#### 1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

Through Prop 28 funding, Tehama Oaks was able to provide all students with equitable access to high-quality music education, ensuring that creative expression was an essential part of their school experience. The program, led by our music teacher, taught our students rhythm and melody through instrumental practice while encouraging them to work together and support one another. This consistent access to the arts enriched academic learning by building focus and problem-solving skills. The students enjoyed the opportunity to be creative and build confidence through positive peer relationships. For many of our students, this was their first opportunity to participate in a structured music program, and it became a source of joy and motivation that extended beyond the classroom. By removing barriers and making music a regular part of school life, Prop 28 funding directly advanced its mission to ensure that every student could benefit from the transformative impact of arts education.
