students with disabilities (SWD) demonstrated very low academic achievement in English Language Arts and Math; African American (AA) students and Low Income (LI) students demonstrated very low performance in school climate due to high rates of suspension
6. Bonita High School- English learners (EL) and students with disabilities (SWD) demonstrated very low performance in school climate due to high rates of suspension
7. San Dimas High School- Students with disabilities (SWD) demonstrated very low academic performance in English Language Arts; African American (AA) students demonstrated very low performance in school climate due to high rates of suspension.
8. Chaparral High School- Low income (LI) students and Hispanic (HI) students demonstrated very low performance in career and college readiness

The following actions were developed in this three year plan to address the lowest performance indicators from the 2023 Dashboard: Action 1.1- Data Driven Continuous Improvement (ELA ,math, college and career), Action 1.2- Communities of Practice (ELA, math, college and career), Action 1.3- RTI/ MTSS (ELA ,math, college and career), Action 1.4- Intervention Personnel (ELA ,math, college and career), Action 1.5 Supplemental Intervention (ELA ,math, college and career), Action 1.12 Support for FY and Homeless- Liaisons and Support Services (ELA & math for FY), Action 1.16 Chap CSI (ELA ,math, college and career for Chaparral), Action 1.17 Academic Performance: Subgroups (ELA ,math, college and career), Action 2.2- Staffing to Improve Graduation Rates college and career), Action 2.5 Professional Development (ELA ,math, college and career), Action 3.5 Chronic Absenteeism: Subgroups (chronic absenteeism), Action 3.9 Suspension: Subgroups (suspension).

BUSD has unexpended Learning Recovery Emergency Block Grant (LREBG) funds that will be reflected in this plan. The needs assessment that informs these expenditures was updated in May, 2026.

Our needs assessment indicates that there continue to be significant needs in CAASPP ELA proficiency (metric 1.1) for English learners and low income students as well as significant needs in CAASPP math proficiency (metric 1.2) for English learners. In addition, students identified

intervention supports as critical strategies to reinforce school connectedness. In response, the district will use LREBG funds to support intervention personnel (action 1.4). Our reading intervention program has demonstrated renowned success, with BUSD recognized as the number one district in California for 3rd grade, low income, LatinX student achievement for the past three years. Other intervention programs across the district are now modeled after this program. This action is aligned with allowable fund uses in the area of small group learning supports provided by certificated or classified staff.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

BUSD is eligible for Differentiated Assistance to support Long Term English Learners (LTELs) due to low performance in Mathematics, Chronic Absenteeism, and Suspension. The following actions were taken this year:

January 7, 2026- BUSD team met with county office assistance team to review data and discuss areas of need

January 12, February 23, and March 9, 2026- BUSD participated in VALCO LTEL Valley to Coast Collaborative Long Term English Learner Community of Practice meetings.

- We have targeted Language Support Programs which create specialized language support tailored to the needs of LTELs. These programs could include intensive English language instruction, vocabulary development activities, and culturally relevant materials to enhance language acquisition.
- We also have culturally responsive curriculum that reflects the diverse backgrounds and experiences of LTELs. We incorporate literature, history, art, and other content areas relevant to students' cultural identities to enhance engagement and academic achievement.
- We also utilize data to make informed decisions about our LTEL's academic progress and ELPAC results to guide instructional choices and allocate resources effectively. This information pinpoints areas requiring attention and assess the impact of support interventions over time.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

No schools are identified for CSI

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Teachers	<p>Teachers were engaged through several processes. First, the California School Staff Survey was distributed to all staff members. In addition, school principals share LCAP and related school plan components throughout the year at leadership team meetings, staff meetings, and team meetings that solicit input. Finally, teachers participate in a departmental groups and focus groups that meet directly with district personnel and serve as leadership for their grade levels, departments, and schools. Together, these groups allow BUSD to incorporate teacher perspectives and insights into how we use district resources to support our students.</p> <p>Dates vary- monthly school leadership team meetings at sites Dates vary- monthly staff meetings at sites Departmental and Focus Group Meetings: 9/10/25- Elementary Math Focus Group 9/11/25- Elementary Math Focus Group 9/12/25- Secondary ELA Collaboration 9/24/25- Elementary ELA Focus Group 9/26/25- Elementary Math Focus Group 10/3/25- 6 & 7 Grade Math Collaboration 10/17/25- Middle School Math Collaboration 10/22/25- Bonita High School Sophomore ELA Collaboration 11/6/25- 6 & 7 Grade Math Collaboration 11/14/25- Ramona Middle School ELA Collaboration 11/19/25- 6 & 7 Grade Math Collaboration 12/9/25- Secondary ELA Collaboration</p>

Educational Partner(s)	Process for Engagement
	<p>1/6/26- Chaparral/Vista High Collaboration 1/23/26- Elementary Math Focus Group 2/5/26- Ramona Middle School ELA Collaboration 2/17/26- Lone Hill Middle School ELA Collaboration 2/18/26- Elementary Math Focus Group 2/18/26- 8th Grade Math Collaboration 2/20/26- Secondary ELA Collaboration 2/25/26- Ramona Middle School ELA Collaboration 3/4-3/31/26 West Ed Staff Survey 3/11/26- Bonita High CTE Collaboration 3/25/26- San Dimas High CTE Collaboration 4/14/26- Elementary Math Focus Group 4/16/26- Secondary ELA Collaboration</p>
Principals	<p>During principal meetings, feedback is gathered from school leaders to evaluate and inform the district's strategic goals. These data-driven discussions allow us to share feedback from other groups and incorporate principals' perspectives and insights to identify potential goals and actions. Primary topics discussed are included with dates here:</p> <p>7/31/25- Elementary: EL/LTEL Needs, SPSA/ATSI, PD Plans as related to Continuous Improvement and Implementation of State Standards. 9/18/25- Elementary: Implementation of State Standards, RTI/MTSS 10/13/25- Elementary: Implementation of State Standards, Data tracking for unduplicated students, SEL support curriculum 11/20/25- Secondary: Goal 1 1/8/26- Elementary: Goal 1 data discussions, EL/LTEL Needs, Chronic Absenteeism, Tracking RTI/MTSS 1/22/26- Secondary: Goal 1, EL/ LTEL Needs, Differentiated Assistance, CSSP, Chronic Absenteeism 2/12/26- Elementary: EL/LTEL Needs, Differentiated Assistance, SEL Survey 2/19/26- Secondary: Goal 1 3/12/26- Elementary: EL/LTEL Needs, Differentiated Assistance, Chronic Absenteeism</p>

Educational Partner(s)	Process for Engagement
	<p>3/19/26- Secondary: Fiscal alignment with LCAP goals, LCAP/SPSA alignment, school suspension/ discipline data, Parent Survey - Evaluation</p> <p>4/16/26- Elementary: EL/LTEL Needs, LCAP/ SPSA Alignment,</p> <p>4/23/26- Secondary: Goal 1, Goal 4, Career and College Ready indicators, Student survey data review</p> <p>5/14/26- Elementary: Goal 1 and Continuous Improvement</p>
Administrators	<p>District and local agency administrators met throughout the development of the LCAP for strategic planning meetings to align resources to the needs of student groups:</p> <p>October 7, 2025 Review of approved LCAP and action planning for red dashboard areas: Ed Services Team</p> <p>January 6, 2026- Review of progress (strengths/ needs) for Goal 3- student safety and sense of belonging as measured through Panorama survey: Ed Services Team</p> <p>January 27, 2026- Mid year data review for metrics, alignment with site SPSAs: Ed Services Team</p> <p>April 7, 2026- Review of incomplete actions from LCAP goals: Ed Services Team</p> <p>April 7, 2026- District special education needs, annual determination. Discussed AA disproportionality in discipline and recommended supports. Discussed inclusion goals: Anne Neal, Jessicka Mears, Scott Turner (SELPA)</p> <p>April 21, 2026- Meeting to discuss completed and planned actions for this school year, planning for Parent Advisory feedback meeting: Ed Services Team</p> <p>May 5, 2026- Meeting to discuss survey results (LCAP, West Ed): Ed Services Team</p> <p>May 12, 2026- Meeting to discuss Student Advisory feedback: Ed Services Team</p>
Other School Personnel	<p>Other school personnel participate in the California School Staff Survey and site-based leadership teams. Their feedback is used to inform goals and actions to meet the needs of our students. Site staff meet regularly with their school leadership to share their perspectives on school needs and goals. District staff meet regularly in department</p>

Educational Partner(s)	Process for Engagement
	<p>teams to engage in the same process. Information gathered from these groups is reviewed by district leadership to support alignment between school and district goals.</p> <p>Dates vary- monthly staff team meetings at sites</p> <p>Dates vary- weekly or monthly district departmental meetings</p> <p>March 4-31, 2026- California School Staff Survey (WestEd)</p>
Local Bargaining Units	<p>Local bargaining units participate in regular feedback meetings with district administration as part of the strategic planning process. Weekly meetings are held between the teachers' union president and superintendent/ assistant superintendents. In addition, formal feedback meetings were held to inform the strategic planning process on the following dates:</p> <p>September 9, 2025- CSEA Classified Employee Union Executive Board and Superintendent</p> <p>September 28, 2025- BUTA Teacher Union Executive Board and Superintendent</p> <p>November 4, 2025- BUTA Teacher Union Executive Board and Superintendent</p> <p>November 10, 2025- CSEA Classified Employee Union Executive Board and Superintendent</p> <p>February 2, 2026- BUTA Teacher Union Executive Board and Superintendent</p> <p>February 10, 2026- CSEA Classified Employee Union Executive Board and Superintendent</p> <p>March 4-31, 2026- California School Staff Survey (WestEd)</p> <p>April 13, 2026- BUTA Teacher Union Executive Board and Superintendent</p> <p>April 14, 2026- CSEA Classified Employee Union Executive Board and Superintendent</p>
Parents	<p>Throughout the school year, parents are involved in a range of opportunities to learn about the LCAP and district goals while also providing meaningful feedback to inform in district planning processes. Opportunities are designed to ensure participation from a wide range of groups, with specific effort made to reduce disparities in opportunities and outcomes. The timeline below does not reflect all</p>

Educational Partner(s)	Process for Engagement
	<p>opportunities, but includes a sample of those included throughout this school year:</p> <p>September 9, 2025- Parent Advisory Committee (PAC)</p> <p>October 15, 2025 - DAC/DELAC Meeting - included update on LCAP / Participants: DAC/DELAC Members, DO Administration</p> <p>November 18, 2025 - Parent Advisory Committee (PAC) Discussed enrollment, ADA, and funding. / Participants: PAC Members, DO Administration</p> <p>February 10, 2026- Parent Advisory Committee (PAC)</p> <p>February 25, 2026- District LCAP Survey window open; Emailed to parents via ParentSquare and to Staff via District email; posted on District website / Participants: Parents, Staff, and Community</p> <p>March 4-31, 2026- California School Parent Survey (WestEd)</p> <p>May 12, 2026 - Met with Parent Advisory Committee and reviewed LCAP / Participants: Parent Advisory Committee and DO Administration</p> <p>June 3-9, 2026 - Community Input--Shared draft plan and posted on the District website to elicit feedback / Participants: Students, Parents, Teachers, PTA, School Board, Community, School Site Council, District Advisory Committee, District English Language Advisory Committee, Employee Assoc. Leaders, Classified/Confidential, Administration, members from Business Services and Educational Services</p> <p>June 10, 2026, Board Hearing - Present the LCAP at the June Board meeting and hold a public hearing for comment/feedback. Participants: BUSD Board Members, Superintendent, District Office Administration, Community</p> <p>June 24, 2026- Local indicators Presentation to the Board and community</p> <p>June 24, 2026- Board Approval - BUSD Board votes on approval of the LCAP Participants: BUSD Board Members, Superintendent, District Office Administration, Community</p>
Students	<p>We continue to strive to include student voice in decisions that inform the district's strategic plan and the resulting LCAP. At the comprehensive high school sites, administration engages various student groups on campus to provide opportunities for student voice.</p>

Educational Partner(s)	Process for Engagement
	<p>San Dimas High School currently has the Integrity Team, which meets on the second Thursday of the month. This team of administrators, staff and students is committed to gathering student voices so that every student gets what they need to reach their potential. At Bonita High School, the House of Representatives meets once per month. Prior to these monthly meetings, an Executive Board of students meets with the administration to create the agenda and align to the district strategic planning process. The following week, the representatives from various grade levels and student groups meet to discuss the items on the agenda. Feedback from the groups is shared with the district executive team.</p> <p>May 6, 2026- Representatives from each of the three high schools met with the district as the Student Advisory Committee. Data from parent and staff surveys were shared and students provided their perspectives. Draft goals and actions were shared and additional feedback was sought.</p>
Equity Multiplier: Vista Opportunity School	<p>In addition to the above, which were open to all educational partners in the Vista community, additional efforts were made to gather feedback to inform the Equity Multiplier focus goal. Vista parents were contacted directly by the school principal and asked to participate in a survey specific to the program's needs and goals. Teachers in the program reached out to individual families to ask for their participation. Students were also asked to participate in a survey specific to school needs. Students were also informally interviewed by school staff to seek greater feedback. Each of these processes allowed us to collect partner input to develop the equity multiplier goal and actions. Specific dates include:</p> <p>2/24/26- Staff articulation meetings to review progress and identify strengths, needs, and proposed next steps April- May 2026- Student survey April- May 2026- Parent survey May 9, 2026- Met with Vista team to review partner feedback and identify next steps</p>

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Bonita Unified fosters engagement of its educational partners and greatly values the thoughts of our community. In order to ensure that full engagement of our community was achieved, BUSD incorporated a number of different strategies: surveys, site-level meetings, and district-level meetings.

Bonita continued the use of a community survey to identify community priorities during Spring 2026 (n= 275):

Families shared the following information on their top priorities:

73% of families perceive that school safety and connectedness is a high priority to them

69% of families perceive that access to appropriate teachers, materials, and facilities is a high priority to them

These were the same priorities identified the prior year.

When asked to provide feedback on BUSD goals from the prior three-year LCAP, families reported that they would like to see these goals prioritized:

83% of families would like us to maintain the high level of BUSD educational programs and extracurricular programs

68% of families would like us to continue to prioritize safety and welfare of staff and students

These were the same goals prioritized in the prior year.

When asked to share which BUSD programs they value most, the top were:

53% reported that they most value after school extra curricular programs

50% reported that they most value performing arts/ arts education programs

49% reported that they most value counseling and mental health support

This reflects a change from the prior year, where academic intervention programs were prioritized and performing arts/ arts education was not.

When asked to report what they perceive should be done to prepare more students to be career and college ready, the top responses were:

65% suggested guidance for college admission and financial aid

56% suggested increased opportunities for industry internships

55% suggested more opportunities for dual enrollment courses

This reflects a change from the prior year, where increased CTE course offerings was prioritized and industry internships were not.

Families again participated in the 2026 California School Parent Survey (n= 1449):

95% of parents report that their schools keep them well informed (2% increase)

92% of parents agree that school staff treat parents with respect (3% increase)

90% of parents report that their schools keep them apprised of their child's progress between report cards (1% increase)

89% of parents agree that their schools are responsive to communication (no change)

89% of parents report that they are encouraged to be an active partner in their child's education (1% increase)

66% of parents agree that their schools actively seek parent input before making important decisions (3% increase)

Staff members again participated in the 2026 California School Staff Survey (n=452), in which they reported the following:

When asked to report on the student learning environment:

93% reported that schools help students when they need academic support (4% decline)

95% reported that they emphasize teaching lessons in a manner that is relevant to students (no change)

94% reported that schools promote academic success for all students (1% decline)

94% reported that schools motivate students to learn (2% decline)

92% reported that the school is a safe place for students (4% decline)

38% also reported that student behavior is a moderate to severe problem (5% increase)

When asked about the staff working environment:

91% of staff stated that the school is a safe place for staff (no change)

88% of staff stated that the school is a supportive and inviting place to work (2% increase)

86% of staff stated that the school is a clean and well-maintained facility (3% decline)

82% of staff stated that the school promotes personnel participation in decision-making (3% decline)

83% of staff stated that the school promotes trust and collegiality among staff (1% decline)

When asked about parent involvement:

94% of staff shared that school staff take parent concerns seriously (3% decline)

92% of staff shared that teachers communicate with parents about learning expectations (3% decline)

94% of staff shared that the school is welcoming and facilitates parent involvement (2% decline)

94% of staff shared that parents feel welcome to participate (no change)

92% of staff shared that the school encourages parents to be active partners (1% decline)

When asked about social emotional learning:

91% of staff reported that students are taught they can control their own behavior (3% decline)

92% of staff reported that the school encourages students to understand how others think and feel (2% decline)

88% of staff reported that the school helps students resolve conflicts with one another (6% decline)

The student advisory committee reviewed this data and provided additional feedback.

When asked for feedback on community priorities (after school/ extra curricular programs, performing arts/ arts education programs, and counseling/ mental health support), they unanimously reported that counseling and mental health supports were most valued. They appreciate the mental health specialists, peer counseling, and supplemental groups (such as Link Crew). They believe that these programs support them to attend school, do well in school, and push themselves to do better.

When asked about ways to improve school safety and connectedness, they shared that there are three essential elements to feeling safe and connected: a high quality educational program, caring teachers who build relationships with students, and intervention supports that allow them to fully engage in core instruction. They value co-curricular and extra curricular activities, but believe that these serve to connect students to each other, while a high quality instructional program connects them to the school setting.

Based upon this feedback from educational partners, BUSD has identified the following priorities for this three year plan:

1. Continue to foster academic programs that have yielded high academic achievement for students in our schools. Refine these programs,

where needed, to address achievement gaps.

2. Continue to support students with intervention programs throughout all grades in core academic areas.
3. Continue to expand Career and Technical Education (CTE) opportunities to provide a wider range of experiences as well as more opportunity for students to engage with community partners for certificates and internships.
4. Continue to provide co-curricular, extracurricular, and enrichment opportunities to support engagement in the school community.
5. Continue to provide resources to support safety and positive student behavior.
6. Continue to provide a range of opportunities for family engagement in our schools.

These priorities will be reflected in the goals and actions of this document.

The updated data from educational partners supports the continued pursuit of identified actions and goals. Small differences were observed, but in most cases were not outside of error margins. Survey data also identified priorities that are reflected in current actions, highlighting the need to communicate these existing activities to our community.

The Vista Opportunity School Equity Multiplier Goal was initially developed using survey information in 2024. The survey is updated annually and continues to report the following:

Feedback from educational partners was solicited using a directed survey to the families of enrolled students. The school team met to brainstorm potential supports to enhance student achievement and accelerate credit recovery. Parents of the school were surveyed, and their opinions were sought on the types of supports they perceived would benefit their students. Parents were also asked if they were willing to speak at greater depth with the LCAP planning team. Educational partners reported the following:

- All parents (100%) would like to see more courses available to students in this program.
- Individual parents expressed a desire to access more varied courses, including intervention classes and life skills classes.
- Most parents (75%) agreed that the program has positively impacted their child's achievement.
- Most students (83%) shared that the value the alternative format that allows them to recoup additional credit through unit study (SBUS).
- Most students (83%) believe they would benefit from a wider range of course offerings, including virtual formats.
- Some students (25%) shared feedback on individual curricula they do not feel benefits them. More information will be gathered from students and evaluated with respect to essential standards and grade level requirements to determine if new resources are warranted.
- Individual students expressed a desire to access more varied courses, including electives and applied financial skills courses.

Vista Opportunity School does not have California School Dashboard data due to the small size of the student population.

Based upon this feedback from educational partners, BUSD identified the following priorities for Vista Opportunity School:

1. Expand intervention supports to ensure that students can complete the Standards Based Units of Study (SBUS) in the prescribed time period (6 units per month).
2. Expand course offerings. The small school size makes it difficult to provide a wide range of courses. Distance learning platforms are available that would allow students to participate in courses beyond the scope of the current staff.

In Spring 2026, feedback was again solicited from Vista educational partners. Because of the small student population, data is not reported on the California School Dashboard. The school team met to review local data and evaluate progress toward goals as well as successes/

barriers. Consistent with the prior year, parents and students felt that the program is positively impacting students. They again shared the desire to accelerate their capacity to earn credits in areas where they are behind. They also continue to seek out credit in a wider range of courses.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	STUDENT ACHIEVEMENT- All students will prepare to live their purpose through high-quality learning environments and programs that support high student achievement. Specific attention will be paid to the needs of students who are identified as English learners (EL), students with disabilities (SWD), socio-economically disadvantaged (SED), foster youth, and homeless students.	Broad Goal

State Priorities addressed by this goal.

- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

This goal was developed in response to the needs identified through data analysis and input from educational partners. The analysis of California School Dashboard data indicated a clear need to continue supporting academic achievement for all students in English Language Arts (ELA), Mathematics, Science, and English Language Development (ELD). We are encouraged by the rebound in the number of students who demonstrated mastery of standards, as these results continue to place us in the top 10% of all unified school districts. In Spring 2023, CAASPP scores demonstrated that 72% of students were proficient in English language arts and 58% were proficient in math. However, we are concerned that achievement gaps persist and that students from unduplicated populations were impacted most by pandemic related school closures. We will continue to target improvement for all students as well as achievement gaps for disaggregated groups.

Student achievement was an area of need for the following student groups on the 2023 California School Dashboard:
 District-Wide: Foster youth (FY) demonstrated very low academic performance in both English Language Arts and Mathematics
 School-Wide: Chaparral High School demonstrated very low academic performance in English Language Arts and Mathematics as well as Career and College Readiness
 Student Groups Within Schools:
 Lone Hill Middle School- Students with disabilities (SWD) demonstrated very low academic achievement in English Language Arts and Math
 San Dimas High School- Students with disabilities (SWD) demonstrated very low academic performance in English Language Arts
 Chaparral High School- Low income (LI) and Hispanic (HI) students demonstrated very low performance in career and college readiness

- During the LCAP development process, educational partners identified the need for:
- Continue to maintain the high level of BUSD educational programs and extra-curricular activities
 - Continue existing programs that prioritize performing arts, arts education, extra-curricular programs, and academic intervention programs
 - Increase access to CTE related education through more industry internships, more industry recognized certificates, and more CTE course offerings.

BUSD plans to address these needs through continuing actions that have resulted in success, while refining practices for those actions that have not yielded adequate growth.

Based on partner feedback and 2025 CA Dashboard data, BUSD will continue this goal. We continue to improve achievement for all students and gaps for under-resourced groups show progress. More work is needed to continue this growth and continue to narrow achievement gaps, specifically for low income, foster youth, English learners, and Long Term English Learners.

Measuring and Reporting Results

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

IMPLEMENTATION:

All actions were fully implemented as planned.

The following actions were fully implemented and are ongoing; they will continue into subsequent years of this three year plan: data driven continuous improvement (action 1.1), communities of practice (action 1.2), RTI/ MTSS (action 1.3), intervention personnel (action 1.4), supplemental intervention (action 1.5), summer intervention programs (action 1.6), summer library (action 1.7), supplemental programs for enrichment (action 1.8), EL master plan (action 1.9), EL support staff (action 1.10), EL summer institute (action 1.11), Support for foster and homeless youth (action 1.12) CTE counselor/ coordinator (action 1.13), CCGI (action 1.14), workability (action 1.15), Support for Chaparral (action 1.16), and academic performance for subgroups (action 1.17). These actions were targeted to meet the identified areas of highest need, which include: 1. ELA performance for foster youth (district-wide), Chaparral HS, San Dimas HS students with disabilities, and Lone Hill MS students with disabilities, 2. Math performance for foster youth (district-wide), Chaparral HS, and Lone Hill MS students with disabilities, and 3. Career and college readiness for Chaparral HS (school-wide) as well as Chaparral HS Hispanic students and low income students.

There were no actions for this goal that were partially implemented or not implemented.

KEY SUCCESSES: BUSD is pleased that prioritizing the continuous improvement process supports our efforts to increase achievement and narrow achievement gaps for target groups. In the past year, schools have worked to align RTI/MTSS processes: elementary schools are implementing the models they developed in previous years, while secondary schools continue to refine and implement their processes. This work has moved their district closer to it's goal of eliminating achievement gaps. In addition, the team continues to implement actions outlined in the EL Master Plan to support the increased number of English learners and broader range of home languages. BUSD has expanded EL staff to support English learners. New and existing personnel have participated in substantially more training than has been provided in prior years. In addition, they are now meeting regularly as a learning community to share effective practices and identify resources that can support students across the district.

NOTABLE CHALLENGES: We are encouraged by the broad range of academic success our students demonstrate, but two notable challenges persist:

1. In some cases, the relatively small size of subgroups creates an obstacle to providing support services at each site. We continue to look for ways to support subgroups in a manner that combines groups with similar needs.
2. In some cases, we are challenged to ensure that the right students access the actions intended to support them, specifically for after school or summer programs. Ideally, we would support underperforming subgroups with additional learning time. In the face of poor attendance at these programs, we have concentrated our efforts on programs that take place during the school day.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were several material differences between budgeted and actual expenditures.

Expenditure Differences:

Action 1.3: RTI/ MTSS. Budgeted \$ 8,000; Estimated Actual \$ 3,428. Difference due to reduced number of professional development courses.

Action 1.5: Supplemental Intervention. Budgeted \$ 66,789; Estimated Actual \$ 37,665. Some supplemental intervention moved into core program due to reduced participation.

Action 1.6: Summer Intervention Programs. Budgeted \$ 588,640; Estimated Actual \$ 751,461. Difference due to increased staffing for courses and increased paraeducator support.

Action 1.7: Summer Library. Budgeted \$ 6,827; Estimated Actual \$ 2,317. Difference due to reduced scale of in-person program and an increased number of remote tools for students.

Action 1.8: Supplemental Programs for Enrichment. Budgeted \$30,000; Estimated Actual \$ 4,495. Difference due to reduced enrichment classes. Funds are distributed to schools and only two schools utilized the money.

Action 1.9: EL Master Plan. Budgeted \$13,250; Estimated Actual \$ 74,691. Difference due to increased focus on supporting English learners (specifically LTEL) in response to Differentiated Assistance needs.

Action 1.15: Workability. Budgeted \$ 263,346; Estimated Actual \$185,355. Difference due to reduced student participation.

Differences in Percentages of Improved Services: none

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

ACADEMIC PROGRAM- Our focus on a data-driven continuous improvement process has yielded strong academic gains. There are several actions that are viewed holistically to encompass the academic continuous improvement and intervention model in BUSD: Action 1.1 (Data Driven Continuous Improvement), Action 1.2 (Communities of Practice), Action 1.3 (RTI/MTSS), Action 1.4 (Intervention Personnel), Action 1.5 (Supplemental Intervention), Action 1.6 (Summer Intervention), Action 1.7 (Summer Library), Action 1.12 (Support for FY and Homeless), Action 1.16 (Chap CSI), and Action 1.17 (Academic Performance for Subgroups). Together, these actions have been effective to improve performance over baseline measures in the following manner:

--Strong effectiveness was demonstrated in CAASPP ELA proficiency (Metric 1.2) across all identified student groups: all students (+1.73%), low income students (+2.06%), students with disabilities (+4.81%, Chaparral HS (+11.49%), Lone Hill MS (+5.36%), Lone Hill MS student with disabilities (+14.18%), San Dimas HS (+2.26%), and San Dimas HS students with disabilities(+19.32%).

--Strong effectiveness was also demonstrated in CAASPP math proficiency (Metric 1.3) for all students (+5.48%), low income students (+6.52%), foster youth (+22.32%), students with disabilities (4.88%), Lone Hill MS (+7.28%) and Lone Hill MS students with disabilities (+8.08%).

--Strong effectiveness was also demonstrated in CAST proficiency (Metric 1.4) for all students (+9.87%) and low income students (+9.71%). There were a few areas where academic performance was less effective: CAASPP math performance for English learners (-20.94%- improved but still below benchmark), Chaparral HS (no change) and CAST proficiency for English learners (-0.35%- improved, but still below benchmark). The district has taken concerted steps to address these subgroup needs and is hopeful that the impact of these reforms will produce growth in the coming year.

PREPARING EVERY STUDENT TO LIVE THEIR PURPOSE- Four actions are viewed to work together to support the manner in which BUSD prepares students to live their own identified purpose after high school: Action 1.8 (Supplemental Enrichment), Action 1.13 (CTE Counselor/ Coordinator and Program Supports), Action 1.14 (CCGI), and Action 1.15 (Workability). Together, these actions demonstrated effectiveness over baseline data for several groups:

--We are very pleased that we increased both the number of students participating in AP courses (+336 seats) and the pass rate for AP exams (+9%) during the 24/25 school year.

--Effectiveness was demonstrated by increased numbers of students participating in programs identified as a broad course of study (Metric 1.1) in the areas of AP enrollment (+336 seats), dual enrollment (+13 seats) and VAPA programs for 6th-12th graders (+137 seats).

--Effectiveness was also seen in Metric 1.6: the percentage of students completing CTE pathways (+7.5%), and in Metric 1.7: the percentage of students who were both college and career ready (+2.2%).

--These actions were less effective in Metric 1.12: the EAP- percentage of students prepared for college in ELA and Math (-.4%)

-- Actions were also less effective in Metric 1.13: Other Pupil Outcomes, which declined for both the Seal of Biliteracy (-3.6%) and college credit courses (-2.4%)

--Secondary schools continue to work to address completion of a-g requirements by graduates (Metric 1.5), but gaps persist over baseline performance: for all students (-2.9%- improved but still below benchmark), for low income students (-1.5%- improved but still below benchmark), and for English learners (-1.9%). The numbers of students completing a-g requirements for Chaparral HS, for HI students at Chaparral, and for low income students at Chaparral is unchanged. The metric for foster youth is not reported due to small numbers.

ENGLISH LEARNERS- Two actions have worked together to support BUSD's English learners: Action 1.9 (EL Master Plan), Action 1.10 (EL Support Staff). Together, these actions were effective to increase the number of ELs making progress toward proficiency (Metric 1.8) which increased 5.5% over baseline and the number of students classified as long-term ELs (Metric 1.10) which decreased by 3.11% when compared to benchmark data. ADD FOR METRIC 1.9: EL RECLASSIFICATION RATE

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

There will be no changes made to the planned goal, metrics, or target outcomes.

Changes to planned actions:

Action 1.16 has been removed, as Chaparral Continuation School has exited CSI designation.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Data-Driven Continuous Improvement	School personnel will identify essential learning, define and assess mastery, refine instructional sequence, and use disaggregated data to identify program and student needs. Specific attention will be given to the needs of unduplicated students, students with disabilities, students from Chaparral High School, and students with disabilities from Lone Hill Middle and San Dimas High School.	\$781,251.00	Yes
1.2	Communities of Practice	Teachers and support staff will meet regularly and collaborate on data-driven instructional improvement. Meetings include departmental, district focus groups, school instructional leadership teams, grade level teams, and vertical teams. Specific attention will be paid to under-resourced groups and achievement gap targets, including unduplicated students, students with disabilities, students from Chaparral High School, and students with disabilities from Lone Hill Middle and San Dimas High School.	\$235,104.00	Yes
1.3	RTI/ MTSS	District and school teams will meet regularly to assess universal screeners, identify students at-risk and develop/ document progressive tiers of support, and monitor progress in areas of academic, behavioral, and social emotional need. Specific attention will be given to the needs of low income students, students with disabilities, students from Chaparral High School, and students with disabilities from Lone Hill Middle and San Dimas High School.	\$2,400.00	Yes
1.4	Intervention Personnel	LREBG Action Additional staff will be provided to work with students who have yet to master essential learning. Specific attention will be given to the needs of unduplicated students, students with disabilities, students from Chaparral High School, and students with disabilities from Lone Hill Middle and San Dimas High School. Standardized, targeted small-group instruction has demonstrated positive outcomes for students at-risk (Source: American Institutes for Research, 2013). Our reading intervention program has demonstrated renowned success, with BUSD recognized as the number one district in California for 3rd grade, low income, LatinX student achievement for the past three years. Other intervention programs across	\$2,905,665.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>the district are now modeled after this program. This action is aligned with allowable fund uses in the area of small group learning supports provided by certificated or classified staff.</p> <p>LREBG Metrics: 1.2 CAASPP ELA and 1.3 CAASPP Math LREBG Funds supporting this action: \$ 153,282</p>		
1.5	Supplemental Intervention	Supplemental instruction will be provided by general and special education personnel to target achievement gaps. Specific attention will be given to the needs of unduplicated students, students with disabilities, students from Chaparral High School, and students with disabilities from Lone Hill Middle and San Dimas High School.	\$195,000.00	Yes
1.6	Summer Intervention Programs	Supplemental instruction will be provided during summer programs designed to address language arts and math skills. Students in elementary grades will participate in small group interventions for foundational reading skills. Secondary students will participate in credit recovery programs. Students with disabilities will participate in programs tailored to individualized education plans.	\$666,448.00	Yes
1.7	Summer Library	Elementary school libraries will be available to families to mitigate learning loss during the summer.	\$8,121.00	Yes
1.8	Supplemental Programs for Enrichment	Supplemental instruction will be provided for students to enrich the instructional program.	\$29,971.00	No
1.9	EL Master Plan	A comprehensive plan is needed to address the needs of English learners throughout the district.	\$18,250.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.10	EL Support Staff	Additional staff will be provided to work with students who are identified as English learners.	\$352,991.00	Yes
1.12	Support for FY and Homeless- Liaisons and Support Services	Community liaisons will provide added support and services for students in foster care programs or experiencing housing insecurity to improve their academic achievement. This action will target district low performance in ELA & math for foster youth.	\$269,453.00	Yes
1.13	CTE Counselor/ Coordinator and Program Supports	A dedicated CTE counselor will support expanded opportunities for Career and Technical Education programs and coordinate events to expand CTE programs.	\$204,342.00	No
1.14	CCGI	High school school staff will utilize the California Colleges Guidance Initiative (CCGI) to monitor and support college readiness in high school students.	\$0.00	No
1.15	Workability	Develop skills for competitive employment in students with disabilities.	\$197,991.00	No
1.16	Academic Performance: Subgroups	Provide specific support to address the academic achievement of underperforming student groups, which will include: support for students with disabilities at Lone Hill Middle School (ELA and Math) and San Dimas High School (ELA). BUSD will collaborate with school teams to plan and implement data-driven interventions.	\$0.00	No
1.17				Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	<p>SCHOOL SAFETY & CLIMATE- BUSD will ensure that all students are provided with well-trained and prepared staff, quality instructional materials, safe and clean facilities, classroom staffing, and other basic conditions to support teaching and learning of the Common Core State Standards.</p>	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)

An explanation of why the LEA has developed this goal.

This goal was developed in response to the needs identified through data analysis and input from educational partners. Bonita Unified School District is known for its well kept facilities and prides itself in providing high quality - technology rich environments to prepare students to live their purpose. BUSD firmly believes that staff and students must be given an exemplary educational environment in which to thrive and will strive to maintain the high standards reflected in the measurements below.

The basic conditions of learning are well met by BUSD, as the data describes below. However, we know that all students are entitled to these resources, and we will work to ensure that we continue to provide these resources at the highest level.

During the LCAP development process, educational partners identified the need to:

- Continue to prioritize safety of staff and students
- Continue to prioritize safe and well maintained facilities
- Continue to ensure that staff has access to high-quality standards-based materials and professional development
- Continue to recruit fully credentialed teachers and assign them appropriately

BUSD plans to address these needs through continuing actions that have resulted in success, while refining practices for those actions that have not yielded adequate growth.

Based on partner feedback, BUSD will continue with this goal as written.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

2.4	Facilities in "good" repair as measured by FIT	All 13 sites met Overall Good rating	Overall good rating for all sites	Overall good rating for all sites	Maintain good rating for all 13 sites.	0 (maintained)

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

IMPLEMENTATION:

Fully Implemented: staffing (action 2.1), staffing to improve graduation rates (action 2.2), standards-based core materials (action 2.3), standards-based supplemental materials (action 2.4), professional development (action 2.5), technology (action 2.6), teachers on special assignment (action 2.7), induction program (action 2.8), maintain/ improve facilities (action 2.9).

Actions that were partially implemented:

Improve campus safety monitoring (action 2.10)- the work group has met and conducted a needs assessment. They are working with an outside vendor to identify federal grant opportunities. Unfortunately, current federal grants require the release of student data that conflicts with privacy laws. Therefore, the team is unable to pursue grant funding to support this action until the regulations are changed.

KEY SUCCESSES: While neighboring districts have continued to face challenges with hiring and retaining qualified personnel, BUSD has experienced a stable workforce. In most cases, there are abundant applicants for open positions who are appropriately credentialed and qualified for their positions. This strong and stable workforce supports student success. In addition, professional development initiatives have maintained a clear focus and have been driven by teacher identified needs. This focus has supported teacher engagement and application of these strategies in classrooms.

Access to standards-aligned instructional materials continues to be complete, as evidenced by two successful Williams Settlement visits during the school year.

NOTABLE CHALLENGES: Although we strive to improve campus safety, we are unable to pursue federal grant funding as originally intended. Current grant opportunities require the release of student data that does not meet district standards and state laws for data privacy.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were several material differences between budgeted and actual expenditures.

Expenditure Differences:

-Action 2.3 Standards-Based Core Materials. Budgeted \$ 1,198,625; Estimated Actual \$ 917,855. Difference due to availability of one-time funding (AMIM, Lottery) for instructional materials and reduced expenditures due to budget concerns.

-Action 2.4 Standards-Based Supplemental Materials. Budgeted \$ 292,827; Estimated Actual \$ 220,716. Difference due to availability of one-time funding (AMIM, Lottery) for instructional materials and reduced expenditures due to budget concerns.

-Action 2.5 Professional Development. Budgeted \$ 206,097; Estimated Actual \$ 60,091. Difference due to availability of one-time funding (RDRS) for professional development and reduced expenditures due to budget concerns.

Differences in Percentages of Improved Services: none

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Actions 2.1 (Staffing) and 2.2 (Staffing to Improve Graduation Rates) continue to maintain the percentage of teachers who are fully credentialed and appropriately assigned above 90%, which is the district goal (Metric 2.1).
Actions 2.3 (Standards-Based Instructional Materials), 2.4 (Standards-Based Supplemental Materials) and 2.6 (Technology) were effective to support access to standards-aligned instructional materials (Metric 2.2), which remained at 100%.

The effectiveness of Action 2.2 (Staffing to Improve Graduation Rates) was also evaluated with respect to the impact on completion of a-g requirements for graduates and was not effective (Metric 1.5). The district's completion rate for a-g requirements declined 3.2 percent, and the decline for low income learners was 5.8 percent. In reviewing the data, the team noted that effectiveness was measured in the high school graduation rate (Metric 3.3), where overall performance improved by 1.38% and the rate of high school graduation improved by 3.07% for low income learners. The team further recommended that the success of this action be measured using graduation rate in lieu of a-g completion, as the measure is more appropriate. While they are working together to identify supports to improve the a-g rates for low income students, they believe the high school graduation rate is a promising step.

The effectiveness of Action 2.4 (Standards Based Supplemental Materials) was also evaluated with respect to the impact on student achievement and showed strong effectiveness. CAASPP ELA proficiency (Metric 1.1) improved for all students (+1.73%) and for low income students (+2.06%). CAASPP math proficiency (Metric 1.2) improved overall by 5.48% and for low income students by 6.52%. District personnel are pleased by the narrowing achievement gap, as it is a high priority focus.

Actions 2.5 (Professional Development), 2.7 (Teachers on Special Assignment), and 2.8 (Induction) were effective to maintain the local indicators for implementation of state standards (Metric 2.3) at level 4 or 5 in every subject area.

Actions 2.5 (Professional Development) and 2.7 (Teachers on Special Assignment) were also evaluated with respect to the impact on student achievement and showed strong effectiveness. CAASPP ELA proficiency (Metric 1.1) improved overall by 1.73%, and improved by 2.06% for low income students. CAASPP math proficiency (Metric 1.2) improved overall by 5.48% and for low income students by 6.52%.

Action 2.9 (Maintain/Improve Facilities) was effective to maintain facilities in "good" repair as measured by the FIT tool (Metric 2.4).

Action 2.10 (Improve Campus Safety Monitoring) has not been implemented sufficiently to measure its effectiveness.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

There will be no changes made to the goal, metrics, or target outcomes.
Action 2.7 (Teachers on Special Assignment) was changed to eliminate LREBG funding.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Staffing	Recruit and retain high quality certificated and classified personnel.	\$123,769,233.00	No
2.2	Staffing to Improve Graduation Rates	Recruit and retain specific personnel to improve graduation rates for unduplicated students.	\$3,491,739.00	Yes
2.3	Standards-Based Core Materials	Purchase core standards-based materials to support instruction in CCSS and NGSS.	\$841,081.00	No
2.4	Standard-Based Supplemental Materials	Purchase standards-based supplemental materials to support instruction CCSS and NGSS for the academic needs of unduplicated student groups.	\$231,474.00	Yes
2.5	Professional Development	Provide ongoing professional development in areas of need as identified by data, overall and for achievement gaps. Specific attention will be given to the needs of unduplicated students, students with disabilities, students from Chaparral High School, and students with disabilities from Lone Hill Middle and San Dimas High School.	\$105,254.00	Yes
2.6	Technology	Purchase and maintain technology resources to support the instructional program, including student hardware and software, and other instructional tools.	\$172,150.00	No
2.7	Teachers on Special Assignment	LREBG Action Teacher on Special Assignment to provide instructional support in their content area, assisting in the facilitation of a culture of continual learning for the staff at school sites.	\$174,004.00	Yes

Action #	Title	Description	Total Funds	Contributing
2.8	Induction Program	Provide professional development and mentorship to new administrators and teachers.	\$82,000.00	No
2.9	Maintain/ Improve Facilities	Maintain facilities and improve where needed to ensure safe and welcoming school and district environments.	\$12,666,005.00	No
2.10	Improve Campus Safety Monitoring	Establish work group, conduct feasibility study, and develop RFP for aligned systems for video surveillance to monitor campus security throughout the district	\$0.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	ENGAGEMENT- BUSD will facilitate communication with students, parents, and the community to foster strong, positive connections. Activities, resources, and programs will be provided to improve attendance, reduce chronic absenteeism, promote social and emotional well-being, and promote school connectedness.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
 Priority 5: Pupil Engagement (Engagement)
 Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Students must be engaged in school to succeed. When parents, families, and community entities are involved in student learning, students improve their academic performance and gain advocates that promote their success, helping them feel more confident at school and in taking on more rigorous challenges and classwork. Bonita Unified School District is committed to building relationships and collaborating with parents and community partners to ensure that our students have all the support they deserve to realize their potential and be academically successful.

Our dashboard measures reflect a significant attendance issue that has not recovered since the pandemic. During the 2023-2024 school year, we worked diligently to improve attendance through district wide communication processes and incentives to school sites. We were able to make improvements that outperformed the state and neighboring districts, but more work is needed:
 District-Wide: Filipino (FI) students demonstrated very low performance in school engagement due to high chronic absenteeism
 School-Wide: Gladstone and Oak Mesa Elementary Schools demonstrated very low performance in school engagement due to high levels of chronic absenteeism
 Student Groups Within Schools:
 Gladstone Elementary- Hispanic (HI) students and students of multiple races (MR) demonstrated very low performance in school engagement due to high chronic absenteeism
 Roynon Elementary- English learners (EL), students with disabilities (SWD), low income (LI) students, and white (WH) students demonstrated very low performance in school engagement due to high chronic absenteeism
 Oak Mesa Elementary School- Hispanic (HI) students and low income (LI) students demonstrated very low performance in school engagement due to high chronic absenteeism

An additional concern for engagement is the rate of suspension for some student groups.
 District-Wide: Homeless (HO) students demonstrated very low performance in school climate due to high rates of suspension.
 Student Groups Within Schools:

La Verne Heights Elementary- low income (LI) students demonstrated very low performance in school climate due to high rates of suspension.

Lone Hill Middle School- African American (AA) and low income (LI) students demonstrated very low performance in school climate due to high rates of suspension.

Bonita High School- English learners (EL) and students with disabilities (SWD) demonstrated very low performance in school climate due to high rates of suspension.

San Dimas High School- African American (AA) students demonstrated very low performance in school climate due to high rates of suspension.

Feedback from educational partners highlighted the importance of school connectedness, but also identified student behaviors as a concern. While staff perceive that students are taught to control their emotions and resolve conflicts, the data demonstrate that more can be done to support students and subgroups.

Based upon data and partner feedback, BUSD intends to continue with the attendance processes and incentive programs that have yielded success during the first two years of this plan. In addition, we will prioritize ongoing supports for emotional regulation and positive behavior, including both programs and staff that have yielded positive outcomes for students. Purposeful effort will be made to applying these supports to subgroups in an effort to lower achievement gaps, specifically for low income, foster youth, and English learners.

Based on partner feedback and 2025 CA Dashboard data, BUSD will continue this goal.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

IMPLEMENTATION:

The actions for engagement were implemented in the following manner:

The following actions were fully implemented as planned: co-curricular, extra-curricular, enrichment opportunities (action 3.1), attendance communication (action 3.2), incentives for school attendance (action 3.3), transportation for unduplicated students (action 3.4), chronic absenteeism: subgroups (action 3.5), SEL curriculum (action 3.7), behavior technicians (action 3.8), suspension for subgroups (action 3.9), foster/ homeless youth support (action 3.10), mental health services (action 3.11), Care Solace referral system (action 3.12), parent education programs (action 3.13), parent communication systems (action 3.14), data systems for educational partner feedback (action 3.15). These actions were targeted to meet the identified areas of highest need (2023 red dashboard areas), including: 1.Chronic absenteeism for Filipino students (district-wide), Gladstone ES (school-wide), Gladstone Hispanic students and students of two or more races, Roynon ES English learners, low income students, students with disabilities and white students, Oak Mesa ES (school-wide), Oak Mesa Hispanic students and low income students and 2. Suspension for homeless students (district-wide), Bonita HS English learners and students with disabilities, San Dimas HS African American students, La Verne Heights ES low income students, Lone Hill MS African American students and low income students.

Actions that were partially implemented:

Positive behavior systems (action 3.6) and the equity committee (action 3.16) were partially implemented.

KEY SUCCESSES: School sites continue to prioritize their attendance initiatives from the prior year, for all students and also as a means to target subgroups. At the same time, students and families continue to foster school connectedness through their participation in co-curricular, extra-curricular, and enrichment activities. A new parent education series on Executive Function was highly regarded and well-received by the community. Schools are also partnering with a community agency to provide trauma informed practices training to parents and staff.

NOTABLE CHALLENGES: Although transportation was offered to unduplicated students in the same manner as past years, there was a significant reduction in the number of students who participated. The district is investigating the possible causes for reduced participation.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were some material differences between budgeted and actual expenditures.

Expenditure Differences:

-Action 3.4: Transportation for Unduplicated Students. Budgeted \$ 90,000; Estimated Actual \$ 49,216. Difference due to fewer students participating in this program.

-Action 3.7 SEL Curriculum. Budgeted \$ 15,744; Estimated Actual \$ 21,510. Difference due to additional materials-- one school is piloting physical materials in addition to digital media.

-Action 3.10 Foster/ Homeless Youth Support. Budgeted \$ 91,098; Estimated Actual \$ 43,212. Difference due to reduced numbers of foster youth.

Action 3.12 Care Solace Referral System. Budgeted \$ 22,000. Estimated Actual \$ 0. The program will be eliminated due to underutilization and budget concerns. It has continued to be available this year, but was purchased in advance and will not be renewed for 26/27.

Differences in Percentages of Improved Services: None

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

CONNECTEDNESS- Three actions were developed to support students' perceptions of school connectedness and engagement with the school community: Action 3.1 (Co-Curricular, Extracurricular, Enrichment Opportunities), Action 3.11 (Mental Health Services), and Action 3.12 (Care Solace Referral System).

Together, these actions were deemed effective through the following measures and improvement over baseline metrics:

-Student Perception of Safety (Metric 3.8) was reported as effective with an increase in all grades: grades 3-5 (+2%), grades 6-8 (+11%), grades 9-12 (+2%).

-Student Perception of Connectedness (also Metric 3.8) was reported as effective by secondary schools: grades 6-8 (+10%), grades 9-12 (+12%).

-Parent Perception of Safety (Metric 3.10) was reported as effective at 92%, which reflects 1% increase over baseline measures

-Parent Perception of Connectedness (also Metric 3.10) was reported as effective at 93%, which was also an increase of 4%.

-Student Perception of Connectedness (Metric 3.8) in grades 3-5 did improve slightly (+2%), but is still considered less effective, as the measure remains 6% below the baseline. The elementary team has piloted initiatives at schools and is hopeful that measures of connectedness will continue to improve.

In contrast to parent and student measures of safety and connectedness, the staff measures reflected declines and fell below the desired maintenance level of 95% (Metric 3.9). The Educational Services team is reviewing this data and identifying causes for this decline that can be addressed.

Connectedness was also assessed as it related to the contributing action of Mental Health Services (Action 3.11) for the impact on chronic absenteeism (Metric 3.2) and graduation rate (Metric 3.3). The impact of these actions on chronic absenteeism continues to be very effective across the board, with all metrics reaching and exceeding the year 3 targets while continuing to decline. The action was also effective in yielding improvements in the graduation rate for all learners (+2.17%) and for low income students (+2.93%).

ENGAGEMENT: ATTENDANCE & BEHAVIOR- Eight actions were developed to support student attendance and school engagement: Action 3.2 (Attendance Communication), Action 3.3 (Incentives for School Attendance), Action 3.4 (Transportation for Unduplicated Students), and Action 3.5 (Chronic Absenteeism: Subgroups), Action 3.6 (Positive Behavior Systems), Action 3.7 (SEL Curriculum), Action 3.8 (Behavior Technicians) , Action 3.9 (Suspension: Subgroups), and Action 3.10 (Foster/ Homeless Youth Support). Together, these actions were demonstrated to be effective through the following measures:

-There was strong success in continuing to improve attendance rates (Metric 3.1), with an overall decline from baseline in the number of days absent for all students (-2.7 days) as well as declines for every reported subgroup: English learners (-3.1 days), Hispanic (-2.8 days), students with disabilities (-3.5 days), low income (-3.2 days), foster youth (-3.7 days), white students (-2.5 days), multiple race students (-3.5 days).

-Substantial progress was also made for Chronic Absenteeism Rates (Metric 3.2) with a district decrease of 10.2% under baseline as well as the following decreases for subgroups: low income (-12.5%), English learners (-9.7%), foster youth (-6.4%), Filipino (-13.5%), Gladstone (-9.3%), Gladstone Hispanic (-11%), Roynon (-14.2%), Roynon English learners (-8.2%), Roynon students with disabilities (-17.1%), Roynon low income (-14.6%), Roynon white (-14%), Oak Mesa (-5.7%), Oak Mesa Hispanic (-5.9%), Oak Mesa low income (-11.9%). There was no change for Gladstone multiple races.

-Substantial effectiveness was also demonstrated in the high school graduation rate (Metric 3.3), with improvements for the district overall (+2.17%) and for subgroups: low income (+2.93%), English learners (+12.9%). The graduation rate for foster youth was not reported due to the small population size.

-Effectiveness was also measured for the middle school dropout count (Metric 3.5) at 0 students, the high school dropout count (Metric 3.4), which declined 4 students below baseline, expulsion count (Metric 3.7), which declined to align with the baseline measure of 3 students.

-The suspension rate (Metric 3.6) demonstrated effectiveness in many areas, with improvements for the district as a whole (-.7%), for low income students (-1.0%) for English learners (-.4%), foster youth (-9.4%), homeless youth (-5.2%), La Verne Heights (-.5%), La Verne Heights low income (-1.2%), Bonita HS (-.7%), Bonita HS English learners (-10.5%), Bonita HS students with disabilities (-9.3%), San Dimas HS (-.9%) and San Dimas HS African American students (-7.5%)

-The suspension rate for students at Lone Hill MS did not demonstrate effectiveness, with increased rates for all students (+2.6%), for African American students (+6.1%), and for low income students (+.5%) The educational services team continues to work with this school to address the pervasive need and related disproportionality concerns.

FAMILY ENGAGEMENT- Three actions were developed to support family engagement: Action 3.13 (Parent Education Programs), Action 3.14 (Parent Communication Systems), and Action 3.15 (Data Systems for Educational Partner Feedback). These actions continue to demonstrate success as measured by improvement in the favorable ratings for parent input in decision-making (Metric 3.11), which increased 4% over baseline and parent participation in programs for unduplicated pupils (Metric 3.12), which improved on the self reflection rating tool by 1.25 on the rubric.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

There were no changes made to the planned goal, metrics, or target outcomes.

Actions 3.8 (Behavior Technicians) and 3.11 (Mental Health Services) were changed to eliminate LREBG funding.

Action 3.17 (Nursing Supports) was eliminated because LREBG funds were expended.
 Action 3.12 (Care Solace Referral System) will be discontinued due to lack of use.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Co-Curricular, Extracurricular, Enrichment Opportunities	Provide co-curricular, extra-curricular, and enrichment opportunities to foster student engagement and sense of community beyond the general curricular program.	\$1,955,299.00	No
3.2	Attendance Communication	Training and support for systematic /aligned practices across schools for communicating attendance concerns to individual families.	\$49,540.00	No
3.3	Incentives for School Attendance	Schools will be provided with incentives to improve attendance rates and reduce chronic absenteeism.	\$0.00	No
3.4	Transportation for Unduplicated Students	Provide transportation for low income students to support school attendance.	\$60,000.00	Yes
3.5	Chronic Absenteeism: Subgroups	Provide specific support to address chronic absenteeism of underperforming student groups, which will include: support for Filipino students districtwide, support for all students at Gladstone Elementary and Oak Mesa Elementary, support for English learners, low income, students with disabilities, and white students at Roynon Elementary, support for Hispanic students at students of two or more races at Gladstone Elementary, and support for Hispanic students and low income students at Oak Mesa Elementary. District personnel will work with school teams to target these student groups for support including home-to-school communication, incentive programs, and similar efforts.	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
3.6	Positive Behavior Systems	Professional development to support schools to establish multi-tiered systems of support for positive behavior.	\$0.00	No
3.7	SEL Curriculum	Purchase and provide professional development for the implementation of an SEL curriculum for elementary students.	\$21,500.00	No
3.8	Behavior Technicians	Fund staff to provide behavior support for students with atypical behaviors or to develop classroom systems that support all students with positive behavior.	\$132,845.00	Yes
3.9	Suspension: Subgroups	Provide specific support to reduce suspension rates for overrepresented student groups, which will include: support for homeless students districtwide, support for African American, homeless, and low income students at Lone Hill Middle School, support for African American students at San Dimas High, support for English learners, low income, and students with disabilities at Bonita High, and support for low income students at La Verne Heights Elementary. District personnel will work with school teams to provide targeted support for applying positive behavior systems, applying trauma informed approaches, aligning school-wide social emotional supports, and provide related professional development for certificated and support staff.	\$0.00	Yes
3.10	Foster/ Homeless Youth Support	Community liaisons will provide added support and services for students in foster care programs or experiencing housing insecurity to improve their attendance. This action will target chronic absenteeism.	\$89,818.00	Yes
3.11	Mental Health Services	Provide general education mental health specialists to support schools.	\$2,059,815.00	Yes
3.12	Care Solace Referral System	Provide resource for outside agency support for social emotional and mental health needs.	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
3.13	Parent Education Programs	Survey parents to identify programs that they believe will assist them to support their children's school success. Pilot programs for engagement.	\$0.00	No
3.14	Parent Communication Systems	Maintain two-way communication with families to support student success.	\$30,000.00	No
3.15	Data Systems for Educational Partner Feedback	Use digital tools to solicit feedback from educational partners.	\$47,064.00	No
3.16	Equity Committee	Adapt equity committee to meet regularly and target district equity need with an action orientation.	\$0.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	EQUITY MULTIPLIER: Vista Opportunity School will support BUSD 10th grade students who require intensive intervention to recoup high school credit through a high-quality learning environment and supportive program. All students enrolled in this program will earn a minimum of six credits per month through participation in Standards Based Units of Study (SBUS) and related intervention supports.	Equity Multiplier Focus Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

This goal applies to Vista Opportunity School, which provides an alternative educational format to support students to achieve their academic goals and obtain a high school diploma. The school is a Positive Behavior Interventions & Supports school with a focus on social, emotional, and trauma-informed practices and supports. Vista gives each student the opportunity to succeed, to recognize and cultivate their unique talents and abilities, and to develop the skills needed for success in school and life. Vista Opportunity School is a place where fresh starts become success stories.

There are currently 20 students enrolled in the Vista Opportunity program, but this number fluctuates with student need. There are no dashboard metrics in which Vista has reported measures; the small population size does not permit reporting. Vista is eligible for Equity Multiplier funding because the school's prior year non-stability rate was greater than 25 percent and the prior year socioeconomically disadvantaged pupil rate was greater than 70 percent. Because Vista is a credit recovery alternative school, the non-stability rate is inherent to the program.

2023 Dashboard- There are no dashboard metrics in which Vista has reported measures; the small population size does not permit reporting.
 2024 Dashboard- There are no dashboard metrics in which Vista has reported measures; the small population size does not permit reporting.
 2025 Dashboard- There are no dashboard metrics in which Vista has reported measures; the small population size does not permit reporting.

This focus goal seeks to strengthen the program's capacity to ensure all participating students are supported to recoup the credits they are lacking. The specific, measurable, and time bound goal is purposely written to allow for measurement of student progress when the population will fluctuate based on student needs.

Local measures were reviewed and the following areas of need were identified:
 Students have not consistently participated in benchmark measures across reporting periods and a common measure is needed. It will be critical to ensure that student participation is consistent to drive these goals, so a specific goal for student participation in each assessment has been included with proficiency metrics. We will use STAR Reading and Math Assessments to measure student progress, although we

acknowledge that student mobility might make it difficult to track the same students across reporting periods. Students have the ability to earn 6 credits per SBUS unit (approximately one month), but not all students earn this amount of credit per unit, depending on the work completed. The average credit earned per SBUS is currently 4.2. The team will identify ways to improve support for students and increase the number of credits earned.

Feedback from educational partners was solicited using a directed survey to enrolled students and their families. The school team met to brainstorm potential supports to enhance student achievement and accelerate credit recovery. Parents of the school were surveyed, and their opinions were sought on the types of supports they perceived would benefit their students. Parents were also asked if they were willing to speak at greater depth with the LCAP planning team. Educational partners reported the following:

- All parents (100%) continue to desire more courses available to students in this program.
- Most parents (75%) agreed that the program has positively impacted their child's achievement.
- Most students (83%) shared that the value the alternative format that allows them to recoup additional credit through unit study (SBUS).
- Most students (80%) believe they would benefit from a wider range of course offerings, including virtual formats.

-In addition to prior suggestions, students expressed a desire to include life-skills classes in course offerings.

Based on local measures and community feedback, we will continue with this goal as written. Progress has been made toward improving credit recovery, but more work is necessary to support student success.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	Local Measure: Credits earned per month	Average credit earned per month Unit is 4.2 credits (Local data-Credit Tracking)	3.79 credits per month	6.89 credits per month	Average credit earned per month - 6 credits	+2.69 credits per month
4.2	ELA/ Reading Benchmark Participation (STAR Reading/ Reading Plus)	50% of enrolled students were tested EOY ELA Benchmark 23-24	85% of students tested	89% of students tested	90% of students tested EOY ELA Benchmark	+49% of students
4.3	ELA/ Reading Benchmark Proficiency (STAR Reading/ Reading Plus)	11 % of students proficient- 23-24 EOY (Baseline reflects partial participation)	9% of students proficient	20% of students proficient	50% of students proficient on EOY ELA Benchmark	+9% of students

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.4	Math Benchmark Participation (STAR Math)	11% of enrolled students tested (EOY Math)	77% of students tested	100% of students tested	90% of students tested EOY Math Benchmark	+89% of students
4.5	Math Benchmark Proficiency (STAR Math)	13 % of students proficient- 23-24 EOY (Baseline reflects partial participation)	20% of students proficient	23% of students proficient	50% of students proficient on EOY Math Benchmark	+10% of students

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

IMPLEMENTATION:

All actions were fully implemented:

Data Driven Continuous Improvement (action 4.1) and Communities of Practice (action 4.2) continue to focus the work of Vista school as they do throughout district schools. This systemic approach is embedded in BUSD culture and has been embraced by Vista staff. Planned Enhancements to the Credit Recovery Program (action 4.3) and Expand Course Offerings (action 4.4) have also been fully implemented and their impact is seen in some student groups.

There are no actions that were partially implemented or not implemented.

KEY SUCCESSES: Many students have worked diligently to access credit-recovery options and have successfully accumulated the credits they need to get back on track to earn their high school diploma. Additional courses offered through APEX allow Vista students to increase their rate of credit recovery. Students continue to participate in classes at school while also participating in online courses, allowing them to catch up in credits and return to comprehensive high schools if they choose to do so. While this structure began last year, it is evident that implementation has begun to yield positive outcomes for students.

NOTABLE CHALLENGES: The continuation school model is inherently unstable due to student mobility. This can make it difficult to see progress and ensure that all students are assessed on benchmarks.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences for this goal.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Action 4.1 (Data Driven Instructional Improvement) and Action 4.2 (Communities of Practice) demonstrated strong effectiveness in progress toward achieving Goal 4:

The actions were purposeful in establishing high benchmarks for participation for two reasons: to reinforce a culture of continuous improvement and to identify an interim goal toward this cultural shift. Both participation benchmarks have improved substantially and nearly all students are completing benchmarks. Given the inherent mobility of students in continuation programs, we are very encouraged by the team's progress.

These actions were also successful in improving the number of students scoring at a proficient level, with a 9% increase over benchmark in ELA and a 10% increase in math. The district team believes that progress will continue with the cultural shifts beginning to foment.

Action 4.3 (Enhance Credit Recovery Program) and 4.4 (Expand Course Offerings) demonstrated strong effectiveness in progress toward increasing the number of credits earned by students each month. Students are participating in coursework throughout their school days but also using APEX coursework to recover additional credits in a virtual environment.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

There will be no changes made to the goal, metrics, target outcomes, or actions.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Data-Driven Continuous Improvement	Data driven cycle of continuous improvement- identify essential learning, define mastery, refine instructional sequence, assess, use data to identify program and student needs	\$60,450.00	No
4.2	Communities of Practice	Teachers and support staff will meet regularly and collaborate on data-driven instructional improvement. Meetings will focus on the specific needs of Vista's students and use benchmark assessments to identify opportunities to strengthen the credit recovery program and increase course offerings that have not traditionally been possible with the small size of the school.	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
4.3	Enhance Credit Recovery Program	Students will be provided with intervention time and resources to ensure that they are able to earn credit within the designated time period for each course (6 credits per month)	\$0.00	No
4.4	Expand Course Offerings	Students will be provided access to a digital platform to expand course offerings beyond the scope of what is available in their small school setting (APEX).	\$0.00	No

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2026-27]

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	<p>Action: Data-Driven Continuous Improvement</p> <p>Need: An achievement gap persists between the academic performance of all students and the academic performance of unduplicated students. 2022-23 CAASPP Percent Proficient: ELA- District- 71.78% ELA- LI- 61.12%</p>	All schools demonstrate achievement gaps between LI students and their peers. To close these gaps, school personnel will identify essential learning, define and assess mastery, refine instructional sequence, and use disaggregated data to identify the specific supports, including improved instructional strategies, targeted small group instruction, intervention materials, and additional instructional time. While this data will vary by year, the baseline which has prompted	<p>1.2- CAASPP ELA (LI student progress and narrowing of achievement gap)</p> <p>1.3- CAASPP Math (LI student progress and narrowing of achievement gap)</p> <p>Local benchmarks will also be monitored for progress</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Math- District- 57.86% Math- LI- 44.88% BUSD Low Income (LI) students face barriers to mastering essential standards in core content areas. They are less likely to access to early education opportunities, academic support outside of the school setting, and material resources that can mitigate learning gaps (technology, books, etc.).</p> <p>Scope: LEA-wide</p>	<p>BUSD to provide this action on an LEA-wide basis is the following: 2022-23 CAASPP Percent Proficient: ELA- District- 71.78% ELA- LI- 10.66% achievement gap Math- District- 57.86% Math- LI- 12.98% achievement gap</p> <p>These actions are being provided on an LEA-wide basis because all students benefit from this data-driven continuous improvement process. The process must begin by reviewing all student data in all settings. This leads district and school teams to identify areas of strength and need and prioritize areas for improvement. The specific needs of LI students are identified and supports are selected through this collaboration process.</p> <p>Research demonstrates that the data-driven continuous improvement process is the most effective way to identify and target equity gaps. Once identified, students will be provided direct, interactive instruction, small group instruction, and additional time for learning. These are the most effective use of funds to support LI students to master essential learning.</p>	<p>of individual students as part of this focus.</p>
<p>1.2</p>	<p>Action: Communities of Practice</p> <p>Need: An achievement gap persists between the academic performance of all students and the academic performance of unduplicated students. 2022-23 CAASPP Percent Proficient:</p>	<p>All schools demonstrate achievement gaps between LI students and their peers. To close these gaps, school personnel will identify essential learning, define and assess mastery, refine instructional sequence, and use disaggregated data to identify the specific supports, including improved instructional strategies, targeted small group instruction, intervention materials, and additional instructional time. While this data will</p>	<p>1.2- CAASPP ELA (LI student progress and narrowing of achievement gap) 1.3- CAASPP Math (LI student progress and narrowing of achievement gap)</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>ELA- District- 71.78% ELA- LI- 61.12% Math- District- 57.86% Math- LI- 44.88% BUSD Low Income (LI) students face barriers to mastering essential standards in core content areas. They are less likely to access to early education opportunities, academic support outside of the school setting, and material resources that can mitigate learning gaps (technology, books, etc.).</p> <p>Scope: LEA-wide</p>	<p>vary by year, the baseline which has prompted BUSD to provide this action on an LEA-wide basis is the following: 2022-23 CAASPP Percent Proficient: ELA- District- 71.78% ELA- LI- 10.66% achievement gap Math- District- 57.86% Math- LI- 12.98% achievement gap</p> <p>These actions are being provided on an LEA-wide basis because all students benefit from teacher collaboration around data. Teacher groups work together to determine which interventions are most appropriate for varied content areas. During meetings, grade-alike groups can share effective strategies across content areas and vertical groups can share effective strategy alignment between grades. Although the specific needs of LI students are identified and supports are selected through this collaboration process, all students benefit.</p> <p>Research demonstrates that data-driven teacher collaboration improves student achievement and effectively targets equity gaps. Collaborative groups identify needs and provide additional resources to low income students, including direct, interactive instruction, small group instruction, and additional time for learning. These are the most effective use of funds to support LI students to master essential learning.</p>	<p>Local benchmarks will also be monitored for progress of individual students as part of this focus.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>academic performance of unduplicated students. 2022-23 CAASPP Percent Proficient: ELA- District- 71.78% ELA- LI- 61.12% Math- District- 57.86% Math- LI- 44.88% BUSD Low Income (LI) students face barriers to mastering essential standards in core content areas. They are less likely to access to early education opportunities, academic support outside of the school setting, and material resources that can mitigate learning gaps (technology, books, etc.).</p> <p>Partner feedback demonstrates that staff value the district systems that allow them to provide academic support to all students. Families continue to value the high level of education that is provided by the district, and we know that our financial commitment to dedicated intervention personnel is required to provide this level of support.</p> <p>Scope: LEA-wide</p>	<p>prompted BUSD to provide this action on an LEA-wide basis is the following: 2022-23 CAASPP Percent Proficient: ELA- District- 71.78% ELA- LI- 10.66% achievement gap Math- District- 57.86% Math- LI- 12.98% achievement gap</p> <p>These actions are being provided on an LEA-wide basis because all students can benefit from intervention services.</p> <p>BUSD data demonstrates that dedicated intervention personnel have strongly supported academic achievement. Our long-standing reading intervention program in elementary schools has led us to be recognized as the number one district in California for low income, LatinX third grade students. The success of this program has led to the expansion of dedicated intervention personnel across other core content areas. Supporting LI students with this resource is the most effective use of these funds.</p>	<p>narrowing of achievement gap) Local benchmarks will also be monitored for progress of individual students as part of this focus.</p>
1.5	<p>Action: Supplemental Intervention</p> <p>Need: An achievement gap persists between the academic performance of all students and the academic performance of unduplicated students.</p>	<p>All schools demonstrate achievement gaps between LI students and their peers. Intervention staff are dedicated to addressing these gaps through intensive instruction, intervention materials, and additional instructional time. While this data will vary by year, the baseline which has prompted BUSD to provide this action on an LEA-wide basis is the following:</p>	<p>1.2- CAASPP ELA (LI student progress and narrowing of achievement gap) 1.3- CAASPP Math (LI student progress and narrowing of achievement gap)</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>2022-23 CAASPP Percent Proficient: ELA- District- 71.78% ELA- LI- 61.12% Math- District- 57.86% Math- LI- 44.88% BUSD Low Income (LI) students face barriers to mastering essential standards in core content areas. They are less likely to access to early education opportunities, academic support outside of the school setting, and material resources that can mitigate learning gaps (technology, books, etc.).</p> <p>Partner feedback demonstrates that staff value the district systems that allow them to provide academic support to all students. Families continue to value the high level of education that is provided by the district, and we know that multitiered systems of support allow us to provide the strategic and intensive interventions that students need when the universal (tier 1) curriculum is not sufficient to support their success.</p> <p>Scope: LEA-wide</p>	<p>2022-23 CAASPP Percent Proficient: ELA- District- 71.78% ELA- LI- 10.66% achievement gap Math- District- 57.86% Math- LI- 12.98% achievement gap</p> <p>These actions are being provided on an LEA-wide basis because all students can benefit from intervention services.</p> <p>BUSD data demonstrates that intervention programs have supported growth for students who do not master content during core instruction. Progressive interventions efficiently and effectively address achievement gaps because they provide struggling students with supports that are only as restrictive/ intensive as needed to produce positive outcomes. Supporting LI students with this resource if the most effective use of these funds.</p>	<p>Local benchmarks will also be monitored for progress of individual students as part of this focus.</p>
<p>1.6</p>	<p>Action: Summer Intervention Programs</p> <p>Need: An achievement gap persists between the academic performance of all students and the academic performance of unduplicated students.</p>	<p>All schools demonstrate achievement gaps between LI students and their peers. Summer intervention programs provide additional time for learning with intensive instruction and intervention materials. While this data will vary by year, the baseline which has prompted BUSD to provide this action on an LEA-wide basis is the following: 2022-23 CAASPP Percent Proficient:</p>	<p>1.2- CAASPP ELA (LI student progress and narrowing of achievement gap) 1.3- CAASPP Math (LI student progress and narrowing of achievement gap)</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>2022-23 CAASPP Percent Proficient: ELA- District- 71.78% ELA- LI- 61.12% Math- District- 57.86% Math- LI- 44.88%</p> <p>BUSD Low Income (LI) students face barriers to mastering essential standards in core content areas. They are less likely to access to early education opportunities, academic support outside of the school setting, and material resources that can mitigate learning gaps (technology, books, etc.).</p> <p>Families continue to value the high level of education that is provided by the district, and we know that summer intervention programs are an important part of the support needed to recoup credit and reduce summer learning loss.</p> <p>Scope: LEA-wide</p>	<p>ELA- District- 71.78% ELA- LI- 10.66% achievement gap Math- District- 57.86% Math- LI- 12.98% achievement gap</p> <p>These actions are being provided on an LEA-wide basis because all students can benefit from targeted support services for additional learning time.</p> <p>BUSD data demonstrates that intervention programs have supported growth for students who do not master content during core instruction. Summer intervention programs provide more time for learning and help to reduce summer learning loss, which is critical for students who need it. The impact can be even greater for LI students, who may lack academic support and materials outside of the school setting. Supporting LI students with this resource is the most effective use of these funds.</p>	<p>Local benchmarks will also be monitored for progress of individual students as part of this focus.</p>
<p>1.7</p>	<p>Action: Summer Library</p> <p>Need: An achievement gap persists between the academic performance of all students and the academic performance of unduplicated students. 2022-23 CAASPP ELA Percent Proficient: District- 71.78% LI- 61.12%</p>	<p>All schools demonstrate reading proficiency achievement gaps between LI students and their peers. The BUSD summer library program provides access to school libraries to check out materials and complete Accelerated Reader quizzes toward summer reading goals, providing access and also motivating students. While this data will vary by year, the baseline which has prompted BUSD to provide this action on an LEA-wide basis is the following: 2022-23 CAASPP ELA Percent Proficient: District- 71.78%</p>	<p>1.2- CAASPP ELA (LI student progress and narrowing of achievement gap) Local benchmarks will also be monitored for progress of individual students as part of this focus.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>BUSD Low Income (LI) students face barriers to becoming fluent readers. They lack access to public libraries and are less likely to have reading materials at home. Their families often work long hours and are more likely to be single parent homes, yielding less support for reading at home. Students who read less at home are more likely to experience summer learning loss.</p> <p>Scope: LEA-wide</p>	<p>LI- 10.66% achievement gap</p> <p>These actions are being provided on an LEA-wide basis because all students can benefit from accessing the summer library program.</p> <p>Research demonstrates that students from low-income families are especially vulnerable to summer learning loss due to a lack of access to educational resources like books, enrichment programs, and cultural experiences that their more affluent peers often enjoy. Supporting LI students with this resource is the most effective use of these funds.</p>	
1.17	<p>Action:</p> <p>Need: An achievement gap persists between the academic performance of all BUSD students and the academic performance of LI students at Chaparral HS. Because this program serves as a continuation school for comprehensive high schools, students who participate have not been successful in universal and intervention programs.</p> <p>2022-23 CAASPP Percent Proficient: ELA- District- 71.78% ELA- Chaparral HS- 8.51% ELA- Chaparral LI- not reported due to small numbers Math- District- 57.86% Math- Chaparral HS- 0%</p>	<p>Chaparral High School demonstrates an achievement gap between LI students and their peers. In addition, LI students are overrepresented at Chaparral HS when compared to district data. The CSI needs assessment process identified the need to provide intervention support for students during the day because transportation and competing responsibilities preclude programs outside of the school day.</p> <p>Data reflect these disparities: 2022-23 CAASPP Percent Proficient: ELA- District- 71.78% ELA- Chaparral HS- 8.51% ELA- Chaparral LI- not reported due to small numbers Math- District- 57.86% Math- Chaparral HS- 0% Math- Chaparral LI- not reported due to small numbers</p>	<p>1.2- CAASPP ELA (LI student progress and narrowing of achievement gap) 1.3- CAASPP Math (LI student progress and narrowing of achievement gap) 1.5- Completion of a-g Requirements (LI student progress and narrowing of achievement gap) Local benchmarks will also be monitored for progress of individual students as part of this focus.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Math- Chaparral LI- not reported due to small numbers</p> <p>Completion of a-g Requirements by Graduates: District- 62.2% Chaparral HS- 0% Chap Low Income (LI)- 0%</p> <p>Comparatively, students at Chaparral are much more likely to be designated as LI than the district as a whole: BUSD Low Income- 34.5% Chap HS Low Income- 56.6%</p> <p>Chaparral HS Low Income (LI) students face barriers to mastering essential standards in core content areas. They are less likely to access to early education opportunities, academic support outside of the school setting, and material resources that can mitigate learning gaps (technology, books, etc.). They may lack support at home for academic content and daily routines.</p> <p>Scope: Schoolwide</p>	<p>Completion of a-g Requirements by Graduates: District- 62.2% Chaparral HS- 0% Chap Low Income (LI)- 0%</p> <p>These actions are being provided on a a school wide basis for Chaparral because all students can benefit from CSI funded supports.</p> <p>CSI funds will be applied to a data-driven continuous improvement process. Research demonstrates that the data-driven continuous improvement process is the most effective way to identify and target equity gaps. Once identified, students will be provided direct, interactive instruction, small group instruction, and additional time for learning. These supports are the most effective use of funds to support LI students to master essential learning.</p>	
2.2	<p>Action: Staffing to Improve Graduation Rates</p> <p>Need: An achievement gap persists between the rates of completion of a-g requirements of all</p>	<p>All secondary schools demonstrate an achievement gap between unduplicated students and their peers in the rate of completion of a-g requirements. Specific personnel in secondary schools can provide access to coursework, support for completing college entrance requirements, and assistance with navigating</p>	<p>1.5 Completion of a-g Requirements by Graduates (LI student progress and narrowing of achievement gap)</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>BUSD students and the rates of completion of a-g requirements of low income students.</p> <p>Completion of a-g Requirements by Graduates: District- 62.2% LI- 50.4%</p> <p>BUSD Low Income (LI) students face barriers to completing a-g requirements, lacking access to support for academics, a quiet place to study, and access to technology and materials. They may also face competing responsibilities as they need to work or support rearing younger siblings.</p> <p>Scope: LEA-wide</p>	<p>financial aid requirements. Administrators, counselors, and student support personnel are trained to monitor the district plan for support and implement strategies designed to address the specific needs of low income students as they complete college entry coursework. Data will vary by year, the baseline which has prompted BUSD to provide this action on an LEA-wide basis is the following: 2022-2023 Completion of a-g Requirements by Graduates: District- 62.2% LI- 50.4%</p> <p>These actions are being provided on an LEA-wide basis because all students can benefit from support toward achieving a-g requirements.</p> <p>Research demonstrates that LI students are less likely to meet the requirements for college, and that early intervention support from high school staff can reduce this gap (Venezla & Jaeger, 2013). Students from low income backgrounds are less likely to have college-prepared mentors and need trained school staff to assist them with this.</p>	
2.5	<p>Action: Professional Development</p> <p>Need: An achievement gap persists between the academic performance of all students and the academic performance of unduplicated students. 2022-23 CAASPP Percent Proficient: ELA- District- 71.78%</p>	<p>All schools demonstrate achievement gaps between LI students and their peers. Professional development is needed to improve teaching practice, and can support staff to implement strategies that engage all learners, build content vocabulary, and use assessments to drive instruction. While this data will vary by year, the baseline which has prompted BUSD to provide this action on an LEA-wide basis is the following: 2022-23 CAASPP Percent Proficient:</p>	<p>1.2- CAASPP ELA (LI student progress and narrowing of achievement gap) 1.3- CAASPP Math (LI student progress and narrowing of achievement gap) Local benchmarks will also be monitored for progress</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>ELA- LI- 61.12% Math- District- 57.86% Math- LI- 44.88% BUSD Low Income (LI) students face barriers to mastering essential standards in core content areas. They are less likely to access to early education opportunities, academic support outside of the school setting, and material resources that can mitigate learning gaps (technology, books, etc.).</p> <p>Scope: LEA-wide</p>	<p>ELA- District- 71.78% ELA- LI- 10.66% achievement gap Math- District- 57.86% Math- LI- 12.98% achievement gap</p> <p>These actions are being provided on an LEA-wide basis because all students benefit from professional development to improve teaching practices for under-resourced students.</p> <p>Learning for Justice (2024) confirms that professional development leads to better instruction and improved student learning, and the impacts are pronounced for low income students. The investment in effective instruction is the most effective use of funds to support LI students to master essential learning.</p>	<p>of individual students as part of this focus.</p>
<p>2.7</p>	<p>Action: Teachers on Special Assignment</p> <p>Need: An achievement gap persists between the academic performance of all students and the academic performance of unduplicated students. 2022-23 CAASPP Percent Proficient: ELA- District- 71.78% ELA- LI- 61.12% Math- District- 57.86% Math- LI- 44.88% BUSD Low Income (LI) students face barriers to mastering essential standards in core content areas. They are less likely to access to early education opportunities, academic support outside of the school setting, and</p>	<p>All schools demonstrate achievement gaps between LI students and their peers. TOSAs can work with teachers in a coaching cycle that yields lasting improvements in instructional practices. While this data will vary by year, the baseline which has prompted BUSD to provide this action on an LEA-wide basis is the following: 2022-23 CAASPP Percent Proficient: ELA- District- 71.78% ELA- LI- 10.66% achievement gap Math- District- 57.86% Math- LI- 12.98% achievement gap</p> <p>These actions are being provided on an LEA-wide basis because all students benefit from TOSAs.</p> <p>There is strong evidence to support well-designed instructional coaching programs, as they improve</p>	<p>1.2- CAASPP ELA (LI student progress and narrowing of achievement gap) 1.3- CAASPP Math (LI student progress and narrowing of achievement gap) Local benchmarks will also be monitored for progress of individual students as part of this focus.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>material resources that can mitigate learning gaps (technology, books, etc.).</p> <p>Although BUSD teachers demonstrate the capacity to support students in general, more work is necessary to support LI students for across settings.</p> <p>Scope: LEA-wide</p>	<p>teacher practice and student outcomes (Annenberg Institute). Teachers report that coaching increases their understanding of state standards and improves their instruction to support students. Supporting LI students with TOSAs is the most effective use of these funds.</p>	
<p>3.8</p>	<p>Action: Behavior Technicians</p> <p>Need: An LEA-wide achievement gap persists between the suspension rates of all students and the suspension rates of low income students. 2022-23 Suspension Rates District- 2.8% LI- 4.3%</p> <p>Suspension data is correlated to behavior incidents that are precursors to suspension. Survey results demonstrate that more than one third of staff consider behavior to be a moderate to severe problem. Students from low income backgrounds are more likely to be exposed to trauma inducing incidents and substance abuse/ violence in their neighborhoods. In addition, school staff can lack training in developing supporting environments to respond to these needs.</p>	<p>All schools demonstrate a gap between the suspension rates of all students and the suspension rates of LI students. The process for addressing these needs begins by addressing atypical behaviors with teachers. Support is provided by behavior technicians who can assist schools to apply proactive behavior strategies, trauma informed practices, and effectively address intensive needs. While this data will vary by year, the baseline which has prompted BUSD to provide this action on an LEA-wide basis is the following: 2022-23 Suspension Rates District- 2.8% LI- 1.5% achievement gap</p> <p>These actions are being provided on an LEA-wide basis because we seek to address atypical behaviors before they reach the level of a suspendable offense. All students can benefit from the behavior supports that are provided by behavior technicians.</p> <p>Research shows that students from low income backgrounds are far more likely to experience</p>	<p>3.6- Suspension Rates (LI rates and narrowing of achievement gap) Local behavior data will also be audited for progress monitoring of individual students as part of this focus.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: LEA-wide</p>	<p>trauma-inducing events. Behavior support staff can provide schools with the tools to support students and create safe environments that benefit all children (CPI, 2023). Supporting LI students with behavior technicians is the most effective use of these funds.</p>	
<p>3.9</p>	<p>Action: Suspension: Subgroups</p> <p>Need: An LEA-wide achievement gap persists between the suspension rates of all students and the suspension rates of low income students. 2022-23 Suspension Rates District- 2.8% LI- 4.3%</p> <p>Suspension data is correlated to behavior incidents that are precursors to suspension. Survey results demonstrate that more than one third of staff consider behavior to be a moderate to severe problem. Students from low income backgrounds are more likely to be exposed to trauma inducing incidents and substance abuse/ violence in their neighborhoods. In addition, school staff can lack training in developing supporting environments to respond to these needs.</p> <p>Scope: LEA-wide</p>	<p>The rate of suspension for LI students far exceeds the rate for all students: 2022-23 Suspension Rates District- 2.8% LI- 1.5% achievement gap</p> <p>These actions are being provided on an LEA-wide basis because all students can benefit from positive behavior systems, trauma informed approaches, and social emotional supports.</p> <p>Research shows that students from low income backgrounds are far more likely to experience trauma-inducing events CPI, 2023). Addressing the root causes of suspension will require us to apply trauma informed practices, systems for positive behavior, and related supports. Supporting LI students with systemic reform is the most effective use of these funds.</p>	<p>3.6- Suspension Rates (LI rates and narrowing of achievement gap) Local behavior data will also be audited for progress monitoring of individual students as part of this focus.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
<p>3.10</p>	<p>Action: Foster/ Homeless Youth Support</p> <p>Need: An achievement gap persists between attendance for all students and attendance of foster youth and homeless students. 2022-23 Chronic Absenteeism District- 20.7% FY- 32.7%</p> <p>BUSD staff value the district systems that allow them to provide academic support to all students. Students in foster placement experience greater risk of school failure due to high mobility and the stressful environment created by uncertain living conditions. Amid competing challenges, school attendance frequently suffers.</p> <p>Scope: LEA-wide</p>	<p>All schools demonstrate chronic absenteeism gaps between foster youth and their peers. Data will vary by year, the baseline which has prompted BUSD to provide this action on an LEA-wide basis is the following: 2022-23 Chronic Absenteeism District- 20.7% FY- 12% achievement gap</p> <p>These actions are principally directed at foster youth, but provided on an LEA-wide basis because all students can benefit from this support.</p> <p>Numerous studies support the use of personnel to provide comprehensive systems of support for foster youth, who are at high risk for educational failure (California Children's Trust, 2022). Community liaisons can provide added support and services for students in foster care programs or experiencing housing insecurity. Dedicated personnel that can provide wrap-around support and resources to homeless and foster youth can support the mitigation of challenges that impede learning and reduce chronic absenteeism. This is the most effective use of funds to support foster youth.</p>	<p>3.2 Chronic Absenteeism Rates (FY and narrowing of achievement gap)</p>
<p>3.11</p>	<p>Action: Mental Health Services</p> <p>Need: An achievement gap persists between pupil engagement for all students and pupil engagement for foster youth and homeless students. The California school dashboard</p>	<p>All schools demonstrate an achievement gap between engagement metrics for all students and engagement metrics for LI students.</p> <p>Data will vary by year, the baseline which has prompted BUSD to provide this action on an LEA-wide basis is the following: 2022-23 Chronic Absenteeism District- 20.7%</p>	<p>3.2 Chronic Absenteeism Rates (LI and narrowing of achievement gap) 1.5- Completion of a-g Requirements (LI and narrowing of achievement gap)</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>measures pupil engagement through chronic absenteeism and graduation rates: 2022-23 Chronic Absenteeism District- 20.7% LI- 29.7%</p> <p>Completion of a-g Requirements by Graduates: District- 62.2% LI- 50.4%</p> <p>Low income students are more likely to be exposed to trauma inducing incidents and substance abuse/ violence in their homes and neighborhoods. In addition, school staff can lack training in developing supporting environments to respond to these needs. This lack of support leads to reduced engagement in school, increasing absenteeism and reducing school completion rates.</p> <p>Scope: LEA-wide</p>	<p>LI- 29.7%</p> <p>Completion of a-g Requirements by Graduates: District- 62.2% LI- 50.4%</p> <p>These actions are being provided on an LEA-wide basis because all students can benefit from the social emotional support to address mental health needs.</p> <p>Mental health specialists can provide support and services for LI students when they face social emotional challenges including adverse childhood experiences. Dedicated personnel that can provide support and resources can support the mitigation of challenges that impede learning. This is the most effective use of these funds to support LI students.</p>	

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
<p>1.9</p>	<p>Action: EL Master Plan</p> <p>Need: English learners make up 5.2% of students in BUSD, and students who are not yet proficient require specific support to acquire English.</p> <p>Data from 2023-2024 demonstrate that 46.3% of students are making progress toward proficiency and the district reclassification rate is currently 17.73%.</p> <p>English learners require additional support in literacy instruction, oral language skills, and differentiation. Although BUSD has designated resources to English learners, we have lacked a comprehensive plan to ensure that initiatives are coordinated across schools and programs.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	<p>A coordinated effort within and across English learner programs seeks to identify areas of strength and need for EL students. The percentage of English learners in BUSD is small when compared to other California districts, but the performance of identified students represents and equity need for the district. The data forms the basis for the need is:</p> <p>2022-2023 CAASPP ELA Proficiency: District: 71.78% proficient EL students: 27.62% proficient</p> <p>Completion of a-g requirements by graduates: District: 44.38% EL- 23.3%</p> <p>22-23 ELs Making Progress Toward Proficiency: 46.3% 23-24 EL Reclassification Rate: 17.73% 22 Percentage of Ever-EL Classified as LTEL- 14.7%</p> <p>Specific instruction in English and curricular supports for language within other subject areas can provide EL students with the tools to be successful. The EL master plan will seek to coordinate these services for English learners and ensure that comprehensive supports exist at all levels.</p>	<p>1.2 CAASPP ELA Percent Proficient (EL progress and narrowing of achievement gap) 1.5 Completion of a-g requirements (EL progress and narrowing of achievement gap) 1.8 ELs Making Progress Toward Proficiency 1.9 EL Reclassification Rate 1.10 LTEL Progress Interim and local assessments will also be monitored for progress of individual students as part of this focus.</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
<p>1.10</p>	<p>Action: EL Support Staff</p> <p>Need: English learners make up 5.2% of students in BUSD, and students who are not yet proficient require specific support to acquire English.</p> <p>Data from 2023-2024 demonstrate that 46.3% of students are making progress toward proficiency and the district reclassification rate is currently 17.73%.</p> <p>English learners require additional support in literacy instruction, oral language skills, and differentiation. Dedicated staff can provide ELs with these supports.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	<p>The data forms the basis for the need is: 2022-2023 CAASPP ELA Proficiency: District: 71.78% proficient EL students: 27.62% proficient</p> <p>Completion of a-g requirements by graduates: District: 44.38% EL- 23.3%</p> <p>22-23 ELs Making Progress Toward Proficiency: 46.3% 23-24 EL Reclassification Rate: 17.73% 22 Percentage of Ever-EL Classified as LTEL- 14.7%</p> <p>Specific instruction in English and curricular supports for language within other subject areas can provide EL students with the tools to be successful. McREL (2014) validates the need for high-quality instructional intervention from trained staff to acquire English and also access core content learning. EL students in the study were least likely to engage in academic tasks during whole class and individual instruction. For this reason, dedicated staff is needed.</p>	<p>1.2 CAASPP ELA Percent Proficient (EL progress and narrowing of achievement gap) 1.5 Completion of a-g requirements (EL progress and narrowing of achievement gap) 1.8 ELs Making Progress Toward Proficiency 1.9 EL Reclassification Rate 1.10 LTEL Progress Interim and local assessments will also be monitored for progress of individual students as part of this focus.</p>
<p>1.12</p>	<p>Action: Support for FY and Homeless- Liaisons and Support Services</p> <p>Need: An achievement gap persists between the academic performance of all students and the academic performance of foster youth and homeless students.</p>	<p>Community liaisons can provide added support and services for students in foster care programs or experiencing housing insecurity. Dedicated personnel that can provide wrap-around support and resources to homeless and foster youth can support the mitigation of challenges that impede learning.</p>	<p>1.2- CAASPP ELA (FY progress and narrowing of achievement gap) 1.3- CAASPP Math (FY progress and narrowing of achievement gap) Local benchmarks will also be monitored for progress</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>2022-23 CAASPP ELA Percent Proficient: District- 71.78% FY- 26.6%</p> <p>2022-23 CAASPP Math Percent Proficient: District- 57.86% FY- 6.25%</p> <p>Partner feedback demonstrates that staff value the district systems that allow them to provide academic support to all students. Families continue to value the high level of education that is provided by the district, and we know that students in foster placement or experiencing housing insecurity struggle to master grade level learning amid competing challenges.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	<p>All schools demonstrate achievement gaps between foster youth and their peers. unduplicated students and their peers. Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none"> • Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
