Silent Disco Explained

Never heard of it?
Let us explain it to you.

The GHS leadership class wants to know if you'd like to attend a silent disco. There is no music playing through speakers but in your headphones. There are different stations on the headphones playing different songs. You will be able to change the channel of your headphones to listen to new music. This is a new and a really unique idea for dances! This could be an option for a future informal dance we just have to know if people are up for it!

Let Mrs. Davidson know or DM the @ghsleadership Instagram account if you would attend!
