RE: TB Clearance Record

In accordance with CA State law (AB 1667), RUSD must obtain a copy of your TB clearance for the safety of our students and staff. We will need a copy of your TB Risk Assessment or TB clearance (skin test or chest x-ray) for our records. Clearances are mandatory and the first one must have been done within the last 60 days. Once you have provided the clearance, it is valid for four years from the assessment or test date. If you do not have a current TB clearance, you will need to have a TB risk assessment initially. Per Education Code Section 49406 and Health and Safety Code Sections 121525-121555, a skin test is not required. The Adult TB Risk Assessment Questionnaire replaces the skin test.

Please note: If there is a yes response to any of the questions on the assessment, then a tuberculin skin test or chest x-ray must be performed. The medical practitioner will advise you.

You may make an appointment with your own doctor or obtain a TB assessment and or test from the following providers. The costs listed are not guaranteed and are subject to change without notice. Call to determine the current cost.
