## 2024-2025 School Accountability Report Card (Published During the 2025-2026 School Year)

**Vina  
Elementary  
School**

Pro-Student. Pro-Education. Pro-Community.

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

### Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

### Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

## 2025-26 School Description and Mission Statement

Vina Elementary School is a small four-room school founded originally as the only school in the Pine Creek District in 1924. Located in southern Tehama County, Vina is now one of two elementary schools in the Los Molinos Unified School District. Vina currently serves approximately 80 students in first through eighth grades in the original, historic school building. A modern, portable building, which serves as a library, STEM lab, CTE lab, and resource center was added in 2002. The school sits on 5.94 acres, all surrounded by neighboring orchards. As part of the grounds, there are two softball diamonds, a multi-purpose soccer and football field, two dedicated basketball courts, and a combination volleyball/basketball court in addition to a playground that is designated for primary students.

## 2025-26 School Description and Mission Statement

### Vision Statement

The core values of “pro-student, pro-education, pro-community” reflect the vision of our school. Our goal is to help all students reach their full potential socially, emotionally, and academically so that they can be change-makers in their homes, schools, communities, and world.

### Mission Statement

In order to make our vision a reality, we must make our school a truly pro-student environment. We will design lessons that are engaging for all students by utilizing a variety of instructional strategies that allow everyone to be successful. We will support students as they begin to figure out who they are and how they fit into the world with loving guidance, positive interventions, and a focus on restorative justice. We will ensure that every student has the same opportunities to become exactly who they want to be. In our school, all children will be held to a high standard of behavior and academic achievement because each of them is capable of meeting and exceeding those goals.

It is our objective to make sure that everything we do, in addition to being pro-student, is pro-education. We will choose materials that are dynamic enough to engage our new generation of learners, integrate technology in a way that prepares them for the ever-changing world they will enter, and deliver instruction in a way that helps them become critical thinkers and problem solvers. However, education is certainly not limited to what happens in the classroom. We will offer opportunities to everyone to become educated in working as a team through ample athletic and extracurricular opportunities. We will model kindness, integrity, and grit every day, and teach our students that anything worth having is worth working for.

We will build a strong school community. If a child does not feel safe at school, learning cannot take place. Ultimately, we are sending our students out into bigger communities than they have ever been part of before, and it is our responsibility to prepare them to be change-makers in every environment they enter. We will build strong relationships with other local schools so that when our students move on they are set up for success. We will reach out to our local community to engage others in supporting our students in all of their endeavors. By having strong ties to the community, we can offer our students a view into the future - they can see that there are people everywhere who were once small-town kids just like themselves and are now making a difference in the world.

## School Facility Conditions and Planned Improvements

Vina Elementary is housed in a historic building that has served multiple generations of families. It is located in the center of Vina. The buildings and playground are well maintained and serve as a community gathering place. The restrooms were renovated in 2019 with Modernization funds. The lack of vandalism and graffiti show the pride of the community in their school. Electrical was updated in 2008. All classrooms have operational HVAC systems, in addition to a separate unit for the auditorium and cafeteria. The portable building has working HVAC as well.

## B. Pupil Outcomes

## State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

<b>Mathematics</b> (grades 3-8 and 11)	65	51	33	32	35	37

## 2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2024-25 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. ## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

#### 2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade 7	100	100	100	100	100

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2025-26 Opportunities for Parental Involvement

Vina is committed to supporting an already existing high parent participation rate. This is a district LCAP, Board, and SPSA Goal. In addition to SSC meetings, we offer an array of events such as Back to School Night, Open House, Halloween Carnival, Spaghetti Dinner, Christmas Program, Sporting Events, and Grandparents Day. Parents also have the opportunity to volunteer throughout the school day and chaperone field trips. Vina is very supportive of providing parents the opportunity to participate in school events.

## 2024-25 Chronic Absenteeism by Student Group

## 2025-26 School Safety Plan

Vina Elementary School maintains a comprehensive school safety plan that is reviewed and updated annually in compliance with state and district requirements. The plan includes procedures for emergency preparedness, disaster response, student supervision, visitor management, and campus security. Staff members receive regular training on emergency protocols, including lockdowns, evacuations, and medical emergencies. The school works collaboratively with local law enforcement, fire services, and district officials to ensure coordinated responses to emergencies. Student safety is further supported through supervision during instructional and non-instructional times, clear behavioral expectations, and a positive school climate that emphasizes prevention, communication, and student well-being.

## Professional Development

Vina Elementary School provides professional development opportunities to staff in many areas of instruction, curriculum, classroom management, safety, and social-emotional learning. Staff have participated in professional trainings in project-based learning, technology integration, trauma-informed practices, Universal Design for Learning (UDL), specific instructional strategies, Positive Behavioral Interventions and Supports (PBIS), and other areas that support student learning and well-being. Staff meet several times per week to discuss student progress and development, and a minimum of once per month for professional development focused on curriculum, instruction, and Professional Learning Communities. In addition, Los Molinos Unified School District provides three days of staff development district-wide each year. As a staff, Vina Elementary is dedicated to the continuous review and improvement of instructional practices to meet the needs of all students. The district employs an Assistant Principal/Program Coordinator who supports teachers in curriculum implementation, assessment, school culture, and the PLC process.

This table displays the number of school days dedicated to staff development and continuous improvement.
