PURPOSE

The purpose of the Emergency Preparedness Plan is to establish guidelines and policies for all personnel and site locations to follow in preparing for, or in the event of an emergency. The primary objective of this preparedness plan is to provide for the safety, protection, and welfare of the students, staff, and property.

The ultimate objective of preparedness is to form a partnership between local, regional, State, and National government organizations, the school, and the people of the community all working to preserve and protect life, all prepared to mobilize talents and material resources required to meet essential human needs and to survive any emergency or disaster.

In the event of an emergency or disaster, the school shall support and expect support from the emergency organization of the City of Sacramento, the County of Sacramento, and the State of California. California law and the Rules and Regulations of the State Department of Education authorize Gateway Community Charters to utilize its school personnel and facilities if an emergency or disaster should occur.

Section I

8. Ignore all conversations between negotiators and suspect
9. Be prepared for utilities being turned off

If a hostage situation is occurring at a school site:

2. Principal to call 911 and notify GCC Central Office
3. Flush skin with water for 15 minutes in direction away from affected parts
4. Apply stream of water on skin while removing clothing
5. Cleanse skin thoroughly with soap and water. Rapidity and duration in washing is most important in reducing extent of injury

Eye Contamination:

1. Report incident to Principal
2. Hold eyelid(s) open and immediately wash eye(s) with gentle stream of running water. Delay of a few seconds greatly increases the extent of injury
3. Continue washing for 10 – 15 minutes
4. Do not use chemicals they may increase extent of injury
5. Have the victim's eye(s) examined by medical personnel

Chemical Burns:

1. Report incident to Principal

During the days after the tragedy:

1. Schedule meetings, as necessary for staff to update and share information on the event, and to give support and caring to each other
2. Identify distraught students for special assistance
3. Get the classes back on track

UTILITIES FAILURE

Warning: Occurrence of failure

Failure of one or more of the utilities (electricity, gas, and water) constitutes a condition that must be dealt with on a situation basis. The basic school policy governing actions that should be taken are that school should remain in operation to the extent possible and students shall be cared for until regular dismissal time.

Actions to be taken:

1. The Principal shall call the GCC Central Office to provide information about the problem, sections of the site affected, and all other pertinent information. Do NOT call the utility company. It is best if one person from the Central Office make that contact. Inform the GCC Maintenance Department which will call the utility company if necessary and appropriate
2. The Principal shall determine what will be done at the site to protect the welfare of the students and staff, including decisions about the following:
 - a. Relocation of student and staff to finish out the school day
 - b. Transportation needs and deployment
 - c. Food Service requirements
 - d. Notification of parents
 - e. Involvement of the media
 - f. Contact with employee organizations
 - g. Operations and Maintenance Division response
3. The Principal shall advise the faculty and staff of the problem and what actions are being discussed and shall do whatever is possible to keep students and staff warm, dry, and safe until contingency plans are implemented.

Water Service Failure:

Sanitation becomes a problem after approximately 2 hours of interrupted water service. If you anticipate shut down of water for that long, maximize the use of sanitary facilities to the extent possible.

Electrical Service Failure:

1. Contingency plans to be considered will depend on the time of year; the amount of natural light available in classrooms, the outside temperature, and the length of time electricity is expected to be off
2. During short duration failure, classes will necessarily have to alter classroom work schedules due to the lack of electrical current
3. Several flashlights should be available for use during times when emergency lighting has failed or is inadequate

Gas Service Failure:

Gas Service is a primary source of heat; therefore, in most instances, the outside temperature will dictate what will need to be done to keep the school in operation and the students and staff warm.

If a gas leak creates a danger of explosion, the actions described under “Threat of Explosion” should immediately be implemented.

Smog Alert:

When air quality standards exceed a reading of 200 PSI, the County authorities will issue Smog Alerts. Schools are to follow directives as issued by the GCC Central Office.

CIVIL DEFENSE

The County Office of Emergency Services maintains more than 75 disaster warnings throughout the County. During an actual emergency those sirens would sound for 3 to 5 minutes as follows:

Peacetime emergency: Steady 3 – 5 blast

Immediate enemy attack: Wavering tone or short, intermittent blasts

School Response:

Section V

SCHOOL THREAT ASSESSMENT & RESPONSE PROCEDURES

Special Note: How ICS Functions in School Systems

MAJOR INCIDENT: When first responders arrive, the Incident Command may transition to a **Unified Command**. Unified Command means that designated individuals from one or more response agencies will work **jointly** with School Commander to carry out the response.

FIRE INCIDENT: When the Fire Department arrives the Incident Commander in this case would be from the fire department and the school Incident Commander would be located under the school Operations Section.

UNIFIED COMMAND: Under a Unified Command, the Incident Commander would be a representative from the primary first-response agency but would make command decisions in coordination with other response agencies and school personnel.

“All Clear” Code. A predetermined code and acknowledgement used to communicate that a room is clear of known threats.

Attack. An armed subject engaged in an assault on a school campus.

Lockdown. A term used by school and police personnel to announce a present or pending attack. Upon declaration of a Lockdown, school and police personnel immediately initiate emergency response procedures.

Recent Threat. An armed or threatening suspect is believed to have been on or near a school campus less than one-hour prior to receipt of the report.

Present Threat. An armed or threatening person is believed to be on or near the school campus.

Staging or Regrouping Sites. Areas to where students and school personnel are moved upon being evacuated.

LOCKDOWN

The term is used to announce a present or pending assault on students or school personnel by an armed person. “LOCKDOWN” sets in motion a response plan:

Lockdown and/or flight
Police respond District
staff respond

A LOCKDOWN is broadcast throughout the campus by PA the system and/or verbal announcement. The Police Department is notified via 9-1-1.

A LOCKDOWN response is built upon basic human defensive responses to danger: fleeing from danger and seeking protection by means of physical barriers and concealment.

Lockdown -- Preparation

Toilet tissue, plastic bags & ties for waste disposal
Candy, energy bars or snack foods
Insulation for the floor
Clipboard with red & green index cards, roster & checklist

Lockdown -- Procedures

Students safely in a classroom or other lockable room should remain inside
Students in the immediate area of a safe & securable classroom should be gathered into the room
Lock all doors
Cover all windows, if possible
Keep out of sight and stay quiet
Barricade the door
Turn lights off if ambient light is adequate
Position students behind interior barricades

Lockdown – Communications

Do not use phone except in emergency stay off cellular phones, however **MAY TEXT**.
Division Leader contacts their division and then notifies Operations.
Operations then notifies the Campus Incident Commander as to status.
Use email, if available, to communicate with the office or district

Lockdown – While Waiting

Share what you know about the situation
Take roll; inventory injuries and wellness
Pair students; check status every 15 minutes
Define mission: survive & help each other
Breathing exercises (four-count) If anxiety increases, touch calms
Play simple games or mental exercises to pass time and distract

Fight:

Victim vs. survivor mentality
Identify escape routes from your room or office
A fire extinguisher can be used defensively

Flight:

Flee to safety – not into danger

If in an area under attack, flee from the danger

If you have immediate access to a safe route of escape, flee from the campus

Movement, distance and cover are your allies. Run a zig-zag pattern

Gather at a Staging/Regrouping Site when school and/or police officials are present

Evacuation

Communications

By phone or in person you will be asked for your name and an “All Clear” Code acknowledgement

Police will identify and independently interview witnesses

Emotional support and care will be arranged

Students will be reunited with families and released

Release Log will record date, time, and to whom student released

Prior, Recent and Present Threat Response Guidelines

The purpose of defining threat conditions (prior, recent, present threat) is to help school and police personnel in assessing reports of a threat on/near school campus and to initiate responses that are reasonable, prudent and do not unnecessarily disrupt school activities. Note the difference between prior, recent and present threat conditions and an attack/Code Red.

Prior Threat.

An armed or threatening person is believed to have been on or near a school campus more than one-half hour prior to receipt of the report.

One or two officers respond to the school office to interview reporting parties and witnesses and recommend further action.

Recent Threat.

An armed or threatening suspect is believed to have been on or near a school campus less than one-half hour prior to receipt of the report.

Two or more officers respond to the school office. The primary officer gathers information from reporting parties and witnesses. The secondary officer serves as liaison between school administration and other police officers to coordinate actions of school and police personnel.

Two or more officers establish an observation perimeter of the campus. Police supervisor establishes a Field Command Post and directs the activities of officer search teams to clear the campus (grounds and buildings). The decision to implement a Lockdown is at the discretion of the school administration. Documentation includes the names and assignments of responding police personnel, actions taken and recommendations.

Present Threat.

An armed or threatening person is believed to be on or near the school campus.

If the location of the suspect is unknown, response is similar to a Recent Threat. First priority is to **protect** the school e.g. block or restrict the suspect's access to areas where students and teachers are present. Second priority of the objective is to contact, detain and investigate. This may involve deploying one or more two-officer teams to locate and contact the suspect. Primary and secondary officers respond to the school office to speak with the reporting party and witnesses. Documentation includes the names and assignments of responding police personnel, actions taken and recommendations.

Lockdowns – Initiating and Concluding

School officials retain authority to institute a Lockdown during a Recent or Present Threat incident.

Standing Down will begin with room-by-room phone calls. Teachers will respond with a coded acknowledgement. A PA announcement will conclude the Lockdown.

Injuries Requiring Hospitalization

If a criminal act causes injury and requires hospitalization of students or school personnel, the Police Department and school site will each assign an employee to the hospital

Student Staging/Regrouping Sites

The student staging/regrouping area will be located in the front of the campus and students will be escorted from the evacuation area by the appropriate staff.

Several sites will be pre-designated by school and police employees within walking distance of the school campus. It needs outdoor and indoor gathering areas. Students may be transported and consolidated at another location for release to families.

Student Release Procedures

Children released to parent or designee

Check-out/accountability procedure to document date, time and to whom released

News Media Relations

The Police Department and GCC will each assign a Public Information Officer (PIO) to manage media inquiries and the release of information PIOs will agree upon what information will be released.
