Agenda Item# IVA

Board Meeting Date: February 27, 2026

Subject: LAS Academic Accountability 101: Charter Goals, LCAP and LCAP Mid-Year

- Information Item Only
- Approval on Consent Agenda
- Conference/First Reading (Action Anticipated : _____)
- Conference (for discussion only)
- Conference/Action
- Action

Background:

LAS Governing Board is responsible for the overall leadership, vision, and strategic planning for achieving the educational goals of the school as stated in the charter.

Governing Board members are responsible for:

- 1) Understanding the federal and the state’s Accountability Progress Reporting: State Dashboard
- 2) Understanding the following LAS compliance documents and their funding implications:
 - A. State (Local Control Funding Formula: LCFF) and Federal (Title 1, Title 2 and Title 4 Funding)
 1. State LCAP (Local Control Accountability Plan) and Federal Addendum
- 3) Reviewing and adopting via integrated approach, updates in LCAP and Federal Addendum

All districts and charter schools are required to publicly share via its governing board meeting the following before the end of February:

- 1) The LCAP Mid-Year Update
- 2) All available mid-year outcome data related to metrics ; and
- 3) Mid-year expenditure and implementation data on all actions.

The main idea of the mid-year update is to illustrate the approved June LCAP actions and services that have been implemented.

Overview of LAS Accountability System and CAASPP Analysis:

Based on dual immersion and second language acquisition research, it takes approximately five to seven years to develop cognitive academic language proficiency (CALP). With biliteracy in about seven years as an end goal, LAS strategically monitors student achievement at critical grade spans. LAS’ biliteracy grade span progression is divided into three stages: Stage 1: Emerging Biliteracy, Stage 2: Expanding Biliteracy, and Stage 3: Full Biliteracy. Because of its 90-10 dual language immersion model, LAS students in Stage 1 and early Stage 2 receive instruction primarily in Spanish. Concurrently, academic assessments at these levels are predominantly conducted in Spanish. By the end of Stage 2, many students make the linguistic academic transfer as expected in dual language immersion programs. Therefore, it is most appropriate for LAS to utilize the end of Grade 5 English standardized assessment data as the baseline for individual student growth analysis. By Grades 7 and 8 in Stage 3, LAS students’ English proficiency in various subject matters is at least comparable, if not higher than, students in non-dual language immersion schools. At the same time, these same LAS middle school students will have acquired Spanish language proficiency comparable to that of a college student enrolled in an advanced level language class. Reaching full biliteracy, the LAS Graduate enters the high school pipeline better prepared to travel the bridge to college and career milestones.

Agenda Artículo# IVA

Fecha de la Reunión: 27 de febrero de 2026

Tema: Información básica de responsabilidad académica: *Responsabilidad académica básica de LAS: Metas del chárter, LCAP y LCAP de Mitad de año*

- Artículo de información
- Aprobación en la Agenda de Consentimiento
- Conferencia/Primera lectura (Acción Anticipado: _____)
- Conferencia (solo para discutir)
- Conferencia/Acción
- Acción

Contexto:

La Mesa Directiva de LAS es responsable del liderazgo general, la visión y la planificación estratégica para lograr los objetivos educativos de la escuela como se establece en el chárter.

Los miembros de la Mesa Directiva son responsables de:

1. Entender los informes de progreso de rendición de cuentas federales y estatales: Tablero Estatal
2. Entender los siguientes documentos de cumplimiento y sus implicaciones de financiación.
 - A. Estado (Fórmula de financiación de control local: LCFF) y federal (financiación de Título 1, Título 2 y Título 4)
 1. LCAP Estatal (Plan de Control Local y Rendición de Cuentas y Adenda Federal)
3. Revisar y adoptar a través de un enfoque integrado, actualizaciones en LCAP y Adenda Federal

Todos los distritos y escuelas autónomas deben compartir públicamente a través de la junta de su Mesa directiva antes de fines de febrero lo siguiente:

1. Actualización de mitad de año del LCAP
2. Todos los datos de resultados de mitad de año disponibles relacionados con las métricas; y
3. Gastos de mitad de año y datos de implementación de todas las acciones.

La idea principal de la actualización de mitad de año es ilustrar las acciones y los servicios del LCAP aprobado de junio que se han implementado.

Descripción general del sistema de responsabilidad en LAS y el análisis de CAASPP:

Basado en la investigación de inmersión dual y adquisición de un segundo idioma, toma aproximadamente de cinco a siete años desarrollar la competencia cognitiva del lenguaje académico (CALP). Con la alfabetización bilingüe en aproximadamente siete años como meta final, LAS supervisa estratégicamente el rendimiento de los estudiantes en períodos de grado críticos. La progresión del grado de alfabetización bilingüe de LAS se divide en tres etapas: Etapa 1: Alfabetización bilingüe emergente, Etapa 2: Alfabetización bilingüe en expansión y Etapa 3: Alfabetización bilingüe completa. Debido a su modelo de inmersión en dos idiomas 90-10, los estudiantes de LAS en la Etapa 1 y la Etapa 2 temprana reciben instrucción principalmente en español. Al mismo tiempo, las evaluaciones académicas en estos niveles se realizan principalmente en español. Al final de la Etapa 2, muchos estudiantes realizan la transferencia académica lingüística como se esperaba en los programas de inmersión en dos idiomas. Por lo tanto, es más apropiado que LAS utilice los datos de la evaluación estandarizada de inglés del final del quinto grado como base para el análisis del crecimiento individual del estudiante. Para los grados 7 y 8 en la Etapa 3, el dominio del

inglés de los estudiantes de LAS en varias materias es al menos comparable, si no superior, al de los estudiantes en escuelas que no son de inmersión en dos idiomas. Al mismo tiempo, estos mismos estudiantes de la escuela secundaria en LAS habrán adquirido un dominio del idioma español comparable al de un estudiante universitario inscrito en una clase de idioma de nivel avanzado. Al alcanzar el nivel de alfabetización bilingüe completo, el graduado de LAS ingresa a la preparatoria mejor preparado para viajar por el puente hacia la universidad y los logros profesionales.

7	890	I know that prior to COVID-19 schooling interruption , LAS diligently followed the action plan accordingly. However, distance learning presented challenges that directly affected learning assessments , including the cancellation of the state SBAC and ELPAC testing in the spring of 2020. Consequently, the academic performance data goal has a huge data gap for the purpose of analysis. LAS looks forward to analyzing the comparative spring SBAC and MAP Growth results for the FY23 and FY24 and to planning consequent actions to address emerging needs.	Sé que antes de la interrupción escolar por la COVID-19, LAS siguió diligentemente el plan de acción correspondiente. Sin embargo, la educación a distancia presentó desafíos que afectaron directamente las evaluaciones de aprendizaje, incluyendo la cancelación de las pruebas estatales SBAC y ELPAC en la primavera de 2020. Por consiguiente, la meta de datos de rendimiento académico presenta una gran brecha de datos para fines de análisis. LAS espera analizar los resultados comparativos de las pruebas SBAC y MAP Growth de primavera para los años fiscales 23 y 24 y planificar las acciones correspondientes para abordar las necesidades emergentes.

Those of us who have been here for many many years and we haven't been on the board, need to step up! We need to model to our newer teachers that we WANT to continue to self govern. We don't want to have to rely solely on community representatives to govern our school!! I know that our teachers do a phenomenal job of ensuring that students feel safe and welcome here. I know that attendance is crucial to our budget. We want to hit that 95%, but the goal is really 97%. Optional Narrative Summary

Completed By The Language Academy of Sacramento

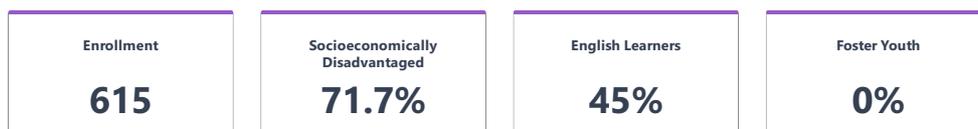

LAS is a dual language education (DLE) immersion program. Please note that CA Dashboard Gr3-8 aggregate results for ELA, Math and subgroups do not accurately represent the academic performance trajectory of students in DLE programs. Research indicates that it takes a minimum of 5-7 years before DLE students' performance in English is comparable to non-DLE students. At LAS, we refer to this as End-Of-Stage 3 (Gr8). For more information on LAS Gr8 performance, check CDE's DataQuest or contact LAS.

STANDARD MET

Access to a Broad Course of Study

This measure explores whether students have access to, and are enrolled in, a broad course of study including the programs and services developed and provided to unduplicated students and individuals with exceptional needs.

LEAs report progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code for Grades 1-6 and 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs to their local governing boards at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

The summary of progress is required to be based on information collected through locally selected tools and measures that identifies differences across school sites and student groups, barriers preventing student access, and any revisions to ensure access for all students.

1. The locally selected measures or tools used to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served.

LAS Priority 7 Summary: LAS uses Infinite Campus for its student information system (SIS). Through this system, all students', including those from unduplicated student groups, and individuals with exceptional needs, access to and enrollment in, a broad course of study as required per EdCode are tracked and monitored within the given school year.

2. A summary of the differences across school sites and student groups having access to, and are enrolled in, a broad course of study, and may include a description of progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study.

LAS is a single site K-8 school which simplifies the school's ability to ensure all students are on track in having access to a broad course of study per defined by EdCode. In a given typical school year, (with some variation during the FY21 due to school closures), all LAS students receive core subjects in Language Arts, Math, Science, Social Science, Health and Physical Education. LAS is a dual language immersion program; all Gr1-8 learn a foreign language, Spanish. Moreover, middle school students have access via elective block courses in Visual Arts, Environmental Science, Ethnic Studies, Coding, Leadership, Study Skills, and Mentoring Cross-Age Tutoring (MCAT).

3. Identification of any barriers preventing access to a broad course of study for all students.

There are no glaring barriers preventing LAS from providing access to a broad course of study for all students. Ideally, LAS would like to offer more variety which of course, highly depends on finding qualified instructions to teach CTE middle school level courses.

4. Revisions, decisions, or new actions that will be implemented, or has been implemented, to ensure access to a broad course of study for all students.

N/A. LAS will continue to ensure all students are provided a quality broad course of study for all students, including continued research of cutting edge courses ideal for middle school students.

Basics: Teachers, Instructional Materials, Facilities

This measure addresses the percentage of appropriately assigned teachers; students' access to curriculum-aligned instructional materials; and safe, clean and functional school facilities.

As applicable, 100% of all school sites promptly address any complaints or other deficiencies identified throughout the academic year and provide information annually on progress meeting this standard to the local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Statewide	278,927.09	82.5%	n/a

¹The data in this table is based on full-time equivalent (FTE) status. One FTE equals one staff member working full-time; one FTE could also represent two staff members who each work 50 percent of full-time.

²"Clear" refers to the percentage of full-time equivalent teachers who are Fully Credentialed (Preliminary or Clear) for Subject and Student Placement (properly assigned). An assignment describes a position based on its setting, subject, and grade level.

For additional information about appropriately assigned teachers at schools within this local educational agency, please visit the Dataquest Teaching Assignment with School Data report at <https://dq.cde.ca.gov/dataquest/DOCensus/TchAssgnOutcomeLevels.aspx?aggllevel=School&cids=34674390106898&year=2023-24>.

Additional Comments

To date, the access to technology for students' school wide is 1:1 ratio. All students have access to their own copies of instructional materials as well as to exemplary instruction with qualified classroom teachers. As of 2015, LAS completed a state of the art gymnasium and two story structure for middle school. In FY23, 94% of LAS teachers have two years or more classroom teaching experience and 91% have five or more years of teaching experience.

Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

During the mandated school closures and implementation of full distance learning and into FY22/FY23/FY24/FY25 in-person return, LAS depended on its existing strong, well-established relationship with students and their families to keep the teaching and learning momentum.

Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

Constant bilingual communication via: on-going surveys, REMIND app, LAS newsletters, daily 360 family outreach to ensure attendance, regular material distributions dates, and parent ZOOM meetings/orientation, families felt welcomed and connected during the year despite the distance learning context.

Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

Families who needed an extra outreach received it in conjunction with the MTSS/IPT and office support and administrative staff. Lastly, LAS continues to develop its Anti-Racist professional development implementation where staff and families received on-going interactive workshop on the subject, including within the context of socio-emotional learning.

5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.

Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

LAS ensured that it had a fully functioning Parent Council who reviewed the Parent Involvement Policy during the year and who was fully aware of the rapid changes in teaching and learning. Moreover, LAS utilized LLMF monies in the fall FY21 and additional ARPA funds in FY22 to develop concurrent teacher and parent professional development workshops via the Parents as Partners Program on the expectations of learning priority standards via various digital platforms: ZOOM, SeeSaw, Google Classroom, etc. as well as the importance of socio-emotional learning and parenting in the midst of a pandemic. Participation of families, particularly those at risk of disengagement, were prioritized.

Resumen Descriptivo Opcional

Completado Por The Language Academy of Sacramento

LAS is a dual language education (DLE) immersion program. Please note that CA Dashboard Gr3-8 aggregate results for ELA, Math and subgroups do not accurately represent the academic performance trajectory of students in DLE programs. Research indicates that it takes a minimum of 5-7 years before DLE students' performance in English is comparable to non-DLE students. At LAS, we refer to this as End-Of-Stage 3 (Gr8). For more information on LAS Gr8 performance, check CDE's DataQuest or contact LAS.

Acceso a un Amplio Curso de Estudios

Esta medida explora ya sea si los estudiantes tienen acceso o no, y si están inscritos en, un amplio curso de estudios que incluya los programas y servicios desarrollados y proporcionados, a estudiantes no duplicados y personas con necesidades excepcionales.

Las LEA informan el progreso en la medida en que los estudiantes tienen acceso y están inscritos en un amplio curso de estudio que incluye los cursos de estudio adoptados especificados en el Código de Educación de California para los grados 1-6 y 7-12, según corresponda, incluidos los programas y servicios desarrollados y proporcionados a estudiantes no duplicados e individuos con necesidades excepcionales a sus juntas directivas locales en una reunión programada regularmente e informes a socios educativos y al público a través del Tablero.

Se requiere que el resumen del progreso este basado en la información obtenida a través de instrumentos seleccionados localmente, y de medidas que identifiquen las diferencias entre las instalaciones escolares y los grupos de estudiantes, las barreras que impiden el acceso de los estudiantes, y cualquier revisión para garantizar el acceso a todos los estudiantes.

1. Las medidas o instrumentos seleccionados localmente, utilizados para determinar en qué medida todos los estudiantes tienen acceso, y están inscritos en, un curso amplio de estudio, basado en el número de grados, grupos de estudiantes no duplicados, y personas con necesidades excepcionales a quienes se les brindaron servicios.

LAS Priority 7 Summary: LAS uses Infinite Campus for its student information system (SIS). Through this system, all students', including those from unduplicated student groups, and individuals with exceptional needs, access to and enrollment in, a broad course of study as required per EdCode are tracked and monitored within the given school year.

2. Un resumen de las diferencias entre los planteles escolares y grupos de estudiantes que tienen acceso a, y están inscritos en, un amplio curso de estudio, y pueden incluir una descripción del progreso a lo largo del tiempo en la medida en la cual todos los estudiantes tienen acceso, y están inscritos en, un amplio curso de estudio.

LAS is a single site K-8 school which simplifies the school's ability to ensure all students are on track in having access to a broad course of study per defined by EdCode. In a given typical school year, (with some variation during the FY21 due to school closures), all LAS students receive core subjects in Language Arts, Math, Science, Social Science, Health and Physical Education. LAS is a dual language immersion program; all Gr1-8 learn a foreign language, Spanish. Moreover, middle school students have access via elective block courses in Visual Arts, Environmental Science, Ethnic Studies, Coding, Leadership, Study Skills, and Mentoring Cross-Age Tutoring (MCAT).

3. Identificación de cualquiera de las barreras de prevención al acceso a un amplio curso de estudio para todos los estudiantes.

There are no glaring barriers preventing LAS from providing access to a broad course of study for all students. Ideally, LAS would like to offer more variety which of course, highly depends on finding qualified instructions to teach CTE middle school level courses.

4. Revisiones, decisiones, o nuevas acciones que serán implementadas, o que han sido implementadas, para garantizar el acceso a un amplio curso de estudio para todos los estudiantes.

N/A. LAS will continue to ensure all students are provided a quality broad course of study for all students, including continued research of cutting edge courses ideal for middle school students.

FACILITIES USE AGREEMENT IN LIEU OF PROPOSITION 39
Sacramento City Unified School District / Language Academy of Sacramento

THIS FACILITIES USE AGREEMENT (“Agreement”) is made by and between the Sacramento City Unified School District, a public school district organized and existing under the laws of the State of California (“District”), and Language Academy of Sacramento, a California nonprofit corporation operating the Language Academy of Sacramento charter school. Language Academy of Sacramento nonprofit corporation and Language Academy of Sacramento charter school are collectively referred to as the “Charter School.” The District and Charter School are each individually referred to as a “Party” and collectively referred to as the “Parties.”

RECITALS

WHEREAS, the District and its charter schools are partners in the public education of students and it is the District’s intent to ensure that its facilities are shared equally with all of its students, including those students who attend District-authorized charter schools housed in District facilities.

WHEREAS, the District is the owner of certain real property located at 2850 49th Street which is more commonly known as the Marion Anderson (the “Site”).

WHEREAS, the Charter School is duly formed and approved by the District under the laws of the State of California, including the Charter Schools Act of 1992 (Education Code sections 47600 *et seq.*).

WHEREAS, the Charter School serves students enrolled in transitional kindergarten (“TK”) through 8th grade and the Charter School desires to use the Site and the facilities located thereon (“Facilities”) for the operation of the Charter School’s program.

WHEREAS, the Parties intend for this Agreement to fully and completely satisfy their respective obligations for the 2026-2027 through 2031-2032 school years concerning the allocation and use of District facilities and that the Charter School shall have no right to an allocation or use of additional District facilities, beyond those allocated hereunder, pursuant to Education Code section 47614 and Title 5 of the California Code of Regulations, sections 11969 *et seq.* (collectively, “Proposition 39”) during the Term of this Agreement.

WHEREAS, the Parties desire through this Agreement to set forth the terms and conditions pursuant to which the Charter School will occupy and use the Site.

NOW, THEREFORE, in consideration of the covenants and agreements set forth to be kept and performed by the Charter School, the Parties agree as follows:

1. **TERM.**

- a. **Term of Agreement.** The term of this Agreement shall begin on July 1, 2026 and shall expire on June 30, 2032 (“Term”), provided that the District’s Board of Education takes action to renew the Charter School’s charter for a five-year term. Should the District’s Board authorize a different length of years for the renewal term based upon the Charter School’s then-current performance tier status and as required by Education Code sections 47607 and 47607.2 (e.g., low-performing, middle-performing, or high-performing), the Parties agree to amend this Agreement to align the Term with the length of the renewal term authorized by the District’s Board.
- b. **Early Termination.** In the event the Charter School ceases to operate for any reason during the Term, including but not limited to voluntary closure, insolvency, non-renewal, or revocation, this Agreement shall terminate, except for those sections surviving termination, and the Charter School shall immediately surrender possession of the Site to the District; provided, however, that in the event of non-renewal or revocation of Charter School’s charter, this Agreement will not be subject to early termination until such time as the Charter School has exhausted its statutory appeal rights or until the expiration of the Term of this Agreement, as applicable, whichever occurs first.
- c. **Intent for Charter School’s Long-Term Use of Site.** The District recognizes that the Charter School has committed extensive funding to make improvements to the Site, including the Facilities, through the utilization of [types of funding/grant programs], with the term of the [insert type] loan ending in 2043. While the Term of this Agreement expires on June 30, 2032, the District has no intention of terminating the Charter School’s continued occupation and use of the Site and Facilities if the Charter School remains active, operational, and in good standing with the District. The purpose of setting the expiration date for the Term of this Agreement is to ensure alignment with the term of the Charter School’s then-current charter, and to trigger an obligation of the Parties to revisit and review this Agreement, update any terms and/or conditions based on new or changed circumstances or legal requirements in effect at the time, and obtain the approval of any new, revised, or updated terms and/or conditions from the respective governing boards of the Parties.

To that end, at least twelve (12) months prior to the expiration of the Term of this Agreement, the Parties agree to meet and engage in good faith negotiations regarding any proposed new, revised, or updated terms and/or conditions concerning the Charter School’s continued occupation and use of the Site, including the Facilities located thereon. The agreed-upon terms and conditions negotiated in the prospective facilities use agreement between the Parties shall

be subject to the approval of the Parties' respective governing boards and the renewal of the Charter School's charter.

- d. **Possession of and Title to Property.** Upon the expiration or earlier termination of this Agreement, possession of the Site, including the Facilities located thereon, shall automatically revert to the District. As titleholder to the Site, with the exception of those furnishings and equipment designated as the Charter School's personal property, the District reserves the right at the termination of this Agreement to recoup the full rights and benefits of such ownership, including, but not limited to, use of such Site for District programs and services.

2. **SITE.**

- a. **Allocation of Space.** Subject to the terms and conditions of this Agreement, the District hereby grants to Charter School the shared use of the Site, for the sole purpose of operating the Charter School and its related educational programs in strict accordance with the Charter School's charter. The allocation of space is more fully described in **Exhibit 1**, attached hereto, and incorporated herein by this reference. The Charter School acknowledges that a leasehold interest in the Site is not being provided to the Charter School by the District.
- i. Exclusive Use Space. The Charter School's right to exclusively use designated space as more fully described in **Exhibit 1** shall be coterminous with the term of this Agreement.
- ii. Shared Use Space. The District reserves the right to use or assign use of the Facilities at the Site that have not been designated or assigned to the Charter School. The blue areas on the map (**Exhibit 1B**) indicate areas of District use.
- iii. District Access. During the Term, the District shall have access to all areas of the Site and the Facilities, including unobstructed internet access, as necessary to allow the District to maintain the Site and to conduct any other District-sponsored or District-supported events or programs on the Site pursuant to and consistent with the terms of this Agreement, provided that the District's activities on the Site shall not unreasonably interfere with the operations of the Charter School.
- iv. Use of Exclusive Space. The Charter School may utilize the exclusive space provided (both classroom and non-classroom space) in any configuration and for any purpose to meet the educational goals of the Charter School, as those goals are described in the Charter School's charter. Any physical changes to the space must conform to the requirements of this Agreement regarding repairs, modifications, and improvements.

- b. **Satisfaction of Proposition 39 Obligation/Waiver of Claims.** The Charter School agrees that by accepting the Site and Facilities pursuant to this Agreement, it shall have no entitlement to occupy or use additional District facilities pursuant to Proposition 39 during the Term of this Agreement, irrespective of whether the Charter School's in-District student enrollment increases beyond its in-District student enrollment as of the Effective Date of this Agreement. Notwithstanding the above, the Charter School may, at its option, by November 1st of the school year in which the Term of this Agreement expires, submit a request for use of District facilities for the following school year under Proposition 39. The Charter School hereby expressly and voluntarily waives its right to bring any claim or legal action arising out of or related to alleged compliance or noncompliance with Proposition 39 that is in any way related to this Agreement, the Site or Facilities, or the time period covered by this Agreement, including, but not limited to, claims that are in any way related to the District's allocation of facilities to the Charter School under this Agreement. The Parties agree that this waiver does not extend to the respective duties and obligations of the Parties under this Agreement. This Section 2.b. shall survive the early termination or expiration of this Agreement.

3. **FACILITIES USE FEE.**

- a. **Facilities Use Fee.** For each school year during the Term of this Agreement, the District will charge the Charter School a facilities use fee ("Facilities Use Fee") in exchange for the Charter School's occupancy and use of the Site and Facilities. The District will issue an invoice to the Charter School of the Facilities Use Fee on a quarterly basis each school year, and payment shall be due to the District within thirty (30) days of the date of the invoice. The District anticipates that such payments will be due on or about September 30, December 30, March 30, and June 30, respectively, of each school year.

The calculation of the Facilities Use Fee is described more particularly in **Exhibit 2** to this Agreement, attached hereto and incorporated herein by this reference. The total Facilities Use Fee amount will be calculated based on a pro rata cost estimate per square foot for the Facilities provided to the Charter School. The dollar amount to be paid by the Charter School for use of the Facilities will be calculated by the District pursuant to Title 5 of the California Code of Regulations, section 11969.7. To calculate the Facilities Use Fee, the District will determine the actual facilities costs in the year preceding the fiscal year in which facilities are provided and the total allocation of space to the Charter School.

These costs will not be available to the District for precise calculation until after each fiscal year ends. An estimate for the coming year will be provided before the end of the prior fiscal year. Once the actual facilities costs for the prior fiscal year become available, the District shall provide written notice to the Charter School

of the updated Facilities Use Fee calculation based on the actual facilities costs data. Amounts owed to or by the Charter School resulting from this updated calculation (when accounting for payments already made by the Charter School during the then-current fiscal year) will be credited or added to any subsequent remaining installment payments of the Facilities Use Fee. The Charter School shall pay the required installments promptly to the District, without deduction, setoff, prior notice, or demand.

This fee does not include Site-specific costs which the Charter School must include in its own budget, including the cost of computers, computer labs, laptop carts, server equipment, utilities, internet service, phone service, audio-visual equipment, custodial service and supplies, landscaping and grounds service, campus security, nutrition services, and other costs described in this Agreement. Such costs shall be the sole responsibility of the Charter School.

The Parties agree that the Facilities Use Fee is in lieu of the Charter School paying both a pro-rata share fee for housing in-District students and an additional fee for housing out-of-District students.

- b. **Late Payments.** Late payment by the Charter School to the District will cause the District to incur costs not contemplated by this Agreement, the exact amount of which will be difficult and impracticable to ascertain. Therefore, if any installment due from the Charter School is not received by the District within five (5) calendar days of the date such payment is due, the Charter School shall pay to the District an additional sum of five percent (5%) of the overdue installment amount as a late charge. The Parties agree that this late charge represents a fair and reasonable estimate of the costs that the District will incur by reason of late payment by the Charter School.

4. **USE.**

- a. **Charter School Facility Use Handbook.** The Charter School shall abide by the requirements and standards for facility operations set forth in the Charter School Facilities Use Handbook, attached hereto as **Exhibit 3** and incorporated herein by this reference; provided, however, that if the District's actual practices differ, the Charter School shall comply with District practices. This Charter School Facilities Use Handbook will be updated regularly by the District to address the then-current needs and standards of the District for facility operations processes. The District will provide the Charter School with a copy of any updates to the Handbook and will follow the process outlined in Section 9.e. should the Charter School need to abide by any updates.
- b. **Operations.** The Charter School shall comply with District policies, regulations, and practices regarding the operation of the Site, including any District-owned furnishings and equipment present on the Site, except that if the District's actual

- c. **Permitted Use.** The Site shall be used and occupied by the Charter School for the sole purpose of operating the Charter School and related educational activities (including after school and enrichment programs) and for no other purpose without the prior written consent of the District. The Charter School shall not carry on or house any programs or activities on the Site for students who are not currently enrolled in the Charter School without the prior written approval of the District. This does not include activities such as interscholastic athletics or other similarly organized events (e.g., the Charter School hosting an event for a club or a student organization that has chapters at multiple schools).
- d. **Prohibited Uses.**
 - i. No Increase in Insurance. The Charter School shall not do or permit to be done anything which will invalidate or increase the cost of any fire, extended coverage or any other insurance policy covering the Site, or which will make such insurance coverage unavailable on commercially reasonable terms and conditions, and the Charter School shall comply with all rules, orders, regulations and requirements of the insurers of the Site. Should the Charter School initiate any use which increases insurance premiums, the Charter School shall pay for such increases.
 - ii. Compliance with Law. The Charter School, at its expense, shall comply with all applicable laws, regulations, rules and orders with respect to any repairs, alterations, improvements, or modifications it makes to the Site, including but not limited to compliance with the Americans with Disabilities Act, local building codes, the California Environmental Quality Act, and federal, state and local laws relating to hazardous materials, health, safety, noise, environmental protection, waste disposal, water and air quality. Should any discharge, leakage, spillage, emission, or pollution of any type occur upon or from the Site resulting from the Charter School's use and occupancy thereof, the Charter School shall immediately notify the District and state/local agencies, as appropriate, and at its sole expense, shall be obligated to clean all the property affected to the reasonable satisfaction of the District and any governmental agencies having jurisdiction over the Site. The District shall be responsible for any discharge, leakage, spillage,

emission, or pollution of any type that may occur upon or from the Site not resulting from the Charter School's use or occupancy thereof. If the Charter School fails to take steps to clean the Site or otherwise fails to comply with any requirements regarding the clean-up or amelioration of any discharge, leakage, spillage, emission, or pollution of any type resulting from the Charter School's use and occupancy thereof, the District reserves the right to take over the clean-up and to take all necessary steps to recoup any and all costs associated therewith from the Charter School, which takeover shall not occur unreasonably.

- iii. **No Nuisance or Waste.** The Charter School shall not use or allow the Site to be used for any unlawful purpose, nor shall the Charter School cause, maintain, or permit any nuisance or waste in, on, or about the Site.
- e. **Public Health.** The Charter School shall take all steps and measures necessary or required to comply with all current and future orders, laws, and recommendations issued by any applicable government agency (including the California Department of Public Health, the California Department of Education, the Sacramento County Public Health Officer, and the state and/or federal government) that are applicable to the Charter School's occupancy and use of the Site.
- f. **Security Badges.** The Charter School will provide identification cards to its staff. Each identification card will be pictured with the school name, logo, staff name, and title. This will assist District security and other staff to identify Charter School staff as needed. If the Charter School is co-located with a District program, both the Charter School's staff and the District's staff shall carry their respective identification cards at all times that they are at the Site.
- g. **Alarms.** The Charter School shall have access to activate burglar alarms and intruder alerts at the Site. The Charter School agrees that in the event any of the Charter School's employees, directors, trustees, officers, agents, students, visitors, contractors, or invitees trigger a false alarm at the Site, the Charter School shall be solely responsible for all costs incurred. Please refer to **Exhibit 3** for more details regarding District processes and procedures related to alarms.
- h. **Master Keys.** Keys will be provided to Charter staff in relation to staff position, number of staff on the Charter site, and need for various levels of Master Key access. The Charter School shall immediately notify the District when such materials are required and/or if testing other than the scheduled annual testing is required. The District shall perform the necessary testing or maintenance and may do so utilizing District personnel or by hiring a third party. The District shall be responsible for the cost of any such work, including, but not limited to, the cost to the District of any District employees' time spent performing such repair or maintenance work.

Items provided to the Charter School during the Term shall remain the property of the District. The Charter School shall notify the District within 30 days of initial occupancy or 30 days of the start of a new term where the charter school anticipates a substantial increase in enrollment ("Furnishings Request") of all furnishings and equipment that the Charter School requests for the Term. The District will invoice the Charter School for all utility costs for their proportional share of use of the Site, and the Charter School shall reimburse the District for all such costs within thirty (30) days of the date of the invoice. Invoices will include a copy of the utility bill or documentation that explains and justifies the amount invoiced. - a. **Condition of Property.** The District is not aware of any defect in or condition of the Site (or any portion thereof) being offered for use by the Charter School that would prevent its use for the Charter School's purposes. The District has not received any notice of violation of statute, ordinance, regulation, order or holding from any state or federal agency with jurisdiction over the Site that calls into question the appropriateness or sufficiency of the Site for its intended purpose. As of the Effective Date of this Agreement, the District confirms that the Site meets all legal requirements necessary for the Charter School to be able to operate on the Site.
- b. **Cost of Restoration Due to Damage.** The cost of restoring the Site, including the Facilities located thereon, shall be borne by the Charter School to the extent such cost is not covered by District insurance, unless the cause of the casualty is due to the gross negligence or willful misconduct of the District, its employees, agents, or invitees. Responsibilities for those items are described in subsequent sections.
- b. **Routine Maintenance.** Routine maintenance is generally defined as maintaining, repairing, and conducting preventative care of buildings (including the classrooms therein) and grounds efficiently on a regular basis in a manner that promotes learning in a safe, clean, and healthy environment. Routine maintenance includes, but is not limited to, routine, recurring, and usual work for the preservation and protection of the Site for its intended purposes in a safe and continually usable condition for which it was designed, improved, constructed, altered, or repaired. The routine maintenance and minor repairs on the Site, including all associated costs and expenses, will be the responsibility of the District for all District-owned structures on the Site. **For any structures, equipment, or apparatus that are constructed, installed, or placed by the Charter Schools as part of improvements made to the Site, the District shall be responsible for such routine maintenance and repairs but only insofar as such**

structures, equipment, or apparatus meet District standards and specifications. The District shall have no responsibility whatsoever for any structures, equipment, or apparatus constructed, installed, or placed by the Charter School on the Site that deviate from District standards or specifications. The types of routine maintenance and minor repairs for which the District shall be responsible are described in Charter School Facilities Use Handbook attached hereto as **Exhibit 3** (as may amended from time to time), and such routine maintenance and repairs shall be performed in accordance with District policies and procedures, and the standards described in the Charter School Facilities Use Handbook.

- c. **Williams Monitoring.** If the Site is subject to *Williams* monitoring pursuant to Education Code section 1240, the District shall be responsible for performing all routine maintenance and minor repairs during the period of the monitoring. Please refer to **Exhibit 3** for further detail on *Williams* monitoring and site inspections.
- d. **Custodial Services and Groundskeeping.** The Charter School shall be responsible for performing all custodial services and groundskeeping on the Site, including all associated costs and expenses, in a manner consistent with the District's custodial services and groundskeeping on its other school sites, which promotes learning in a safe, clean, and healthy environment. The scope of custodial services and groundskeeping to be performed by the Charter School on the Site is detailed in the Charter School Facilities Use Handbook, attached hereto as **Exhibit 3** (as may be amended from time to time), and such services shall be performed in accordance with District policies and procedures, and the standards described in the Charter School Facilities Use Handbook, or the District's actual practice, whichever is less. The Charter School shall be responsible for providing all tools, equipment, and supplies necessary for the performance of the custodial services and groundskeeping, including all restroom materials and supplies.
- e. **Use of Third Parties for Custodial Services, and Groundskeeping.** To the extent the Charter School does not have sufficient, available, or qualified staff to perform custodial services and/or groundskeeping on the Site, the Charter School is authorized to contract with qualified and experienced third parties to perform such work; provided, however, that all contractors shall possess all licensing and bonding for their respective trades and/or classifications, consistent with the law and District policies and procedures. The contract shall specify the exact services that will be provided and the associated costs, the term of the contract, the obligation of the contractor to comply with all applicable laws and District policies/procedures concerning operations and groundskeeping services, as set forth in the Charter School Facilities Use Handbook, and how the Charter School will monitor the contractor to ensure

quality of services rendered. Following approval of any third-party contract by the Charter School, the Charter School shall provide the District with a copy of said contract. Should the Charter School and third-party contractor materially revise or enter into a new contract, the Charter School shall promptly provide the District with a copy of the revised or new contract. If the District determines in its reasonable discretion that the operations and groundskeeping services performed by the contractor do not conform to District policies, procedures, or standards, the District will provide written notice of such non-conforming items to the Charter School consistent with Section 15 of this Agreement. The Charter School, through its contractor or otherwise, shall remedy the non-conforming items consistent with the procedures and timelines set forth in Section 15.

- f. **Monitoring and Inspections by District Employee.** A designated employee shall conduct periodic physical inspections of the Site throughout the Term of this Agreement to evaluate the condition of the Site, including, but not limited to, exterior surfaces, interior surfaces, mechanical, electrical, plumbing, and fire alarm systems. The inspection may also include safety or risk management associated items. The District designee will, to the extent practicable, coordinate with the Charter School to schedule a date and time in which the inspection will occur.

Following each inspection, the District designee shall prepare a written summary of any deficiencies, concerns, or issues identified during the inspection that are the responsibility of the District and/or the Charter School (as defined in Sections 9.a through 9.c. above) to perform, repair, or remedy and must be performed as required by the terms of this Agreement. Within 30 days of the preparation of the written summary, at least one representative of each Party shall meet to review the written summary and determine a reasonable timeline in which the responsible Party shall perform, repair, or remedy the identified items in a manner consistent with the terms of this Agreement.

To the extent that any identified maintenance, repair, custodial, and/or groundskeeping items pose an immediate threat to the health or safety of students, staff, visitors, or invitees on the Site, the District or Charter School (depending on whose responsibility the work is) shall perform the work as soon as possible. For any items that are the responsibility of the Charter School to perform, the District will provide at least forty-eight (48) hours' notice prior to a re-inspection of the Site to confirm that such items have been performed to the District's reasonable satisfaction. The District will notify the Charter School in writing to confirm resolution of the issue(s), or any outstanding issue(s) to be addressed, within five (5) business days of the re-inspection. The Charter School shall not rely upon the physical inspections conducted by the District to identify all maintenance, custodial, and/or groundskeeping items for which the Charter School is responsible; rather, notwithstanding the physical inspections, the

Charter School shall proactively address such items to ensure the Site is maintained in a good and safe working condition.

- g. **Responsibility for Major Repairs and Major Maintenance.** Except as provided in Section 9.g.i. below, the District shall be responsible for major repairs and major maintenance of the Site. For purposes of this section, major repair and maintenance projects are those that are significant in scope and may involve a public works bid. Major repairs and maintenance include the significant repair or replacement of plumbing, heating, ventilation, air conditioning, electrical, low voltage, roofing, and flooring systems, exterior and interior painting, fencing, and any other items considered deferred maintenance under Education Code section 17582. The Charter School shall notify the District designee immediately of any damage or defect in or on the Site that may require major repair and/or maintenance through the channels described in the Facility Use Handbook. The District will perform the major repair, replacement, or maintenance as expeditiously as possible, consistent with the manner in which it processes and executes work orders for major repairs/maintenance on its other District school sites. If the major repair or maintenance issue poses an immediate threat to the health or safety of students, staff, visitors, or invitees on the Site, the District will commence the repair, replacement, or maintenance work as soon as reasonably practicable. The District shall have access to the Site to perform major repairs, maintenance, and inspections, and will coordinate such work with Charter School administration. The Charter School shall be responsible for notifying the District in writing as soon as possible of any discovered or known damage or defect in or on the Site that may require major repair and/or maintenance. The District shall not be responsible for any injury, harm, or loss to persons or property resulting from any defects, damage, or conditions in or on the Site for which the Charter School failed to provide timely written notice to the District. More details on this can be found in **Exhibit 3**.

- i. For any structures, equipment, or apparatus that are constructed, installed, or placed by the Charter School on the Site, the District shall be responsible for such major repairs and major maintenance but only insofar as such structures, equipment, or apparatus meet District standards and specifications. The District shall have no responsibility whatsoever for any structures, equipment, or apparatus constructed, installed, or placed by the Charter School on the Site that deviate from District standards or specifications. The Charter School shall still be responsible for notifying the District as soon as possible of any discovered or known damage or defect in or on the Site that may require major repair and/or maintenance by the Charter School. The District shall not be responsible for any injury, harm, or loss to persons or property resulting from any defects, damage, or conditions in or on the Site that are the responsibility of the Charter School to repair or maintain.

10. **ALTERATIONS, ADDITIONS, AND IMPROVEMENTS.**

- a. **Requirements.** The Charter School shall not make, construct, or install any alterations, additions, or improvements (including but not limited to murals, science laboratories, or lockers) to the Site or any part thereof without obtaining the prior written approval of the District, which shall not be unreasonably conditioned, delayed, or withheld, and, if required, the Division of the State Architect. The Charter School shall follow the District's Construction Standards and Specifications and provide a copy of its plans for the proposed work to the District before commencing any work on the Site or Facilities. If the District discovers that the Charter School has made, or is in the process of making, any alterations, additions, or improvements without first obtaining the District's written approval, the provisions in Sections 10.f. and 15 below shall apply. The Charter School shall follow all required laws and requirements applicable for any alterations, additions, or improvements to the Site. Contractors retained by the Charter School with respect to the construction or installation of any authorized alterations, additions, or improvements shall be fully licensed and bonded as required by law and must maintain levels of casualty, liability, and workers' compensation insurance and performance and payment bonds consistent with District construction requirements. The construction or installation of any authorized alterations, additions, or improvements shall be performed in a sound and workmanlike manner, in compliance with all laws applicable to the Charter School, including, but not limited to, building code standards, including Title 24 of the California Code of Regulations, the Field Act, the Americans with Disabilities Act, the Fair Employment and Housing Act, and all applicable District policies/standards, specifications, prevailing wage laws, and policies and/or requirements related to facilities construction and as required by the Division of the State Architect ("Construction Standards").
- b. **Inspection by District.** The District shall have a continuing right at all times during the period that alterations, additions, or improvements are being constructed or installed to enter the Site and to inspect the work, provided that such entries and inspections do not unreasonably interfere with the progress of the construction or interrupt instruction to students.
- c. **Signage.** The Charter School, with the prior written approval of the District through the Special Projects Request ("SPR") process, shall be allowed to establish signage in a manner that is customary and equivalent to what other District school sites have established. The District shall have final approval over the design, content, and location of the Charter School's signage, but shall not unreasonably deny or condition such design, content, or location. The Charter School must remove the signage upon the expiration or earlier termination of this Agreement, and shall restore the Site to its condition prior to the installation of the signage to the District's reasonable satisfaction. The Charter School will

further ensure that all District posted signage at the Site that is required by law or regulation shall remain posted. The Charter School does not need to seek District consent for any signage that must be posted as required by law.

- d. **Conditions.** The District may impose as a condition to the approval of any proposed alterations, additions, or improvements to the Site such requirements as the District may deem necessary in its reasonable discretion, including the manner in which the work is done; a right of approval of the contractor performing the work; the times during which it is to be accomplished; and the requirement that upon written request of the District at the time it provides approval for the alterations, additions, and/or improvements, the Charter School will remove any and all alterations, additions, and/or improvements installed at the Charter School's expense and all movable partitions, counters, personal property, equipment, fixtures, and furniture at the expiration or earlier termination of the Agreement. The District further reserves the right to require approval of all terms, including but not limited to, plans and specifications, construction schedules, work hours, and all licensing and bonding of contractors (including performance and payment bonds covering 100% of the contract price). The District's grounds for disapproval of any plans and specifications shall be limited to a determination that the Charter School's proposed plans or specifications would allow for construction of alterations, additions, or improvements that do not substantially comply with the general appearance and design of existing improvements on the Site or the Construction Standards, cause a conflict with applicable law, place the District at risk of third party liability, or subject the District to out-of-pocket costs. The District will review all plans and specifications within a reasonable time, and not unreasonably delay its response to the Charter School's preliminary plans and specifications; provided that, after approval by the District of the documents, any substantial change to the plans or specifications shall be subject to approval by the District. Prior to the commencement of any work, the Charter School shall obtain and pay for all required permits and authorizations of all governmental authorities having jurisdiction over the work. The Charter School further agrees to give reasonable written notice of, and will allow a District representative to be present at, each regular meeting regarding construction of the project until project completion.

The Charter School agrees to name the District as an intended third-party beneficiary of any contract for the construction of alterations, additions, or improvements made by the Charter School. Any and all contractors or individuals installing, maintaining, or attending to work on the Site shall maintain all appropriate licensing to conduct such work.

- e. **Compliance with the California Environmental Quality Act (CEQA).** For any project associated with the Charter School's alteration, addition, or improvement to the Site, the District shall act as the "lead agency" for any

required compliance with CEQA under Public Resources Code sections 21000 *et seq.* and Title 14 of the California Code of Regulations, sections 15000 *et seq.*, including any determination as to whether the project qualifies for an exemption under CEQA, using all appropriate documents that will be prepared by the Charter School or its consultants at the Charter School's sole cost. The District shall retain authority over the review and approval of such documents, but shall not be responsible or liable for any errors in or omissions from such documents by the Charter School or its consultants. In the event of any legal challenge to the project under CEQA, the District agrees to tender its defense of such challenge to the Charter School. The Charter School agrees to defend and indemnify the District from any challenge to any determination made by the District under CEQA related to the project. The Charter School further agrees to indemnify, defend by counsel approved by the District in writing, and hold harmless the District, its employees, officers, governing board and members thereof, agents, and representatives, from and against any claims, liabilities, losses, costs, or damages arising out of or resulting from any claim or contention arising out of this Agreement, or the Charter School's use of the Site or construction of alterations, additions, or improvements thereon, including but not limited to, any third-party challenge based on CEQA, except where caused by the negligence or misconduct of the District.

- f. **Failure to Comply with Construction Standards.** Should the Charter School fail to obtain prior written approval from the District for any alterations, additions, or improvements to the Site or Facilities, fail to contract and perform any alterations, additions, or improvements to the Site or Facilities in accordance with the Construction Standards, or fail to adhere to any reasonable conditions imposed by the District as part of its approval of or consent to the performance of the work, the District may, at its sole option, direct the Charter School to immediately cease the work and the District may, in its sole discretion, alter, repair, or improve the Site to bring it into compliance with the Construction Standards and/or the conditions of the District's approval, and the Charter School shall be solely responsible for all such costs and expenses incurred by the District. The Charter School shall not make any alteration, addition, or improvement that reduces the value of the Site.
- g. **Reimbursement of District Fees and Costs.** For any alterations, additions, or improvements requiring District approval, the District may need to commit administrative time and resources (e.g., to serve as the lead agency for environmental review under CEQA, attend construction meetings, process construction-related easements, etc.) as a result of the project taking place on District-owned property. The Charter School shall reimburse District for the actual fees, costs, and other expenditures reasonably incurred by the District, including the reasonable fees and costs of District legal counsel, related to making, constructing, or installing of any alterations, additions, or improvements

on the Site or Facilities. The District shall invoice the Charter School for such actual fees, costs, and other expenditures and shall provide reasonable detail of the charges incurred. The Charter School shall reimburse the District for the full amount specified on the invoice within thirty (30) days.

- h. **Liens.** The Charter School shall keep the Site free from any and all liens arising out of any work performed, materials furnished, or obligations incurred by or on behalf of the Charter School. If the Charter School fails to promptly release and remove any such lien, the District, at its sole option, may immediately take all action necessary to release and remove such lien, without any duty to investigate the validity thereof, and all sums, costs and expenses, including reasonable attorneys' fees and costs, incurred by the District in connection with such lien shall be immediately due and payable by the Charter School.
- i. **Property of District.** All such alterations, additions, or improvements shall, at the expiration or earlier termination of the Agreement, become the property of the District and remain upon and be surrendered with the Site, unless otherwise communicated at the time of approval for the improvements.
- j. **Personal Property.** All articles of personal property and all business and trade fixtures, machinery and equipment, cabinetwork, furniture, and movable partitions owned by the Charter School or installed by the Charter School at the Charter School's expense at the Site shall be and remain the property of the Charter School and may be removed by the Charter School at any time during the Term.

11. **ENTRY BY THE DISTRICT.**

- a. **General Entry.** The District reserves the right to enter the Site for inspection or to supply any service to be provided by the District to the Charter School. In furtherance of any alterations, improvements, or repairs, the District may erect scaffolding and other necessary structures where reasonably required by the character of the work to be performed, always providing the entrance to the Site shall not be blocked, and further providing that the business of the Charter School shall not be unreasonably interfered with. The District may enter the Site with 48 hours' advance notice to Charter School, except in the case of an emergency, visit/inspection by the District's designee, or to address a maintenance work order request, where no prior notice is required. The District and Charter School agree to cooperate so that disruption to the educational program of the Charter School is minimized. The Charter School hereby waives any claim for damages for any injury or inconvenience to or interference with the Charter School's business, any loss of occupancy or quiet enjoyment of the Site during such activities. For each of the aforesaid purposes, the District shall at all times have and retain a key with which to unlock all of the doors located on the Site, excluding the Charter School's vaults and safes, and the District shall

have the right to use any and all means which the District may deem proper to open said doors in an emergency to obtain entry to the Site. Entry to the Site obtained by the District under this section shall not be construed or deemed to be a forcible or unlawful entry into or a detainer of the Site, or an eviction of the Charter School from the Site or any portion thereof.

12. **INDEMNITY.**

- a. **Charter School's Indemnification.** The Charter School shall, to the fullest extent permitted by law, indemnify, hold harmless, and defend the District, its trustees, officers, employees, and agents from and against any and all claims, demands, actions, suits, losses, liability, penalties, expenses and costs for any injury, death, or damage to any person or property arising out of or related to obligations of the Charter School under this Agreement as they relate to the Site or arising from the Charter School's use of the Site or from any activity, work, or other things done, permitted or suffered by the Charter School in or about the Site, excepting those claims, demands, actions, suits, losses, liability, penalties, expenses, and costs caused by the negligence or intentional acts of the District, its employees, agents, officers, invitees, and visitors as they relate to the Site.

The Charter School shall further indemnify, hold harmless, and defend the District from and against any and all third party claims arising from any breach or default in the performance of any obligation on the Charter School's part to be performed under the terms of this Agreement, or arising from any act, omission, or negligence of the Charter School, or any officer, agent, employee, invitee, or visitor of the Charter School, and from all costs, attorney's fees, and liabilities incurred in or about the defense of any such claim or any action or proceeding brought thereon, excepting those claims, demands, actions, suits, losses, liability, penalties, expenses, and costs caused by the negligence or intentional acts of the District, its employees, agents, officers, invitees, and visitors as they relate to the Site. If any action or proceeding is brought against the District by reason of such claim (regardless of whether a claim is filed), the Charter School, upon notice from District, shall defend the same at the Charter School's expense. The Charter School shall give prompt written notice to the District Superintendent in case of casualty or accidents in or on the Site. This section shall survive the early termination or expiration of this Agreement.

- b. **District's Indemnification.** The District shall, to the fullest extent permitted by law, indemnify, hold harmless, and defend the Charter School, its directors, officers, employees, and agents from and against any and all claims, demands, actions, suits, losses, liability, penalties, expenses, and costs for any injury, death, or damage to any person or property arising out of or related to obligations of the District, or its employees, agents, officers, invitees, and visitors, under this Agreement as they relate to the Site or arising from any

activity, work, or other things done, permitted or suffered by the District in or about the Site, excepting those claims, demands, actions, suits, losses, liability, penalties, expenses, and costs caused by the negligence or intentional acts of the Charter School, its employees, agents, officers, invitees, and visitors as they relate to the Site. If any action or proceeding is brought against the Charter School by reason of such claim (regardless of whether a claim is filed), the District, upon notice from the Charter School, shall defend the same at the District's expense. Both parties shall give prompt written notice to the other in case of casualty or accidents in or on the Site. This section shall survive the early termination or expiration of this Agreement.

13. **INSURANCE.**

- a. **Property and Liability.** The Charter School's Board of Directors shall ensure that the Charter School retains appropriate liability insurance coverage. During the Term, the Charter School shall obtain and keep in effect liability coverage as follows:
1. Coverage under SCUSD Schools Insurance Authority Policy (SIA). To protect the interests of the Charter School and the District, the District will include the Charter School under its SIA general liability policy.
 2. General Liability. In addition to the coverage provided by the District, the Charter School is required to maintain general liability and auto liability insurance with respect to the Site and the operations of or on behalf of the Charter School in, on, or about the Site, including but not limited to: bodily injury, death, product liability (if applicable), blanket contractual, broad form property damage liability coverage in an amount not less than Ten Million Dollars (\$10,000,000) per occurrence. Charter School's general liability and auto liability policies shall be primary and shall not seek contribution from the District's coverage and be endorsed with a form at least as broad as ISO form CG 20 10 or CG 20 26 to provide that District and its officers, officials, employees, and volunteers shall be additional insureds under such policies.
 3. Workers' Compensation. Workers' compensation and Employers' Liability insurance satisfying statutory requirements, which includes Employers' Liability coverage with limits of not less than \$1,000,000.00 per accident or occupational illness. Said coverage's insurers shall waive rights of subrogation with respect to the District, its Board of Education, and their officers, and employees.
 4. Sexual Abuse and Molestation. Sexual Abuse and Molestation Insurance is required with limits not less than Five Million Dollars (\$5,000,000) per

occurrence. This insurance shall cover alleged and actual claims of sexual abuse or molestation. This coverage can either be included under a General Liability policy or obtained in a separate policy. Any policy inception date, continuity date, or retroactive date must be before the effective date of this agreement, and the Charter School agrees to maintain continuous coverage through a period no less than three (3) years after completion of the services required by this Agreement.

5. Professional Liability. Professional Liability (Errors and Omissions) Insurance (including employment practices coverage) with limits not less than Five Million Dollars (\$5,000,000) per claim. Policy form language to include Educator's Legal Liability coverage.
6. Property Insurance. Property insurance protecting against fire, vandalism, malicious mischief and such other perils as are included in "special form" coverage insuring the alterations, additions, and improvements to the Site by the Charter School and all of the Charter School's trade fixtures, furnishings, equipment, and other personal property. The property policy shall include "extra expense" coverage and shall be in an amount not less than one hundred percent (100%) of the replacement value.

- b. **First Party Property Insurance**. The District will maintain first party property insurance for the Site. The District shall not be responsible for insuring any of the Charter School's personal property or persons (including, without limitation, students or members of staff).
- c. **Insurance Policy Criteria**. All policies of insurance required to be carried by the Charter School shall be written by responsible insurance companies authorized to do business in the State of California, rated no less than the standard that the District requires for the schools within its boundaries (A.M. Best, A-, VII, or better), or the equivalent provided through a risk-pooling joint powers authority operating pursuant to Government Code sections 6500 *et seq.* Any insurance required of the Charter School hereunder may be furnished by the Charter School pursuant to a blanket policy carried by it or under a separate policy.
- d. A true and exact copy of each paid-up policy evidencing insurance or a certificate of the insurer, certifying that a policy has been issued, providing the coverage required and containing the provisions specified herein, shall be delivered to the District prior to the Effective Date of this Agreement, and upon renewals, not less than thirty (30) days prior to the expiration of such coverage. Any policy provided by the Charter School under this Agreement shall be occurrence-based, not "claims made." In addition, the District shall be named as an additional insured on the liability policies. The District may, at any time and from time to

time, upon reasonable notice to the Charter School and at no cost to the Charter School, inspect and/or copy any and all insurance policies required hereunder. In no event shall the policies required herein be considered as limiting the liability of the Charter School under this Agreement.

14. **ASSIGNMENT AND SUBLETTING.** The Charter School may not assign its rights or sublet any portion of the Site without the prior written consent of the District.
15. **USE OF KITCHEN SPACE.** For a Charter School utilizing District own facilities but not using the District as its School Food Authority the following applies:
 - a. All Kitchen equipment owned by Nutrition services, except for the installed walk-in refrigerator and built-in sinks, will be removed from the facility. A full list will be attached in Exhibit 4 below.
 - b. The Charter School will be responsible for procuring and maintaining all new and remaining kitchen equipment in accordance with appropriate standards.
 - c. The District facilities department will continue to maintain the kitchen building in accordance with this agreement, but will not be responsible for equipment by the end of this agreement. Equipment responsibilities are included in Exhibit 4. The Charter school is responsible for all maintenance and repairs of all food service equipment.
16. **DEFAULT AND REMEDIES.**
 - a. **Default by the Charter School.** The occurrence of any of the following shall constitute a material default and breach of this Agreement by the Charter School:
 - i. Any failure by the Charter School to make payments required to be paid hereunder, where such failure continues for forty-five (45) calendar days after written notice by the District to the Charter School.
 - ii. A failure by the Charter School to observe and perform any other provision of this Agreement to be observed or performed by the Charter School, where such failure continues for thirty (30) calendar days after written notice thereof by the District to the Charter School; unless, however, the nature of the default is such that the same cannot reasonably be cured within said 30-day period. The Charter School shall not be deemed to be in default if the Charter School shall within such period commences such cure and thereafter diligently prosecutes the same to completion.
 - iii. The making by the Charter School of any general assignment or general arrangement for the benefit of creditors; the filing by or against the

Charter School a petition to have the Charter School adjudged bankrupt or of a petition for reorganization or arrangement under any law relating to bankruptcy (unless, in the case of a petition filed against the Charter School, the same is dismissed within sixty (60) calendar days); the appointment of a trustee or receiver to take possession of substantially all of the Charter School's assets located at the Site or of the Charter School's interests in this Agreement, where possession is not restored to the Charter School within thirty (30) calendar days; or the attachment execution or other judicial seizure of substantially all of the Charter School's assets located at the Site or of the Charter School's interest in this Agreement, where such seizure is not discharged within thirty (30) calendar days.

- iv. Revocation of the Charter School's charter by the District's Board of Education or cessation of the Charter School's program for any reason. However, if the Charter School pursues an appeal of a revocation of its Charter by the District's Board, the Charter School shall not be in default under this section until the Charter School has exhausted its available statutory or other legal appeal rights.
- v. The failure by the Charter School to utilize the Site for the sole purpose of operating a charter school as authorized by this Agreement and the Charter School's charter where such failure continues for five (5) calendar days after written notice by the District to the Charter School.

b. **Remedies.** If the Charter School commits any such material default or breach, then the District may, at any time thereafter without limiting the District in the exercise of any right or remedy at law or in equity which the District may have by reason of such default or breach:

- i. Maintain this Agreement in full force and effect and recover use payments and other monetary charges as they become due, without terminating the Charter School's right to possession irrespective of whether the Charter School shall have abandoned the Site.
- ii. Terminate the Charter School's right to possession by any lawful means, in which case this Agreement shall terminate and the Charter School shall immediately surrender possession of the Site to the District. In such event the District shall be entitled to recover from the Charter School all damages incurred by the District by reason of the Charter School's default. If the District terminates this Agreement, it agrees to provide the Charter School with alternative reasonably equivalent facilities.
- iii. No remedy conferred or reserved to the District is intended to be exclusive and every remedy shall be cumulative and in addition to every

other remedy given under this Agreement or existing in law or in equity. No delay or omission to exercise any right or power accruing upon any event of default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right or power may be exercised from time to time and as often as may be deemed expedient. The District is entitled to exercise any remedy reserved to it and without giving notice other than such notice as is required under the Agreement. All remedies reserved to the District shall survive the termination of the Agreement.

- c. **Default by the District.** The District shall not be in default unless the District fails to perform obligations required of the District within a reasonable time, but in no event later than thirty (30) calendar days after written notice by the Charter School to the District specifying wherein the District has failed to perform such obligations; provided however, that if the nature of the District's obligation is such that more than 30 days are required for performance, then the District shall not be in default if the District commences performance within such 30-day period and thereafter diligently prosecutes the same to completion. In the event of default by the District, the Charter School may pursue all remedies available by law.

- 17. **DISPUTE RESOLUTION.** The Parties agree to attempt to resolve all disputes regarding this Agreement, including any alleged violation, misinterpretation, or misapplication of the Agreement, pursuant to the dispute resolution procedures set forth in the Charter School's charter. Notwithstanding the foregoing, if any such dispute concerns facts or circumstances which may be cause for revocation of the Charter School's charter, the District shall not be obligated by the terms of any dispute resolution procedures as a precondition to the initiation of revocation proceedings.

18. **MISCELLANEOUS.**

- a. **Effective Date.** The effective date of this Agreement ("Effective Date") shall be the date in which the Agreement is fully executed by the Parties and approved by their respective governing boards, whichever date is later.
- b. **Interpretation.** This Agreement was negotiated outside of the requirements of Proposition 39. Nothing in this Agreement shall be construed to impose any obligations on the Parties related to the requirements of Proposition 39, irrespective of whether certain terms or language in this Agreement correspond with terminology used in Proposition 39 (e.g, "reasonably equivalent," "furnished and equipped," etc.). The use of any such terms in this Agreement are for descriptive or clarification purposes only and shall not be interpreted under the statutory or regulatory framework of Proposition 39.

- c. **Captions.** The captions of the paragraphs of this Agreement are for convenience only and shall not be deemed to be relevant in resolving any question of interpretation or construction of any section of this Agreement.
- d. **Exhibits.** Exhibits, addenda, and schedules initialed by the Parties are deemed by attachment to constitute part of this Agreement and are incorporated herein.
- e. **Amendments.** This Agreement may only be amended in writing that specifically indicates its intent to modify and/or amend this Agreement. All amendments shall only be effective if executed by the Parties and approved by the Parties' respective governing boards.
- f. **Entire Agreement.** This Agreement, along with any exhibits and other attachments, constitutes the entire agreement between the District and the Charter School relative to the Site. The Parties agree that all prior or contemporaneous oral agreements between and among themselves and their agents or representatives relative to the Site are merged in or revoked by this Agreement.
- g. **Joint Obligation of Language Academy of Sacramento Nonprofit Corporation and Language Academy of Sacramento Charter School.** For all purposes set forth in this Agreement, whenever the terms of this Agreement obligate Language Academy of Sacramento Charter School to a particular course of action or prohibit/restrict Language Academy of Sacramento Charter School from a particular course of action, Language Academy of Sacramento Nonprofit Corporation shall also be jointly required to fulfill such obligation and be subject to such prohibition or restriction hereunder.
- h. **Severability.** If any provision of this Agreement is determined by a court of competent jurisdiction to be invalid or unenforceable, then the remainder of this Agreement shall not be affected and the remaining terms and provisions of this Agreement shall remain enforceable to the fullest extent permitted by law.

1. TERM.

Term of Agreement. The term of this Agreement (“Term”) shall commence on July 1, 2026, and shall expire on June 30, 2043, provided that the District’s Board of Education takes action to renew the Charter School’s charter.

Intent for Long-Term Use of Site. The District acknowledges that the Charter School has made significant and long-term financial commitments to improve and maintain the Site and Facilities through the Charter School Facilities Program (CSFP) with the State Allocation Board and the California School Finance Authority (Loan Numbers. 54/67439-00-006 and 54/67439-00-005), each with maturity dates extending through 2043. In recognition of this investment, the District affirms its intent that the Charter School shall have uninterrupted occupancy and use of the Site and Facilities for the duration of the Term and beyond, provided that the Charter School remains active, operational, and in good standing with the District. The District shall not terminate, relocate, or otherwise unreasonably interfere with the Charter School’s continued operation at the Site during this period.

Renewal Negotiations. No later than twelve (12) months prior to the expiration of the Term, the Parties shall meet and engage in good faith negotiations concerning any proposed modifications, revisions, or new terms governing the Charter School’s continued occupancy and use of the Site and all Facilities thereon. Any subsequently negotiated facilities use agreement shall be subject to the approval of the governing boards of both Parties and contingent upon the renewal of the Charter School’s charter.

Periodic Review and Revisions. To ensure ongoing alignment with applicable laws, regulations, and operational requirements, the Parties shall review and, if necessary, amend Sections 2 through 18 of this Agreement every five (5) years during the Term. In the event the District’s Board authorizes a renewal term of a different length based on the Charter School’s performance classification pursuant to Education Code Sections 47607 and 47607.2 (e.g., low-performing, middle-performing, or high-performing), the Parties shall amend this Agreement solely to align with the length of the charter renewal term as authorized by the District’s Board. Such revisions shall reflect any changes in law, facility’s needs, or agreed-upon operational circumstances in effect at the time of review.

Early Termination. In the event the Charter School ceases to operate for any reason during the Term, including but not limited to voluntary closure, insolvency, non-renewal, or revocation, this Agreement shall terminate, except with respect to those provisions that expressly survive termination. The Charter School shall surrender possession of the Site to the District. Contents, including but not limited to, furnishing, equipment, and technology, shall remain property of the Charter. However, in the event of non-renewal or revocation of the Charter School’s charter, this Agreement shall not be subject to early termination until the Charter School has exhausted all available statutory appeal rights or until the expiration of the Term of this Agreement, whichever occurs first.

Possession of and Title to Property. Per the standing Memorandum of Understanding with the State of California and the District, page 2, section E(2), (a) accepts title to the Facilities, as defined in (b), as trustee for the State of California public school system, Title shall be conveyed by an instrument acceptable to the school district; (b) In the event the Charter School, or any subsequent charter school, ceases to use the Facility or in the Event of Default occurs, the School

District shall observe the requirements of Section 17078.62 of the California Education Code as set forth in the MOU agreement, Section 4.2.

Comprehensive School Safety Plan Purposes and Compliance

The California Education Code ([section 32282](#)) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in [SB 719](#) and [AB 115](#). It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

January 1, 2019, [Assembly Bill 1747](#), School Safety Plans, became law.

Comprehensive School Safety Plans must include the following elements:

- Assessment of school crime committed on school campuses and at school-related functions
- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies including hate crime reporting procedures
- School wide dress code policies
- Procedures for safe ingress and egress of pupils, parents, and school employees
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline

- Parent Climate survey results
- Staff Climate survey results
- School disciplinary data

Based on the analysis of this data, the Safety Plan Committee will review the Comprehensive Safety Plan and make necessary adjustments. The Safety Plan Committee will meet quarterly to review school safety data and progress in areas identified within the plan.

Emergencies and Disaster Preparedness Plan

In order to save lives and protect property, all school staff and students must be prepared to respond quickly and responsibly to emergencies, disasters, and events which threaten to result in a disaster.

The Executive Director or designee shall develop and maintain a disaster preparedness plan which details provisions for handling all foreseeable emergencies and disasters. Earthquake and Multi-hazard Emergency Response Procedure System

LAS has defined emergency response procedures for earthquakes and other hazards in the Emergencies and Disaster Preparedness Plan. LAS follows the recommended “drop, cover, and hold on” procedures for earthquake response. Additional details on the implementation of these plans, including roles and responsibilities for school personnel, are included as part of the Emergencies and Disaster Preparedness Plan.

Air Quality Response

LAS uses both the Forecast AQI (measured by AirNow.gov) and Live AQI (measured by AirNow.gov) to make decisions regarding campus operations. For decisions regarding modifications in on-campus activities, LAS follows the Air Quality Action Charts from the Sacramento Metropolitan Air Quality Management District.

Use of School Buildings for Emergency Shelters

The Executive Director shall grant the use of school buildings, grounds, and equipment to public agencies, including the American Red Cross, for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare. The Executive Director shall cooperate with such agencies in furnishing and maintaining whatever services they deem necessary to meet the community's needs. ([Education Code 32282](#))

Instructional Continuity Plan (ICP)

LAS is committed to ensuring instructional continuity during unexpected disruptions to learning, such as inclement weather, widespread illness, or family emergencies. Staff is dedicated to delivering digital resources to provide engaging, interactive experiences to support learning from home.

Within five calendar days of the onset of an emergency, a plan to pick up and check out devices for home use will be sent out to all families. Students will need their Single Sign-on to access school resources.

A list of resources to support student academic and mental health services and supports will be provided to all families through the school website. These resources will be communicated out to students and families within five calendar days of the onset of an emergency. Teachers will communicate with students and families about educational activities for students to complete in the first week of school with the understanding that some students will lack technology.

LAS will provide in person or remote instruction within ten school days. Teachers will adjust lesson plans and set up synchronous and asynchronous virtual instruction for students. Teachers will utilize platforms such as See Saw (grades TK-2) and Google Classroom (grades 3-8) to post assignments for students. Virtual instruction will commence no later than 10 school days after the start of the emergency.

School Suspension, Expulsion, and Mandatory Expulsion Guidelines

A student may be suspended or expelled for any of the causes listed in state Education Code [48900 through 48915](#) and Board Policies.

A student may be suspended or expelled for prohibited misconduct if the act is related to school activity or school attendance occurring at any time, including, but not limited to:

1. While on school grounds;
2. While going to or coming from school;
3. During the lunch period, whether on or off the school campus; or
4. During, going to, or coming from a school-sponsored activity.

Suspension shall be preceded, if possible, by a conference with the student and his or her parent or family member. The conference must take place within two (2) school days of the suspension, unless the Executive Director or designee determines that an emergency situation exists. An “emergency situation” involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student’s right to return to school for the purpose of a conference.

At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against them, and shall be given the opportunity to present their written and/or verbal statement and evidence in his or her defense.

At the time of suspension, the Executive Director or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice may also state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

Procedures to Notify Teachers of Dangerous Pupils

LAS desires to provide a safe and orderly work environment for all employees. As part of the Comprehensive Safety Plan, the Executive Director or designee shall develop strategies for protecting employees from potentially dangerous persons and situations and for providing them with necessary assistance and support when emergency situations occur.

Any employee against whom violence or any threat of violence has been directed in the workplace shall notify the Executive Director or designee immediately. The Executive Director or designee shall initiate legal and security measures to protect the employee and others in the workplace. In addition, the Executive Director or designee may initiate legal proceedings against any individual to recover damages for injury caused by the willful misconduct of that individual to the person or property of an employee or another person on LAS premises.

The Executive Director or designee shall ensure that employees are trained in de-escalation techniques in order to protect themselves and students. Staff development may include training in classroom management and effective communication techniques.

The Executive Director or designee shall ensure that employees are informed, in accordance with law, of crimes and offenses committed by students who may pose a danger in the classroom.

Discrimination and Harassment Policies

The Governing Board is committed to maintaining a safe school environment that is free from harassment and discrimination. The Board prohibits sexual harassment or sexual violence of students at school or at school-sponsored or school-related activities. The Board also prohibits retaliatory behavior or action against any person who reports, files a complaint or testifies about, or otherwise supports a complainant or respondent in alleging sexual harassment.

The school strongly encourages any student who feels that he/she is being or has been sexually harassed on school grounds or at a school-sponsored or school-related activity by another student or an adult to immediately contact their teacher, the principal, or any other available school employee. Any employee who receives a report or observes an incident of sexual harassment shall notify the principal or the Executive Director.

Complaints regarding sexual harassment shall be investigated and resolved in accordance with law and school procedures. Complaints of sexual harassment can be filed and where to obtain a copy of the procedures.

The Executive Director or designee shall take appropriate actions to reinforce the school's sexual harassment policy and to ensure that any complaints regarding sexual harassment are immediately investigated in accordance with administrative regulation. When the Executive Director or designee has determined that harassment has occurred, he/she shall take prompt, appropriate action to end the harassment and to address its effects on the victim.

The Executive Director or designee shall ensure that all students receive age-appropriate information regarding sexual harassment. Such instruction and information shall include:

1. What acts and behavior constitute sexual harassment, including the fact that sexual harassment could occur between people of the same sex and could involve sexual violence
2. A clear message that students do not have to endure sexual harassment under any circumstance
3. Encouragement to report observed incidents of sexual harassment even where the alleged victim has not complained
4. A clear message that student safety is the school's primary concern, and that any separate rule violation involving an alleged victim or any other person reporting a sexual harassment incident will be addressed separately and will not affect the manner in which the sexual harassment complaint will be received, investigated, or resolved
5. Information about the school's procedure for investigating complaints and the person(s) to whom a report of sexual harassment should be made
6. Information about the rights of students and parents/guardians to file a civil or criminal complaint, as applicable

Any student who engages in sexual harassment at school or at a school-sponsored or school-related activity is in violation of this policy and shall be subject to appropriate interventions and/or disciplinary action. For students in grades 4-12, disciplinary action may include suspension and/or expulsion, provided that, in imposing such discipline, the entire circumstances of the incident(s) shall be taken into account. Any student who engages in sexual violence at school or at a school-sponsored or school related activity is in violation of this policy and shall be subject to appropriate interventions and/or disciplinary action, up to and including suspension and/or expulsion.

Any staff member found to have engaged in sexual harassment or sexual violence toward any student shall be subject to discipline up to and including dismissal in accordance with applicable policies and/or laws.

The Executive Director or designee shall maintain a record of all reported cases of sexual harassment to enable the school staff to monitor, address, and prevent repetitive harassing behavior at LAS.

School-Wide Dress Code & Expectations

The LAS Governing Board believes that the development of dress codes and grooming attitudes and behavior patterns is part of the educational experience. LAS is a community where respect is a foundational core value: self-respect, respect for others in the community, and respect for the common learning space we share. The LAS Dress Code exists as a community agreement of the balance between these three pillars of respect. Therefore, wearing clothing, hairstyle, makeup, or jewelry which are distracting or interfere with the study habits of students in class or school, or pose a health or safety risk to the students, are defined as not respectful and hence, not acceptable.

At LAS, we strongly encourage all students to wear school uniforms from Monday to Thursday. The uniform consists of a forest green (dark green) shirt or blouse, a LAS logo shirt (any color) and appropriate pants, jeans, shorts, or skirts. Jeans, without excessive holes, are also acceptable. Each Friday, students are allowed to wear appropriate free-dress.

Students' attire must adhere to the following guidelines:

- Students must wear clothing including both a shirt with pants or skirts, or the equivalent (dresses or shorts). Examples of unacceptable pants include those with excessive holes or pajama bottoms.
- When the body is standing straight, students must wear clothing that covers the chest, back, torso, stomach, and lower extremities from armpit to armpit to mid-thigh.
- Tops/tank tops must have a strap.
- Clothing must cover all undergarments/underwear and may not be see-through.
- Shoes must be worn at all times. Flip-flops are prohibited.
- Hats, hoods, and head covers must be removed while indoors. Exceptions to this rule may be made for medical or religious reasons.
- Attire and/or grooming depicting or advocating violence, weapons, criminal activity, gang-related activity, use of tobacco, alcohol or drugs, pornography, foul language, hate speech, or clothing that could be considered dangerous or that could be used as a weapon are prohibited.
- Students in grades Transitional Kindergarten-8th will participate in Physical Education classes and will be expected to dress appropriately for their grade level. In 5th-8th grades, students will be expected to wear physical education uniforms during classes.
- Special dress days, such as Student Council Spirit Days, will be announced by school personnel. The dress code may vary on these days and will be announced ahead of time.

If students are identified as wearing inappropriate attire or footwear, they will be given the opportunity to change into appropriate clothing, if available at the site, or request that a parent bring a change of clothing or footwear. All school certificated and classified personnel shall be responsible for reporting violations of this dress code. Continued violations of the dress code will be referred to administration for disciplinary action, which may include suspension.

Procedures for Safe Ingress and Egress of Pupils

School Staff will ensure safe ingress and egress to and from the school for pupils, parents, and school employees. Safe ingress and egress will be maintained by periodic reviews of the procedures for ingress and egress. The school will ensure that all passageways to and from school buildings, corridors within school buildings and emergency exits remain clear of all obstruction to allow flow of pedestrian traffic. The school will also ensure that potential obstructions and hazards are removed from such areas. To assist school staff in conducting evaluations, the school may utilize consultants to conduct periodic inspections of the school. Any problems associated with safe ingress and egress will be addressed immediately.

A Safe and Orderly School Environment Conducive to Learning

The enforcement of LAS’s Student Handbook guidelines, combined with the safety guidelines presented in the LAS Safety Plan, establish expectations of student conduct, processes of discipline, and safety procedures to ensure a safe and orderly school environment conducive to learning.

School Discipline Rules and Consequences (EC [35291](#) and EC [35291.5](#))

The LAS staff is responsible for providing students with reasonable, logical and related consequences to ensure a positive classroom climate. Every teacher will discuss classroom procedures during Back to School Night. Student Reflection Sheets and/or Referrals may be used to communicate and document minor and major incidents and consequences. Reflection Sheets and/or Referrals (verbal or written) will be shared between the student, parent, teacher, and administration for repeated or major offenses. To ensure parent communication, students are required to report Reflection sheets and Referrals to parents. Parents must sign and return the document to school the following day. The following list of behavior consequences is meant to serve as a guideline.

1. Verbal Warning: Students will receive a verbal warning or participate in a community circle conference when they display inappropriate behavior.
2. Time Out in the Classroom/Think Spot: Students will receive time out in a designated area in the classroom when they are demonstrating disruptive or off-task behavior.
3. Time Out in Buddy Classroom and Follow up Agreement: Students will spend time out in another classroom when a verbal warning or classroom time out has not changed the misbehavior. They will complete a Behavior Reflection Sheet and confer with staff

member to problem solve through their challenge and repair harm.

4. **After School Detention:** Students may be asked to stay after school for failure to follow school rules or classroom expectations. Teachers may assign a 15-minute detention after school without parent notification. In the event that the detention time exceeds 15 minutes, parents will be notified by phone.
5. **In-House Suspension:** Students who commit more serious or frequent infractions may be assigned to another classroom for the day. Parents will be notified of the in-house suspension. When students are assigned In-House Suspension, they may attend a different lunchtime or recess time. Students assigned to In-House Suspension are expected to sit and work quietly in the designated classroom. Parents must sign and return a referral the following day.
6. **Suspensions/Expulsions:** Suspensions are consequences for serious or persistent behaviors. At the time of the suspension, the school administration will contact the student's parent/guardian regarding the suspension and notify the parent/guardian of the suspension in writing. The school may request to meet with the parent/guardian about the suspension. Under state law (Education Code [48914](#)), the parent is then obligated to meet with school staff without delay. A conference by phone or in person will be held to clarify the reason for the disciplinary action and to verify the events or evidence. Parents must keep their child at home for the duration of the suspension. Teachers are not required to supply schoolwork for suspended students.

A student will not be suspended from school for more than five days unless the student is recommended for an expulsion. If the student is recommended for expulsion, the matter will be referred to the LAS Board, and the Board will hold a closed hearing to avoid violating the student's right to privacy (Education Code [49073-49079](#)).

Note: Consideration must be given to the severity of the behavior. It may be necessary to assign suspension for a first offense.

Hate Crime Reporting Procedures and Policies

In order to create a safe learning environment for all students, the Governing Board desires to protect the right of every student to be free from hate-motivated behavior and will promote harmonious relationships among students so as to enable them to gain a true understanding of the civil rights and social responsibilities of people in society. The school prohibits discriminatory behavior or statements that degrade an individual on the basis of their actual or perceived race, ethnicity, culture, heritage, gender, sex, sexual orientation, physical/mental attributes, or religious beliefs or practices.

The school shall provide age-appropriate instruction to help promote an understanding of and respect for human rights, diversity, and tolerance in a multicultural society and to provide strategies to manage conflicts constructively.

The Executive Director or designee shall ensure that staff receive training on recognizing hate-motivated behavior and on strategies to help respond appropriately to such behavior.

Whenever possible and deemed appropriate, the Executive Director or designee shall collaborate with regional programs and community organizations to promote safe environments for youth. These efforts shall be focused on providing an efficient use of school and community resources.

Grievance Procedures

Any student who believes they are a victim of hate-motivated behavior shall immediately contact the Executive Director or other school administration. Upon receiving such a complaint, the Executive Director shall immediately investigate the complaint in accordance with school-level complaint process/grievance procedures as described in the Student/Parent Handbook. A student who has been found to have demonstrated hate-motivated behavior shall be subject to discipline in accordance with law, Board policy, and administrative regulation.

Staff who receive notice of hate-motivated behavior or personally observe such behavior shall notify the Executive Director or designee, and/or law enforcement, as appropriate.

As necessary, the school shall provide counseling, guidance, and support to students who are victims of hate-motivated behavior and to students who exhibit such behavior.

Emergency Action Plan: Medical Emergency or Sudden Cardiac Arrest

An Emergency Action Plan (EAP) is a valuable tool that is meant to ensure the safety and wellbeing of students, staff, and other persons on campus during a medical emergency or sudden cardiac arrest (cardiopulmonary arrest). EAPs are an important part of a site's mitigation strategies as they can reduce the impact of emergencies on individuals.

All individuals involved in implementing the EAP, including teachers, school administrators, and other staff members, should be familiar with its contents and trained in any specific procedures it includes.

Cardiac arrest happens when your heart stops beating or beats so fast that it stops pumping blood. During cardiac arrest, people typically collapse and become unresponsive. Symptoms start without warning. Emergency treatment includes cardiopulmonary resuscitation (CPR) and defibrillation using an Automatic External Defibrillator (AED). CPR keeps enough oxygen in your lungs and gets it to your brain until an electric shock restores a normal heart rhythm. Early recognition and response are crucial in a cardiac emergency.

Written Emergency Action Plan When responding to a medical emergency in an emergency action plan, the primary steps are to immediately call for emergency medical services (911),

assess the situation to identify the nature of the emergency, provide appropriate first aid based on your training, and ensure the safety of both the injured person and those around them; do not move the victim unless absolutely necessary, especially if there is a potential head, neck, or back injury, and always follow instructions from the emergency dispatcher.

LAS has established the following as a protocol in case of a medical emergency or sudden cardiac arrest. The primary plan of action is to:

- Assess the situation
- Call 911 immediately
- Check for responsiveness
- Start CPR if necessary
- Use an AED if available, all while directing someone to retrieve additional help and locate the nearest AED
- Follow instructions from emergency personnel until they arrive
- Stay with the person until emergency assistance arrives.

AED Legislation In alignment with Education Code 35179.6/ and or CA AB 2009 AED Legislation, schools need to:

- Have a written Emergency Action Plan
- Acquisition of an AED
- Encourage AEDs be available for emergency care
- Ensure AEDs be available for emergency care
- Ensure an AED is available to athletic trainers and coaches
- Ensure AEDs are maintained and tested regularly

Opioid Overdose Protocol

Opioids include prescription medications used to treat pain as well as illegal drugs such as heroin and illicit potent opioids such as fentanyl analogs. Opioids work by binding to specific receptors in the brain, spinal cord, and gastrointestinal tract. In doing so, they diminish the body's perception of pain. However, opioids can also have an impact on other systems of the body, such as altering mood, slowing breathing, and causing constipation. Opioid receptors binding causes the signs and symptoms of overdose as well as the euphoric effects of 'high' with opioid use.

According to the Center for Disease Control and Prevention, signs of an overdose may include:

- Small, constricted "pinpoint pupils"
- Falling asleep or loss of consciousness
- Slow, shallow breathing
- Choking or gurgling sounds
- Limp body
- Pale, blue, or cold skin

Opioid Overdose Protocol Per Education Code 32282, LAS has established the following as a protocol for students suffering from an opioid overdose:

1. Call 911 immediately
2. Try to keep the person awake and breathing
3. Lay the person on their side to prevent choking
4. Stay with the person until emergency assistance arrives.

Emergency Response Plan

Step One: Identify the Type of Emergency

The first response to an emergency is to determine the type of emergency that has occurred. Procedures for 18 different types of emergencies are listed in the following section.

Step Two: Identify the Level of Emergency

The second step in responding to an emergency is to determine the level of the emergency. For schools, emergency situations can range from a small fire to a major earthquake. To assist schools in classifying emergency situations, there is a three-tiered rating below:

- **Level 1 Emergency:** A *minor* emergency that is handled by school personnel without the assistance from outside agencies, e.g., a temporary power outage, a minor earthquake, or a minor injury in the play yard.
- **Level 2 Emergency:** A *moderate* emergency that requires assistance from outside agencies, such as a fire or a moderate earthquake, or a suspected act of terrorism involving a potentially hazardous material, e.g., “unknown white powder.”
- **Level 3 Emergency:** A *major* emergency event that requires assistance from outside agencies such as a major earthquake, civil disturbance or a large-scale act of terrorism. For Level 3 emergencies, it is important to remember that the response time of outside agencies may be seriously delayed.

Step Three: Determine the Immediate Response Action

Once the type and extent of an emergency have been identified, school personnel can determine if an immediate response action is required. The most common immediate response actions initiated during school emergencies are:

- **Duck & Cover:** Students and staff protect themselves by crouching under a table, desk, or chair until the danger passes.
- **Shelter in Place:** Students and staff are kept indoors in order to isolate them from the outdoor environment. The heating and air conditioning system is also shut down.
- **Lock Down:** Students and staff are kept in a designated locked area until a danger has passed, such as an intruder being on campus.
- **Evacuate Building:** Students and staff are escorted outside to an assembly area if it has been determined that it is too dangerous to remain indoors.

- **Evacuate Campus:** Students and staff are escorted to an off-site assembly area if it has been determined that it is too dangerous to remain on campus.
- **All Clear:** Notification is given that normal school operations should resume.

Step Four: Communicate the Appropriate Response Action

Once the type of immediate response action is determined, the incident commander must inform the site’s staff which response action to take. The most appropriate method of communication depends on the response action selected. When announcing what response to take, avoid codes, jargon, or any other potentially confusing vocabulary. Be calm, direct, and clear in your announcements.

- **Duck & Cover:** Immediately use the site’s school-wide communication system to instruct students and staff to protect themselves by moving into a “duck & cover” position by crouching under a table, desk, or chair until the danger passes. Time is the most urgent matter with this response action as the emergency may take place before the announcement can be made. However, do not assume that all members of the site are already in a “duck & cover” position. Make the announcement even if the immediate crisis has passed.
- **Shelter in Place:** Immediately use the site’s school-wide communication system to instruct students and staff that they are to stay indoors until further notice, even if the heating and air conditioning system is disabled.
- **Lock Down:** Immediately use the site’s school-wide communication system to instruct staff to lock all exterior doors, to close any open windows, and to keep students as far away as possible from any windows until further notice
- **Evacuate Building:** Immediately use the site’s fire alarm bell system to notify students and staff that they are to proceed to the outside assembly area.
- **Evacuate Campus:** Immediately use the site’s fire alarm bell system to notify students and staff that they are to proceed to the outside assembly area. From there, notify staff and students using a bullhorn that it has been determined that it is too dangerous to remain on campus. Provide instructions on how staff and students will be relocated.
- **All Clear:** Use the site’s school-wide communication system to notify staff and students that normal school operations should resume.

Fire Hazard Severity Zone and Refuge Shelter

In the event that the LAS school site might be impacted by a high or very high fire hazard severity zone, or potentially affected by a rapidly moving forest fire, the site will take the above into consideration along with the following, per AB 2968: School Safety and Fire Prevention:

- Refuge Shelter for all pupils and staff for use in the event of an evacuation order, and to notify the operational area having jurisdiction of the refuge.
- Development of a communication and evacuation plan to be used in the event of an early notice evacuation warning as provided.

The evacuation plan will include, but not be limited to, and/or consider the following:

- Evacuation Procedures:
 - Develop clear evacuation procedures and be sure all staff are aware of them.
 - Research and know the evacuation/escape routes.
 - Map out assembly point locations.
 - Notify school leadership so that staff can meet you there/assist/notify families.
 - Loading of cars and roll call of all persons on site that day.
- Transportation:
 - LAS will use personal vehicles and consider how many cars are on site in a typical day, how many seats with seat belts are within those cars, and how many people can be put into a car, regardless of seats/seatbelts if needed.
- Reunification Site:
 - Follow the orders of local authorities.
 - Other as needed/necessary.
- Communication:
 - Inform parents/guardians of the intent to evacuate and what the plan is.
- Planning and Development:
 - Develop Individual Emergency Response Plans for those students with disabilities or special needs during an emergency situation.
 - Develop your Site Emergency Response Teams and locations:
 - A process to account for those who have evacuated
 - Communication Officer
 - Assembly Area
 - Social-Emotional Support Team
 - Key personnel contact information.
 - Logistics Team: document critical tools/equipment
 - Training guidelines and log

Annual Review, Evaluation and Approval Procedures

The LAS Comprehensive School Safety Plan will be reviewed, evaluated and approved annually before by March 1 of each school year.

LAS adopted this Comprehensive School Safety Plan at the regular meeting of the Governing Board, as noted on the cover page. An opportunity for public comment was provided during this meeting, prior to the plan's adoption. Documentation of this meeting, which may include the meeting agenda, minutes and copies of materials provided for the plan presentation, are available on the LAS website: www.lasac.info.

An updated file containing all appropriate or required safety related plans and materials are available for public inspection on the LAS website (www.lasac.info). A copy of the Comprehensive School Safety Plan will be made available upon request.
