

SENIOR STUDENT TESTIMONIALS

"ODLP has been game-changing to my lifestyle and mental health. It allows me to work at my own pace, free up time for passions, and work better with technology."

Mateo Reynolds, Midyear Grad
Class of 2025 Oak Ridge High School

"ODLP has been working great for me. I have still been a part of the senior events and I really enjoy that. I have had a lot more free time to work and do other school which has been really nice."

Sophia Abuzov
Class of 2025 Union Mine High School

"I like ODLP. I get to work in the comfort of my room which helps me focus. I feel like I get more attention from teachers now than when I was in a classroom. Overall, I am learning better time management and how to be more independent."

Kailey Dosh
Class of 2025 Ponderosa High School

QUESTIONS

What is EDUHSD Online?

This online learning program has transformed tremendously over the past 4 years from "distance learning" to a comprehensive program for students to learn in an alternative environment. We focus on the same standards and challenge students to strive for their best with rigorous interactive coursework with a reduction of distractions. Students have the flexibility to complete their work at home.

Attendance:

EDUHSD Online is an online, independent study program, however, DAILY attendance (Tue-Fri) and participation are MANDATORY in Zoom or Google Meet for live-taught, synchronous classes. Each student has live-taught classes for core academic subjects. Mondays and 7th period class times are reserved for completing independent study coursework and Office Hours. Attendance is based on a combination of being physically present in the Zoom/Google meet class and completing assigned work.

Athletics/Extra-Curricular Programs:

Students participating in EDUHSD Online remain enrolled at their school of residence and are eligible to participate in athletics or after school extracurricular activities following school procedures and regulations.
