1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

California Heritage YouthBuild Academy II used Proposition 28 Arts and Music in Schools funds to support expanded arts education through a full-time Arts teacher and related program supports. Because the annual Prop 28 allocation was not sufficient to cover the full cost of the position, Prop 28 funds paid for a portion of the teacher's salary and benefits, with the remaining cost supported by other allowable school funds. This allowed CHYBA to provide students with increased access to visual arts, music, creative design, media, and hands-on arts learning experiences that support artistic expression, engagement, confidence, and career-connected learning.

CHYBA serves students who often benefit from flexible, applied, and project-based instructional models. The arts program provides meaningful opportunities for students to develop creativity, collaboration, communication, and problem-solving skills through visual art projects, creative production, design-based assignments, and integrated schoolwide projects. Prop 28 funds supplement the existing educational program by helping make arts education more accessible and sustainable for students in CHYBA's alternative education setting.
