

# Student Board Member Application

Hello, My name is Alyssa Moore, I am and Sophomore at Enterprise High School and I want to be your Student Board Member for the 2026-2027 school year!!! I am interested in being on the student board because I love being involved and making a difference. I want to show my school and community who I am and how I can help. At Enterprise Highschool (My School) I am very involved. I have played volleyball for 2 years, Softball for 2 years and this year varsity!! At EHS I am also in Asb where I am in charge of rallies. This year I am Sophomore Vice President and next year I will be EHS Junior class President! One of the things im most proud of is that I am in Enterprise Starship. I am a 2nd year member and I love it with my whole heart. It gives me an opportunity to show my skills and to express myself with the people I love on a huge stage putting on a show for people to enjoy. At enterprise I am also involved in multiple different clubs like Fca and Adventure & service club. Next year I will also be apart of E-Crew where I will help the freshman and make their year great! Outside of school I am still very busy! I intern at elevate during summer and I also work there during the school year as a Counselor. I also will be working at Waterworks park this summer! Throughout all my experiences I still make time to do the things I love like hanging out with my friends, Making food with my mom, and always finding new opportunities. Being involved in so much has showed me the importance of Teamwork, Communication, Responsibility, and Being able to be a dependable person. I always enjoy connecting with new students no matter if its Our Cool kids or just random people in the hallways, I will always be the first to say hi and not be shy. One of the reasons why I love connecting with my fellow peers is because i love making new friends but I also love making them feel heard, included, and involved. One perspective that I would bring the student board is the importance of students connections and their leadership influence. I think that students need someone who is not afraid to speak up but that

will also take their ideas and thoughts to people higher up. Kids our age need to feel supported emotionally, academically, physically, just every way possible. They need to be able to feel motivated when they come to school and want to come to school knowing that their voices are heard, and as a Student Board Member I would do everything I can to make that happen. Serving as a Student Board Member would also give me opportunities to improve as a Leader and as A President at EHS. It would help improve my experiences and it would help me gain experience from not just my peers but other people that are trying to learn the same things that I am. Most importantly It would give me experience in challenges for my life beyond high school while letting me represent my peers and contribute to our district. So Thank you for your time and consideration of my Application and I would be Honored and Incredibly Happy to be Apart of the Student Board for The Shasta Highschool Union District!

Sincerely, Alyssa Moore

RE: Student Board Representative Application

I am honored to write this letter of recommendation for Alyssa Moore, as she seeks the opportunity to serve as a student representative for the Board of Trustees. As an exceptional student leader, she embodies the qualities of integrity, positivity, service, and dedication that make her uniquely qualified for this important role.

Alyssa currently maintains an outstanding 3.95 GPA while balancing a rigorous academic schedule and extensive involvement in school activities. Her academic success reflects not only her intelligence, but also her discipline, work ethic, and commitment to excellence in everything she pursues.

Beyond the classroom, she has become an integral part of our school community through her involvement in music and student leadership with ASB. In every setting, she demonstrates maturity, professionalism, and a genuine desire to create a positive environment for others. She is the type of student who naturally brings people together, encourages her peers, and leads by example.

What makes Alyssa especially remarkable is her passion for service and student advocacy. She consistently seeks ways to improve the school experience for others and actively looks for opportunities to contribute in meaningful ways. Her positive attitude, strong communication skills, and approachable personality allow her to connect with students and staff alike.

In the upcoming school year as a junior, she will also be involved in restorative justice efforts on campus. This opportunity aligns perfectly with her character and leadership style. She believes in supporting others, building community, and helping students feel heard and valued. Her involvement in restorative justice will only further strengthen her ability to represent the student body thoughtfully and compassionately.

Without hesitation, I can say that Alyssa would be an incredible student representative for the Board of Trustees. She possesses the leadership, responsibility, and vision necessary to serve as a strong voice for students while representing our school with professionalism and pride.

I give Alyssa Moore my highest recommendation and am confident she will continue to make a positive impact wherever she serves.
