1.035 - Unrestricted Grants-in-Aid

Funds received through the State Foundation Program with no restriction.

Unrestricted State Aid revenue accounts for 43.43% of total district general fund revenue.

Key Assumptions & Notes

District Educated Enrollment

Beginning in fiscal year 2022, Ohio adopted the Fair School Funding Plan (FSFP). Funding is driven by a base cost methodology that incorporates the four components identified as necessary to the education process. The Base Cost is currently calculated for two years using a statewide average from historical actual data.

For Buckeye Local School District, the calculated Base Cost total is \$13,136,371 in 2027.

The State's Share of the calculated Base Cost total is \$6,509,110, or \$4,159 per pupil.

The FSFP also started funding students where they attended school. Therefore district educated enrollment is now used for per pupil funding. At the same time, the FSFP eliminated tuition transfer payments from school districts, which impacts the expense side of the forecast.

1.040 & 1.045 - Restricted Grants-in-Aid

Funds received through the State Foundation Program or other allocations that are restricted for specific purposes.

Restricted State Aid revenue accounts for 7.35% of total district general fund revenue.

Key Assumptions & Notes

Restricted aid is the portion of state per pupil funding that must be classified as restricted use. Historically the district's restricted state aid changed annually on average by \$308,616 and is projected to change annually on average by \$32,411. Restricted funds represent 7.35% of the district's total revenue. Starting in fiscal year 2022, the district's Success & Wellness funding became restricted; the state's share of this funding recorded as restricted is \$311,481. This funding has implications on general fund expenditures in that certain spending now occurring in a fund external to the general fund could shift to the general fund. The expenditures in this forecast are adjusted to reflect this change.

1.050 - State Reimbursement Property Tax Credits

Includes funds received for Tangible Personal Property Tax Reimbursement, Electric Deregulation, Homestead and Rollback.

State Reimbursement of Property Tax Credit revenue accounts for 7.50% of total district general fund revenue.

Key Assumptions & Notes

State Reimbursement of Property Tax Credits primarily consists of reimbursements from the state of Ohio for local taxpayer credits or reductions to their tax bill. The state reduces the local taxpayer's tax bill with a 10% rollback credit, and 2.5% owner-occupied rollback credit, plus a homestead credit for qualifying taxpayers. In fiscal year 2027, approximately 11.7% local residential property taxes will be reimbursed by the state in the form of rollback credits and approximately 3.8% will be reimbursed in the form of qualifying homestead exemption credits.

1.060 - All Other Operating Revenues

All Other Revenue accounts for 5.03% of total district general fund revenue.

Key Assumptions & Notes

2.070 - Total Other Financing Sources

Property Tax Reform Disclosure Items

The Ohio Department of Taxation, county auditors, and other partners are actively working through interpretation and implementation of property tax reform. As details are finalized, assumptions may evolve and updated forecasts may be necessary.

Property Tax Reform includes the following pieces of legislation:

H.B. 129 revises the 20-mill floor calculation to include fixed-sum levies. Impact begins in first update/ reappraisal cycle after tax year 2025.

H.B. 186 limits revenue increases associated with the 20-mill and 2-mill floors to inflation measured by three years of Gross Domestic Product Deflator (GDP-D) change. Taxpayers are given a credit based on update/reappraisal changes beginning in Tax Year 2023; credits are recalculated with each update/reappraisal. Districts first experience a fiscal impact in FY 2027 the impact represents full Tax Year 2025 revenue loss and one half of Tax Year 2026 revenue loss. In FY2028 and beyond the impact is only one year of revenue loss. Districts above the floor are not eligible for Inflation Cap Credits. DEW will reimburse districts on the 2023/2024 reappraisal cycles for the credit until the next reappraisal/ update cycle (2026/2027).

H.B. 335 caps inside millage revenue growth due to inflation. Beginning with update/reappraisal in tax year 2026 requires County Budget Commission to adjust inside millage rates to limit real property revenue increases to GDP-D growth over the three preceding years. Reduction applies to real and public utility personal property.

H.B. 96 allows counties to offer a property tax exemption that "piggy-backs" on existing state homestead exemption and owner-occupied credit. Unlike existing credit and exemption the piggy-back amounts are not reimbursed to the district by the state.

The Gross Domestic Product Deflator (GDP-D) is estimated based on available data from the U.S. Bureau of Economic Analysis (BEA) and Federal Reserve Bank's forward inflation expectation rate.
