

FOR IMMEDIATE RELEASE

Public Preview Period for New Junior High Math Curriculum

The CUSD educational community is invited to preview the workbooks and teacher guides.

Chico, CA – Chico Unified School District announces a public review period for the newly proposed junior high school math curriculum. Materials will be available for preview during the week of March 9, 2026.

Chico Unified is currently evaluating a comprehensive mathematics program developed by Imagine Learning for students in grades 6-8. Designated as a "Made for California" curriculum, the program is built upon the instructional philosophy: "This Is Math that Matters! More Creativity. More Connection." Because community input is an important component of our curriculum adoption process, Chico Unified is inviting interested educational partners to review the materials. Student workbooks and teacher guides will be available for review the week of March 9, 2026.

- **What:** New Math Curriculum for Grades 6-8
- **When: Monday, March 9 through Friday, March 13, 2026**
- **Time:** Call to Schedule Your Preview Appointment (530-891-3000 ext. 88003)
- **Where:** Chico Unified School District Office (1163 E. 7th Street, Chico)

The curriculum will be brought before the CUSD Board of Education for consideration at the April 15, 2026, Regular Board Meeting.

For more information or to schedule a time to preview the materials, please contact the Chico Unified School District Educational Services Department at (530) 891-3000 ext. 88003.
