“Offering Choices to Strengthen Our Voices”

Dear Parent or Guardian,

The Healthy Schools Act of 2000 was signed into law in September 2000 and requires that all schools provide parents or guardians of students with annual written notification of expected pesticide use on school sites. However, our goal and the goal of our pest management professionals at Clark Pest Control is to utilize materials that are considered exempt by EPA as pesticides. Of course, if a situation should arise that these exempted materials are not enough to control a specific infestation then use of registered pesticides may be necessary. The notification will identify the active ingredient or ingredients in each pesticide product and will include the Internet address (www.cdpr.ca.gov) for further information on pesticides and their alternatives. We will send out annual notifications starting August 2026.

Parents or guardians may request prior notification of individual pesticide applications at the school site. Beginning August 2026, people listed on this registry will be notified at least 72 hours before pesticides are applied. If you would like to be notified every time we apply a pesticide, please complete and return the form below and mail it to: Williams Unified School District, PO Box 7, Williams, CA 95987 or wusdcontacts@williamsusd.net

If you have any questions, please contact Dr. Juan Salas, Superintendent at (530) 473-2550.
