## School Plan for Student Achievement (SPSA)

School Name	County-District-School (CDS) Code	Schoolsite Council (SSC) Approval Date	Local Board Approval Date
Willows Community High School	11-62661-1130038	May 4, 2026	May 7, 2026

The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan (LCAP) process.

This SPSA template consolidates all school-level planning efforts into one plan for programs funded through the Consolidated Application (ConApp), and for federal Additional Targeted Support and Improvement (ATSI), pursuant to California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act (ESEA) as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements for both the SPSA and federal ATSI planning requirements.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate

with their federally-funded programs and align them with the priority goals of the school and the local educational agency (LEA) that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with EC 64001(g)(1), the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

This plan is being used by Willows Community High School for meeting the following ESSA planning requirements in alignment with the LCAP and other federal, state, and local programs:

Schoolwide Program

This template is based on the December, 2023 CDE revision of the School Plan for Student Achievement. Some modifications have been made to inform the SPSA development process.

# Plan Description

Briefly describe your school's plan for effectively meeting ESSA's planning requirements in alignment with the Local Control and Accountability Plan (LCAP) and other federal, state, and local programs.

This plan is being used by Willows Community High School for meeting the following ESSA planning requirements in alignment with the LCAP and other federal, state, and local programs:

## Schoolwide Program

The School Plan for Student Achievement (SPSA) is a plan of actions to raise the academic performance of all students. California Education Code sections 41507, 41572, and 64001 and the federal Elementary and Secondary Education Act (ESEA) require each school to consolidate all school plans for programs funded through the ConApp and ESEA Program Improvement into the SPSA. Willows Community High School is a continuation school serving 14-25 students primarily assigned due to poor attendance and credit deficiency. We are dedicated to meeting the requirements of the Every Student Succeeds Act (ESSA) by aligning our efforts with the goals of our Local Control and Accountability Plan (LCAP) and integrating with other federal, state, and local programs. Our plan focuses on:

### Improving Academic Achievement and Credit Recovery:

We provide personalized learning plans and flexible scheduling to meet the unique needs of our students, emphasizing credit recovery, mastery of essential skills, and preparation for post-secondary opportunities. Our curriculum includes standards-aligned instruction supplemented by online learning platforms to allow for individualized pacing.

### Addressing Attendance and Engagement Challenges:

We implement targeted interventions to improve attendance and re-engage students through relationship-building, goal setting, and regular progress monitoring. Our team collaborates with families and community partners to address barriers to attendance and promote consistent participation.

### Supporting Social-Emotional and Behavioral Needs:

We create a safe and supportive environment by integrating trauma-informed practices, Positive Behavioral Interventions and Supports (PBIS), and individualized counseling services. Our focus is on developing students' coping skills, resilience, and confidence to succeed academically and personally.

### Engaging Families and the Community in Student Success:

We maintain regular, open communication with families and engage them as partners in their child's academic journey. Through family outreach, we ensure that families are informed and involved in supporting their child's progress.

### Monitoring Progress and Refining Interventions:

We continuously assess student progress using a variety of measures, including attendance, credit attainment, and social-emotional indicators. Regular review of data ensures that interventions are adjusted to meet the evolving needs of our students, with a focus on keeping them on track toward graduation.

## Educational Partner Involvement

How, when, and with whom did Willows Community High School consult as part of the planning process for this SPSA/Annual Review and Update?

### Involvement Process for the SPSA and Annual Review and Update

Willows Community High School administration, faculty and staff host parent evenings in the fall and spring semesters to solicit stakeholder feedback for improvement. The district also collects data from educational partner surveys each year.

## Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

This section is required for all schools eligible for ATSI and CSI.

# Comprehensive Needs Assessment Components

Identify and describe any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

## California School Dashboard (Dashboard) Indicators

Referring to the California School Dashboard (Dashboard), any state indicator for which overall performance was in the “Red” or “Orange” performance category.

Due to an enrollment of fewer than 25 students, Willows Community High School does not receive an overall performance rating for each of the state indicators on the California School Dashboard.

Referring to the California School Dashboard (Dashboard), any state indicator for which performance for any student group was two or more performance levels below the “all student” performance.

Due to an enrollment of fewer than 25 students, Willows Community High School does not receive an overall performance rating for each of the state indicators on the California School Dashboard.

## Other Needs

In addition to Dashboard data, other needs may be identified using locally collected data developed by the LEA to measure pupil outcomes.

In addition to the data provided by the California School Dashboard, Willows Community High School utilizes the Aeries Student Information System to track and analyze student achievement, credit attainment, and attendance. This locally collected data allows us to closely monitor individual student progress, identify areas where additional support may be needed, and ensure that students are on track to meet their academic and graduation goals. By leveraging real-time data from Aeries, we are able to make informed decisions and implement targeted interventions to address the unique needs of our students effectively.

## CAASPP Results English Language Arts/Literacy (All Students)

The Smarter Balanced Summative Assessments for ELA and mathematics are an annual measure of what students know and can do using the Common Core State Standards for English language arts/literacy and mathematics.

The purpose of the Smarter Balanced Summative Assessments is to assess student knowledge and skills for English language arts/literacy (ELA) and mathematics, as well as how much students have improved since the previous year. These measures help identify and address gaps in knowledge or skills early so students get the support they need for success in higher grades and for college and career readiness.

All students in grades three through eight and grade eleven take the Smarter Balanced Summative Assessments unless a student's active individualized education program (IEP) designates the California Alternate Assessments.

Visit the California Department of Education's [Smarter Balanced Assessment System](#) web page for more information.

The English Language Proficiency Assessments for California (ELPAC) system is used to determine and monitor the progress of the English language proficiency for students whose primary language is not English. The ELPAC is aligned with the 2012 California English Language Development Standards and assesses four domains: listening, speaking, reading, and writing.

Visit the California Department of Education's [English Language Proficiency Assessments for California \(ELPAC\)](https://www.cde.ca.gov/ta/tg/ela/elpac/) web page or the [ELPAC.org](https://elpac.org) website for more information about the ELPAC.

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required, and this section may be left blank and completed at the end of the year after the plan has been executed.

### Analysis

Describe the overall implementation and effectiveness of the strategies/activities to achieve the articulated goal.

Willows Community High School (WCHS) remains committed to increasing the rigor and relevance of core subjects through a variety of engaging lessons and activities designed to meet the diverse needs of our students. A key component of this effort will be the restructuring of the schedule and addition of Butte College Courses, internships for students in the community or through the district, CTE career exploration modules which will provide students with valuable hands-on learning experiences and career-ready skills. Through this course, students have the opportunity to earn industry-recognized certifications enhancing their preparedness for both post-secondary education and the workforce. This strategic restructuring not only strengthens the relevance of our curriculum but also equips students with practical skills that align with real-world career pathways, contributing to their overall academic success and future readiness.

Describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

A key consideration in the ongoing implementation of our strategies is the need to evaluate the grant funding for one section of the CTE teacher position. This funding source will require careful review to determine its sustainability for future implementation and whether additional resources will be needed to maintain the effectiveness of the CTE program in meeting our articulated goals.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

The budget may need to be revised to account for the costs associated with certification exams for each student, as well as for the necessary instructional materials and supplies to support Career and Technical Education (CTE) lessons and activities. This adjustment will ensure that students have access to the resources required to successfully complete their coursework and earn valuable industry certifications.

### Analysis

Describe the overall implementation and effectiveness of the strategies/activities to achieve the articulated goal.

Willows Community High School (WCHS) is committed to providing meaningful opportunities for student and parent involvement by developing and maintaining a systematic approach to partnering with students, parents, county resources, and community members. To achieve this goal, WCHS has implemented a variety of culturally enriching and community-focused activities designed to increase engagement and foster a sense of belonging. These activities include field trips to Chico State University to expose students to higher education opportunities, outdoor experiences at Whiskeytown Lake to promote environmental awareness, and participation in the pre-school Halloween Carnival to build connections with younger students and the broader community. Additionally, events such as open house nights and school board presentations showcasing projects like the proposed class wall mural and school building improvements provide platforms for students and families to actively engage with the school. While these efforts have had a positive impact on student engagement and community involvement, chronic absenteeism remains an ongoing challenge. WCHS is continuing to explore additional strategies to leverage these activities as opportunities to strengthen relationships and address attendance issues more effectively.

Describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

No major differences reported.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

With the elimination of the Parent and Community Engagement Liaisons due to district budget cuts, WCHS will need to find other options for parent and community support.

# Instructions

The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan (LCAP) process.

This SPSA template consolidates all school-level planning efforts into one plan for programs funded through the Consolidated Application (ConApp) pursuant to California *Education Code (EC)* Section 64001 and the Elementary and Secondary Education Act (ESEA) as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the local educational agency (LEA) that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with *EC* 64001(g)(1), the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

For questions related to specific sections of the template, please see instructions below.

Schools eligible for ATSI must briefly describe the purpose of this plan by stating that this plan will be used to meet federal ATSI planning requirements.

## Educational Partner Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. Within California, these stakeholders are referred to as educational partners. Schools must share the SPSA with school site-level advisory groups, as applicable (e.g., English Learner Advisory committee, student advisory groups, tribes and tribal organizations present in the community, as appropriate, etc.) and seek input from these advisory groups in the development of the SPSA.

The Educational Partner Engagement process is an ongoing, annual process. Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

### **Additional CSI Planning Requirements:**

When completing this section for CSI, the LEA must partner with the school and its educational partners in the development and implementation of this plan.

### **Additional ATSI Planning Requirements:**

This section meets the requirements for ATSI.

## Resource Inequities

This section is required for all schools eligible for ATSI and CSI.

**Additional CSI Planning Requirements:**

- Schools eligible for CSI must identify resource inequities, which may include a review of LEA- and school-level budgeting as a part of the required school-level needs assessment.
- Identified resource inequities must be addressed through implementation of the CSI plan.

- Identified resource inequities must be addressed through implementation of the ATSI plan.
- Briefly identify and describe any resource inequities identified as a result of the required school-level needs assessment and summarize how the identified resource inequities are addressed in the SPSA.

## **Comprehensive Needs Assessment**

Referring to the California School Dashboard (Dashboard), identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. In addition to Dashboard data, other needs may be identified using locally collected data developed by the LEA to measure pupil outcomes.

**SWP Planning Requirements:**

When completing this section for SWP, the school shall describe the steps it is planning to take to address these areas of low performance and performance gaps to improve student outcomes.

Completing this section fully addresses all SWP relevant federal planning requirements.

**CSI Planning Requirements:**

When completing this section for CSI, the LEA shall describe the steps the LEA will take to address the areas of low performance, low graduation rate, and/or performance gaps for the school to improve student outcomes.

Completing this section fully addresses all relevant federal planning requirements for CSI.

**ATSI Planning Requirements:**

Completing this section fully addresses all relevant federal planning requirements for ATSI.

## **Goals, Strategies/Activities, and Expenditures**

In this section, a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

**Additional CSI Planning Requirements:**

When completing this section to meet federal planning requirements for CSI, improvement goals must also align with the goals, actions, and services in the LEA’s LCAP.

**Additional ATSI Planning Requirements:**

When completing this section to meet federal planning requirements for ATSI, improvement goals must also align with the goals, actions, and services in the LEA's LCAP.

**Goal**

Well-developed goals will clearly communicate to educational partners what the school plans to accomplish, what the school plans to do in order to accomplish the goal, and how the school will know when it has accomplished the goal. A goal should be specific enough to be measurable in either quantitative or qualitative terms. Schools should assess the performance of their student groups when developing goals and the related strategies/activities to achieve such goals. SPSA goals should align to the goals and actions in the LEA's LCAP.

A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve?

It can be helpful to use a framework for writing goals such as the S.M.A.R.T. approach.

A S.M.A.R.T. goal is:

- **Specific,**
- **Measurable,**
- **Achievable,**
- **Realistic, and**
- **Time-bound.**

A level of specificity is needed in order to measure performance relative to the goal as well as to assess whether it is reasonably achievable. Including time constraints, such as milestone dates, ensures a realistic approach that supports student success.

A school may number the goals using the "Goal #" for ease of reference.

**Additional CSI Planning Requirements:**

Completing this section as described above fully addresses all relevant federal CSI planning requirements.

**Additional ATSI Planning Requirements:**

Completing this section as described above fully addresses all relevant federal ATSI planning requirements.

**Identified Need**

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including local and state indicator data from the Dashboard and data from the School Accountability Report Card, including local data voluntarily collected by districts to measure pupil achievement.

**Additional CSI Planning Requirements:**

Completing this section as described above fully addresses all relevant federal CSI planning requirements.

**Additional ATSI Planning Requirements:**

Completing this section as described above fully addresses all relevant federal ATSI planning requirements.

**Annual Measurable Outcomes**

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the

baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to make in the coming year.

**Additional CSI Planning Requirements:**

When completing this section for CSI, the school must include school-level metrics related to the metrics that led to the school's eligibility for CSI.

**Additional ATSI Planning Requirements:**

Completing this section as described above fully addresses all relevant federal ATSI planning requirements.

## Strategies/Activities Table

Describe the strategies and activities being provided to meet the goal.

Complete the table as follows:

- Strategy/Activity #: Number the strategy/activity using the "Strategy/Activity #" for ease of reference.
- Description: Describe the strategy/activity.
- Students to be Served: Identify in the Strategy/Activity Table either All Students or one or more specific student groups that will benefit from the strategies and activities. ESSA Section 1111(c)(2) requires the schoolwide plan to identify either "All Students" or one or more specific student groups, including socioeconomically disadvantaged students, students from major racial and ethnic groups, students with disabilities, and English learners.
- Proposed Expenditures: List the amount(s) for the proposed expenditures. Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA. Pursuant to EC Section 64001(g)(3)(C), proposed expenditures, based on the projected resource allocation from the governing board or governing body of the LEA, to address the findings of the needs assessment consistent with the state priorities including identifying resource inequities which may include a review of the LEA's budgeting, its LCAP, and school-level budgeting, if applicable.
- Funding Sources: List the funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal, identify the Title and Part, as applicable), Other State, and/or Local.

Planned strategies/activities address the findings of the comprehensive needs assessment consistent with state priorities and resource inequities, which may have been identified through a review of the LEA's budgeting, its LCAP, and school-level budgeting, if applicable.

**Additional CSI Planning Requirements:**

- When completing this section for CSI, this plan must include evidence-based interventions and align to the goals, actions, and services in the LEA's LCAP.
- When completing this section for CSI, this plan must address through implementation, identified resource inequities, which may have been identified through a review of LEA- and school-level budgeting.

Note: Federal school improvement funds for CSI shall not be used in schools identified for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.

**Additional ATSI Planning Requirements:**

- When completing this section for ATSI, this plan must include evidence-based interventions and align with the goals, actions, and services in the LEA's LCAP.

- When completing this section for ATSI, at a minimum, the student groups to be served shall include the student groups that are consistently underperforming, for which the school received the ATSI designation.

**Note:** Federal school improvement funds for CSI shall not be used in schools identified for ATSI. Schools eligible for ATSI do not receive funding but are required to include evidence-based interventions and align with the goals, actions, and services in the LEA's LCAP.

## Annual Review

In the following Goal Analysis prompts, identify any material differences between what was planned and what actually occurred as well as significant changes in strategies/activities and/or expenditures from the prior year. This annual review and analysis should be the basis for decision-making and updates to the plan.

## Goal Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed. Respond to the following prompts relative to this goal.

- Describe the overall implementation and effectiveness of the strategies/activities to achieve the articulated goal.
- Briefly describe any major differences between the intended implementation and/or material difference between the budgeted expenditures to implement the strategies/activities to meet the articulated goal.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

**Note:** *If the school is in the first year of implementing the goal, the Annual Review section is not required and this section may be left blank and completed at the end of the year after the plan has been executed.*

### Additional CSI Planning Requirements:

- When completing this section for CSI, any changes made to the goals, annual measurable outcomes, metrics/indicators, or strategies/activities, shall meet the federal CSI planning requirements.

**Note:** *If the school is not operating a Title I schoolwide program, this section is not applicable and may be deleted.*

**Additional CSI Planning Requirements:**

- From its total allocation for CSI, the LEA may distribute funds across its schools that are eligible for CSI to support implementation of this plan. In addition, the LEA may retain a portion of its total allocation to support LEA-level expenditures that are directly related to serving schools eligible for CSI.

**Note:** *CSI funds may not be expended at or on behalf of schools not eligible for CSI.*

**Additional ATSI Planning Requirements:**

**Note:** *Federal funds for CSI shall not be used in schools eligible for ATSI.*

## Budget Summary Table

A school receiving funds allocated through the ConApp should complete the Budget Summary Table as follows:

- **Total Funds Provided to the School Through the ConApp:** This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- **Total Funds Budgeted for Strategies to Meet the Goals in the SPSA:** This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school receiving funds from its LEA for CSI should complete the Budget Summary Table as follows:

- **Total Federal Funds Provided to the School from the LEA for CSI:** This amount is the total amount of funding provided to the school from the LEA for the purpose of developing and implementing the CSI plan for the school year set forth in the CSI LEA Application for which funds were received.

## Single School Districts and Charter Schools Eligible for ESSA School Improvement

Single school districts (SSDs) or charter schools that are eligible for CSI, TSI, or ATSI, shall develop a SPSA that addresses the applicable requirements above as a condition of receiving funds (*EC Section 64001[a]* as amended by Assembly Bill [AB] 716, effective January 1, 2019).

However, a SSD or a charter school may streamline the process by combining state and federal requirements into one document which may include the local control and accountability plan (LCAP) and all federal planning requirements, provided that the combined plan is able to demonstrate that the legal requirements for each of the plans is met (*EC Section 52062[a]* as amended by AB 716, effective January 1, 2019).

Planning requirements for single school districts and charter schools choosing to exercise this option are available in the LCAP Instructions.

Authority Cited: *EC* sections 52062(a) and 64001(a), both as amended by AB 716, effective January 1, 2019.
