RE: RFP No. B2026-03
Metro Ethernet (E-Rate)

The following question was received as RFI for the above referenced RFP:

Question #1 – “Our team has a question regarding the current infrastructure in place – does this infrastructure support 10Gb today and will it support any speeds above 10Gb for the life of this RFP (36 Months) ?”

Answer #1 - Yes, the current infrastructure supports 10Gb today and we will not need any individual connection to support over 10Gb for the life of the RFP (36 Months).
