

Sly Park Day Group | Trip Preparedness

Sly Park Environmental Education Center is located approximately 60 miles east of Sacramento in the Sierra Nevada Mountains. The Sly Park Campus is situated at approximately 3500' elevation and the climate is generally cooler and wetter than the Sacramento Valley.

Temperatures can vary greatly any time of year. Students should bring clothes for all types of weather. To be properly prepared, we recommend checking the Pollock Pines long-term weather report leading up your trip date and packing accordingly.

The following are a few things to take into consideration when planning your trip and preparing your students for their Sly Park experience.
