

# Parent Enrollment & Registration FAQ

## ✦ New Students & Re-Enrollments

### Who needs to complete first-time registration or re-enrollment (away for 1 month or more)?

Families registering a student for the first time—or returning after being disenrolled for one month or longer—should complete the full registration process.

### How do I find my child's school of residency?

Use the district's [Address Lookup tool](#) to identify your assigned school.

### What documents do I need to register?

Visit the [Registration Documents](#) page to review the required paperwork before starting your application.

### How do I complete online registration?

Submit your student's information through the district's **Online Registration form**. Visit the Registration page for details:

[2026-2027 School Year](#) (upcoming)

[2025-2026 School Year](#) (current)

### What if I'm unable to upload the required registration documents?

Please bring your documents to the **requested** school.

### What if my child was gone for less than one month?

Please contact your school directly. A full re-enrollment form is not required.

## ✦ Transfer Students (New or Renewing)

### How do I request or renew a transfer request?

Visit the [Continued Enrollment – Transfers](#) page for details and to submit a transfer request/renewal.

Please Note:

INTRAdistrict transfer requests (for families already residing in EUSD boundaries) must be submitted/renewed **each school year**.

INTERdistrict transfer requests (for families residing outside EUSD boundaries) must be initiated with your district of residence and approval duration varies by district.

### **Are transfer requests and renewals guaranteed?**

No. All new and renewal transfer requests depend on **space availability** in the requested grade level or program.

### **Current Students**

#### **Do current students need to register again each year?**

No. If your child already attends one of our schools, you do **not** need to complete a new student registration form.

#### **What is the Annual Student Information Update?**

Each year, families must review and update important information such as:

- **Emergency contacts**
- **Annual agreements**
- **Student details**

You will receive an email from **PowerSchool Enrollment** with instructions and login information to complete this update.

### **Need Help?**

#### **Who can I contact if I have questions or need assistance?**

Your school office is happy to help with any enrollment or registration questions.
