WHAT IS BUDGET CERTIFICATION AND WHO DOES IT?

California Education Code requires each school district’s board of education to submit two interim financial reports each year to the County Superintendent along with self-certification about the ability to continue paying obligations in the current and two subsequent budgetary years. The County Superintendent then reviews and certifies the district's budget for the current fiscal year and two subsequent years as positive, qualified or negative.

WHAT DO THESE TERMS MEAN?

- Positive: The district is projected to be able to meet its financial obligations all three years.
- Qualified: It is projected that the district may not meet its financial obligations in one of the three years.
- Negative: It is projected that district will not be able to meet its financial obligations in the current or next fiscal year.
