

# Bayshore Elementary School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan. An IPM plan is required if a school district uses pesticides<sup>1</sup>.

## Contacts

<b>BAYSHORE ELEMENTARY SCHOOL DISTRICT</b>	<b>155 ORIENTE STREET, DALY CITY, CA 94014</b>	
School District Name	Address	
<b>ANNETTE LEGASPI, FISCAL MANAGER</b>	<b>(415) 467-5443</b>	<b>alegaspi@thebayshoreschool.org</b>
District IPM Coordinator	IPM Coordinator's Phone Number	Email Address

## IPM statement

It is the goal of Brisbane School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to:

- maintain facilities that are clean, as sanitary as possible, and as inhospitable to pests as possible
- use alternative and natural means of pest management that utilize pesticides and other chemical treatments as little as possible

## IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Principal	- Oversee overall cleanliness of school sites and grounds - Make recommendation for IPM purchases/contracting
Custodian	- Maintain overall cleanliness of school sites and grounds - Make recommendation for IPM purchases/contracting - Comply with Healthy Schools Act requirements
School Site Staff	- Assist in maintaining overall cleanliness of school sites - Comply with Healthy Schools Act requirements

## Pest management contracting

Some pest management services will be contracted when needed to a licensed pest control business.

Pest Control Business name(s):

- Clark Pest Control 485 O'Neill Avenue, Belmont, CA 94002 800-244-0040

Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

## Pest identification, monitoring and inspection

<sup>1</sup> These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack or crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)

Pest Identification is done by: Custodian

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by Custodian and results are communicated to the Principal.

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

- Visual inspection of common locations
- Communication with school site staff about recent activity
- Regular inspections of monitoring stations
- Regular inspections of grounds

### Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Ants	✓	✓	✓	✓	✓			Baits
Roaches	✓	✓	✓	✓	✓	✓		Baits
Mice/Rats	✓	✓	✓	✓	✓	✓		Baits
Squirrels or other non-subterranean wildlife	✓			✓	✓	✓		Repellents
Gophers/Moles						✓		Repellents
Weeds		✓	✓		✓		✓	Herbicides

### Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

- Lysol products
- Advion gel ant bait

### Healthy Schools Act

This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 – 17613, 48980.3; Food & Agricultural Code Sections 13180 – 13188)

### Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

### Submittal of pesticide use reports

Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt<sup>1</sup> from HAS recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at [www.cdpr.ca.gov/schoolipm](http://www.cdpr.ca.gov/schoolipm). (Education Code Section 16711)

**Notification**

This school district has made this IPM plan publicly available by the following methods:

- This IPM plan can be found online at the following web address: [thebayshoreschool.org](http://thebayshoreschool.org)

**Review**

This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true

Date of next review: July 2026

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature: Bhama Neel Date: 4.2.26
