

## 8/1/2025 -Food Service Report – Mike Bottarini, Director of Food Services.

### Summer Program – Total meals served – 38,398

Non-congregate (7 day meal pick up / delivery) – 34,538 - Congregate – 3860 meals

Summer Program was a big success. Overall, we increased our participation 8,154 meals from last summer. I'm very proud of my team and what they were able to accomplish. Great job.

### Administrative review – SSO – Exit Meeting 7/29/25

We had one minor finding that requires Corrective Action and no financial penalty is associated with the issue. All required CAD documents and paperwork will be submitted before the due date of August 12.

#### 1. Public Notification for Congregate Feeding Sites:

I did not correctly inform the public about our congregate feeding site locations.

While I did send an email to all staff, that did not meet the requirement for public notification. This will be a simple fix moving forward.

On a positive note, we received a commendation from the reviewer for our non-congregate feeding efforts, which is something to be very proud of.

### Claims- Summer Complete

June -\$78,635.23 / July- \$104,315.58 Summer Total – \$182,950.81
