

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Nevada Joint Union High School District

CDS Code: 29-66357

School Year: 2026-27

LEA contact information:

Dan Frisella

Superintendent

dfrisella@njuhsd.com

530-273-3351

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (Foster Youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

This chart shows the total general purpose revenue Nevada Joint Union High School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Nevada Joint Union High School District is \$47,302,992, of which \$37,319,079 is Local Control Funding Formula (LCFF), \$4,384,678 is other state funds, \$3,403,551 is local funds, and \$2,195,684 is federal funds. Of the \$37,319,079 in LCFF Funds, \$2,137,251 is generated based on the enrollment of high needs students (Foster Youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Nevada Joint Union High School District plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Nevada Joint Union High School District plans to spend \$48,050,123 for the 2026-27 school year. Of that amount, \$25,169,422.60 is tied to actions/services in the LCAP and \$22,880,700.4 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

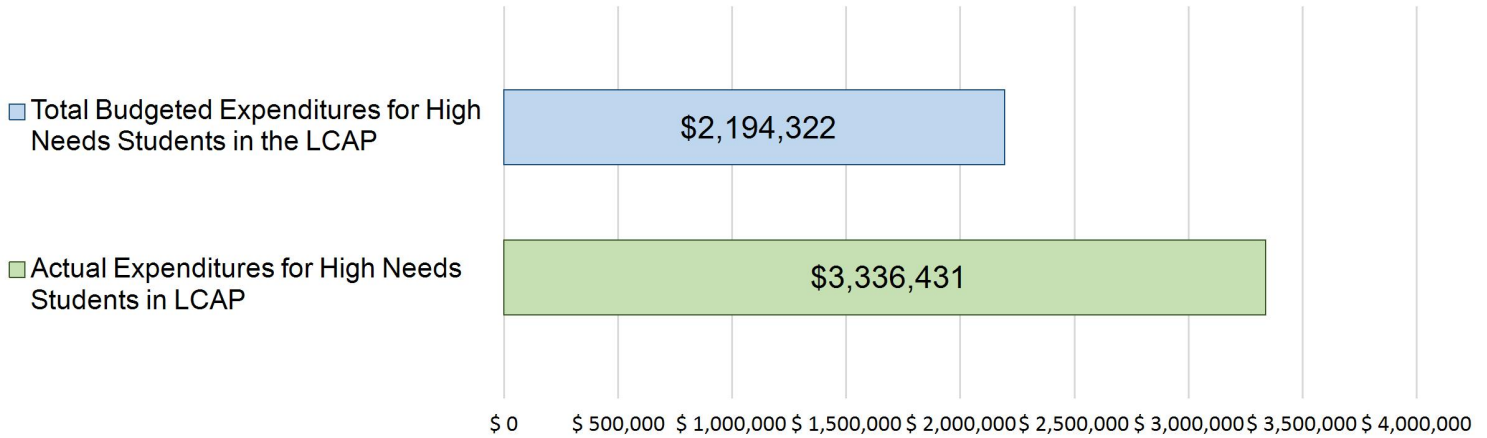

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Nevada Joint Union High School District is projecting it will receive \$2,137,251 based on the enrollment of Foster Youth, English learner, and low-income students. Nevada Joint Union High School District must describe how it intends to increase or improve services for high needs students in the LCAP. Nevada Joint Union High School District plans to spend \$1,947,069 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26

Prior Year Expenditures: Increased or Improved Services for High Needs Students

This chart compares what Nevada Joint Union High School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Nevada Joint Union High School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Nevada Joint Union High School District's LCAP budgeted \$2,194,322.43 for planned actions to increase or improve services for high needs students. Nevada Joint Union High School District actually spent \$3,336,431.00 for actions to increase or improve services for high needs students in 2025-26.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

- Semi-rural district serving grades 9-12 (2,489 students)
- 5 schools (2 comprehensive high schools, 1 early college high school, 1 independent study high school, 1 continuation high school)
- 37.3% Socioeconomically disadvantaged (SED)
- 1.1% English Learner (EL) students
- Equity Multiplier School: Silver Springs Continuation

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Nevada Joint Union High School District (NJUHSD) has seen a greater impact on loss of student learning and overall performance than other districts across the state, which may be in part due to the region's semi-rural setting, where the geography poses substantial barriers to both internet and cellular phone connectivity, substantially limiting access to the district's online learning platform that was in place for students during the pandemic. The resulting outcome has been substantial declines across most academic areas. The following is a summary of the District's performance across the various School Dashboard areas. For the purpose of comparing pre-pandemic and post-pandemic performance data the 2018-19 academic year is being used as the "pre-pandemic" baseline.

The District's graduation rate has fallen from 91.3% pre-pandemic to 86.5% for the 2022-23 academic year and remains just slightly above the state graduation rate of 86.4%. ELA proficiency on the SBAC has fallen from 69% pre-pandemic to 47.1% for the 2022-23 academic year, just above the state average of 46.7%. Math proficiency on the SBAC has fallen from 39% pre-pandemic to 24.4% for the 2022-23 academic year and below the state average. The College and Career Readiness Indicator has fallen from 51% pre-pandemic to 35.6% for the 2022-23 academic year, below the state average of 43.9%. The English Learner Progress rate has fallen from 62.5% pre-pandemic to 36.4% for the 2022-23 academic year, but well below the state average of 48.7%. It is important to note that the number of students making up this data point is very small and therefore this is one of the most volatile data points on the state Dashboard. The suspension rate has fallen from the pre-pandemic rate of 11.1% to 6.3% in the 2022-23 academic year and is one area of notable district improvement, though it remains well above the state average of 3.5%.

Specific schools that received the lowest performance level are as follows:

- Nevada Union for English Language Arts (ELA) is currently 58.6 points below standard, declining 41.3 points from 2022 to 2023. Student groups that saw the lowest performance levels were those who were socio-economically disadvantaged, students with disabilities, and white students.
- Silver Springs for Suspension, CCI, Graduation Rate, and English Language Arts (ELA). SS's suspension rate was 20.5% for the 2022-23 year, compared to 15.9% for Hispanic or Latino students, 20.7% for white students, 30.3% for homeless students, 22.9% for socioeconomically disadvantaged students, and 23.9% for students with disabilities. The District average was 6.3% and the state average was 3.5%. SS's CCI was 2% for the 2022-23 year. The District average was 35.6% and the state average was 24.3%. The

CCI for socioeconomically disadvantaged students was 1.2% and it was 2.8% for white students. S.S.'s graduation rate for the 2022-23 school year was 70.9%, yielding a three year average of 62.9%. The graduation rate of socioeconomically disadvantaged students was 62.5% and white students was 66.2%. SS ELA: Declined 19.7 points, and is currently 200.3 points below standards, when compared to the District at 35.1 points below standard.

Student groups that received the lowest performance level are as follows:

- ELA: Homeless students and students with disabilities. ELA: 47.12% meeting or exceeding standard and performing 35.1 points below standard. Homeless students are currently performing 163 points below standard. Students with disabilities are currently performing 169 points below standard.
- Math: 24.41% meeting or exceeding standard and performing 99.3 points below standard. Socioeconomically disadvantaged students are currently performing 146.6 points below standard. Students with disabilities are currently performing 247.7 points below standard.
- Graduation: 86.5% graduated, with a decline of 3.2% from the previous year. The graduation rate for socioeconomically disadvantaged students is 79.9% with a decline of 5.1%.
- College and Career Indicator: 35.6% of all students are prepared; however, only 2.2% of homeless students are prepared (46/599).
- Suspensions: 6.3% of students are suspended for at least one day, an increase of 1.6%. For homeless students, the percentage is 16.9%, which is an increase of 2.7%. For socioeconomically disadvantaged students, the percentage is 9.6%, which is an increase of 2.3%. For students with disabilities, the percentage is 12.5% with an increase of 2.6%. For students who identified they are two or more races, the percentage is 9.8%, which is an increase of 1.4%.

Performance indicators for specific student groups have additionally qualified the District for Differentiated Assistance (DA). Low performance

on the SBAC in ELA and math has been noted for the District's socioeconomically disadvantaged and homeless students, as well as those with disabilities. High suspension rates have been an area of concern for the same three student groups. Low graduation rates are an area of concern related to socioeconomically disadvantaged students. College and career readiness is an area of concern specific to homeless students. Each of these student groups, specific to the identified indicator areas will be addressed through our continued DA work.

The District has met the following standards; Basics (teachers, instructional materials, and facilities), Implementation of Academic Standards, Parent and Family Engagement, Access to a Broad Course of Study, and the Local Climate Survey.

Items below are 25-26 reflection.

Performance indicators for specific student groups have additionally qualified the District for Differentiated Assistance (DA). Low performance on the SBAC in ELA and math has been noted for the District's socioeconomically disadvantaged and homeless students, as well as those with disabilities. High suspension rates have been an area of concern for the same three student groups. Low graduation rates are an area of concern related to socioeconomically disadvantaged students. College and career readiness is an area of concern specific to homeless students. Each of these student groups, specific to the identified indicator areas will be addressed through our continued DA work.

The District has met the following standards; Basics (teachers, instructional materials, and facilities), Implementation of Academic Standards, Parent and Family Engagement, Access to a Broad Course of Study, and the Local Climate Survey.

The following is a summary of both areas of growth and concern, based on the 2024-25 data:

Nevada Joint Union High School District (NJUHSD) 2024–25 Academic Year Summary

NJUHSD continues to experience greater pandemic-related learning loss than other districts statewide, primarily due to the region's semi-rural geography, which hindered consistent access to online learning platforms during school closures. This has contributed to persistent academic and performance challenges, although recent data show areas of improvement.

Academic Performance Summary

- Graduation Rate: Increased to 88.2% in 2023–24, exceeding the state average. Graduation rate for homeless students declined by 5.8% to 65.1%, placing them in the lowest performance level.
- English Language Arts (ELA): District-wide proficiency rose to 61%, well above the state average of 55.7%.
- Nevada Union: +73 points, now 14.4 points above standard. Gains by low SES and white student groups.
- Silver Springs: +35.6 points, but still 164.7 points below standard.
- Mathematics: Proficiency reached 30.5%, showing improvement and above the state average.
- Gains: Students with disabilities (+72.8), homeless students (+18.6).
- Silver Springs remains 229 points below standard.
- College & Career Indicator (CCI): Declined to 33.3% from 51% pre-pandemic.
- Silver Springs: Dropped to 0.9%.
- Students with disabilities: Only 7.4% prepared, down 4.2%.

- English Learner Progress: Increased to 70.8%, far exceeding the state average of 45.7%. Note: Small student group size makes this data volatile.
- Suspension Rate: Slight increase to 6.4%, above the state average of 3.2%.
- High rates: Students with disabilities (13.2%), low SES (9.6%), multiracial (11.6%), English Learners (12.5%).
- Silver Springs increased from 20.5% to 30%.

School-Specific Highlights

- Nevada Union:
 - ELA improved across all student groups.
 - Students with disabilities improved by 91.8 points but remain 91.4 points below standard.
 - Low SES and white students no longer in the lowest performance band.
 - Improvement needed in Math and Graduation Rate for students with disabilities.
- Silver Springs:
 - ELA (+35.6) and Math (+8.5) improved but remain well below standard.
 - Graduation rate increased to 66.9%.
 - Suspension rate surged to 30%.
 - CCI dropped to 0.9%.
 - Key groups needing support: low SES, students with disabilities, white students.
- Bear River: Identified for Differentiated Assistance in suspension rate for socioeconomically disadvantaged students.

Student Group Trends

- Gains:
 - ELA: Homeless (+43.9), Students with Disabilities (+76.3)
 - Math: Homeless (+18.6), Students with Disabilities (+72.8)
 - Graduation: Low SES (+2.3%)
 - CCI: Homeless (+9.1%)
 - Suspension: Homeless (-2.1%)
- Lowest Performance:
 - Graduation: Homeless (65.1%)
 - CCI: Students with Disabilities (7.4%)
 - Suspensions: Students with disabilities (13.2%), LTELs (18.8%), English Learners (12.5%), Multiracial (11.6%), Low SES (9.6%)

Differentiated Assistance (DA) Triggers

The District is identified for DA in the following areas:

- ELA: NU (low SES, students with disabilities, white students), SS (low SES, white students)
- Math: NU (low SES, students with disabilities)
- Graduation: NU (students with disabilities), SS (low SES, white students)
- Suspension: NU (students with disabilities), BR (low SES), SS (Hispanic, homeless, low SES, students with disabilities, white students)
- CCI: SS (low SES, white students)

Support and intervention will continue in collaboration with the Nevada County Superintendent of Schools.

Local Indicators Met

The District has met all local standards, including:

- Basics (teachers, instructional materials, facilities)
- Implementation of Academic Standards
- Parent & Family Engagement
- Access to a Broad Course of Study
- Local Climate Survey

LREBG Funds:

During the 2025–26 school year, the District did not expend any funds apportioned pursuant to Education Code Section 32526. Therefore, no associated expenditures or services are reported in the annual update for this period.

At the time of adoption of the 2026–27 LCAP, the District has not yet identified specific expenditures for these funds. During the 2026–27 school year, the District will implement several new intervention and student support actions designed to improve student engagement, academic achievement, and timely access to targeted academic and behavioral supports. These efforts are intended to address identified areas of need reflected in local and state data, particularly for students requiring additional intervention and support.

The District will monitor the effectiveness of these new actions using metrics such as attendance, chronic absenteeism, course completion, academic performance, intervention participation, and other locally identified indicators. The results of this monitoring, together with the District's ongoing needs assessment process, will be used to determine whether funds apportioned pursuant to Education Code Section 32526 should be utilized in future years to sustain, expand, or refine successful intervention strategies.

Future expenditures of these funds, if identified, will be described within the applicable LCAP actions and will include the required rationale, research basis, intended outcomes, and associated metrics. The District will prioritize investments based on demonstrated student needs and evidence of effectiveness. As required, the District will review the impact of any selected strategies in future annual updates and make adjustments as warranted based on progress toward intended outcomes.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

As indicated in the previous section related to Annual Performance, Performance indicators for specific student groups qualified the District for Differentiated Assistance (DA). These areas are as follows:

- ELA
- Nevada Union - Socioeconomically disadvantaged, students with disabilities, and white students
- Silver Springs - Socioeconomically disadvantaged and white students
- Math at Nevada Union is specific to socioeconomically disadvantaged students and students with disabilities
- Graduation Rate

- Nevada Union - Students with disabilities
- Silver Springs - Socioeconomically disadvantaged and white students
- Decrease in the Suspension Rate
- Bear River - Socioeconomically disadvantaged students
- Nevada Union- Students with disabilities
- Silver Springs - Hispanic students, homeless, socioeconomically disadvantaged, students with disabilities, and white students
- Increase in the College and Career Indicator (CCI) at Silver Springs specific to socioeconomically disadvantaged and white students

As a response to NJUHSD's status in DA, the following change ideas are in various stages of implementation or are being considered with the support of the Nevada County Superintendent of Schools. Districtwide Professional Learning Communities (PLC) support department collaboration and the establishment of common Essential Learning Outcomes (ELOs) and common assessments, which have brought about a much higher degree of accountability and shared commitment to student outcomes. This is also the vehicle for more targeted intervention through the implementation of Flex Time, which occurs at the district's two largest comprehensive sites, Nevada Union and Bear River. Flex Time is a mechanism to strategically support individual academic needs across all subject areas and for students at the comprehensive sites supporting students with disabilities, as well as those who are socioeconomically disadvantaged and those who are homeless. In addition to providing support for ELA and math, which promotes higher achievement on the SBAC, it is also intended to serve as a mechanism of connectedness, as all students are assigned an advisor who supports the student throughout all high school years and monitors areas of need, as well as assigning intervention for courses which the student may be in danger of not passing. This becomes an additional safety net, beyond the student's school counselor, that supports graduation and college and career readiness performance.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Silver Springs High School is a part of the Dashboard Alternative School Status ~ as adopted by the CDE. This designation sought to provide a fair assessment of programs that serve students in alternative and other settings. Per the CDE, because we are a DASS school, we receive the label as a "DASS Community of Practice" for the eligibility for Comprehensive Support and Improvement (CSI) low graduation rate to distinguish the uniqueness of these schools and the students served.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

SSHS plans to integrate the stated LCAP goals at their site to continue to improve the graduation rate. To effectively meet the ESSA requirements, the plan will incorporate LCAP engagement by utilizing comprehensive feedback surveys gathered throughout the year. From this data, SSHS has selected evidence-based interventions to address all state indicators to help boost our graduation rate outcomes in future years. Overall, the previous areas that demonstrated the greatest need were student achievement; outcomes of the 2025 SBAC for ELA saw 5 points growth and Math saw a decline of 17.4 points, we will continue to closely monitor this area, particularly as it relates to attendance. At SSHS, the achievement gap seems to be most significant between the general student population and students with

disabilities and students experiencing homelessness. Students with disabilities at SSHS had the greatest discrepancies in CAASPP scores on the 2025 dashboard with both math and ELA indicators in the red category. Graduation rates decreased by 11.9% from the previous year, and is trailing district averages at 55.1%, compared to 89.7%. Within SSHS, students who are homeless and socioeconomically disadvantaged see the largest discrepancy in graduation rates at 33.3% and 53.1% respectively. We plan to focus more on ensuring availability on courses necessary for graduation, tracking attendance, intervention outcomes, and support for our students' social and emotional learning needs in order to close this achievement gap, ensure their academic success, and continue to improve graduation rates for all students.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

SSHS in partnership with the NJUHSD leadership team and NCSoS pulled data from multiple platforms to analyze student performance results which included student group data as applicable to the graduation rate. Data will continue to be pulled in the following areas:

- CAASPP results
- California School Dashboard
- Internal Tracking Data - Attendance, FastForWord, PLC Department Check-in Tool
- Graduation Rate
- A-G Enrollment and Completion Rates; College and Career Indicator
- Student/Family Surveys
- LCAP Surveys
- School Climate Surveys (Kelvin Pulse surveys and CHKS surveys)

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Students	Students participate in a variety of engagement methods further outlined in the prompt related to LCAP feedback. These include feedback gathered in the LCAP survey, CA Healthy Kids Survey, LCAP Advisory Committee, School Site Council Meetings, and ELAC.
Parents	Like the student group, parents participated in a variety of engagement methods further outlined in the prompt related to LCAP feedback. These include feedback gathered in the LCAP survey, LCAP Advisory Committee, School Site Council Meetings, and ELAC.
Staff	Both certificated (NJUHSTA) and classified staff (CSEA) have an opportunity to provide feedback on the LCAP survey, they are also invited to participate in the LCAP Advisory Committee and School Site Council.
Administrators	Administrators have an opportunity to provide feedback on the LCAP survey, they are also invited to participate in the LCAP Advisory Committee and participate in the School Site Council process specific to their sites.
Community Members	Community members have an opportunity to provide feedback on the LCAP survey annually, which is shared widely through various community based committees and social and public media. They are also invited to participate in the LCAP Advisory Committee and/or School Site Council.
Bargaining Units	Each bargaining unit—representing teachers, classified staff, and other school personnel—selects representatives to serve on the LCAP Advisory Committee. These representatives actively participate

Educational Partner(s)	Process for Engagement
	in reviewing data, identifying needs, and providing feedback on proposed goals, actions, and expenditures.
California Colleges Guidance Initiative	<p>The district engaged with the California College Guidance Initiative (CCGI) as part of its ongoing efforts to strengthen college and career readiness systems and improve equitable student access to postsecondary opportunities. Through collaboration with site administrators, counselors, teachers, and district leadership, the district reviewed current practices related to A–G completion, financial aid application support, college and career planning, and student data monitoring.</p> <p>Feedback gathered through stakeholder discussions and implementation planning helped identify opportunities to better align student supports, streamline access to college and career resources, and improve the use of real-time data to inform interventions. Beginning in the 2026–27 school year, the district will implement CCGI at all comprehensive and alternative school sites to support student goal setting, increase postsecondary awareness, and strengthen monitoring of college and career readiness indicators aligned with the LCAP and California School Dashboard priorities.</p>

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

- 1 - LCAP Advisory Committee
March 2, 2026 - District LCAP Advisory Committee

The district utilizes a unique and in-depth approach to developing and updating its annual LCAP. The LCAP Advisory Committee is made up of 36 representatives, representing each school site and educational partner group and seeks the following representation; 6 students, 6 teachers, 6 parents, 6 classified staff, 6 community members, and 6 administrators. Represented by parent and student groups are Foster Youth, Low-income, and Special Education populations.

The meeting provides a general overview of the LCAP development process, including purpose and roles. Input on what's going well and not so well in the district (Winds and Anchors), update on progress toward LCAP goals, data metrics relevant to LCAP goals, and the LCFF state priorities. The group also spends time reviewing LCAP survey data, which for the 2025-26 year saw 2236 responses, with students accounting for 75.7% of the responses, parents/guardians representing 14.4% of the responses, and the remaining responses coming from the other educational partner groups represented by the LCAP Committee. This meeting also provides an opportunity for feedback on District initiatives with site feedback on an activity called Start, Stop, Keep, Fix, a budget overview, and the identification of district spending priorities to be included in the LCAP.

- 2 - Administrative Management Team Meetings

The district's Principal/Director Team includes district admin, principals, and directors. The team meets monthly for planning purposes to discuss ongoing academic achievement, student intervention and well-being, and overall program evaluation. The team provides analysis, and decision-making input on various aspects of the LCAP and the specific programs, expenditures, and activities outlined in the plan. Additionally, the principals meet at least monthly with the Superintendent and/or Assistant Superintendent for more visionary and programmatic decisions.

- 3 - LCAP Survey

Survey window - the month of February (3 weeks)

Based primarily on the eight state LCFF priorities, the district issued its annual survey for parents, students, certificated & classified staff, and community members. Survey questions have been vetted by the LCAP Advisory Committee, and the survey was administered using Google Forms. For the 2025-26 school year, there was an increase in responses from 891 in the previous year to 2236 (1692 students, 323 parents, 123 certificated staff, 83 classified staff members, and 15 community members).

- 4 - California Healthy Kids Survey

The California Healthy Kids Survey is completed by students, staff, and parents each fall. The 2025-26 window for the report was October - December. The LCAP Advisory Committee was provided access to a summary of this data at its meeting to build capacity for decision-making.

- 5 - School Site Council (SSC) Meetings

School Site Council Meetings are hosted at every site and are made up of parent/community members, teachers, the principal, and staff. Topics range from Title 1 funds to Equity Multiplier funds, depending on specific site eligibility, as well as site safety plans, school-level data analysis, etc.

Silver Springs SSC Meeting Dates: 9/17/25 and 1/27/26, with additional SSC meetings planned.

- 6 - English Language Advisory Committee (ELAC) Meetings

The ELAC is made up of English learner students and families, as well as supporting staff, both classified and certificated, as well as site administration. This advisory group meets 1 - 2 times per year to review, discuss, and provide feedback on English learner services and supports, as well as crossover items relevant to the SSC and LCAP Committees.

- 7 - Public Hearing

Board Meeting / LCAP Update - May 14, 2026

Board Meeting / Public Hearing on LCAP - June 15, 2026. The LCAP is on the board meeting agenda under Public Hearing.

Board Meeting / Adoption - June 16, 2026. The LCAP is on the board meeting agenda as an action item for board approval.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Elevate academic achievement by employing and retaining high-quality educators who improve teaching and learning, by developing clear measures of progress and performance.	Broad Goal

State Priorities addressed by this goal.

<p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 2: State Standards (Conditions of Learning)</p> <p>Priority 4: Pupil Achievement (Pupil Outcomes)</p> <p>Priority 7: Course Access (Conditions of Learning)</p> <p>Priority 8: Other Pupil Outcomes (Pupil Outcomes)</p>
--

An explanation of why the LEA has developed this goal.

The LCAP Advisory Committee reviewed the State's 8 Priorities alongside the 5 goals the NJUHSD Board of Trustees set for the Superintendent. Initially, District leadership felt two of the Superintendent's goals broadly covered the 8 state priorities; however, following feedback and review from the LCAP Committee in the first of three meetings, some additional areas of need were identified, especially when comparing the goals from the previous cycle, which specifically outlined the correlation between academic achievement and the employment and retention of high quality educators. As the LCAP committee reviewed this broad goal it became apparent that many of the areas that were red on the dashboard and would be more typically addressed under a focus goal also applied.

During the 2024-25 academic year, 3 students reclassified, out of 20 total EL students. Reclassification rate of 15%	During the 2025-26 academic year, 5 students reclassified, out of 21 total EL students. Reclassification rate of 23.8%	In alignment with state performance for 2026-27: EL Reclassification rate of 6.9%	Change from 2023-24 to 2025-26 for EL reclassification fell from 37% to 23.8% *Due to the small number of participating students, this data point is very volatile

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Analysis of Implementation for Goal 1 (2025–26)

Overall Implementation

In 2025–26, Goal 1 focused on improving academic achievement through high-quality instruction, targeted intervention systems, and expanded academic opportunities for students, including supports in ELA, mathematics, English Learner development, and credit recovery. Overall, implementation was closely aligned with the planned actions, with several adjustments made in response to staffing availability, enrollment patterns, and student academic needs. The district maintained a strong emphasis on instructional improvement while refining how key personnel and intervention supports were deployed across sites.

Implementation Outcomes and Effectiveness

Overall academic outcomes showed growth across multiple indicators. ELA proficiency increased by 2.3%, mathematics proficiency increased by 4.7%, and CAST performance increased by 7.1%, indicating progress in core academic achievement areas. English Learner progress decreased from 70.8% to 36.4%, though this change is attributed to the small size of the EL population, which results in significant year-to-year variability in percentage-based outcomes. Student-reported access to a variety of course offerings also showed slight improvement, reflecting incremental gains in expanded academic opportunity.

Substantive Differences Between Planned Actions and Actual Implementation

Several planned actions were adjusted during implementation to better align resources with student needs and staffing realities.

Action 1.2 (Title I / Intervention Staffing Adjustment):

Under Action 1.2, the originally planned 1.0 FTE Intervention Specialist position at Nevada Union High School was redirected to support the hiring of a Title I Case Manager. During 2025–26, an additional 0.5 FTE Title I Case Manager was also added to strengthen literacy intervention and student support services. Based on the effectiveness of this role in improving targeted academic support, the district plans to expand this position to 1.0 FTE in future implementation cycles.

Actions 1.6 and 1.21 (ELD and EL Supported Studies):

Actions 1.6 and 1.21, which include ELD instruction and EL Supported Studies, were implemented at reduced levels due to lower-than-expected English Learner enrollment. As a result, fewer sections were offered than originally planned, reflecting actual student demand rather than planned projections. While enrollment fluctuations contributed to variability, the decline also indicates that EL instructional supports require further refinement to improve consistency of impact.

Actions 1.13 and 1.14 (Literacy and Math Intervention Expansion):

Actions 1.13 and 1.14 were revised during implementation to broaden literacy and mathematics intervention options beyond the originally specified programs (Fast ForWord and iReady). This adjustment allowed sites greater flexibility to select and implement evidence-based interventions aligned with student needs while maintaining the intent of strengthening foundational skills.

Action 1.23 (Credit Recovery Sections):

Action 1.23 was corrected during implementation to accurately reflect service delivery. Bear River High School provided two credit recovery sections rather than the previously reported single section, increasing student access to credit recovery opportunities and improving alignment between planned and actual implementation.

Challenges and Successes in Implementation

Implementation challenges included staffing misassignments at Silver Springs High School, which required ongoing adjustments to ensure appropriate allocation of personnel and alignment of intervention services. Additional challenges included addressing persistent equity gaps in academic performance and managing variability in English Learner outcomes due to small cohort sizes.

Despite these challenges, implementation of Goal 1 demonstrated meaningful success. The district achieved measurable gains in ELA, mathematics, and science achievement, expanded access to academic supports and credit recovery opportunities, and strengthened

intervention systems across sites. The ability to adapt staffing allocations, refine intervention strategies, and revise instructional supports based on implementation data reflects a responsive continuous improvement approach focused on improving outcomes for all students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Material differences between budgeted and estimated actual expenditures were primarily due to lower-than-anticipated transportation costs, staffing vacancies, expanded implementation of selected intervention programs, and the deferral or non-implementation of certain planned services.

Transportation Services expenditures were lower than projected because actual costs came in below budget estimates, resulting in overall savings. Instructional Materials expenditures were also lower than expected as several departments deferred purchases and requested carryover of funds for larger instructional initiatives planned for the following year.

Expenditures for the Student Service Specialist action were higher than projected due to increased salary and benefit costs compared to initial estimates. In contrast, English Learner paraeducator support expenditures were lower due to staffing vacancies, which also contributed to reduced service delivery in that area.

Staffing allocations were adjusted during the year in response to revised priorities and demonstrated site needs. Specifically, the 0.5 FTE Intervention TOSA position at Ghidotti Early College High School and 0.67 FTE of the 1.0 FTE Intervention TOSA position at Nevada Union High School were reduced, reflecting a reallocation of resources to better align with current intervention demands.

Estimated Actual Percentages of Improved Services were generally aligned with planned levels, though implementation varied across actions due to staffing vacancies, program expansion, and shifts in student need. Some services exceeded planned levels, particularly expanded intervention supports such as districtwide math intervention and Fast ForWord, which increased targeted academic support. Other services were implemented at lower levels due to staffing shortages and reductions in intervention TOSA. A small number of planned actions, including the BASE curriculum implementation, were not implemented during the year, resulting in reduced service delivery in those areas.

Despite these variations, services to unduplicated students remained aligned with the intent of the LCAP and continued to prioritize academic intervention, attendance support, and student well-being.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Overall, most Goal 1 actions were effective in improving academic achievement and expanding access to high-quality instruction.

Staffing investments (Actions 1.1, 1.3, 1.4) were effective in maintaining qualified instructional staff and supporting students with disabilities, contributing to gains in ELA, mathematics, and CAST performance.

Targeted interventions (Actions 1.2, 1.9, 1.11–1.14) were effective in supporting at-risk students, particularly socioeconomically disadvantaged students and students with disabilities, through expanded academic supports.

Instructional materials and professional learning (Actions 1.5, 1.10, 1.17) were effective in improving access to standards-aligned curriculum and strengthening instructional practice.

ELA-focused actions (Actions 1.1, 1.6, 1.8, 1.10, 1.11, 1.16, 1.22, 1.24) were effective in increasing ELA performance to 63.32% meeting or exceeding standards, representing a 16.2% increase over baseline.

The Math Intervention Program (Actions 1.13 and related implementation) was effective, resulting in a 4.7% increase in students meeting or exceeding standards on CAASPP mathematics.

Turnitin implementation (Action 1.15) supported consistent academic integrity practices and improved monitoring of student writing expectations.

Credit recovery supports (Action 1.23) were effective in improving graduation outcomes, contributing to a 1.5% increase in the graduation rate at Nevada Union High School.

Accreditation and system improvement supports (Action 1.18) were effective in strengthening school improvement processes, resulting in successful accreditation outcomes across sites.

The 4x8 Bell Schedule (Action 1.25) - We observed partial effectiveness. Positive outcomes include an upward trend in graduation rates and a measurable reduction in student credit deficiencies. However, a systemic challenge remains for students needing to recover credits in core areas, specifically mathematics, due to the year-long course structure and the absence of a summer school option. Staff will closely monitor this action alongside Action 1.23 to assess collective impact on student achievement.

English Learner services (Actions 1.6, 1.7, 1.8, 1.19–1.21) were not effective in improving outcomes, as evidenced by a decrease in EL progress toward proficiency from 70.8% to 36.4%. This indicates a need to strengthen instructional delivery and program coherence for English Learners.

Overall, Goal 1 actions were effective in most academic areas, with continued need to strengthen English Learner outcomes and close persistent achievement gaps.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Several adjustments were made for 2026–27 based on implementation data and student needs.

Action 1.6 (ELD Adjustments):

Bear River High School will add one section (.17 FTE) of ELD due to increased EL enrollment and declining EL proficiency. Nevada Union High School will reduce one ELD section due to decreased enrollment.

Action 1.8 (EL Support Expansion):

An additional .33 FTE literacy support at Nevada Union will be added to strengthen services for unduplicated students, including English Learners.

Action 1.9 (Math Support Adjustment):

NU math support sections will be reduced by .33 FTE due to decreased need and improved math performance.

Actions 1.13 and 1.14 (Intervention Framework Revision):

Intervention supports will shift from specific programs to a broader, flexible program (Edia) to allow sites to select evidence-based literacy and math interventions.

Action 1.26 (Math Co-Teaching)

Nevada Union High School will offer five sections of co-taught Integrated Math 1, and Bear River High School will offer two sections. Teachers participating in co-teaching will engage in ongoing professional development and instructional coaching to strengthen collaborative planning and inclusive instructional practices. This structure is intended to support students with IEPs in accessing and being successful with grade-level curriculum within a general education setting. This is a new action that we anticipate positively impacting Metric 1.1 in relation to math performance by SWD on CAASPP.

Action 1.27 (Teacher Mentor Program):

A districtwide Teacher Mentor Program will be implemented to support new teachers with instructional practice, classroom systems, and onboarding, with the added goal of improving retention and instructional consistency.

These adjustments reflect a continued focus on aligning resources with demonstrated student need while strengthening instructional systems and improving outcomes across all student groups.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	High Quality Teachers and Staff	Classrooms are fully staffed with credentialed teachers. Competitive compensation packages that reflect the value our professional educators are worth. Access to quality professional development opportunities consistent with District, State, and Federal initiatives, as well as district-	\$11,240,925.00	No

Action #	Title	Description	Total Funds	Contributing
		specific opportunities (99 FTE teachers, excluding CTE, SpEd, counselors, and librarians).		
1.2	Intervention Specialists	Teachers on special assignment (TOSA) in the position of Intervention Specialist to support the academic, social-emotional, and behavioral needs of students. Bear River - 1.0, Nevada Union .33, Silver Springs - 1.0. Total 2.33 FTE. This action will support at risk student groups (homeless, students with disabilities, English Learners, foster youth, and socioeconomically disadvantaged) and connect students with services positively impacting college and career readiness, academic performance in both ELA and math, as well as support more positive interventions and supports, potentially reducing suspensions.	\$299,708.00	Yes
1.3	Special Education Teachers	Salaries for Special Education teachers (25 FTE). This action will support students with disabilities reaching their academic potential in both ELA and math.	\$2,904,900.00	No
1.4	Special Education Paraeducators	Salaries for Special Education paraeducators (33 FTE). This action will support students with disabilities in reaching their academic potential in both ELA and math, as well as providing a more supportive environment which should impact the number of suspensions.	\$2,319,100.00	No
1.5	Professional Development	Professional development funding for content area-specific needs, PLCs, MTSS/UDL efforts, instructional technology, and other instructional strategy development. This action will support at risk student groups (homeless, English learners, students with disabilities, and socioeconomically disadvantaged) and connect students with services positively impacting college and career readiness, academic performance in both ELA and math, as well as support more positive interventions and supports, potentially reducing suspensions.	\$22,000.00	No

Action #	Title	Description	Total Funds	Contributing
1.6	English Language Development	One section of English Language Development classes at Nevada Union (.17 FTE). Bear River will add one section (.17 FTE) of English Language Development in AY 26-27.	\$40,200.00	Yes
1.7	English Learner Paraeducator Support	Paraeducators to support case management of EL students and provide translation services for Spanish-speaking families (2.0 FTE).	\$153,902.00	Yes
1.8	ELA Support	Additional sections of literacy support at Bear River High School (.17 FTE) and Nevada Union (.33 FTE)	\$69,000.00	Yes
1.9	Math Lab	Additional sections of math support at Bear River (.67 FTE) and Nevada Union (.67 FTE). This action will support at risk student groups (homeless, students with disabilities, and socioeconomically disadvantaged) and connect students with services positively academic performance in math.	\$168,000.00	Yes
1.10	Instructional Materials	All students and courses will have instructional materials aligned to the CA State Standards.	\$548,901.00	No
1.11	Intervention	Students will have access to daily intervention through Flex Time. This action will support at risk student groups (homeless, students with disabilities, and socioeconomically disadvantaged) and connect students with services positively impacting college and career readiness, academic performance in both ELA and math, as well as support more positive interventions and supports, potentially reducing suspensions.	\$28,600.00	No
1.12	Data/Flex Time Support	Support sections at Bear River and Nevada Union. TOSA sections for staff who will serve as leads for scheduling student intervention through Flex Time. This action will support at risk student groups (homeless, students with disabilities, and socioeconomically disadvantaged) and connect students with services positively impacting college and career readiness,	\$28,500.00	No

Action #	Title	Description	Total Funds	Contributing
		academic performance in both ELA and math, as well as support more positive interventions and supports, potentially reducing suspensions.		
1.13	Literacy Intervention Program	Evidence-based reading program to support literacy for struggling learners, students with disabilities, English Learners, or other reading/literacy needs. This action will support at risk student groups (homeless, students with disabilities, and socioeconomically disadvantaged) and connect students with services positively impacting college and career readiness, academic performance in ELA.	\$74,299.20	No
1.14	Math Intervention Program	Evidence-based program (Edia) to support foundational math concepts for struggling learners, students with disabilities, English Learners, or other basic math needs. This action will support at risk student groups (homeless, students with disabilities, and socioeconomically disadvantaged) and connect students with services positively impacting college and career readiness, academic performance in math.	\$38,742.00	Yes
1.15	Turn It In	Turn It In.com is a tool for reviewing student writing samples.	\$12,925.00	No
1.16	No Red Ink	Writing conventions application to support student progress to state standards in ELA.	\$6,910.50	No
1.17	Class Size Reduction	Smaller class sizes for freshman core classes of 29:1 for English I, Health, Integrated Math I, and Applied Foundations in Integrated Math. This action will support all student groups, particularly those at risk student (homeless, students with disabilities, and socioeconomically disadvantaged), positively impacting college and career readiness, academic performance in both ELA and math, as well as potentially reducing suspensions.	\$400,000.00	No
1.18	WASC Coordinators	Stipend support for staff who facilitate educational partner engagement and author WASC reports. WASC coordinators are responsible for the	\$7,095.00	No

Action #	Title	Description	Total Funds	Contributing
		collection of educational partner feedback and tracking data surrounding progress toward WASC goals and action plans. Stipend positions for schools in a mid-cycle review or full review.		
1.19	Supplemental EL Materials	Books and supplies specific to serving English Learner students.	\$5,000.00	Yes
1.20	EL After School Tutoring	After school tutoring specific to EL students and provided by EL staff.	\$1,000.00	Yes
1.21	EL Supported Studies	EL Supported Studies class at Nevada Union (.17 FTE)	\$19,600.00	Yes
1.22	Tutoring	Before and after-school tutoring for Bear River and Nevada Union. Up to 20 hours/week for NU and 8 hours/week for Bear River.	\$30,000.00	Yes
1.23	Credit Recovery Courses	Credit Recovery courses build into the day for students to make up coursework required for graduation (0.67 FTE - 2 sections at BR, 3 sections at NU)	\$73,000.00	Yes
1.24	Academic Literacy	Additional sections of ELA support at Bear River (.17 FTE)	\$21,000.00	
1.25	4x8 Bell Schedule at Nevada Union & Bear River	Additional staffing for transition to 4x8 bell schedule at Nevada Union and Bear River (5.5 FTE)	\$687,500.00	
1.26	Math Co -Teaching	Nevada Union High School will offer five sections of co-taught Integrated Math 1, and Bear River High School will offer two sections. Teachers participating in co-teaching will engage in ongoing professional development and instructional coaching to strengthen collaborative planning and inclusive instructional practices. This structure is intended to	\$20,000.00	No

Action #	Title	Description	Total Funds	Contributing
		support students with IEPs in accessing and being successful with grade-level curriculum within a general education setting.		
1.27	Teacher Mentor Program	Initiate a Teacher mentor program, providing training and support for new teachers in instruction, lesson planning, instructional technology and organization systems.	\$20,000.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Promote the Safety, Well-Being, and Culture of the school and district community through equitable and inclusive practices for all.	Broad Goal

State Priorities addressed by this goal.

- Priority 3: Parental Involvement (Engagement)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)
- Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

The LCAP Advisory Committee reviewed the State's 8 Priorities alongside the 5 goals the NJUHSD Board of Trustees set for the Superintendent. Initially, District leadership felt two of the Superintendent's goals broadly covered the 8 state priorities; however, following feedback and review from the LCAP Committee, some additional areas of need were identified. Additional consideration was given to the 5 performance indicator areas identified on the "Nevada Joint Union High School District Scorecard", which outlines annual performance by site and district, relative to state performance in five main categories; enrollment, academic success, discipline, attendance and culture & student well-being. It was noted that "Culture & Student Well-Being" have become an area of increasing focus and need, particularly coming out of the pandemic and the LCAP Committee wanted to ensure that specific actions were being taken to "promote" safety, well-being, and culture, specifically through "equitable and inclusive practices for all."

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	Suspension Rates	The suspension rate for the 2022-23 school year was 6.3%. For homeless students, this rate was 16.9%. For socioeconomically disadvantaged students it was 9.6%. Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Analysis of Implementation for Goal 2 (2025–26)

Overall Implementation

In 2025–26, NJUHSD implemented a comprehensive set of actions aligned with Goal 2 focused on improving student well-being, safety, attendance, and engagement. These included restorative practices, Social-Emotional Learning (SEL) through the BASE curriculum, Multi-Tiered System of Supports (MTSS), On-Campus Intervention (OCI), and expanded student support services such as STARS Counseling, Wellness Centers, and additional mental health staffing. Overall, implementation was carried out largely as planned, with sustained emphasis on increasing access to supports and strengthening systems designed to promote positive school climate and student connectedness.

Implementation Outcomes and Effectiveness

Implementation of Goal 2 actions resulted in measurable improvements in several key indicators. Chronic absenteeism decreased by an additional 4.4%, representing an overall 10% reduction compared to baseline levels, indicating improved student engagement and attendance over time. Student perceptions of emotional safety also improved slightly by 0.7% compared to 2024–25 results, reflecting continued gains in school climate and access to supportive services. Although student comfort in seeking support from staff showed a slight decrease compared to the prior year, it remained higher than baseline levels, suggesting sustained improvement over time despite year-to-year variation.

CHKS survey results indicated increases in students’ perceptions of school safety and connectedness, demonstrating positive impacts from the combined implementation of SEL, restorative practices, and mental health supports. In addition, suspension and expulsion rates showed slight decreases, further contributing to improved overall school climate outcomes.

Implementation Successes

A notable success in 2025–26 was increased student participation in feedback systems. CHKS survey participation reached 90%, meeting the Year 3 target and strengthening the validity of student perception data. Additionally, participation in the LCAP student survey increased

by 31.9%, reflecting a meaningful expansion of student voice in school-level decision-making and continuous improvement processes. These increases in engagement provide more representative data to guide future planning and implementation.

Challenges and Areas for Continued Focus

While overall implementation was successful, results also indicate areas for continued refinement. Slight declines in student comfort seeking staff support suggest the need for continued emphasis on strengthening adult-student relationships and ensuring consistent access to trusted adults. Additionally, while suspension rates decreased modestly, continued attention is needed to ensure equitable outcomes across all student groups and to sustain progress in reducing exclusionary discipline.

Summary of Implementation

Overall, Goal 2 was implemented with fidelity and resulted in continued improvements in attendance, school climate, and student engagement. The combination of restorative practices, SEL instruction, and expanded student support services contributed to measurable gains in key indicators, while increased student participation in surveys strengthened stakeholder input and data quality. Continued focus on consistency of implementation and strengthening student-adult connections will be important for sustaining and building upon these gains in future years.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Under Goal 2, notable differences included both under- and over-expenditures. Certain programs like Breaking Down the Walls, BASE Curriculum, and Mental Health Supports were not implemented, resulting in no actual spending. Meanwhile, the Wellness Center, School Social Worker, and Transportation Services exceeded planned budgets due to increased demand or expanded services. Other areas, such as Public Relations and AFLP, were implemented below budget, reflecting adjusted scopes. These variances reflect the district's adaptive response to evolving student wellness needs while maintaining alignment with its strategic priorities.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Effectiveness of Actions in Making Progress Toward Goal 2

Overall, the actions implemented under Goal 2 during the 2025–26 school year were effective in advancing student well-being, safety, connectedness, and engagement. Implementation data across multiple indicators demonstrates measurable progress toward creating a more supportive, inclusive, and connected school environment for all students.

Mental health and social-emotional support services were among the most effective components of implementation. STARS Counseling services, Wellness Centers, and the school social worker at Silver Springs expanded access to individualized mental health supports and crisis intervention services. In addition, the BASE Social-Emotional Learning (SEL) curriculum and On-Campus Intervention (OCI) programs provided structured, restorative alternatives to exclusionary discipline practices and supported students in remaining connected to school.

Collectively, these actions contributed to a 5.6% increase in students reporting that they feel emotionally safe at school compared to baseline measures. (Actions 2.8–2.14)

Actions focused on student engagement, attendance, communication, and school connectedness were also effective. The implementation of restorative practices, family engagement systems such as ParentSquare, and targeted attendance interventions contributed to a 10% reduction in chronic absenteeism and a 3.4% increase in overall attendance compared to baseline. Additionally, California Healthy Kids Survey (CHKS) results showed an 11.7% increase in students' perceptions of school safety, indicating that coordinated efforts across prevention, intervention, and communication systems positively influenced school climate and student experience. (Actions 2.3–2.16)

Behavioral supports and campus supervision strategies also demonstrated positive effectiveness. Suspension and expulsion rates decreased overall, with particularly notable improvements for students with disabilities and socioeconomically disadvantaged students. The addition of Campus Supervisors, with responsibilities including student engagement, attendance monitoring, campus supervision, and support of On-Campus Intervention, strengthened implementation fidelity of behavior supports and contributed to improved perceptions of safety and increased adult presence on campus. (Actions 2.1, 2.2, 2.4, and 2.16)

While the majority of Goal 2 actions were effective in producing measurable improvements, data also indicate that continued focus is needed to sustain and deepen gains in attendance, student engagement, and school climate. Overall, the district's integrated approach—combining mental health supports, SEL instruction, restorative practices, family engagement systems, and targeted behavioral interventions—has been effective in moving toward the intended outcomes of increased student safety, connectedness, and well-being. Continued refinement and consistent implementation of these actions will be essential to further strengthen and sustain progress in future years.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Changes Made to Goal 2 Based on Reflections on Prior Practice

In response to updated 2025–26 data indicating an increase in suspension rates for students with disabilities at Bear River High School, resulting in this student group being identified in the “red” performance category on the 2025 California School Dashboard, targeted refinements have been made to Goal 2 to strengthen implementation fidelity and improve equitable outcomes for this population.

While existing Goal 2 actions—including restorative practices, Social-Emotional Learning (BASE), Multi-Tiered System of Supports (MTSS), and On-Campus Intervention (OCI)—have demonstrated effectiveness in improving overall attendance, engagement, school climate, and perceptions of safety, analysis of current data indicates that these systems have not been implemented with sufficient consistency or targeted supports to fully address disproportionate suspension outcomes for students with disabilities.

As a result, changes for the coming year focus on strengthening the fidelity, consistency, and targeted application of existing systems rather than introducing new initiatives. These refinements include increased coaching and professional development for staff on the use of restorative practices specifically when working with students with disabilities, clearer MTSS decision-making protocols designed to reduce reliance on exclusionary discipline, and more frequent monitoring of suspension data disaggregated by disability status at both the site and

district levels. These adjustments are intended to improve consistency of implementation, reduce disciplinary disproportionality, and more effectively leverage existing supports already in place.

Additionally, while California Healthy Kids Survey (CHKS) data reflected overall gains in student perceptions of safety and connectedness, data for the “multiracial” student group (previously reported as “two or more races”) was not available for non-traditional school settings in 2025–26 due to insufficient sample size. If valid data becomes available in future reporting cycles, these combined responses will be included to ensure more complete and accurate representation of student voice across all student groups, including those attending non-traditional school settings.

Action 2.17 Wellness Coordinator/Coach at Ghidotti Early College High School:

Based on LCAP educational partner feedback and identified student needs related to mental health, social-emotional support, and access to consistent on-site wellness services, the district will add a 0.5 FTE Wellness Coordinator/Coach at Ghidotti Early College High School.

This position will expand student wellness and support services by providing direct student support and strengthening coordination of social-emotional and behavioral interventions. It will also improve collaboration among staff to support timely response to student needs and connections to appropriate resources.

Overall, these refinements reflect a continued commitment to improving implementation fidelity, strengthening equitable outcomes, and ensuring that existing successful practices are more consistently and effectively responsive to the needs of students with disabilities.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Breaking Down the Walls	Breaking Down the Walls programming to support healthy school culture efforts on district campuses.	\$15,800.00	No
2.2	Equity and Inclusion Initiative	Safety, Well-being, and School Culture Initiative, including consultation and training for review of policies, curriculum, and procedures.	\$0.00	Yes
2.3	Parent Square	Automated calling, email and text system for mass communication to students and staff. Supports communication, engagement, and safety practices on district campuses.	\$15,000.00	

Action #	Title	Description	Total Funds	Contributing
2.4	Restorative Practices Coordinator	Teacher on Special Assignment position to support the development and implementation of a comprehensive restorative practices program on district campuses. This position is supported by the Antibias Grant.	\$173,829.00	
2.5	Public Relations	Funding to enhance public relations and community/parent engagement practices. Support for website services/review, and other services, publications and enhancements (counseling website, District Literary Magazine, etc.)	\$15,000.00	No
2.6	Transportation Services	Transportation services are provided for home to school transportation for all students, principally directed at supporting student/families lacking sufficient means to get to school.	\$1,425,432.00	Yes
2.7	Adolescent Family Life Program (AFLP)	Case management services for early pregnancy support. This position is supported by outside county grants. Funding supports staffing, materials and supplies, and program software.	\$35,147.90	No
2.8	BASE Education Curriculum	Social-emotional learning (SEL) curriculum used for tier one instruction, as well as in response to student incidents during oncampus intervention.	\$0.00	No
2.9	STARS Counseling	Licensed therapists to provide mental health support to students referred to the STARS program (Student Assistance Resources and Support).	\$554,780.00	No Yes
2.10	Mental Health Supports	Training and professional development surrounding mental health supports (non-violent communication, teen mental health, mindfulness)	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
2.11	School Social Worker - SSHA	Addition of a school social worker to support the counseling and social-emotional needs of students at Silver Springs High School.	\$151,882.00	No
2.12	Wellness Center	Wellness centers have been established and will be maintained at NU, BR and SS, enabling both drop in student support and supporting students who have been referred for regular services.	\$675,024.00	No
2.13	On Campus Intervention (OCI)	On campus intervention provides an alternative to suspension when the infractions and circumstances warrant and is an option at BR, NU, and SS. In this setting student receive intervention specific to their infraction and are able to continue with course work in a guided setting.	\$205,900.00	No
2.14	STARS Coordinator	Student Assistance Resource & Services program for providing counseling, therapy and mental health referral services for students in need.	\$157,000.00	Yes
2.15	9th Grade Transition Support	Curriculum and intervention designed for 9th-grade students identified as requiring additional academic or social-emotional supports.	\$0.00	No
2.16	Campus Supervision	Campus Supervisor to support student engagement through student check-ins, attendance follow-up, campus security, and OCI supervision	\$65,800.00	No
2.17	Wellness Coordinator/Coach	0.5 FTE Wellness Coordinator/Coach to expand student wellness and support services at Ghidotti. This position will expand student wellness and support services by providing direct student support and strengthening coordination of social-emotional and behavioral interventions. It will also improve collaboration among staff to support timely response to student needs and connections to appropriate resources.	\$34,320.00	No

Action #	Title	Description	Total Funds	Contributing

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Students will develop and demonstrate the knowledge, attitudes, and skills necessary for success in College, Career & Life.	Broad Goal

State Priorities addressed by this goal.

<p>Priority 4: Pupil Achievement (Pupil Outcomes)</p> <p>Priority 5: Pupil Engagement (Engagement)</p> <p>Priority 8: Other Pupil Outcomes (Pupil Outcomes)</p>

An explanation of why the LEA has developed this goal.

The LCAP Advisory Committee reviewed the State's 8 Priorities alongside the 5 goals the NJUHSD Board of Trustees set for the Superintendent. Initially, District leadership felt two of the Superintendent's goals broadly covered the 8 state priorities; however, following feedback and review from the LCAP Committee, some additional areas of need were identified. Additional consideration was given to the 5 performance indicator areas identified on the "Nevada Joint Union High School District Scorecard", which outlines annual performance by site and district, relative to state performance in five main categories; enrollment, academic success, discipline, attendance and culture & student well-being. It was noted that under the heading of "Academic Success" the district has historically had a robust focus on Career Technical Education (CTE), as well as ensuring that student experiences in high school are relevant to life after high school, ranging from college preparedness, life preparedness, and/or career preparedness. Given that this focus is a prominent part of the "experience" that students in the district are afforded and a priority for our local industries, which work very collaboratively with our students and schools, it was determined that a third goal was warranted.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	College and Career Readiness Indicator	CCI Indicator for the 2022-23 school year - 35.6% Prepared.	CCI Indicator for the 2023-24 school year - 33.3% Prepared. 3.6	Graduation Credit Deficiency	At the end of the Fall semester of the 2022-23 school year, 6.8% (139/2,043) of comprehensive school site students were credit deficient, based on the criteria established by the counseling department.	At the end of the Fall semester of the 2024-25 school year, 3.7% of comprehensive school site students were credit deficient, based on the criteria established by the counseling department.	At the end of the Fall semester of the 2025-26 school year, 1.7% of comprehensive school site students were credit deficient, based on the criteria established by the counseling department.	2026-27: No more than 5% of comprehensive school site students will be credit deficient, based on the criteria established by the counseling department.	Change from 2022-23 to 2024-25: -Percentage of pupils who were credit deficient, based on the criteria established by the counseling department decreased by 5.1%
3.7	Graduation Rate	The NJUHSD graduation rate for the 2022-23 academic year was 86.5%	The NJUHSD graduation rate for the 2023-24 academic year was 88.2%	The NJUHSD graduation rate for the 2024-25 academic year was 89.7%	2026-27: The NJUHSD graduation rate will exceed 90%.	Change from 2022-23 to 2024-25: -Graduation rate increased by 3.2%
3.8	Dropout Rate	The NJUHSD 4-yr adjusted cohort dropout rate for the 2022-23 academic year was 9.2% (55/600)	The NJUHSD 4-yr adjusted cohort dropout rate for the 2023-24 academic year was 9.97% (60/602)	The NJUHSD 4-yr adjusted cohort dropout rate for the 2024-25 academic year was 7.88% (51/647)	In alignment with state performance for 2026-27: The NJUHSD 4-yr adjusted cohort dropout rate will not exceed 6.5%.	Change from 2022-23 to 2024-25: Dropout rate decreased by 2.7%

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Goal 3 Analysis: 2025-26 Implementation

During the 2025–26 school year, Goal 3—focused on ensuring students develop and demonstrate the knowledge, attitudes, and skills necessary for success in college, career, and life—was broadly implemented as planned.

Action 3.5: staffing support for the NPA Student Center. This action was implemented beginning in the 2024-25 school year and was aimed to foster a welcoming environment and provide students with access to a trusted adult during school hours. The initiative responded to

student well-being needs and has continued to be well-received.

In contrast, a planned metric faced data limitations or unexpected discrepancies:

Metric 3.2 (A-G Completion Rate): The reported decline from 26.4% to 21.5% was attributed to mechanical errors and omissions after changing the student information system which skewed district-wide averages and reflected a false low.

Successes and Challenges

Successes included:

- An increase in AP pass rates from the baseline of 55% to 74% which exceeds the year 3 target outcome.
- A decrease in credit deficiency from the baseline of 6.8% to 1.7%, indicating strong progress in academic achievement and student support.
- Graduation rates also improved to 89.7% in 2024-25 from the baseline of 86.5%.
- The NJUHSD 4-yr adjusted cohort dropout rate for the 2024-25 academic year was 7.88% (51/647) which represents a decrease compared to the baseline of 9.2% (55/600) in the 2022-23 academic year.
- CTE internships increased by 110 to 146 students being placed in CTE internships representing a major increase from the baseline of 36 students in the 2022-23 academic year.
- CTE pathway completers increased to 28.6% of students from the baseline of 13%.
- College and Career Readiness Indicator improved to 44.7% in 2024-25 from the baseline of 35.6% which exceeds the year 3 target outcome.

Challenges centered on data integrity and representation, especially concerning A-G completion metrics. These factors will be addressed in the next planning cycle to ensure more accurate and actionable evaluations.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 3 saw a mix of aligned and varied expenditures. The CTE Teachers action had lower actuals than budgeted, again due to actual staffing costs being lower than projected averages. The CTE Curriculum Development action was not implemented, accounting for a full underspend. Actions supporting Advanced Placement and low-enrolled AP/dual enrollment courses closely matched budget expectations. These

differences reflect typical fluctuations in personnel costs and implementation timing, without disrupting the district's efforts to expand postsecondary readiness.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Effectiveness of Actions in Progress Toward Goal 3

The actions implemented under Goal 3 have shown mixed but overall positive effectiveness in advancing college, career, and life readiness for students.

Effective Actions:

Action 3.1 (CTE Teachers): Continued investment in high-quality CTE instructors (16 FTE) contributed to a 2.1% increase in CTE course sequence completion. This suggests growing student engagement in career pathways and alignment with postsecondary readiness.

Action 3.2 (Advanced Placement Supports): Funding for AP exam preparation and support services proved highly effective, resulting in an 8.6% increase in students passing AP exams with a score of 3 or higher. This marks significant progress in academic rigor and college preparedness.

Action 3.4 (CTE Curriculum Development): Although modest in funding, this action has supported enhancements aligning CTE courses with A-G and dual enrollment standards, reinforcing the district's commitment to comprehensive college and career readiness.

Action 3.5 (NPA Student Center Staffing): As a newly implemented action, feedback indicates it is addressing student wellness and engagement needs.

Partially Effective Actions:

Action 3.3 (Low-Enrolled AP/Dual Enrollment Courses): While this action maintained access to critical coursework, its impact is not directly reflected in the metrics provided. Further analysis may be needed to assess its contribution to student outcomes.

Areas Requiring Attention:

Despite the above successes, challenges remain:

The decline in A-G completion rates—largely due to inaccurate reporting—undermines the perception of academic progress. Correcting these data discrepancies will be essential for fair evaluation.

Overall, the actions under Goal 3 have largely supported forward momentum toward district priorities, with targeted adjustments needed to strengthen impact and improve data reliability.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Reflections and Resulting Changes to Goal 3 for the Coming Year

Based on analysis of implementation during the 2025–26 school year, a change has been made to Goal 3 to address identified gaps and improve effectiveness moving forward:

Adjustment to Metric 3.2 (A-G Completion):

After identifying inaccuracies in the original data—adjustments were made in transcript review practices to ensure more accurate representation of districtwide achievement. Moving forward, efforts will continue to focus on ensuring comprehensive data collection and advocacy for inclusive state reporting practices.

These reflections have resulted in a more responsive, data-informed, and student-centered approach to achieving the overarching goal of preparing students for success in college, career, and life.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	Silver Springs Continuation High School will improve ELA proficiency, promote College and Career Readiness, and ensure an increase in the graduation rate, while actively lowering suspension rates, with a focus on supporting socioeconomically disadvantaged, homeless, and students with disabilities, through targeted interventions and supports.	Equity Multiplier Focus Goal

State Priorities addressed by this goal.

<ul style="list-style-type: none"> Priority 2: State Standards (Conditions of Learning) Priority 4: Pupil Achievement (Pupil Outcomes) Priority 5: Pupil Engagement (Engagement) Priority 6: School Climate (Engagement)
--

An explanation of why the LEA has developed this goal.

Analysis of the 2023 Dashboard data indicated that Silver Springs Continuation High School students had lower performance in English Language Arts, fewer students prepared on the College and Career Indicator, a lower graduation rate and a higher suspension rate, particularly for students who are socio-economically disadvantaged, homeless, or are students with disabilities. These factors have resulted in SS being an Equity Multiplier School site. Additionally, feedback on the 2024 LCAP survey, specific to SS students, families, and staff, as well as the feedback received through the LCAP Committee process indicated that while the site offers many supports, the needs of the students still exceed the staff's ability to ensure students are attending regularly, as well as getting the academic and social-emotional support they need to successfully complete the graduation requirements.

Measuring and Reporting Results

The graduation rate of socioeconomically disadvantaged students was 53.1% and white students was 59.6%.	SS's 3-year average graduation rate for the cohort will exceed 68% and the graduation rate of socioeconomically disadvantaged students and white students will also exceed 68%.	Change from 2022-23 to 2024-25: -SS's graduation rate decreased 15.8% -The three-year average decreased 1.3% -The graduation rate of SED students decreased 9.4% -The graduation rate for white students decreased 6.6%

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Analysis of Implementation for Goal 4 (2025–26)

Overall Implementation

During the 2025–26 school year, Silver Springs Continuation High School implemented Goal 4 with a focus on improving English Language Arts (ELA) achievement, promoting college and career readiness, increasing graduation rates, and reducing suspension rates, particularly for socioeconomically disadvantaged students, students experiencing homelessness, and students with disabilities. Planned actions were largely implemented as intended, including foundational literacy supports within ELA instruction, college and career readiness activities through Silver Strong and Senior Strong courses, attendance interventions, and restorative discipline practices. The school continued to prioritize targeted academic and behavioral supports designed to meet the unique needs of continuation high school students.

Substantive Differences Between Planned Actions and Actual Implementation

One substantive adjustment was made to Action 4.1 during implementation. The Career Choices curriculum originally planned for use in the Silver Strong and Senior Strong courses was reduced and replaced with staff-developed content designed to better address the academic, social-emotional, and transition needs of Silver Springs students. This adjustment increased the relevance and responsiveness of instruction while maintaining the overall intent of supporting college and career readiness. No other significant changes were made to the planned actions during the year.

Successes Experienced During Implementation

Several positive outcomes were observed during implementation. ELA achievement remained significantly above baseline levels. According to Metric 4.1, SBAC ELA proficiency increased from 1.56% in 2022–23 to 20% in 2023–24 and remained relatively stable at 19% in 2024–25. Although proficiency declined by one percentage point from the prior year, performance reflects a 17.44 percentage point increase overall and a 40.6-point improvement in standards-based performance compared to baseline. Continued implementation of Fast ForWord and other foundational literacy supports within core ELA instruction contributed to maintaining these gains.

Another significant success was the reduction in suspension rates. Metric 4.4 decreased from 30% to 13.2%, including substantial reductions among students with disabilities and socioeconomically disadvantaged students. These improvements are largely attributable to the school's implementation of restorative practices and an increased emphasis on interventions, relationship-building, and student support rather than punitive disciplinary responses. The reduction in suspensions reflects meaningful progress in improving school climate and student engagement.

Challenges Experienced During Implementation

Several challenges persisted during implementation. Chronic absenteeism remained high and increased from 91.7% in 2023–24 to 94.1% in 2024–25. Despite ongoing attendance interventions and outreach efforts, attendance continues to be a significant barrier affecting student achievement, engagement, and graduation outcomes.

Graduation outcomes also declined during the year. The single-year graduation rate decreased to 55.1%, while the three-year average graduation rate declined to 61.6%. These results are partially attributable to the school's transition from a school-of-choice model to a more traditional continuation school serving students with significant credit deficiencies and elevated academic risk factors. As a result, the school is serving a population with increasingly complex academic and attendance challenges.

College and career readiness also remains an area of need. While the College/Career Indicator improved slightly from 0.9% in 2024 to 1.5% in 2025, growth was limited. Although the revised Silver Strong and Senior Strong curriculum provided more relevant and responsive instruction, the changes were not directly tied to CCI measures and therefore had limited impact on this indicator.

Analysis of Goal Implementation

Overall, Goal 4 was implemented with fidelity and remained focused on addressing students' academic, behavioral, and social-emotional needs. The school successfully maintained significant gains in ELA achievement and achieved substantial reductions in suspension rates through restorative and supportive practices. At the same time, chronic absenteeism, declining graduation rates, and limited college and

career readiness outcomes continue to present significant challenges. Adjustments made during implementation reflect the school's commitment to responding to student needs and improving the effectiveness of services provided to its continuation high school population.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 4 reflected several material differences due to variations between projected and actual staffing costs, as well as implementation timing. The Student Service Specialist and Title I Intervention Case Manager actions exceeded budget expectations, likely due to expanded roles or service demands. Other actions, such as FastForward and Silver Strong, experienced variances consistent with adjustments in program use and timing throughout the year. These fluctuations were typical of mid-year implementation shifts and did not hinder overall progress in improving student engagement and support.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions implemented under Goal 4 at Silver Springs Continuation High School have demonstrated varying levels of effectiveness in advancing progress toward improved academic achievement, school climate, attendance, graduation rates, and college and career readiness.

Several actions have proven effective in supporting student outcomes. Reading intervention supports, including the implementation of Fast ForWord (Action 4.3), have contributed to significant gains in English Language Arts achievement. SBAC ELA proficiency increased from a baseline of 1.56% to 19%, representing substantial growth in student performance and suggesting that targeted literacy interventions have been successful in addressing foundational reading deficits. Similarly, behavioral supports and restorative practices (Actions 4.4–4.6) have been highly effective in improving school climate. Suspension rates decreased from 30% to 13.2%, including notable reductions among students with disabilities and socioeconomically disadvantaged students. Increased utilization of restorative practices, counseling supports, and Alcohol and Other Drug (AOD) intervention services has contributed to a more supportive and intervention-focused approach to student behavior.

Several actions have been partially effective. Curriculum enhancements through Silver Strong and Senior Strong courses (Action 4.1) have increased student engagement and allowed staff to provide more responsive instruction aligned with student needs. However, these efforts have not yet translated into substantial improvements in College/Career Indicator outcomes or graduation rates. College and career readiness efforts resulted in only modest growth, with the College/Career Indicator increasing from 0.9% to 1.5%, remaining well below desired levels. The Student Service Specialist position (Action 4.2) has supported attendance interventions and family outreach efforts; however, chronic absenteeism increased from 91.7% to 94.1%, indicating that while supports have been implemented, they have not yet been sufficient to overcome the significant attendance challenges faced by the student population. Likewise, the Title I Intervention Case Manager (Action 4.7) has contributed to improved student support and reductions in disciplinary incidents among high-need students, but these efforts have not yet resulted in sustained improvements in graduation outcomes, which declined to 55.1% for the single-year rate and 61.6% for the three-year average.

Some actions were less effective or were not fully implemented. The Board Certified Behavior Analyst position (Action 4.8) had limited impact due to the restricted level of service available to the site. With support limited to approximately one day per week, the position was unable to

consistently influence schoolwide behavior systems, staff practices, or individualized interventions to the extent originally intended. In addition, Universal Design for Learning (UDL) professional development (Action 4.4) was not implemented during the 2025–26 school year due to competing priorities and limited staff capacity. As a result, an opportunity to strengthen inclusive instructional practices and improve access to learning for students with diverse needs was deferred.

Overall, the most effective actions under Goal 4 have been those focused on targeted literacy intervention and restorative approaches to student behavior, both of which produced measurable improvements in student outcomes. Areas showing limited effectiveness include attendance improvement, college and career readiness, and graduation rate outcomes, which continue to be significantly impacted by the complex needs of a highly credit-deficient and chronically absent student population. The analysis suggests that continued investment in academic intervention and behavioral supports should be maintained, while attendance, postsecondary readiness, and instructional capacity-building efforts require refinement and additional support to achieve desired outcomes.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Changes Made to Goal 4 Based on Reflections on Prior Practice**

Due to low participation in the Free and Reduced-Price Meal application process, likely influenced by the implementation of California's Universal Meals Program, Silver Springs High School did not meet the eligibility threshold for Equity Multiplier funding for the 2025–26 school year. As a result, Equity Multiplier-funded actions were discontinued and Goal 4 was revised to align available resources with identified student needs.

Staffing Adjustments (Action 4.7)

Following the restructuring of Silver Springs during the 2024–25 school year and a resulting decline in student enrollment, Action 4.7 was revised to reduce the Title I Intervention Case Manager position and reallocate staffing resources to better support students through existing site structures and services. This adjustment reflects the need to align staffing levels with enrollment while maintaining targeted student support services.

Curriculum Revisions and College/Career Readiness (Action 4.1)

Based on staff feedback, student needs, and reflection on the limited impact of the existing curriculum on postsecondary readiness outcomes, Action 4.1 was revised. The Career Choices curriculum was removed from the Silver Strong course and replaced with a locally developed curriculum designed by site educators. The revised curriculum is intended to increase student engagement while better addressing the academic, social-emotional, and transition needs of continuation high school students.

In addition, because College/Career Indicator (CCI) outcomes have remained below desired levels, the revised Silver Strong curriculum will place a greater emphasis on postsecondary planning, career exploration, goal setting, employability skills, and progress monitoring. These changes are intended to strengthen college and career readiness and improve future CCI outcomes. ****(Action 4.1)****

Independent Study Option to Address Attendance and Credit Deficiencies (Action 4.11)

Analysis of attendance patterns and graduation data identified transportation barriers and inconsistent attendance as factors limiting some students' ability to earn credits and remain on track for graduation. In response, Action 4.11 was added to allow up to 10 percent of Silver Springs students to participate in an independent study program beginning in 2026–27. This option is intended to provide greater flexibility for credit-deficient students and those facing transportation challenges while maintaining access to educational services and graduation pathways.

Expanded Mathematics Access and Support for Students with Disabilities (Action 4.9)

Review of graduation data identified completion of the district's 30-credit mathematics requirement as a significant barrier for many students, particularly students with disabilities. To address this challenge, Action 4.9 was added to expand co-taught Integrated Math 1 opportunities at Nevada Union High School and Bear River High School.

Beginning in 2026–27, Nevada Union High School will offer five co-taught Integrated Math 1 sections and Bear River High School will offer two co-taught sections. Each class will pair a mathematics teacher and Education Specialist who will collaboratively co-plan and co-instruct to provide increased access to grade-level curriculum, embedded supports, and targeted intervention within the general education setting. Participating teachers will also receive ongoing professional development and coaching focused on effective co-teaching practices and inclusive instructional strategies. This action is intended to improve mathematics achievement and increase the likelihood that students transferring to Silver Springs have already earned Integrated Math 1 credit. ****(Action 4.9)****

Expanded Credit Recovery Opportunities (Action 4.10)

Analysis of graduation outcomes also identified the need for more flexible credit attainment options for students who require courses that may not fit within the traditional master schedule. As a result, Action 4.10 was added to incorporate dedicated credit recovery opportunities within the Silver Springs master schedule. This change will allow students to recover credits in a broader range of courses, increase opportunities for credit completion, and support improved graduation outcomes. ****(Action 4.10)****

Overall, these changes reflect a continuous improvement process in which site and district staff used implementation data, student outcome measures, and stakeholder feedback to refine Goal 4 actions and better address student needs. The revisions are intended to improve attendance, increase graduation rates, strengthen college and career readiness outcomes, and provide more responsive academic supports for Silver Springs students.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Career Choices	Career Choices curriculum/follow-up modules will be incorporated into Silver Strong supporting students in the development of 10 year plans, supporting graduation, college/career goals, as well as offering dual enrollment, thereby increasing the CCI.		No
4.2	Student Service Specialist	Increase the Student Service Specialist position to provide support for the SAM and SARB processes.	\$21,500.00	No
4.3	FastForward	FastForward (or an equivalent) reading intervention will be embedded into ELA courses to ensure that all student have scaffolding to support foundational reading skills.	\$2,750.00	No
4.4	Universal Design for Learning	UDL training will be provided for staff and incorporated into core classes, ensuring that all lessons leverage a variety of strategies.	\$10,000.00	No
4.5	Silver Strong & Senior Strong	Section of Silver Strong with embedded Career Choices curriculum to support CCI, graduation rates, and SEL goals.	\$75,000.00	No
4.6	Alcohol and Other Drugs Group	Weekly AOD group offerings to mitigate suspensions and support student's with strategies to move them away from dependency.	\$20,000.00	No
4.7	Title I Intervention Case Manager	Classified position that casemanages the most intensive students, related to attendance, academics, and SEL.	\$22,000.00	

Action #	Title	Description	Total Funds	Contributing
4.8	BCBA	Board Certified Behavior Analyst position, one day a week to support all students demonstrating behaviors. Additionally, supports staff in interactions and policy.	\$50,343.00	
4.9	Math Co-teaching	Nevada Union High School will offer five sections of co-taught Integrated Math 1, and Bear River High School will offer two sections. Teachers participating in co-teaching will engage in ongoing professional development and instructional coaching to strengthen collaborative planning and inclusive instructional practices. This structure is intended to support students with IEPs in accessing grade-level curriculum within a general education setting and to ensure they can earn and/or transfer credits more effectively if they transition to Silver Springs High School. Silver Springs High School has a higher percentage of students with IEPs than the comprehensive and other alternative high schools.	\$5,000.00	No
4.10	Credit Recovery	Silver Springs will offer two credit recovery sections next year to support students' efforts to meet all graduation requirements: 1 section will focus on English and 1 section will be open for any other subject.	\$36,850.00	Yes
4.11	Independent Study	Beginning in 2026-27 up to 10% Students will be able to engage in their education using an independent study model through Silver Springs to help support credit deficient students with transportation challenges.	\$0.00	No

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Students, particularly those who are low income, have greater odds of not graduating due to insufficient credits.</p> <p>Scope: LEA-wide</p>		
2.2	<p>Action: Equity and Inclusion Initiative</p> <p>Need:</p> <p>Scope: LEA-wide</p>	<p>The district’s Equity and Inclusion Initiative is principally directed toward addressing identified disparities experienced by unduplicated student groups, including English learners, low-income students, foster youth, and students experiencing barriers to school connectedness, belonging, and equitable access to rigorous academic opportunities. Although implemented districtwide, the initiative is designed to improve culturally responsive practices, strengthen inclusive school climates, expand access to student supports, and increase staff capacity to identify and address inequities that disproportionately impact these student groups.</p>	<p>2.1 Suspension Rates</p> <p>2.3 Attendance Rates</p> <p>2.6 LCAP Survey - Students feel emotionally safe at school</p> <p>2.10 CHKS survey - connectedness</p>
2.6	<p>Action: Transportation Services</p> <p>Need:</p> <p>Scope: LEA-wide</p>	<p>The district’s Transportation Services action is principally directed toward addressing barriers to school access and consistent attendance experienced by unduplicated student groups, including low-income students, foster youth, and students experiencing housing instability or transportation challenges. While transportation services are provided on a districtwide basis, the action is designed to ensure equitable access to educational programs, interventions, extracurricular opportunities, and school attendance for students who may otherwise face significant obstacles in accessing school consistently.</p>	<p>2.3 Attendance Rates</p> <p>2.4 Chronic Absenteeism Rate</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
2.9	<p>Action: STARS Counseling</p> <p>Need: The number of students showing a warranted need for additional therapy supports while attending school have increased substantially since the global pandemic.</p> <p>Scope: LEA-wide</p>	Increasing access to therapists across the district is necessary to ensure we support improving greater overall student well-being.	2.7
2.14	<p>Action: STARS Coordinator</p> <p>Need: The number of students showing a warranted need for additional therapy supports while attending school have increased substantially since the global pandemic.</p> <p>Scope: LEA-wide</p>	A coordinator for STARS therapy services will ensure greater access for those students with the greatest needs.	2.7
4.10	<p>Action: Credit Recovery</p> <p>Need: Low Graduation Rate</p> <p>Scope: Schoolwide</p>	This will support students' efforts to meet all graduation requirements	4.5

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
1.6	<p>Action: English Language Development</p> <p>Need: Support for students who are English Learners and who scored at a level 1 or 2 on the ELPAC. Increased enrollment of EL students at Bear River and inconsistent English Learner progress towards English proficiency in AY 25-26 districtwide.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	This support class offers elective credit with a focus on learning English, while also allowing opportunities to practice concepts tested on the ELPAC, given annually.	1.2 English Learner progress towards English proficiency (ELPAC)
1.7	<p>Action: English Learner Paraeducator Support</p> <p>Need: Support for students who are English Learners, particularly those who scored at a level 1 or 2 on the ELPAC.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	Provides strategic classroom support for those EL students with the greatest need, while providing a mechanism of monitoring all EL student in their acquisition of English, as they work towards reclassification and graduation.	1.2 English Learner progress towards English proficiency (ELPAC).
1.19	<p>Action: Supplemental EL Materials</p> <p>Need: Students who are designated as English Learners are not being designated as English</p>	By providing appropriate materials for EL students, they will have the additional support necessary to gain fluency at a rate that more closely aligns with the state average.	1.2

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>fluent at the same rate as is common across the state.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>		
1.20	<p>Action: EL After School Tutoring</p> <p>Need: Students who are designated as English Learners are not being designated as English fluent at the same rate as is common across the state.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	By providing tutoring for EL students, they will have the additional support necessary to gain fluency at a rate that more closely aligns with the state average	1.2
1.21	<p>Action: EL Supported Studies</p> <p>Need: Students who are designated as English Learners are not being designated as English fluent at the same rate as is common across the state.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	By providing an additional support class for EL students, they will have the additional scaffolding necessary to gain fluency at a rate that more closely aligns with the state average.	1.2
1.22	<p>Action: Tutoring</p> <p>Need:</p>	After school tutoring will support the academic needs of historically underserved pupils.	1.1

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>Unduplicated pupils often don't find the same support as their peers, as illustrated by performance on the CAASPP.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>		
3.2	<p>Action: Advanced Placement Supports</p> <p>Need: Low income students are historically underserved in AP courses.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	By providing funding to cover the cost of AP tests specific to low income students, as well as further AP training for staff, we believe AP access will be increased.	3.5

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
 - (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
 - An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of EC Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none"> • Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
